Disclosure Checklist

Based on International Financial Reporting Standards in issue at 28 February 2019

Effective for entities with a year-end of 30 June 2019

International GAAP®
International GAAP® Disclosure Checklist

Updated: February 2019

For the year ending 30 June 2019 and any interim period therein

Entity: ___________________________ Prepared by: ___________________________

Financial statement date: ___________________________ Reviewed by: ___________________________

Instructions

Two versions

In addition to this format, the checklist is also available in an interactive online version. EY's online version of the checklist may be accessed, free of charge, by registering on www.ey.com/checklist. The scoping questions in the online version enable you to identify the questions that relate to your entity's needs. It is essential that the scoping questions are carefully assessed. If not, you will have to run through a number of questions not relevant to your entity.

This version of the checklist may be shared with your EY audit team. An enhanced online version, available by subscription, contains additional features including links to the applicable standards.

IFRS as Issued by the IASB – complete and condensed financial statements

This checklist is designed to assist you in the preparation of financial statements in accordance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB), and in compliance with the disclosure requirements of IFRS. Entities applying IFRS under a local endorsement mechanism must consider the relevant local effective dates.

The checklist is applicable to annual financial statements and interim financial statements. A separate section of the checklist applies to interim condensed financial statements prepared in accordance with IAS 34 Interim Financial Reporting.

The checklist does not explain other accounting requirements, nor does it reflect the requirements of IFRS for Small and Medium-Sized Entities (SMEs) or the IFRS Practice Statement for Management Commentary. In some instances, to simplify the use of the checklist, disclosure requirements have been paraphrased, so you may need to refer to the standards for full details.

Applicable to 30 June 2019 year ends

The checklist is prepared specifically for entities with a year end of 30 June 2019. Thus, for later year ends, it may not be applicable, depending on the relevant year end and whether standards and amendments that were not effective for 30 June 2019 year-end have become effective for the later year end.

The checklist is updated semi-annually, reflecting standards issued by the IASB since the previous version. Prior to completing this checklist, refer to the IASB’s website to ensure no other standards have been issued between the cut-off date of this checklist (28 February 2019) and the date when the financial statements are authorised for issue.
Materiality and judgement
The checklist does not address the appropriateness or clarity of the disclosures, for instance, the format and the structure of the notes and the tailoring of the information. These are matters of judgement based on the individual facts and circumstances of the entity.

IFRS sets out the minimum disclosure requirements. However, the minimum disclosure requirements only apply to the extent that the transaction, event or item to which the disclosure requirement applies, is material to the entity, as clarified in paragraph 31 of IAS 1 Presentation of Financial Statements. Therefore, in applying the checklist, the user should carefully assess the materiality of the information. The inclusion of disclosures of immaterial information may, in some circumstances, reduce the relevance of the financial statements. In such circumstances, it is appropriate to exclude the information.

In addition, entities are encouraged to refer to the Practice Statement 2: Making Materiality Judgements that was issued in 2017 which provides non-mandatory guidance to help entities making materiality judgements when preparing general purpose IFRS financial statements. It also contains guidance on the general characteristics of materiality, a four-step process that may be applied in making materiality judgements and guidance on how to make materiality judgements in specific circumstances, namely, prior period information, errors and covenants and in the context of interim reporting (including illustrative examples).

The IASB also issued Amendments to IAS 1 and IAS 8 • Definition of Material in 2018 in order to clarify and align the definition of material. The amendments must be applied prospectively for annual periods beginning on or after 1 January 2020 with earlier application permitted.

For more guidance on how to improve disclosure effectiveness, please refer to our publications, Applying IFRS: Enhancing communication effectiveness (February 2017), IFRS Developments Issue 124 Disclosure Initiative • Principles of Disclosure, IFRS Developments Issue 129: Disclosure Initiative • updates on the materiality project and IFRS Developments Issue 138 IASB issues amendments to the definition of material.1

In addition to the mandatory disclosure requirements, the checklist includes (in italics) the IASB’s recommended disclosures.

Other sources of guidance
Comment boxes that summarise and/or refer to relevant IFRS guidance regarding the scope and interpretation of certain disclosure requirements are also included. However, the checklist alone is not sufficient to provide the user with a thorough understanding of the applicable IFRS. Therefore, the checklist should be read together with the standards and interpretations themselves, as well as other relevant guidance, such as International GAAP® 2019, Good Group (International) Limited • Illustrative financial statements (December 2018) and Good Group (International) Illustrative interim condensed consolidated financial statements (June 2019). Comparative amounts in the financial statement disclosures are always required, unless explicitly exempted by the applicable IFRS.

Identification of requirements that are applicable for the first time
To assist users of the checklist in identifying disclosure requirements that are new in the reporting period ending 30 June 2019, such requirements are marked ‘New’. New requirements include requirements that are mandatory for the first time in the current reporting period, as well as those with a later effective date, but which may be adopted early. For instance, for the reporting period 1 July 2018 – 30 June 2019, IFRS 9 Financial Instruments and IFRS 15 Revenue from Contracts with Customers are mandatory for the first time, and the disclosure requirements herein are marked ‘New’.

Similarly, in the ‘New pronouncements’ section, all new requirements are marked ‘New’, for instance, IFRS 16 Leases is marked ‘New’, even though it is not mandatory in the current period. To identify which disclosure requirements (among those marked ‘New’) are new to a particular entity, the checklist user must also consider whether mandatory and voluntary new requirements have been early-adopted in previous periods.

New disclosure requirements resulting from IFRS 16 Leases and IFRS 17 Insurance Contracts are included in the ‘New pronouncements’ section. Consequential amendments are included in the relevant sections, rather than the ‘New pronouncements’ section.

A list of the new pronouncements that may introduce new requirements for entities with 30 June 2019 year-end reporting is provided below. This checklist reflects IFRS in issue at 28 February 2019 that are effective for entities with year-ends of 30 June 2019.

</table>

An entity must apply IFRS 15 retrospectively for annual periods beginning on or after 1 January 2018. However, IFRS 15 allows an entity to transition using either the full retrospective adoption or the modified retrospective method. The modified retrospective method applies either to: (a) all contracts at the date of initial application; or (b) only those contracts that are not completed at that date. Furthermore, under this method, comparative periods are accounted for and presented in accordance with previous revenue requirements, i.e., IAS 11 Construction Contracts, IAS 18 Revenue and related interpretations, instead of IFRS 15 (see below table in this section).

An entity must apply IFRS 9 (2014) for annual periods beginning on or after 1 January 2018.
The transition requirements of IFRS 9 allow an entity to continue to apply the hedge accounting requirements of IAS 39 Financial Instruments: Recognition and Measurement. However, even an entity that chooses to apply the IAS 39 hedge accounting model, should follow the disclosure requirements for hedging in IFRS 7 that were introduced by IFRS 9.

An entity is allowed to restate its prior periods with respect to classification and measurement (including impairment) requirements of IFRS 9 in accordance with paragraph 7.2.15 of IFRS 9 and paragraph 420 of IFRS 7, in which case the comparative information should follow the disclosure requirements in the previous version of IFRS 7 (based on IAS 39).

The hedging requirements of IFRS 9 generally apply prospectively, however, in certain situations where an entity applies some of those requirements retrospectively (i.e., new accounting for costs of hedging in accordance with IFRS 9.7.2.26), the comparative information should follow the related IFRS 7 disclosure requirements introduced by IFRS 9.

In December 2015, the IASB postponed the effective date of Amendments to IFRS 10 and IAS 28 - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture indefinitely pending the outcome of its research project on the equity method of accounting.

In September 2016, the IASB issued amendments to IFRS 4 to address issues arising from the different effective dates of IFRS 9 and the new insurance contracts standard IFRS 17 Insurance Contracts. The amendments introduce two alternative options for entities issuing contracts within the scope of IFRS 4, notably the temporary exemption approach and the overlay approach. The temporary exemption approach enables eligible entities to defer the implementation date of IFRS 9 until the effective date of IFRS 17 (i.e., 1 January 2021). The overlay approach allows an entity applying IFRS 9 from 2018 onwards to remove from profit or loss the effects of some of the accounting mismatches that may occur from applying IFRS 9 before IFRS 17 is applied.

For an entity applying the temporary exemption approach, both comparative periods and current period information follow the disclosure requirements of IFRS 7 based on IAS 39, together with certain disclosures to enable users to compare insurers applying the temporary exemption with entities applying IFRS 9 required by IFRS 4.39B

An insurer applying the temporary exemption from IFRS 9 is permitted to elect to apply only the requirements of IFRS 9 for the presentation in other comprehensive income (OCI) of gains and losses attributable to changes in an entity’s own credit risk on financial liabilities designated as at fair value through profit or loss (FVPL). If an insurer elects to apply those requirements, it should disclose the related disclosures set out in IFRS 7.

### Disclosure requirements for entities not applying IFRS 9 and IFRS 15 in all periods presented

As noted above, depending on the approach used to transition to IFRS 9 and IFRS 15, users should refer to applicable disclosure items of this checklist or the February 2018 Disclosure Checklist for comparative periods and/or current period information (including condensed interim reporting) for revenue and financial instruments (see below table).

</tr>
</tbody>
</table>

In September 2015, the IASB issued a Exposure Draft to address issues arising from the different effective dates of IFRS 9 and the new insurance contracts standard IFRS 17 Insurance Contracts. The amendments introduce two alternative options for entities issuing contracts within the scope of IFRS 4, notably the temporary exemption approach and the overlay approach. The temporary exemption approach enables eligible entities to defer the implementation date of IFRS 9 until the effective date of IFRS 17 (i.e., 1 January 2021). The overlay approach allows an entity applying IFRS 9 from 2018 onwards to remove from profit or loss the effects of some of the accounting mismatches that may occur from applying IFRS 9 before IFRS 17 is applied.

For an entity applying the temporary exemption approach, both comparative periods and current period information follow the disclosure requirements of IFRS 7 based on IAS 39, together with certain disclosures to enable users to compare insurers applying the temporary exemption with entities applying IFRS 9 required by IFRS 4.39B.

An insurer applying the temporary exemption from IFRS 9 is permitted to elect to apply only the requirements of IFRS 9 for the presentation in other comprehensive income (OCI) of gains and losses attributable to changes in an entity’s own credit risk on financial liabilities designated as at fair value through profit or loss (FVPL). If an insurer elects to apply those requirements, it should disclose the related disclosures set out in IFRS 7.

</tbody>
</table>

**Ticking the right boxes**

Each item should be answered with a tick in the appropriate column:

*Yes* = Disclosure has been made. Reference should be made to the relevant note in which the requirement has been met.

*No* = Disclosure has not been made. Any item marked ‘No’ should be explained, giving the reason for the omission on the checklist or on a separate working paper, including disclosures that are omitted because they are deemed by management to be immaterial, and also including the amounts or percentages involved, to assist in the assessment of compliance with IFRS. If the engagement team concurs that the disclosure is immaterial and does not affect the fair presentation of the financial statements, the omission of such disclosure does not represent a misstatement that requires disclosure in the SAD.

*N/A* = The question is not applicable to the entity, for instance, because the transaction, event, or item referred to in the question does not apply to the entity.

General

**Identification and components of financial statements**

1. **IAS 1.49**  Are the financial statements identified clearly (using an unambiguous title) and distinguished from other information in the same published document  
   
2. **IAS 1.10**  Does the entity present a complete set of financial statements which comprises:
   a. A statement of financial position as at the end of the period  
   b. A statement of profit or loss and other comprehensive income for the period  
   c. A statement of changes in equity for the period  
   d. A statement of cash flows for the period  
   e. Notes, comprising significant accounting policies and other explanatory information  
   f. Comparative information in respect of the preceding period as specified in IAS 1.38 and 38A

   **IAS 1.10A**  An entity may present a single statement of profit or loss and other comprehensive income, with profit or loss and other comprehensive income presented in two sections. The sections shall be presented together, with the profit or loss section presented first followed directly by the other comprehensive income section.

