1. The tax rates reflect budget proposals and news releases to 30 June 2016. Where the tax is determined under the alternative minimum tax provisions (AMT), the above table is not applicable. AMT may be applicable where the tax otherwise payable is less than the tax determined by applying the relevant AMT rate to the individual's taxable income adjusted for certain preference items.

2. The tax determined by the table should be reduced by the applicable federal and provincial tax credits (see chart below), other than the basic personal tax credits, which have been reflected in the calculations.

3. The rates apply to the actual amount of taxable dividends received from taxable Canadian corporations. Eligible dividends are those paid by public corporations and private companies out of earnings that have been taxed at the general corporate tax rate (the dividend must be designated by the payor corporation as an eligible dividend). Where the dividend tax credit exceeds the federal and provincial tax otherwise payable on the dividends, the rates do not reflect the value of the excess credit that may be used to offset taxes payable from other sources of income. This assumption is consistent with prior year rates.

4. The rates apply to the actual amount of the capital gain. The capital gains exemption on qualified farm and fishing property and small business corporation shares may apply to eliminate the tax on those specific properties.

5. Individuals resident in Nova Scotia on 31 December 2016 with taxable income up to \$11,894, pay no provincial income tax as a result of a low-income tax reduction. The low-income tax reduction is clawed back for income in excess of \$15,000 until the reduction is eliminated, resulting in an additional 5% of provincial tax on income between \$15,001 and \$21,000.

1. This table lists the most common non-refundable tax credits; other non-refundable and refundable credits may be available.

2. A federal family caregiver tax credit of \$318 may be available in respect of a spouse, dependant or child who is dependent on the individual by reason of mental or physical infirmity.

3. The maximum federal age credit of \$1,069 occurs at \$35,927 of net income and declines to nil as net income rises to \$83,427. The maximum provincial age credit of \$364 occurs at \$30,828 of net income and declines to nil as net income rises to \$58,435.

4. In addition, a refundable (formerly non-refundable) federal child fitness tax credit of up to \$75 per child may be available. Additional federal amounts may be available for a child with a disability.

5. The federal credit applies to eligible medical expenses that exceed the lesser of \$2,237 and 3% of net income. The provincial credit applies to eligible medical expenses that exceed the lesser of \$1,637 and 3% of net income.

6. The federal tax credit rate of 33% applies to charitable donations in excess of \$200 to extent the individual has taxable income in excess of \$200,000; otherwise, a federal tax credit rate of 29% applies.

7. One-half of CPP paid by self-employed individuals is deductible in computing taxable income.
