Government leaders are under extraordinary pressure to do more with less. With overarching cost reduction mandates and a fiscally constrained environment, cost efficiency is an imperative to align people and budget where they can achieve the best outcomes. At the same time, there is heightened demand for visibility and transparency in the use of these resources, and how government will transform service delivery to better serve citizens. That’s where EY can help.
Who we are

EY’s Government and Public Sector (GPS) practice

Building a better working world

From strategy to execution, the Ernst & Young LLP (EY US) GPS practice helps our clients implement new ideas to achieve their missions:

• Protecting our nation and increasing public safety
• Improving health care for our military, our veterans and our citizens
• Delivering essential public services and helping those in need

Our purpose

We bring leading public sector and commercial practices to drive innovation and address challenges for our government clients.

Global public sector focus

• EY member firms serve governments around the globe, bringing broad and deep experience in facing the challenges of public sector clients.
• We deploy teams with a mix of public sector and commercial experience to drive innovative, practical approaches for our government clients.

Commercial insights

• We bring leading commercial practices through our support of some of the largest companies across 16 different industry sectors.
• EY’s alliances with leading innovation and technology organizations mean we can help our clients drive their current and future technology investments and enable better business outcomes.

Global reach

• We have 261,000 people working in more than 700 offices across 150 countries.
• Our distinct ability to access our global network allows us to quickly bring the right experience on the issues that matter to our clients.

About our business

EY is a highly integrated, global organization. This means we can respond faster than our competitors, quickly and seamlessly accessing knowledge and talent from across the world.

About our people

• People who demonstrate integrity, respect and teaming
• People with energy, enthusiasm and the courage to lead
• People who build relationships based on doing the right thing

Our culture

We attract great talent by providing purposeful, challenging work for our people. In 2018, for the 20th consecutive year, Ernst & Young LLP appeared on FORTUNE magazine’s “100 Best Companies to Work For” list.
EY was the recipient of an unprecedented five Association of Management Consulting Firms (AMCF) Spotlight Awards for Value and Excellence in Consulting, including Change Management, Growth Strategies, Developing Markets, Operating Model Design, and Digital. — AMCF, 2015

What we do

Our perspective
What we do

EY is committed to helping federal agencies realize their modernization and reform goals while driving accountability, transparency and mission success.

EY supports our government in protecting the nation and serving the people, transforming programs and optimizing operations to achieve better outcomes.

Our perspective

EY provides a full range of consulting and audit services to our government clients.

Agency transformation

Agencies are facing modernization and reform agendas, adopting transformational change through new operating models, shared services, IT modernization and cloud. Our services include: mission realignment/opening model, organizational and workforce transformation, shared services, managed services, system modernization, and cloud adoption.

Performance optimization

Agencies continue to struggle with inefficiencies and ineffectiveness and are seeking commercial approaches to business insight and performance optimization. Our services include cost management and optimization, portfolio management and capital planning, program management, business process reengineering, IT optimization, and analytics to drive accountability.

Audit

Supporting agencies to instill confidence in the management of government funds through integrated Audit, FAAS, FIDS and enhanced financial analytics. Our services include: accounting compliance, SOC reporting, attest services and audit.

Public financial management

Public financial management (PFM) addresses the CFO agenda to transform and optimize finance operations. Our services include planning and budgeting; portfolio management and capital planning; financial reporting; financial controls, compliance and internal audit; ERP and BPM systems; and financial analytics.

Capital infrastructure

Governments need governance, risk management and navigation of design, procurement, delivery and operation readiness for infrastructure and asset management programs. Our services include: asset management and disposal, property and leasing, smart cities, public-private partnerships and innovative public financing.

Supply chain reinvention

Federal supply chains require adoption of innovative and complex logistics, integrated digital planning and fulfillment, as well as supply side optimization and procurement reform. Our services include: category management, spend analytics, strategy sourcing, procurement transformation, and logistics transformation.

Digital strategy and experience

Governments are leading a digital strategy that engages citizen services through the redesign and adoption of digital citizen experience and improved digital services. Our services include: digital citizen experience, managed digital services, and emerging technology strategy – cloud, robotics, artificial intelligence and blockchain.

Talent agenda

An unprecedented reinvention of work is happening that requires government to define a modern workplace as well as to design a modern experience that attracts, develops, and retains top talent. Our services include: organizational change management, talent management (leadership, learning, engagement, performance), and workforce planning/analytics.

Threat management

Agencies are facing increasing threats across the enterprise and their missions. Vulnerabilities can be identified, triaged and mitigated through multi-lens risk analysis. Our services include: business risk threat analysis, human capital threat analysis, cybersecurity, investigation support and compliance services.