3. **IAS 1.51**  Does the entity prominently display the following at least once in the financial statements:
   a. The name of the reporting entity or other means of identification, and any change in that information from the end of the preceding reporting period  
   b. Whether the financial statements cover the individual entity or a group of entities  
   c. The date of the end of the reporting period or the period covered by the financial statements or notes  
   d. The presentation currency, as defined in IAS 21.8  
   e. The level of rounding used in the presentation of amounts in the financial statements

**Corporate information**

4. **IAS 1.138**  If not disclosed elsewhere in information published with the financial statements, does the entity disclose the following:
   a. The domicile of the entity  
   b. The legal form of the entity  
   c. The entity’s country of incorporation  
   d. The address of the registered office (or principal place of business, if different from the registered office)  
   e. The nature of the entity’s operations and its principal activities  
   f. The name of the parent  
   g. The name of the ultimate parent of the group  
   h. If the entity is a limited life entity, information regarding the length of its life
**Compliance with International Financial Reporting Standards**

</table>
f. For each period presented, the financial impact of the departure on each item in the financial statements that would have been reported in complying with the requirement

9. **IAS 1.23**

In the extremely rare circumstances in which management concludes that compliance with a requirement in an IFRS would be so misleading that it would conflict with the objective of financial statements set out in the *Framework*, but the relevant regulatory framework prohibits departure from the requirement, does the entity, to the maximum extent possible, reduce the perceived misleading aspects of compliance by disclosing all of the following:

a. The title of the IFRS in question
b. The nature of the requirement
c. The reason why management concluded that complying with that requirement is so misleading in the circumstances that it conflicts with the objective of financial statements set out in the *Framework*
d. For each period presented, the adjustments to each item in the financial statements that management concluded would be necessary to achieve a fair presentation

**Going concern**

**IAS 1.25**

The entity does not prepare its financial statements on a going concern basis if management determines after the reporting period (or earlier) either that it intends to liquidate the entity or to cease trading, or that it has no realistic alternative but to do so.

10. **IAS 1.25**

Does the entity disclose material uncertainties related to events or conditions that may cast significant doubt upon the entity’s ability to continue as a going concern

11. **IAS 1.25**

If the financial statements are not prepared on a going concern basis, does the entity disclose:

a. The fact that the financial statements are not prepared on a going concern basis
b. The basis on which the financial statements are prepared
c. The reason why the entity is not regarded as a going concern

**Frequency of reporting**

12. **IAS 1.36**

If the end of the entity’s reporting period changes and the annual financial statements are presented for a period longer or shorter than one year, does the entity disclose:

a. The reporting period covered by the financial statements
b. The reason for using longer or shorter periods
c. The fact that amounts presented in the financial statements are not entirely comparable

**Comparative information**

13. **IAS 1.38**

Does the entity present comparative information for the previous period for all amounts reported in the current period’s financial statements, unless an IFRS permits or requires otherwise

14. **IAS 1.38**

Does the entity include comparative information for narrative and descriptive information, if it is relevant to an understanding of the current reporting period’s financial statements

15. **IAS 1.41**

If the presentation or classification of items in the financial statements is amended and comparative amounts are reclassified (unless the reclassification cannot be applied after making every reasonable effort to do so), does the entity disclose:

a. The nature of the reclassification
b. The amount of each item or class of items that is reclassified
c. The reason for the reclassification
If the entity cannot reclassify comparative amounts after making every reasonable effort to do so, does the entity disclose:
   a. The reason for not reclassifying the amounts
   b. The nature of the adjustments that would have been made if the amounts were reclassified

17  IAS 1.38A
Does the entity present, as a minimum, two statements of financial position, two statements of profit or loss and other comprehensive income, two separate statements of profit or loss (if presented), two statements of cash flows and two statements of changes in equity, and related notes

IAS 1.38B
In some cases, narrative information provided in the financial statements for the preceding period(s) continues to be relevant in the current period.

18  IAS 1.38C
When an entity voluntarily presents comparative information in addition to the minimum comparative financial statements required by IFRSs, does the entity present related note information for those additional statements

IAS 1.38C
An entity may present comparative information in addition to the minimum comparative financial statements required by IFRSs, as long as that information is prepared in accordance with IFRSs. This comparative information may consist of one or more statements referred to in IAS 1.10, but need not comprise a complete set of financial statements.

IAS 1.38D
For example, an entity may present a third statement of profit or loss and other comprehensive income (thereby presenting the current period, the preceding period and one additional comparative period). However, the entity is not required to present a third statement of financial position, a third statement of cash flows or a third statement of changes in equity (i.e., an additional financial statement comparative). The entity is required to present, in the notes to the financial statements, the comparative information related to that additional statement of profit or loss and other comprehensive income.

19  IAS 1.40B
In the circumstances described in IAS 1.40A, does the entity present three statements of financial position as at:
   a. The end of the current period
   b. The end of the preceding period
   c. The beginning of the preceding period

IAS 1.40A
An entity must present a third statement of financial position as at the beginning of the preceding period in addition to the minimum comparative financial statements required in IAS 1.38A if:
   a. It applies an accounting policy retrospectively, makes a retrospective restatement of items in its financial statements or reclassifies items in its financial statements
   b. The retrospective application, retrospective restatement or the reclassification has a material effect on the information in the statement of financial position at the beginning of the preceding period

20  IAS 1.40C
When an entity is required to present an additional statement of financial position in accordance with IAS 1.40A, does the entity disclose the information required by IAS 1.41-44 and IAS 8

IAS 1.40C
However, it need not present the related notes to the opening statement of financial position as at the beginning of the preceding period.

21  IAS 1.40D
When an entity presents an opening statement of financial position in accordance with IAS 1.40A, is the date of this statement the beginning of the preceding period even if additional comparative information is presented in terms of IAS 1.38C
Consistency of presentation

22 IAS 1.45 Does the entity retain in the financial statements from one period to the next:
   a. The presentation of items [ ] [ ] [ ]
   b. The classification of items [ ] [ ] [ ]

IAS 1.45 The entity presents and classifies items on the same basis in the financial statements from one reporting period to the next unless it is apparent, following a significant change in the nature of the entity’s operations or a review of its financial statement, that another presentation or classification is more appropriate, or unless a change in presentation is required by an IFRS.

Date of authorisation for issue

23 IAS 10.17 Does the entity disclose:
   a. The date when the financial statements were authorised for issue [ ] [ ] [ ]
   b. Who authorised the financial statements [ ] [ ] [ ]
   c. The fact that the entity’s owners or others have the power to amend the financial statements after issue, if applicable [ ] [ ] [ ]

First-time adoption

IFRS 1.App.A Some of the terms are defined by IFRS 1:
   ▶ ‘Date of transition to IFRSs’ – The beginning of the earliest period for which an entity presents full comparative information under IFRSs in its first IFRS financial statements
   ▶ ‘Opening IFRS statement of financial position’ – An entity’s statement of financial position at the date of transition to IFRSs
   ▶ ‘First IFRS financial statements’ – The first annual financial statements in which an entity adopts IFRSs, by an explicit and unreserved statement of compliance with IFRSs
   ▶ ‘Previous GAAP’ – The basis of accounting that a first-time adopter used immediately before adopting IFRSs

Reconciliations

IFRS 1.27 IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors does not deal with changes in accounting policies that occur when an entity first adopts IFRS or to changes in those policies until after it presents its first IFRS financial statements. Therefore, IAS 8’s requirements for changes in accounting policies do not apply in the entity’s first IFRS financial statements.

IFRS 1.27A If, during the period covered by its first IFRS financial statements, an entity changes its accounting policies or its use of the exemptions contained in this IFRS, it must explain the changes between its first IFRS interim financial report and its first IFRS financial statements, in accordance with IFRS 1.23, and it shall update the reconciliations required by paragraph 24(a) and (b).

The requirements for entities that present interim financial reports under IAS 34 Interim Financial Reporting for part of the period covered by its first IFRS financial statements are included in the section on Interim Reporting, which contains all disclosure requirements related to interim reporting. That section does not need to be completed for annual financial statements.

24 IFRS 1.23 Does the entity explain how the transition from previous GAAP to IFRSs affected its financial position, financial performance and cash flows [ ] [ ] [ ]

IFRS 1.IG63 IFRS 1.IG63 provides an example of the level of detail required in the reconciliations from previous GAAP to IFRSs.
Disclosure made

Yes  No  N/A  Comments

25  IFRS 1.24  Do the entity’s first IFRS financial statements include:

a. Reconciliations of its equity reported under previous GAAP to its equity under IFRSs (in sufficient detail to enable users to understand the material adjustments to the statement of financial position) for:
   ▶ The date of transition to IFRSs
   ▶ The end of the latest period presented in the entity’s most recent annual financial statements under previous GAAP

b. A reconciliation of the total comprehensive income or profit or loss reported under previous GAAP for the latest period in the entity’s most recent annual financial statements to its total comprehensive income under IFRSs for the same period (in sufficient detail to enable users to understand the material adjustments to the statement of comprehensive income)

26  IFRS 1.24(c)  If the entity recognised or reversed any impairment losses for the first time in preparing its opening IFRS statement of financial position, do the financial statements include the disclosures that IAS 36 Impairment of Assets would have required if the entity had recognised those impairment losses or reversals in the period beginning with the date of transition to IFRSs

27  IFRS 1.26  If the entity is aware of errors under previous GAAP, do the reconciliations required by paragraph 24(a) and (b) of IFRS 1 distinguish between the corrections of errors and changes in accounting policies

28  IFRS 1.25  If the entity presented a statement of cash flows under its previous GAAP, does it explain the material adjustments to the statement of cash flows

29  IFRS 1.28  If the entity does not present financial statements for previous periods, does it disclose that fact

Repeated transition

IFRS 1.4A  Notwithstanding the requirements in IFRS 1.2 and 3, an entity that has applied IFRSs in a previous reporting period, but whose most recent previous annual financial statements did not contain an explicit and unreserved statement of compliance with IFRSs, must either apply this IFRS or else apply IFRSs retrospectively in accordance with IAS 8 as if the entity had never stopped applying IFRSs.

IFRS 1.4B  When an entity does not elect to apply this IFRS in accordance with paragraph 4A, the entity shall nevertheless apply the disclosure requirements in IFRS 1.23A and 23B, in addition to the disclosure requirements in IAS 8.

