## What is the course methodology?

Ernst & Young Academy of Business has adopted a proven and highly successful training methodology, practiced in Europe for more than 17 years and applied globally.

As time is valuable and scarce, the methodology is as follows:

- ▶ **Courses** are intensive concentrating on the most demanding parts of the syllabus. Studies happen mostly on weekends, rarely on weekdays as well.
- ▶ Interactive format of course study: tutors work through the topics with students. The major part of the course is **practicing exam-type questions** while at the same time the principles are explained. Tutors run through practical examples and exam questions to fully prepare candidates for the exam.
- ▶ The program is based on training materials with comprehensive examples and their step by step guidance to their solutions. For all papers except Russian versions of F4 and F6, we use **Kaplan books** as ACCA approved books, which contain a complete package of ACCA practice questions for self-study.
- ▶ **On-line support** of participants by the tutors throughout the period of their self-study.

## What is the course structure?

As all ACCA papers differ from each other, we put different amount of days for each course. The course structure depends on the Paper. The general structure is as follows:

- ▶ **We start with an intensive introductory training session** to put the exam into context and very quickly move on to an exam level of difficulty with practice questions to enable students to practice exam technique.
- ▶ **We proceed with an interim training session** covering most difficult topics of the syllabus with numerous practice questions.
- ▶ **We conclude with** an intensive revision training session during which all topics are briefly revised and candidates practice exam-level questions.
- ▶ **Mock exam** – before the exam, students take a mock examination prepared by our tutors, which is intended to be fully representative of the likely ACCA examination. The mock exam is conducted under exam conditions and its purpose is to give the candidates feedback before the real thing.