30  IFRS 1.23A  Does the entity that has applied IFRSs in a previous period, as described in IFRS 1.4A, disclose:

a. The reason it stopped applying IFRSs
b. The reason it is resuming the application of IFRSs

31  IFRS 1.23B  When an entity, in accordance with IFRS 1.4A, does not elect to apply IFRS 1, does the entity explain the reasons for electing to apply IFRSs as if it had never stopped applying IFRSs

Designation of financial assets or financial liabilities (IFRS 9)

New 32  IFRS 1.29  If the entity designates a previously recognised financial asset as a financial asset measured at fair value through profit or loss under IFRS 1.D19A, does the entity disclose:

a. The fair value of financial assets so designated at the date of designation
b. The classification and carrying amount in the previous financial statements

New 33  IFRS 1.29A  If the entity designates a previously recognised financial liability as a financial liability at fair value through profit or loss under IFRS 1.D19, does the entity disclose:

**Use of fair value as deemed cost**

If the entity uses fair value in its opening IFRS statement of financial position as deemed cost for an item of property, plant and equipment, an investment property or an intangible asset (or, if the entity applies IFRS 16 early, right-of-use asset), does it disclose for each line item in the opening IFRS statement of financial position:

a. The aggregate of those fair values
b. The aggregate adjustment to the carrying amounts reported under previous GAAP

**Use of deemed cost for investments in subsidiaries, joint ventures and associates**

If the entity uses a deemed cost in its opening IFRS statement of financial position for an investment in a subsidiary, joint venture, or associate in its separate financial statements, does the entity disclose in its first IFRS separate financial statements:

a. The aggregate deemed cost of those investments for which deemed cost is their previous GAAP amounts
b. The aggregate deemed cost of those investments for which deemed cost is fair value
c. The aggregate adjustment to the carrying amounts reported under the previous GAAP

**Comparatives**

In its first IFRS financial statements, does the entity present at least the following in accordance with IFRSs, and in comparative format:

a. Three statements of financial position (including opening IFRS statements of financial position at the date of transition to IFRSs)
b. Two statements of profit or loss and comprehensive income, either in a single statement of comprehensive income, or in two separate statements showing components of profit or loss and other comprehensive income
c. Two statements of cash flows
d. Two statements of changes in equity
e. Related notes, including comparative information for all statements presented

**Non-IFRS comparative information and historical summaries**

For any information (historical summaries or comparative information) under previous GAAP that does not comply with the recognition and measurement provisions of IFRSs, does the entity:

a. Label the information prominently as not being prepared under IFRSs
b. Disclose the nature of the main adjustments that would make it comply with IFRSs, which need not be quantified

**Additional exemptions**

If an entity uses the exemption in IFRS 1.D8A(b) for oil and gas assets, does it disclose that fact and the basis on which carrying amounts determined under previous GAAP were allocated

## Financial review by management

Reports and statements presented outside financial statements are outside the scope of IFRS. The IASB issued the IFRS Practice Statement Management Commentary in December 2010. The practice statement provides guidance only and is not required to be used in the preparation of IFRS financial statements.

Does the entity present, outside the financial statements, a financial review by management that describes and explains...
Disclosure made
Yes No N/A Comments

The main features of its financial performance and financial position and the principal uncertainties it faces, including:

a. The main factors and influences determining performance, including:
   - Changes in the environment in which the entity operates
   - The entity’s response to those changes and their effect
   - The entity’s policy for investment to maintain and enhance financial performance, including its dividend policy

b. The entity’s sources of funding and its targeted ratio of liability to equity

c. The entity’s resources not recognised in the statement of financial position in accordance with IFRSs

61 **IAS 1.55A** When the entity presents subtotals under IAS 1.55, are those subtotals:
   a. Comprised of line items made up of amounts recognised and measured under IFRS
   b. Presented and labelled in a manner that makes the line items that constitute the subtotal clear and understandable
   c. Consistent from period to period under IAS 1.45
   d. Not displayed with more prominence than the subtotals and totals required in IFRS for the statement of financial position

**Information presented either in the statement of financial position or in the notes**

62 **IAS 1.77** Does the entity disclose further sub-classifications of the line items presented, classified in a manner appropriate to the entity’s operations

63 **IFRS 5.38**

**Statement of profit or loss and other comprehensive income**

**IAS 1.7** The components of other comprehensive income include:
   a. Changes in revaluation surplus (see IAS 16 Property, Plant and Equipment and IAS 38)
   b. Remeasurements of defined benefit plans (see IAS 19 Employee Benefits)
   c. Gains and losses arising from translating the financial statements of a foreign operation (see IAS 21)
   d. Gains and losses from investments in equity instruments measured at fair value through other comprehensive income in accordance with paragraph 5.7.5 of IFRS 9
   da. Gains and losses on financial assets measured at fair value through other comprehensive income in accordance with 4.1.2A of IFRS 9
   e. The effective portion of gains and losses on hedging instruments in a cash flow hedge and the gains and losses on hedging instruments that hedge investments in equity instruments measured at fair value through other comprehensive income in accordance with IFRS 9.5.7.5
   f. For particular liabilities designated as at fair value through profit or loss, the amount of the change in fair value that is attributable to changes in the liability’s credit risk
   g. Changes in the value of the time value of options when separating the intrinsic value and time value of an option contract and designating as the hedging instrument only the changes in the intrinsic value
   h. Changes in the value of the forward elements of forward contracts when separating the forward element and spot element of a forward contract and designating as the hedging instrument only the changes in the spot element, and changes in the value of the foreign currency basis spread of a financial instrument when excluding it from...
the designation of that financial instrument as the hedging instrument

New

i. Insurance finance income and expenses from contracts issued within the scope of IFRS 17 excluded from profit or loss when total insurance finance income or expenses is disaggregated to include in profit or loss an amount determined by a systematic allocation applying IFRS 17.88(b), or by an amount that eliminates accounting mismatches with the finance income or expenses arising on the underlying items, applying IFRS 17.89(b), if the entity adopts IFRS 17 early

New

j. Finance income and expenses from reinsurance contracts held excluded from profit or loss when total reinsurance finance income or expenses is disaggregated to include in profit or loss an amount determined by a systematic allocation applying IFRS 17.88(b), if the entity adopts IFRS 17 early

64 IAS 1.81A Does the entity present in the statement of profit or loss and other comprehensive income (statement of comprehensive income), in addition to the profit or loss and other comprehensive income sections:
   a. Profit or loss
   b. Total other comprehensive income
   c. Comprehensive income for the period, being the total of profit or loss and other comprehensive income

65 IAS 1.81A If an entity presents a separate statement of profit or loss, does the statement presenting comprehensive income exclude the profit or loss section

66 IAS 1.81B Does the entity present the following items, in addition to the profit or loss and other comprehensive income sections, as allocation of profit or loss and other comprehensive income for the period:
   a. Profit or loss for the period attributable to:
      ▶ Non-controlling interests
      ▶ Owners of the parent
   b. Comprehensive income for the period attributable to:
      ▶ Non-controlling interests
      ▶ Owners of the parent

67 IAS 1.81B If an entity presents profit or loss in a separate statement, does the entity present the allocation of profit or loss between non-controlling interests and owners of the parent in that statement

68 IAS 1.29 Does the entity present each material class of similar items separately in the statement of comprehensive income

69 IAS 1.29 Does the entity present separately items of a dissimilar nature or function unless they are immaterial

70 IAS 1.32 Unless required or permitted by another IFRS, does the entity present separately, and not offset, income and expenses

IAS 1.34 Examples of items that are or may be offset in the statement of comprehensive income include the following:
   a. Gains and losses on the disposal of non-current assets, including investments and operating assets, are reported by deducting from the amount of consideration on disposal the carrying amount of the asset and related selling expenses
   b. Expenditure related to a provision that is recognised in accordance with IAS 37 Provisions, Contingent Liabilities and Contingent Assets and reimbursed under a contractual arrangement with a third party (for example, a supplier’s warranty agreement) may be netted against the related reimbursement
c. Gains and losses arising from a group of similar transactions are reported on a net basis, for example, foreign exchange gains and losses or gains and losses arising on financial instruments held for trading. However, an entity presents such gains and losses separately if they are material.

71 IAS 1.88 Does the entity include all items of income and expense in a reporting period in profit or loss (unless an IFRS requires or permits otherwise)

71 IAS 1.89 IAS 8 specifies two circumstances in which the entity recognises items outside of profit or loss—corrections of errors and the effect of changes in accounting policies. Other IFRSs require or permit an entity to exclude items of other comprehensive income that meet the Framework’s definition of income or expense from profit or loss.

72 IAS 1.82 Does the entity present in addition to items required by other IFRSs, in the profit or loss section or the statement of profit or loss, line items with the following amounts for the period:

a. Revenue, presenting separately:
   ▶ Interest revenue calculated using the effective interest method
   ▶ Insurance revenue, if the entity adopts IFRS 17 early
   b. Insurance service expenses from contracts issued within the scope of IFRS 17, if the entity adopts IFRS 17 early
   c. Income or expenses from reinsurance contracts held, if the entity adopts IFRS 17 early
   d. Gains and losses arising from the derecognition of financial assets measured at amortised cost
   e. Insurance finance income or expenses from contracts issued within the scope of IFRS 17, if the entity adopts IFRS 17 early
   f. Finance income or expenses from reinsurance contracts held, if the entity adopts IFRS 17 early
   g. Finance costs
   h. Impairment losses (including reversals of impairment losses or impairment gains) determined under Section 5.5 of IFRS 9
   i. Share of the profit or loss of associates and joint ventures accounted for using the equity method
   j. If a financial asset is reclassified out of the amortised cost measurement category so that it is measured at fair value through profit or loss, any gain or loss arising from a difference between the previous amortised cost of the financial asset and its fair value at the reclassification date (as defined in IFRS 9)
   k. If a financial asset is reclassified out of the fair value through other comprehensive income measurement category so that it is measured at fair value through profit or loss, any cumulative gain or loss previously recognised in other comprehensive income that is reclassified to profit or loss
   l. Tax expense
   m. A single amount for the total of discontinued operations (see IFRS 5)

73 IAS 1.82A Does the entity present the line items in the other comprehensive income section for the amounts for the period of:
a. Items of other comprehensive income (excluding amounts in paragraph (b)), classified by nature and grouped into those that, in accordance with other IFRSs:
   (i) Will not be reclassified subsequently to profit or loss; and
   (ii) Will be reclassified subsequently to profit or loss when specific conditions are met

b. The share of the other comprehensive income of associates and joint ventures accounted for using the equity method, separated into the share of items that, in accordance with other IFRSs:
   (i) Will not be reclassified subsequently to profit or loss
   (ii) Will be reclassified subsequently to profit or loss when specific conditions are met

74 IFRIC 1.6(c) Does the entity disclose the change in the revaluation surplus arising from a change in the decommissioning, restoration and similar liability in other comprehensive income as a separate line item

75 IAS 1.85 Does the entity present additional line items (including by disaggregating the line items listed in IAS 1.82), headings and subtotals in the statement of profit or loss and other comprehensive income if such presentation is relevant to an understanding of the entity’s financial performance

76 IAS 1.85A When the entity presents subtotals under IAS 1.85, are those subtotals:
   a. Comprised of lien items made up of amounts recognised and measured under IFRS
   b. Presented and labelled in a manner that makes the line items that constitute the subtotal clear and understandable
   c. Consistent from period to period under IAS 1.45
   d. Not displayed with more prominence than the subtotals and totals required in IFRS for the statement(s) presenting profit or loss and other comprehensive income

77 IAS 1.85B Does the entity present the line items in the statement(s) presenting profit or loss and other comprehensive income that reconcile any subtotals presented under IAS 1.85 with the subtotals or totals required in IFRS for such statement(s) Information presented either in the statement of profit or loss and other comprehensive income or in the notes

78 IAS 1.97 If items of income and expense are material, does the entity disclose the following:
   a. The amount
   b. The nature of the item

IAS 1.98 Circumstances that may result in the separate disclosure of items of income and expense:
   a. Write-downs of inventories to net realisable value or of property, plant and equipment to recoverable amount, as well as reversals of such write-downs
   b. Restructurings of the activities of an entity and reversals of any provisions for the costs of restructuring
   c. Disposals of items of property, plant and equipment
   d. Disposals of investments
   e. Discontinued operations
   f. Litigation settlements
   g. Other reversals of provisions

79 IAS 1.99 Does the entity present or disclose an analysis of expenses recognised in profit or loss using a classification (whichever is reliable and more relevant) based on either:

IAS 1.102 a. The nature of expenses
Or

IAS 1.103
b. The function of expenses within the entity (in which case the entity discloses, as a minimum, its cost of sales)

80 IAS 1.100 Does the entity present the analysis of expenses, as described in IAS 1.99, in its statement of profit or loss and other comprehensive income

81 IAS 1.104 If the entity classifies expenses by function, does it disclose additional information on the nature of expenses, including:
a. Depreciation and amortisation expense
b. Employee benefits expense

82 IAS 1.90 Does the entity disclose the income tax relating to each item of other comprehensive income, including reclassification adjustments

83 IAS 1.91 An entity may present items of other comprehensive income either net of related tax effects, or before related tax effects, with one amount shown for the aggregate amount of income tax relating to those components.

84 IAS 1.92 Does the entity disclose reclassification adjustments relating to items of other comprehensive income

IAS 1.95 Examples of reclassification adjustments include:
a. Disposal of a foreign operation (see IAS 21)
b. When some hedged forecast cash flow affects profit or loss (refer to IFRS 9.6.5.11(d) in relation to cash flow hedges that will or will not result in reclassification adjustment)

IAS 1.96 Reclassification adjustments do not arise on changes in revaluation surplus recognised under IAS 16 Property, Plant and Equipment or IAS 38 Intangible Assets, or on remeasurements of defined benefit plans. These are not reclassified to profit or loss. Changes in revaluation surplus may be transferred to retained earnings in subsequent periods as the asset is used or when it is derecognised (see IAS 16.41 and IAS 38.87).

In accordance with IFRS 9, reclassification adjustments do not arise if a cash flow hedge or the accounting for the time value of an option (or the forward element of a forward contract or the foreign currency basis spread of a financial instrument) result in amounts that are removed from the cash flow hedge reserve or a separate component of equity, respectively, and included directly in the initial cost or other carrying amount of an asset or a liability. These amounts are directly transferred to assets or liabilities.

Distributions of non-cash assets to owners (IFRIC 17)

85 IFRIC 17.14 If the entity settles a dividend payable by distributing non-cash assets, does the entity present any difference between the carrying amount of the assets distributed and the carrying amount of the dividend payable as a separate line item in profit or loss

Earnings per share

86 IFRIC 17.15

IAS 33.2 The entity applies IAS 33 Earnings per Share if:
a. The ordinary shares or potential ordinary shares of the entity are traded in a public market (a domestic or foreign stock exchange or an over-the-counter market, including local and regional markets)
   Or
b. The entity files, or is in the process of filing, its financial statements with a securities commission or other regulatory organisation for the purpose of issuing ordinary shares in a public market
If the entity discloses (voluntarily) earnings per share, the earnings per share disclosures must be in accordance with IAS 33.

If the entity presents both consolidated financial statements and separate financial statements prepared under IFRS 10 Consolidated Financial Statements and IAS 27 Separate Financial Statements, does it present the disclosures required by IAS 33 only on the basis of the consolidated information?

If the entity chooses to disclose earnings per share based on its separate financial statements, does it present such earnings per share only in the statement of comprehensive income and not in the consolidated financial statements?

If the number of ordinary or potential ordinary shares outstanding increase as a result of a capitalisation, bonus issue or share split, or decrease as a result of a reverse share split (even if these changes occur after the reporting period, but before the financial statements are authorised for issue), and therefore the calculation of basic and diluted earnings per share for all periods presented has been adjusted retrospectively, does the entity disclose the fact that per share calculations reflect such changes in the number of shares?

Does the entity present in the statement of comprehensive income, basic and diluted earnings per share for:

a. Profit or loss from continuing operations attributable to the ordinary equity holders of the parent entity
b. Profit or loss attributable to the ordinary equity holders of the parent entity for the period for each class of ordinary shares that has a different right to share in profit for the period

If basic and diluted earnings per share are equal, dual presentation can be accomplished in one line on the statement of comprehensive income.

If the entity presents a separate statement of profit or loss as described in IAS 1.10A, does it disclose basic and diluted earnings per share only in that separate statement?

Does the entity present basic and diluted earnings per share, with equal prominence for all periods presented?

If the entity reports a discontinued operation, does it disclose basic and diluted earnings per share for the discontinued operation either in the statement of comprehensive income or in the notes?

If the entity presents a separate statement of profit or loss does it present basic and diluted earnings per share for the discontinued operation, as required in IAS 33.68, in that separate statement or in the notes?

Does the entity present basic and diluted earnings per share, even if the amounts are negative (that is, a loss per share)?

Does the entity disclose:

a. The amounts used as the numerators in calculating basic and diluted earnings per share and reconcile those amounts to profit or loss attributable to the parent entity for the period (which includes the individual effect of each class of instruments that affects earnings per share)

b. The weighted average number of ordinary shares used as the denominator in calculating basic and diluted earnings per share, and reconcile these denominators to each other (which includes the individual effect of each class of instruments that affects earnings per share)

c. Instruments (including contingently issuable shares) that could potentially dilute basic earnings per share in the future, but were not included in the calculation of diluted earnings per share because they are anti-dilutive for the period(s) presented
d. The ordinary share transactions or potential ordinary share transactions, other than increases as a result of a capitalisation, bonus issues or share splits or decreases as a result of a reverse share splits, that occur after the reporting period, but before the financial statements are authorised for issue, that would have changed significantly the number of ordinary shares or potential ordinary shares outstanding at the end of the period if those transactions had occurred before the end of the reporting period

Examples of transactions referred to in IAS 33.70(d) include:

a. An issue of shares for cash
b. An issue of shares, if the proceeds are used to repay debt or preference shares outstanding at the end of the reporting period
c. The redemption of ordinary shares outstanding
d. The conversion or exercise of potential ordinary shares outstanding at the end of the reporting period into ordinary shares
e. An issue of options, warrants or convertible instruments
f. The achievement of conditions that would result in the issue of contingently issuable shares

96 IAS 33.72 Does the entity disclose the terms and conditions of financial instruments and other contracts generating potential ordinary shares that affect the measurement of basic and diluted earnings per share, if this disclosure is not already otherwise required (for example, by IFRS 7)

97 IAS 33.73 If the entity discloses, in addition to basic and diluted earnings per share, amounts per share using a reported component of the statement of comprehensive income other than one required by IAS 33, does the entity disclose:

a. Basic and diluted amounts per share relating to such a component with equal prominence and presented in the notes to the financial statements
b. The basis on which the numerator(s) is(are) determined, including whether amounts per share are before tax or after tax

c. If the entity discloses, in addition to basic and diluted earnings per share, amounts per share using a component that is not reported as a line item in the statement of comprehensive income, does the entity reconcile between the component used and a line item that is reported in the statement of comprehensive income

d. If the entity discloses, in addition to basic and diluted earnings per share, amounts per share using a reported item of profit or loss, other than one required by IAS 33, does the entity provide the disclosures in IAS 33.73 for the additional amounts per share

Statement of cash flows

100 IAS 1.29 Does the entity present each material class of similar items separately in the statement of cash flows

101 IAS 1.29 Does the entity present separately items of a dissimilar nature or function unless they are immaterial

Presentation

102 IAS 7.10 Are the cash flows during the period classified by operating, investing and financing activities

103 IAS 7.18 Does the entity report cash flows from operating activities using either:
The direct method, disclosing major classes of gross cash receipts and gross cash payments (this method is encouraged)

Or

b. The indirect method, in which the entity adjusts profit or loss for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expense associated with investing or financing cash flows

The starting point for the reconciliation of cash flows from operating activities in the statement of cash flows, prepared using the indirect method, is profit or loss, either before or after tax.

104  IAS 7.21  Does the entity report major classes of gross cash receipts and gross cash payments arising from investing and financing activities separately, except as described in IAS 7.22 below

105  IAS 7.22  Are cash flows arising from the following operating, investing or financing activities reported on a net basis:

a. Cash receipts and payments on behalf of customers, if the cash flows reflect the activities of the customer rather than those of the entity

b. Cash receipts and payments for items in which the turnover is quick, the amounts are large and the maturities are short

107  IAS 7.24  Cash flows arising from each of the following activities of a financial institution may be reported on a net basis:

a. Cash receipts and payments for the acceptance and repayment of deposits with a fixed maturity date

b. The placement of deposits with and withdrawal of deposits from other financial institutions

c. Cash advances and loans made to customers and the repayment of those advances and loans

Components of cash and cash equivalents

Bank borrowings are generally considered to be financing activities. However, in some countries, bank overdrafts that are repayable on demand form an integral part of the entity’s cash management. In these circumstances, bank overdrafts are included as a component of cash and cash equivalents. A characteristic of such banking arrangements is that the bank balance often fluctuates from being positive to overdrawn.

106  IAS 7.45  Does the entity disclose the components of cash and cash equivalents

107  IAS 7.46  Does the entity disclose the policy for determining the composition of cash and cash equivalents

108  IAS 7.45  Does the entity reconcile the amounts of cash and cash equivalents in the statement of cash flows with the equivalent items in the statement of financial position

Acquisitions of subsidiaries and business units

109  IAS 7.39  Have the aggregate cash flows arising from obtaining control of subsidiaries or other businesses been presented separately and classified as investing activities in the statement of cash flows?

107  IAS 7.42A  An entity classifies cash flows arising from change in ownership interests in a subsidiary that do not result in a loss of control (that is, transactions with owners) as financing activities, unless the subsidiary is held by an investment entity, as defined in IFRS 10, and is required to be measured at fair value through profit or loss.

110  IAS 7.40  Does the entity disclose the following, in aggregate, for obtaining control of subsidiaries or other businesses during the reporting period:

a. The total consideration paid or received

b. The portion of the consideration consisting of cash and cash equivalents
c. The amount of cash and cash equivalents in the subsidiaries or other businesses over which control is obtained

d. The amount of the assets and liabilities other than cash or cash equivalents in the subsidiaries or businesses over which control is obtained, summarised by each major category

**Disposals of subsidiaries and business units**

111 **IAS 7.39** Have the aggregate cash flows arising from losing control of subsidiaries or other businesses been presented separately and classified as investing activities in the statement of cash flows

112 **IAS 7.40** Does the entity disclose the following, in aggregate, for losing control of subsidiaries or other businesses during the reporting period:

a. The total consideration paid or received

b. The portion of the consideration consisting of cash and cash equivalents

c. The amount of cash and cash equivalents in the subsidiaries or other businesses over which control is lost

d. The amount of the assets and liabilities other than cash or cash equivalents in the subsidiaries or businesses over which control is lost, summarised by each major category

**Other cash flow information**

113 **IAS 7.31** Does the entity separately disclose the following:

a. Cash inflow from interest

b. Cash outflow from interest

c. Cash inflow from dividends

d. Cash outflow from dividends

114 **IAS 7.35** Cash flows arising from taxes on income must be separately disclosed and must be classified as cash flows from operating activities unless they can be specifically identified with financing and investing activities. If the entity allocates tax cash flows to more than one class of activity, does the entity disclose the total amount of taxes paid

115 **IAS 7.43** Are investing and financing transactions that do not require the use of cash or cash equivalents:

a. Excluded from the statement of cash flows

b. Disclosed elsewhere in the financial statements in a way that provides all the relevant information about these investing and financing activities

116 **IAS 7.48** Does the entity disclose the following regarding significant cash and cash equivalent balances held, that are not available for use by the group:

a. The amount

b. A commentary by management

117 **IAS 7.50** Does the entity disclose:

a. The amount of undrawn borrowing facilities that may be available in the future for the operating activities and settling capital commitments, and indicate any restrictions on the use of these facilities

b. The aggregate amount of cash flows that represent increases in operating capacity separately from those cash flows that are required to maintain operating capacity

c. Cash flows of each reportable segment arising from:

- Operating activities
- Investing activities
- Financing activities

---

**An investment entity, as defined in IFRS 10, need not apply IAS 7.40(c) and 40(d) to an investment in a subsidiary that is required to be measured at fair value through profit or loss.**
Changes in liabilities arising from financing activities

118 IAS 7.44B To the extent necessary to satisfy the requirement in IAS 7.44A, does the entity disclose the following changes in liabilities arising from financing activities:
   a. Changes from financing cash flows
   b. Changes arising from obtaining or losing control of subsidiaries or other businesses
   c. The effect of changes in foreign exchange rates
   d. Changes in fair values
   e. Other changes

119 IAS 7.44D If the entity discloses the information required by IAS 7.44A by providing a reconciliation between the opening and closing balances in the statement of financial position for liabilities arising from financing activities, does it provide sufficient information to enable users of the financial statements to link items included in the reconciliation to the statement of financial position and the statement of cash flows?

Statement of changes in equity

121 IAS 1.29 Does the entity present each material class of similar items separately in the statement of changes in equity?

122 IAS 1.29 Does the entity present separately items of a dissimilar nature or function unless they are immaterial?

123 IAS 1.106 Does the statement of changes in equity include the following:
   a. Total comprehensive income for the period, showing separately the total amounts attributable to owners of the parent and to non-controlling interests
   b. For each component of equity, the effects of retrospective application or retrospective restatement recognised in accordance with IAS 8
   c. For each component of equity, a reconciliation between the carrying amount at the beginning and the end of the period, separately (as a minimum) disclosing changes resulting from:
      ▶ Profit or loss
      ▶ Other comprehensive income
      ▶ Transactions with owners in their capacity as owners, showing separately contributions by and distributions to owners and changes in ownership interests in subsidiaries that do not result in a loss of control

124 IAS 1.106A For example, components of equity include each class of contributed equity, the accumulated balance of each class of other comprehensive income and retained earnings.

125 IAS 1.107 Does the entity disclose, either in the statement of changes in equity, or in the notes:
   a. The amount of dividends recognised as distributions to owners during the period
b. The related amount of dividends per share

Interest, dividends, losses and gains relating to a financial instrument or a component that is a financial liability shall be recognised as income or expense in profit or loss. Distributions to holders of an equity instrument shall be recognised by the entity directly in equity. Transaction costs of an equity instrument and to transaction costs of an equity transaction shall be accounted for as a deduction from equity.

Income tax relating to distributions to holders of an equity instrument and to transaction costs of an equity transaction shall be accounted for in accordance with IAS 12.

Does the entity separately disclose the amount of transaction costs accounted for as a deduction from equity in the reporting period in the statement of changes in equity?

Does the entity include the amount of income taxes associated with transaction costs accounted for as a deduction from equity in the aggregate amount of current and deferred tax credited or charged directly to equity?

Notes to the financial statements

The entity does not present any items of income or expense as extraordinary items in the statement(s) presenting profit or loss and other comprehensive income or in the notes.

Do the notes to the financial statements disclose:

- The basis of preparation of the financial statements
- The specific accounting policies used
- The information required by IFRSs that is not presented in the statement of financial position, statement of profit or loss and other comprehensive income, statement of changes in equity or the statement of cash flows
- Information that is not presented in the statement of financial position, statement of profit or loss and other comprehensive income, statement of changes in equity or the statement of cash flows, but is relevant to an understanding of any of them

Does the entity present notes to the financial statements in a systematic manner, as far as practicable?

In determining a systematic manner, the entity must consider the effect on the understandability and comparability of its financial statements.

Example of systematic ordering or grouping of the notes include:

- Giving prominence to the areas of its activities that the entity considers to be most relevant to an understanding of its financial performance and financial position, such as grouping together information about particular operating activities
- Grouping together information about items measured similarly such as assets measured at fair value or
- Following the order of the line items in the statement of profit or loss and other comprehensive income and the statement of financial position, such as:
  1. Statement of compliance with IFRSs
  2. Significant accounting policies applied
  3. Supporting information for items presented in each financial statement in the order in which each statement and each line item is presented
  4. Other disclosures, including:
     - Contingent liabilities and unrecognised contractual commitments
     - Non-financial disclosures, such as the entity’s financial risk management objectives and policies
Does the entity cross-reference each item in the statements below to any related information in the notes?

| a. Statement of financial position | □ | □ | □ |
| b. Statement of profit or loss and other comprehensive income | □ | □ | □ |
| c. Statement of changes in equity | □ | □ | □ |
| d. Statement of cash flows | □ | □ | □ |

**Accounting policies, key measurement assumptions and capital**

**Summary of significant accounting policies**

If the entity applies Amendments to IAS 1 and IAS 8 - Definition of Material, issued in October 2018, in its annual IFRS financial statements for a period beginning before 1 January 2020, does it disclose that fact?

| □ | □ | □ |

Does the entity disclose its significant accounting policies comprising:

| a. The measurement basis or bases (for example, historical cost, current cost, net realisable value, fair value or recoverable amount) used in preparing the financial statements | □ | □ | □ |
| b. The other accounting policies used that are relevant to an understanding of the financial statements | □ | □ | □ |

If an entity uses more than one measurement basis in the financial statements (for example, when particular classes of assets are revalued), it is sufficient to provide an indication of the categories of assets and liabilities to which each measurement basis is applied.

| □ | □ | □ |

Does the entity disclose each significant accounting policy that is not specifically required by IFRSs, but is selected and applied under IAS 8?

| □ | □ | □ |

Does the entity disclose, along with its significant accounting policies or other notes, the judgements (apart from those involving estimations) by management that have the most significant effect on the amounts recognised in the financial statements?

| □ | □ | □ |

Some of the disclosures required by IAS 1.122 are required by other IFRSs. For example, IFRS 12 requires an entity to disclose the judgements it has made in determining whether it controls another entity. Disclosure requirements relating to specific accounting policies are included in the subsequent sections of this checklist.

| □ | □ | □ |

**Changes in accounting policies**

The entity changes an accounting policy only if the change:

- Is required by an IFRS
- Results in the financial statements providing reliable and more relevant information about the effects of transactions, other events or conditions on the entity’s financial position, financial performance or cash flows

Applying a requirement is impracticable if the entity cannot apply it after making every reasonable effort to do so. It is impracticable to apply a change in an accounting policy retrospectively or to make a retrospective restatement to correct an error in the following circumstances:

| a. If the entity cannot determine the effects of retrospective application or retrospective restatement | □ | □ | □ |
| b. If determining the effect of (a) requires assumptions about what management’s intent would have been in that period | □ | □ | □ |
| c. If determining the effect of (a) requires significant estimates of amounts and it is impossible to distinguish objectively information about those estimates that provides evidence of circumstances that existed on the dates at which those amounts are to be recognised, measured or disclosed and would have been available when the previous financial statements were authorised for issue from other information | □ | □ | □ |

If retrospective application is required, does the entity disclose the adjustment to the opening balance of each affected component of equity for the earliest prior period presented and the other comparative amounts for each prior period presented as if the entity had always applied the new accounting policy?

| □ | □ | □ |
If the initial application of an IFRS has an effect on the current period or any prior period presented or might have an effect on future periods, unless it is impracticable to determine the amount of the adjustment, does the entity disclose:

a. The title of the IFRS
b. That the change in accounting policy is made in accordance with its transitional provisions, if applicable
c. The nature of the change in accounting policy
d. The transitional provisions, if applicable
e. The transitional provisions that might have an effect on future periods, if applicable

The amount of the adjustment for each financial statement line item affected and the basic and diluted earnings per share for the current period and each prior period presented, to the extent practicable (if IAS 33 applies to the entity)

The amount of the adjustment relating to periods before those presented, to the extent practicable

If retrospective application is impracticable for a particular prior period, or for periods before those presented, the circumstances that led to the existence of that condition and a description of how and from when the change in accounting policy has been applied

Financial statements of subsequent periods need not repeat these disclosures.

If a voluntary change in accounting policy has an effect on the current period or any prior period, and would have an effect on that period except that it is impracticable to determine the amount of the adjustment, or might have an effect on future periods, does the entity disclose:

a. The nature of the change in accounting policy
b. The reasons why applying the new accounting policy provides reliable and more relevant information
c. The amount of the adjustment for each financial statement line item affected for the current reporting period and each prior reporting period presented, to the extent practicable

d. The basic and diluted earnings per share for the current reporting period and each prior reporting period presented (if IAS 33 applies to the entity and to the extent practicable)
e. The amount of the adjustment relating to periods before those presented, to the extent practicable

If retrospective application is impracticable for a particular prior period, or for periods before those presented, the circumstances that led to the existence of that condition and a description of how and from when the change in accounting policy has been applied

Financial statements of subsequent periods need not repeat these disclosures.

If the entity did not apply a new IFRS that has been issued but is not yet effective, does the entity disclose:

a. The title of the new IFRS
b. The nature of the impending change or changes in accounting policy
c. The date by which application of the IFRS is required
d. The date as at which it plans to adopt the IFRS initially
e. Either:
   ▶ A discussion of the impact that initial application of the IFRS is expected to have on its financial statements
   Or
If such an impact is not known or reasonably estimable, a statement to that effect.

Earlier application is permitted for the new standards and amendments in most cases. If the entity applies them for an earlier period, it must disclose that fact as required in the respective standards and amendments. Please see the introduction section for the standards and amendments which may be adopted early.

**Key estimation assumptions**

139  **IAS 1.125**

Does the entity disclose key assumptions about the future, and other sources of key estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year?

**IFRS 5.5B**

Additional disclosures beyond what is required by other standards may be necessary to comply with this requirement. For instance, additional disclosures about non-current assets (or disposal groups) classified as held for sale or discontinued operations (beyond those required specifically by IFRS 5 or other IFRS) may be necessary to comply with this requirement.

140  **IAS 1.125**

For the assets and liabilities in IAS 1.125 above, does the entity disclose:

a. Their nature
b. Their carrying amount as at the end of the reporting period

**IAS 1.129**

An entity presents the disclosures under IAS 1.125 in a manner that helps users of financial statements to understand management's judgements about the future. The nature and extent of the disclosure varies according to the nature of the assumption and other circumstances.

Examples of the types of disclosures made are:

a. The nature of the assumption or other estimation uncertainty
b. The sensitivity of carrying amounts to the methods, assumptions and estimates underlying their calculation, including the reasons for the sensitivity
c. The expected resolution of an uncertainty and the range of reasonably possible outcomes within the next financial year for the carrying amounts of the assets and liabilities affected
d. The changes made to past assumptions concerning those assets and liabilities, if the uncertainty remains unresolved

Examples of key assumptions are:

a. Future changes in salaries
b. Future changes in prices affecting other costs
c. Risk adjustments to cash flows
d. Risk adjustments to discount rates

**IAS 1.133**

Some key assumptions referred to in IAS 1.125 also require disclosures under other IFRSs. For example, IAS 37 requires disclosure, in certain circumstances, of major assumptions concerning future events affecting classes of provisions. IFRS 13 *Fair Value Measurement* requires disclosure of significant assumptions (including the valuation technique(s) and inputs) the entity uses when measuring the fair values of assets and liabilities that are carried at fair value.

**Capital**

141  **IAS 1.134**

Does the entity disclose information that enables users of its financial statements to evaluate the entity's objectives, policies and processes for managing capital?

142  **IAS 1.135**

Does the entity disclose the following, based on the information provided internally to the entity's key management personnel:

a. Qualitative information about its objectives, policies and processes for managing capital, including (but not limited to):
   ▶ A description of what it manages as capital
If the entity is subject to externally imposed capital requirements, the nature of those requirements and how those requirements are incorporated into the management of capital.

How it is meeting its objectives for managing capital.

Summary quantitative data about what it manages as capital.

Some entities regard some financial liabilities (for example, some forms of subordinated debt) as part of capital. Other entities regard capital as excluding some components of equity (for example, components arising from cash flow hedges).

c. Any changes in (a) and (b) from the previous period.
d. Whether during the period it complied with any externally imposed capital requirements to which it is subject.
e. If the entity did not comply with the externally imposed capital requirements to which it is subject, the consequences of such non-compliance.

The entity may manage capital in many ways and be subject to many different capital requirements. For example, a conglomerate may include entities that undertake insurance activities and banking activities, and those entities may operate in several jurisdictions. If an aggregate disclosure of capital requirements and how the entity manages capital would not provide useful information or distorts a financial statement user’s understanding of an entity’s capital resources, the entity discloses separate information for each capital requirement to which the entity is subject.

Externally imposed capital requirements referred to in IAS 1.135(a)(ii) only reflect capital requirements imposed by a regulator or a prudential supervisor. Capital requirements, as imposed by a bank or creditor are considered a contractual obligation and are therefore not in the scope of IAS 1.135(a)(ii).

Business combinations

Acquisitions

The acquirer discloses information that enables the users of its financial statements to evaluate the nature and financial effect of a business combination.

If the specific disclosures required by IFRS 3 Business Combinations and other IFRSs do not meet the objectives set out in IFRS 3.59 and 61, the acquirer shall disclose whatever additional information is necessary to meet those objectives.

For individually immaterial business combinations occurring during the reporting period that are material collectively, the acquirer discloses the information in IFRS 3.B64(e)-(q) in aggregate.

If the entity applies Amendments to IFRS 3 - Previously held interest in a joint operation as part of the Annual Improvements to IFRS Standards 2015-2017 Cycle, issued in December 2017, to business combinations for which the acquisition date is before the effective date of the amendments (i.e., the first annual reporting period beginning on or after 1 January 2019), does it disclose that fact?

If the entity applies Amendments to IFRS 3 - Definition of a Business, issued in October 2018, to business combinations for which the acquisition date is before the effective date of the amendments (i.e., the first annual reporting period beginning on or after 1 January 2020) and to asset acquisitions that occur before the beginning of that period, does it disclose that fact?

For each business combination during the reporting period (or after the reporting period, but before the financial statements are authorised for issue), does the entity disclose:

a. The name and a description of the acquiree
b. The acquisition date
c. The percentage of voting equity interests acquired.
d. The primary reasons for the business combination and how the acquirer obtained control of the acquiree.

146  IFRS 3.59  For each business combination during the reporting period (or after the reporting period, but before the financial statements are authorised for issue), does the entity disclose the acquisition-date fair value of the total consideration transferred and the acquisition-date fair value of each major class of consideration, such as:

   a. Cash
   b. Other tangible or intangible assets, including a business or subsidiary of the acquirer
   c. Liabilities incurred, for example, a liability for contingent consideration
   d. Equity interests of the acquirer, including the number of instruments or interests issued or issuable and the method of measuring the fair value of those instruments or interests.

147  IFRS 3.59  Contingent consideration is either:

   a. An obligation of the acquirer to transfer additional assets or equity interests to the former owners of an acquiree as part of the exchange transaction, if specified future events occur or conditions are met.
   Or
   b. A right of the acquirer to receive previously transferred consideration, if specified future events occur or conditions are met.

148  IFRS 3.59  For each business combination during the reporting period (or after the reporting period, but before the financial statements are authorised for issue), for contingent consideration arrangements and indemnification assets, does the entity disclose:

   a. The amount recognised as of the acquisition date
   b. A description of the arrangement and the basis for determining the payment
   c. An estimate of the range of outcomes (undiscounted) or, if a range cannot be estimated, that fact and the reasons why a range cannot be estimated. If the maximum amount of the payment is unlimited, the acquirer discloses that fact.

149  IFRS 3.59  The entity provides disclosures by major class of receivable, such as loans, direct finance leases and any other class of receivables.

149  IFRS 3.23  For each business combination during the reporting period (or after the reporting period, but before the financial statements are authorised for issue) does the entity disclose the amounts recognised as of the acquisition date for each major class of assets acquired and liabilities assumed.

150  IFRS 3.59  For each business combination during the reporting period (or after the reporting period, but before the financial statements are authorised for issue), for each contingent liability recognised under IFRS 3.23, does the entity make the disclosures in IAS 37.85.

151  IFRS 3.59  If a contingent liability is not recognised because its fair value cannot be measured reliably, does the entity disclose:

   a. Cash
   b. Other tangible or intangible assets, including a business or subsidiary of the acquirer
   c. Liabilities incurred, for example, a liability for contingent consideration
   d. Equity interests of the acquirer, including the number of instruments or interests issued or issuable and the method of measuring the fair value of those instruments or interests.
For each business combination during the period (or after the reporting period, but before the financial statements are authorised for issue), does the entity disclose the goodwill that is expected to be deductible for tax purposes?

For each business combination during the reporting period (or after the reporting period, but before the financial statements are authorised for issue), for transactions that the entity recognises separately from the acquisition of assets and assumption of liabilities in the business combination in accordance with IFRS 3.51, does the entity disclose:

1. A description of each transaction
2. How the acquirer accounted for each transaction
3. The amounts recognised for each transaction and the line item in the financial statements in which each amount is recognised
4. If the transaction is the effective settlement of a pre-existing relationship, the method used to determine the settlement amount

The acquirer and the acquiree may have a pre-existing relationship or other arrangement before negotiations for the business combination began, or they may enter into an arrangement during the negotiations that is separate from the business combination. In either situation, the acquirer identifies any amounts that are not part of what the acquirer and the acquiree (or its former owners) exchanged in the business combination, that is, amounts that are not part of the exchange for the acquiree. The acquirer recognises only the consideration transferred for the acquiree, the assets acquired and liabilities assumed in the exchange for the acquiree. Separate transactions are accounted for in accordance with the relevant IFRSs.

For each business combination during the reporting period (or after the reporting period, but before the financial statements are authorised for issue) in a bargain purchase, does the entity disclose:

1. The amount of any gain recognised as a bargain purchase
2. The line item in the statement of comprehensive income in which the entity recognised the gain
3. The reasons why the transaction resulted in a gain

For each business combination during the reporting period (or after the reporting period, but before the financial statements are authorised for issue), in which the acquirer holds less than 100% of the equity interests in the acquiree at the acquisition date, does the entity disclose:

1. The amount of the non-controlling interest in the acquiree recognised at the acquisition date and the measurement basis for that amount
2. For each non-controlling interest in an acquiree measured at fair value, the valuation techniques and significant inputs used to measure that value
3. Non-controlling interest is defined as the equity in a subsidiary not attributable, directly or indirectly to a parent.

For each business combination achieved in stages during the reporting period (or after the reporting period, but before the
financial statements are authorised for issue), does the entity disclose:

a. The acquisition-date fair value of the equity interest in the acquiree held by the acquirer immediately before the acquisition date

b. Any gain or loss recognised from remeasuring the equity interest in the acquiree held by the acquirer before the business combination to fair value, in accordance with IFRS 3.42, and the line item in the statement of comprehensive income in which that gain or loss is recognised

For each business combination during the reporting period (or after the reporting period, but before the financial statements are authorised for issue), does the entity disclose the following measures in respect of the acquiree since the acquisition date included in the consolidated statement of comprehensive income for the reporting period:

a. Revenue

b. Profit or loss

Or

c. If any of the information in (a) or (b) is impracticable, the acquirer discloses that fact and explains why the disclosure is impracticable

For each business combination during the reporting period (or after the reporting period, but before the financial statements are authorised for issue), does the entity disclose the following measures in respect of the combined entity for the current reporting period as though the acquisition date for all business combinations that occurred during the reporting period had been as of the beginning of the annual reporting period:

a. Revenue

b. Profit or loss

Or

c. If any of the information in (a) or (b) is impracticable, the acquirer discloses that fact and explains why the disclosure is impracticable

If the acquisition date of a business combination is after the end of the reporting period, but before the financial statements are authorised for issue, and if the initial accounting for the business combination is incomplete at the time the financial statements are authorised for issue, the acquirer discloses which disclosures could not be made and reasons why they cannot be made

Business combinations during the current or previous reporting periods

The acquirer discloses the information in IFRS 3.B67 for each material business combination or in the aggregate for individually immaterial business combinations that are material collectively.

If the initial accounting for a business combination is incomplete for particular assets, liabilities, non-controlling interests or items of consideration and the entity provisionally determined the amounts recognised in the financial statements for the business combination, does the entity disclose:

a. The reasons why the initial accounting for the business combination is incomplete

b. The assets, liabilities, equity interests or items of consideration for which the initial accounting is incomplete

c. The nature and amount of any measurement period adjustments recognised during the reporting period in accordance with IFRS 3.49

For each reporting period after the acquisition date until the entity collects, sells or otherwise loses the right to a contingent consideration asset, or until the entity settles a contingent
consideration liability or the liability is cancelled or expires, does the entity disclose:

a. Any changes in the recognised amounts, including any differences arising upon settlement
b. Any changes in the range of outcomes (undiscounted) and the reasons for those changes
c. The valuation techniques and key model inputs used to measure contingent consideration

163 IFRS 3.67(c) For contingent liabilities recognised in a business combination, does the entity disclose the information required by IAS 37.84 and 85 for each class of provision

164 IFRS 3.67(d) Does the entity reconcile the carrying amount of goodwill at the beginning and end of the reporting period showing separately:

a. The gross amount and accumulated impairment losses at the beginning of the reporting period
b. Additional goodwill recognised during the reporting period, except goodwill included in a disposal group that, on acquisition, meets the criteria to be classified as held for sale in accordance with IFRS 5
c. Adjustments resulting from subsequent recognition of deferred tax assets during the reporting period in accordance with IFRS 3.67
d. Goodwill included in a disposal group classified as held for sale in accordance with IFRS 5 and goodwill derecognised during the reporting period without having previously been included in a disposal group classified as held for sale
e. Impairment losses recognised during the reporting period in accordance with IAS 36 Impairment of Assets
f. Net exchange rate differences arising during the reporting period in accordance with IAS 21 The Effects of Changes in Foreign Exchange Rates
g. Any other changes in the carrying amount during the reporting period
h. The gross amount and accumulated impairment losses at the end of the reporting period

165 IFRS 3.67(e) Does the entity disclose the amount and explain any gain or loss recognised in the current reporting period that both:

a. Relates to the identifiable assets acquired or liabilities assumed in a business combination that was effected in the current or previous reporting period
b. Is of such a size or nature of incidence that disclosure is relevant to understanding the combined entity’s financial statements

Borrowing costs

New 166 IAS 23.29d If the entity applies Amendments to IAS 23 Borrowing Costs - Borrowing costs eligible for capitalisation as part of the Annual Improvements to IFRS Standards 2015-2017 Cycle, issued in December 2017, in its annual IFRS financial statements for a period beginning before 1 January 2019, does it disclose that fact

167 IAS 1.117 Does the entity disclose the accounting policy for the recognition of borrowing costs

168 IAS 23.26 If the entity capitalised borrowing costs during the reporting period, does it disclose:

a. The amount of borrowing costs capitalised during the period
b. The capitalisation rate used to determine the amount of borrowing costs eligible for capitalisation

Changes in accounting estimates

169 IAS 8.39 IAS 8.40 Does the entity disclose the following information for a change in accounting estimate that has an effect in the current period or is expected to have an effect in future periods:

a. The nature of the change
b. The amount of the change
c. If applicable, the fact that the amount of the effect in future periods is not disclosed because estimating it is impracticable

<table>
<thead>
<tr>
<th>IAS 16.76</th>

### Disclosure of interests in other entities

IFRS 12 provides guidance for disclosures for the interests of an entity in subsidiaries, joint arrangements (joint ventures or joint operations), associates and unconsolidated structured entities. These requirements apply to those entity’s interests that are classified (or included in a disposal group that is classified) as held for sale or discontinued operations in accordance with IFRS 5 Non-current Assets Held for Sale and Discontinued Operations except for the summarised financial information required in accordance with IFRS 12.B10-B16.

#### Subsidiaries

170 **IFRS 12.7** Does the entity disclose information about significant judgements and assumptions it has made (and changes to those judgements and assumptions) in determining that it has control of another entity, i.e., an investee

171 **IFRS 12.8** Does the entity include under the significant judgements and assumptions disclosed in IFRS 12.7 above, those judgements and assumptions made by the entity when changes in facts and circumstances are such that the conclusion about whether it has control changes during the reporting period

172 **IFRS 12.9** Does the entity disclose significant judgements and assumptions made in determining that:

- a. It does not control another entity even though it holds more than half of the voting rights of the other entity
- b. It controls another entity even though it holds less than half of the voting rights of the other entity
- c. It is an agent or a principal

**IFRS 10.B58** When an investor with decision-making rights (a decision maker) assesses whether it controls an investee, it shall determine whether it is a principal or an agent. An investor shall also determine whether another entity with decision-making rights is acting as an agent for the investor. An agent is a party primarily engaged to act on behalf and for the benefit of another party or parties (the principal(s)). Therefore, it does not control the investee when it exercises its decision-making authority. Thus, sometimes a principal’s power may be held and exercisable by an agent, but on behalf of the principal.

A decision maker is not an agent simply because other parties can benefit from the decisions that it makes.

173 **IFRS 12.10** Does the entity disclose enough information for a user of the financial statements to understand the composition of the group

a. To understand:

- The composition of the group
- The interest that non-controlling interests have in the group's activities and cash flows (IFRS 12.12)

b. To evaluate:

- The nature and extent of significant restrictions on its ability to access or use assets, and settle liabilities, of the group (IFRS 12.13)
► The nature of, and changes in, the risks associated with its interests in consolidated structured entities (IFRS 12.14-17) □ □ □
► The consequences of changes in its ownership interest in a subsidiary that do not result in a loss of control (IFRS 12.18) □ □ □
► The consequences of losing control of a subsidiary during the reporting period (IFRS 12.19) □ □ □

174 IFRS 12.11 When the financial statements of a subsidiary used in the preparation of consolidated financial statements are as of a date or for a period that is different from that of the consolidated financial statements, does it provide the following information:
- The date of the end of the reporting period of the financial statements of that subsidiary □ □ □
- The reason for using a different date or period □ □ □

Non-controlling Interests

175 IFRS 12.12 Does the entity disclose for each of its subsidiaries that have non-controlling interests that are material to the reporting entity:
- The name of the subsidiary □ □ □
- The principal place of business (and country of incorporation if different from the principal place of business) of the subsidiary □ □ □
- The proportion of ownership interests held by non-controlling interests □ □ □
- The proportion of voting rights held by non-controlling interests, if different from the proportion of ownership interests held □ □ □
- The profit or loss allocated to non-controlling interests of the subsidiary during the reporting period □ □ □
- Accumulated non-controlling interests of the subsidiary at the end of the reporting period □ □ □
- Summarised financial information about the subsidiary that enables users to understand the interest that non-controlling interests have in the group's activities and cash flows. This information (before intercompany eliminations) shall include:
  ► Dividends paid to non-controlling interests □ □ □
  ► Summarised financial information that might include but is not limited to:
    ▶ Current assets □ □ □
    ▶ Non-current assets □ □ □
    ▶ Current liabilities □ □ □
    ▶ Non-current liabilities □ □ □
    ▶ Revenue □ □ □
    ▶ Profit or loss □ □ □
    ▶ Total comprehensive income □ □ □

The summarised financial information required by paragraph B10(b) shall be the amounts before inter-company eliminations.

When an entity's interest in a subsidiary is classified (or included in a disposal group that is classified) as held for sale in accordance with IFRS 5, the entity is not required to disclose summarised financial information for the subsidiary.

Restrictions

176 IFRS 12.13 (a) Does the entity disclose significant restrictions (e.g., statutory, contractual and regulatory restrictions) on its ability to access or use the assets and settle the liabilities of the group, such as:
- Those that restrict the ability of a parent or its subsidiaries to transfer cash or other assets to (or from) other entities within the group □ □ □
- Guarantees or other requirements that may restrict dividends and other capital distributions being paid, or □ □ □
loans and advances being made or repaid, to (or from) other entities within the group

177  *IFRS 12.13(b)* Does the entity disclose the nature and extent to which protective rights of non-controlling interests can significantly restrict the entity’s ability to access or use the assets and settle the liabilities of the group

178  *IFRS 12.13(c)* Does the entity disclose the carrying amounts in the consolidated financial statements of the assets and liabilities to which the above-mentioned restrictions apply

**Other disclosures for subsidiaries**

New 179  *IFRS 10.C1C* If the entity applies Amendments to IFRS 10 and IAS 28 - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture issued in September 2014, does it disclose that fact

180  *IFRS 12.18* Does the entity present a schedule that shows the effects on the equity attributable to owners of the parent of any changes in its ownership interest in a subsidiary that do not result in a loss of control

181  *IFRS 12.19* When an entity loses control of a subsidiary, does the entity disclose

   a. The gain or loss (calculated in accordance with *IFRS 10.25*)

   If a parent loses control of a subsidiary, the parent:

   a. Derecognises the assets and liabilities of the former subsidiary from the consolidated statement of financial position

   b. Recognises any investment retained in the former subsidiary at its fair value when control is lost and subsequently accounts for it and for any amounts owed by or to the former subsidiary in accordance with relevant IFRSs. That fair value shall be regarded as the fair value on initial recognition of a financial asset in accordance with *IFRS 9* or, when appropriate, the cost on initial recognition of an investment in an associate or joint venture

   c. Recognises the gain or loss associated with the loss of control attributable to the former controlling interest

b. The portion of that gain or loss attributable to measuring any investment retained in the former subsidiary at its fair value at the date when control is lost

   And

   c. The line item(s) in profit or loss in which the gain or loss is recognised (if not presented separately)

**Investment entity status**

182  *IFRS 12.9A* When a parent determines that it is an investment entity in accordance with *IFRS 10.27*, does the investment entity disclose information about significant judgements and assumptions it has made in determining that it is an investment entity

183  *IFRS 12.9A* If the investment entity does not have one or more of the typical characteristics of an investment entity (see *IFRS 10.28*), does the investment entity disclose its reasons for concluding that it is nevertheless an investment entity

*IFRS 10.27* A parent must determine whether it is an investment entity. An investment entity is an entity that:

a. Obtains funds from one or more investors for the purpose of providing those investor(s) with investment management services

b. Commits to its investor(s) that its business purpose is to invest funds solely for returns from capital appreciation, investment income, or both

   c. Measures and evaluates the performance of substantially all of its investments on a fair value basis

184  *IFRS 12.9B* When an entity becomes, or ceases to be, an investment entity, does the entity disclose the change of investment entity status and the reasons for the change
When an entity becomes an investment entity, does the entity disclose the effect of the change of status on the financial statements for the period presented, including:

a. The total fair value, as of the date of change of status, of the subsidiaries that cease to be consolidated
b. The total gain or loss, if any, calculated in accordance with IFRS 10.B101
c. The line item(s) in profit or loss in which the gain or loss is recognised (if not presented separately)

Interests in unconsolidated subsidiaries (investment entities)

Does an investment entity that, in accordance with IFRS 10, is required to apply the exception to consolidation and, instead, account for its investment in a subsidiary at fair value through profit or loss disclose that fact?

For each unconsolidated subsidiary, does an investment entity disclose:

a. The subsidiary’s name
b. The principal place of business (and country of incorporation if different from the principal place of business) of the subsidiary
c. The proportion of ownership interest held by the investment entity and, if different, the proportion of voting rights held

If an investment entity is the parent of another investment entity, does the parent provide the disclosures in IFRS 12.19B(a)-(c) above for investments that are controlled by its investment entity subsidiary?

The disclosure may be provided by including, in the financial statements of the parent, the financial statements of the subsidiary (or subsidiaries) that contain the above information.

Does an investment entity disclose:

a. The nature and extent of any significant restrictions (e.g., resulting from borrowing arrangements, regulatory requirements or contractual arrangements) on the ability of an unconsolidated subsidiary to transfer funds to the investment entity in the form of cash dividends or to repay loans or advances made to the unconsolidated subsidiary by the investment entity
b. Any current commitments or intentions to provide financial or other support to an unconsolidated subsidiary, including commitments or intentions to assist the subsidiary in obtaining financial support

If, during the reporting period, an investment entity or any of its subsidiaries has, without having a contractual obligation to do so, provided financial or other support to an unconsolidated subsidiary (e.g., purchasing assets of, or instruments issued by, the subsidiary or assisting the subsidiary in obtaining financial support), does the entity disclose:

a. The type and amount of support provided to each unconsolidated subsidiary
b. The reasons for providing the support

Does an investment entity disclose the terms of any contractual arrangements that could require the entity or its unconsolidated subsidiaries to provide financial support to an unconsolidated, controlled, structured entity, including events or circumstances that could expose the reporting entity to a loss (e.g., liquidity arrangements or credit rating triggers associated with obligations to purchase assets of the structured entity or to provide financial support)

If, during the reporting period, an investment entity or any of its unconsolidated subsidiaries has, without having a contractual obligation to do so, provided financial or other support to an unconsolidated, structured entity that the investment entity did not control, and if that provision of support resulted in the investment entity controlling the structured entity, does the investment entity disclose an explanation of the relevant factors in reaching the decision to provide that support.
Disclosure Checklist

IFRS 12.21A An investment entity need not provide the disclosures required by paragraphs 21(b)-21(c) for interests in joint ventures and associates. Please see those sections to see the requirements.

IFRS 12.25A An investment entity need not provide the disclosures required by IFRS 12.24 for an unconsolidated structured entity that it controls and for which it presents the disclosures required by IFRS 12.19A-19G above.

Does the entity provide the fair value measurement disclosures required by IFRS 13 (refer to 'Fair value measurement' section)☐ ☐ ☐

Joint arrangements

IFRS 12.7 Does the entity disclose information about significant judgements and assumptions it has made (and changes to those judgements and assumptions) in determining:

a. That it has joint control of an arrangement ☐ ☐ ☐

b. The type of joint arrangement (i.e., joint operation or joint venture) when the arrangement has been structured through a separate vehicle ☐ ☐ ☐

IFRS 11.21 A joint operator must account for the assets, liabilities, revenues and expenses relating to its interest in a joint operation in accordance with the IFRS applicable to the particular assets, liabilities, revenues and expenses.

IFRS 12 provides guidance for disclosures relating to joint ventures. Disclosures relating to joint operations are the disclosures related to the assets and liabilities of the joint operation. Consideration needs to be given to each of the corresponding assets and liabilities captions of this checklist.

IFRS 12.8 Does the entity include under significant judgements and assumptions mentioned in IFRS 12.7 above, those made by the entity when changes in facts and circumstances are such that the conclusion about whether it has joint control changes during the reporting period ☐ ☐ ☐

IFRS 12.20 Does the entity disclose information that enables users of its financial statements to evaluate:

a. The nature, extent and financial effects of its interests in joint arrangements, including the nature and effects of its contractual relationship with the other investors with joint control of joint arrangements (IFRS 12.21 and 22) ☐ ☐ ☐

b. The nature of, and changes in, the risks associated with its interests in joint ventures (IFRS 12.23) ☐ ☐ ☐

IFRS 12.21(a) Does the entity disclose for each joint arrangement that is material to the reporting entity:

a. The name of the joint arrangement ☐ ☐ ☐

b. The nature of the entity’s relationship with the joint arrangement (by, for example, describing the nature of the activities of the joint arrangement and whether they are strategic to the entity’s activities) ☐ ☐ ☐

c. The principal place of business (and country of incorporation, if applicable and different from the principal place of business) of the joint arrangement ☐ ☐ ☐

d. The proportion of ownership interest or participating share held by the entity and, if different, the proportion of voting rights held (if applicable) ☐ ☐ ☐

Financial information regarding joint ventures

New IAS 28.45C If the entity applies Amendments to IFRS 10 and IAS 28 - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture, issued in September 2014, does it disclose that fact ☐ ☐ ☐

New IAS 28.45G If the entity applies Amendments to IAS 28 - Long-term Interests in Associates and Joint ventures, issued in October 2017, in its annual IFRS financial statements for a period beginning before 1 January 2019, does it disclose that fact ☐ ☐ ☐

IFRS 12.21(b) Does the entity disclose for each joint venture that is material to the reporting entity:

a. Whether the investment in the joint venture is measured using the equity method or at fair value ☐ ☐ ☐
b. The following financial information including:

- Dividends received from the joint venture
- Summarised financial information including, but not necessarily limited to:
  - Current assets
  - Non-current assets
  - Current liabilities
  - Non-current liabilities
  - Revenue
  - Profit or loss from continuing operations
  - Post-tax profit or loss from discontinued operations
  - Other comprehensive income
  - Total comprehensive income
  - Cash and cash equivalents (as included in current assets above)
  - Current financial liabilities (excluding trade and other payables and provisions) as included in current liabilities above
  - Non-current financial liabilities (excluding trade and other payables and provisions) as included in non-current liabilities above
  - Depreciation and amortisation
  - Interest income
  - Interest expense
  - Income tax expense or income
  - If the joint venture is accounted for using the equity method, the fair value of its investment in the joint venture, if there is a quoted market price for the investment

201 IFRS 12.B14 Does the summarised financial information, included in IFRS 12.B12 and B13 above, reflect the amounts included in the IFRS financial statements of the joint venture and not the entity’s share of those amounts

202 IFRS 12.B14 If the entity accounts for its interest in the joint venture using the equity method, are the amounts included in the IFRS financial statements of the joint venture adjusted to reflect adjustments made by the entity when using the equity method, such as fair value adjustments made at the time of acquisition and adjustments for differences in accounting policies

203 IFRS 12.B14 Does the entity provide a reconciliation of the summarised financial information presented to the carrying amount of its interest in the joint venture

204 IFRS 12.B15 If the entity presents the financial information on the basis of the joint venture's financial information, because:

a. The entity measures its interest in the joint venture at fair value
b. The joint venture does not prepare IFRS financial statements and preparation on that basis would be impracticable or cause undue cost

205 IFRS 12.B16 Does the entity disclose the basis on which the summarised financial information has been prepared

206 IFRS 12.B16 Does the entity disclose, in aggregate, the carrying amount of its interests in all individually immaterial joint ventures that are accounted for using the equity method

207 IFRS 12.B16 Does the entity disclose separately for all individually immaterial joint ventures, the aggregate amount of its share in the following financial information:

a. Profit or loss from continuing operations
b. Post-tax profit or loss from discontinued operations

c. Other comprehensive income

d. Total comprehensive income

**Commitments for joint ventures**

207  **IFRS 12.23(a)**  Does the entity disclose, separately from the amount of other commitments, the following unrecognised commitments that may give rise to a future outflow of cash or other resources:

a. Unrecognised commitments to contribute funding or resources as a result of, for example:
   ▶ The constitution or acquisition agreements of a joint venture (that, for example, require an entity to contribute funds over a specific period)
   ▶ Capital-intensive projects undertaken by a joint venture
   ▶ Unconditional purchase obligations, comprising procurement of equipment, inventory or services that an entity is committed to purchasing from, or on behalf of, a joint venture
   ▶ Unrecognised commitments to provide loans or other financial support to a joint venture
   ▶ Unrecognised commitments to contribute resources to a joint venture, such as assets or services
   ▶ Other non-cancellable unrecognised commitments relating to a joint venture

b. Unrecognised commitments to acquire another party’s ownership interest (or a portion of that ownership interest) in a joint venture if a particular event occurs or does not occur in the future

208  **IFRS 12.23(b)**  Does the entity disclose contingent liabilities incurred relating to its interests in joint ventures (including its share of contingent liabilities incurred jointly with other investors with joint control of the joint ventures), separately from the amount of other contingent liabilities

**Other disclosures for joint ventures**

209  **IFRS 12.22**  Does the entity disclose:

a. The nature and extent of any significant restrictions (e.g., resulting from borrowing arrangements, regulatory requirements or contractual arrangements between investors with joint control of a joint venture) on the ability of joint ventures to transfer funds to the entity in the form of cash dividends, or to repay loans or advances made by the entity

b. When the financial statements of a joint venture used in applying the equity method are as of a date or for a period that is different from that of the entity:
   ▶ The date of the end of the reporting period of the financial statements of that joint venture
   ▶ The reason for using a different date or period

c. The unrecognised share of losses of a joint venture for the reporting period and cumulatively, if the entity has stopped recognising its share of losses of the joint venture when applying the equity method

**Acquisition of an interest in a joint operation**

New 210  **IFRS 11.C1AB**  If the entity applies Amendments to IFRS 11 - Previously held interest in a joint operation as part of Annual Improvements to IFRS Standards 2015–2017 Cycle, issued in December 2017, to transactions in which it obtains joint control on or after the beginning of the annual reporting period beginning before 1 January 2019, does it disclose that fact

211  **IFRS 11.21A**  When an entity acquires an interest in a joint operation in which the activity of the joint operation constitutes a business, as defined in IFRS 3, does it disclose the information that is
required in IFRS 3 and other IFRSs in relation to business combinations.

This applies to the acquisition of both the initial interest and additional interests in a joint operation in which the activity of the joint operation constitute a business.

**Associates**

New 212 IAS 28.45C
If the entity applies Amendments to IFRS 10 and IAS 28 - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture issued in September 2014, does it disclose that fact?

New 213 IAS 28.45G
If the entity applies Amendments to IAS 28 - Long-term Interests in Associates and Joint ventures, issued in October 2017, in its annual IFRS financial statements for a period beginning before 1 January 2019, does it disclose that fact?

214 IFRS 12.7
Does the entity disclose information about significant judgements and assumptions it has made (and changes to those judgements and assumptions) in determining if it has significant influence over another entity?

215 IFRS 12.8
Does the entity include under significant judgements and assumptions mentioned in IFRS 12.7 above, those made by the entity when changes in facts and circumstances are such that the conclusion about whether it has significant influence changes during the reporting period?

216 IFRS 12.9
Does the entity disclose significant judgements and assumptions made in determining that:
  a. It does not have significant influence even though it holds 20 per cent or more of the voting rights of another entity?
  b. It has significant influence even though it holds less than 20 per cent of the voting rights of another entity?

217 IFRS 12.20
Does the entity disclose information that enables users of its financial statements to evaluate:
  a. The nature, extent and financial effects of its interests in associates, including the nature and effects of its contractual relationship with the other investors with significant influence over associates (IFRS 12.21 and 22)?
  b. The nature of, and changes in, the risks associated with its interests in associates (IFRS 12.23)?

218 IFRS 12.21(a)
Does the entity disclose for each associate that is material to the reporting entity:
  a. The name of the associate?
  b. The nature of the entity’s relationship with the associate (by, for example, describing the nature of the activities of the associate and whether they are strategic to the entity’s activities)?
  c. The principal place of business (and country of incorporation, if applicable and different from the principal place of business) of the associate?
  d. The proportion of ownership interest or participating share held by the entity and, if different, the proportion of voting rights held (if applicable)?

219 IFRS 12.21(b)
Does the entity disclose for each associate that is material to the reporting entity:
  a. Whether the investment in the associate is measured using the equity method or at fair value?
  b. The following financial information including, but not necessarily limited to:
     - Dividends received from the associate?
     - Current assets?
     - Non-current assets?
     - Current liabilities?
     - Non-current liabilities?
     - Revenue?
     - Profit or loss from continuing operations?
     - Post-tax profit or loss from discontinued operations?
     - Other comprehensive income?
- Total comprehensive income

c. If the associate is accounted for using the equity method, the fair value of its investment in the associate, if there is a quoted market price for the investment

**IFRS 12.B17**
When an entity's interest in an associate (or a portion of its interest in an associate) is classified (or included in a disposal group that is classified) as held for sale in accordance with IFRS 5, the entity is not required to disclose summarised financial information for it in accordance with IFRS 12.B12-B16.

220 **IFRS 12.B14**
Does the summarised financial information included in IFRS 12.B12 above reflect the amounts included in the IFRS financial statements of the associate and not the entity's share of those amounts

221 **IFRS 12.B14**
If the entity accounts for its interest in the associate using the equity method, are the amounts included in the IFRS financial statements of the associate adjusted to reflect adjustments made by the entity when using the equity method, such as fair value adjustments made at the time of acquisition and adjustments for differences in accounting policies

222 **IFRS 12.B14**
Does the entity provide a reconciliation of the summarised financial information presented to the carrying amount of its interest in the associate

223 **IFRS 12.B15**
If the entity presents the financial information on the basis of the associate's financial information, because a. the entity measures its interest in the associate at fair value and b. the associate does not prepare IFRS financial statements and preparation on that basis would be impracticable or cause undue cost:

- Does the entity disclose the basis on which the summarised financial information has been prepared

224 **IFRS 12.B16**
Does the entity disclose, in aggregate, the carrying amount of its interests in all individually immaterial associates that are accounted for using the equity method

225 **IFRS 12.B16**
Does the entity disclose separately, for those all individually immaterial associates, the aggregate amount of its share in the following financial information of those associates:

- Profit or loss from continuing operations
- Post-tax profit or loss from discontinued operations
- Other comprehensive income
- Total comprehensive income

**Commitments for associates**

226 **IFRS 12.23**
Does the entity disclose contingent liabilities incurred relating to its interests in associates (including its share of contingent liabilities incurred jointly with other investors with significant influence over the associate), separately from the amount of other contingent liabilities

**Other disclosures for associates**

227 **IFRS 12.22**
Does the entity disclose:

a. The nature and extent of any significant restrictions (e.g., resulting from borrowing arrangements, regulatory requirements or contractual arrangements between investors with significant influence over an associate) on the ability of associates to transfer funds to the entity in the form of cash dividends, or to repay loans or advances made by the entity

b. When the financial statements of an associate used in applying the equity method are as of a date or for a period that is different from that of the entity:

- The date of the end of the reporting period of the financial statements of that associate
- The reason for using a different date or period

c. The unrecognised share of losses of an associate for the reporting period and cumulatively, if the entity has stopped recognising its share of losses of the associate when applying the equity method
Structured entities

IFRS 12.B21 A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements.

IFRS 12.B22 A structured entity often has some or all of the following features or attributes:

a. Restricted activities
b. A narrow and well-defined objective, such as to effect a tax-efficient lease, carry out research and development activities, provide a source of capital or funding to an entity or provide investment opportunities for investors by passing on risks and rewards associated with the assets of the structured entity to investors

c. Insufficient equity to permit the structured entity to finance its activities without subordinated financial support
d. Financing in the form of multiple contractually linked instruments to investors that create concentrations of credit or other risks (tranches)

If structured entities are consolidated because they are controlled, they are subject to the same disclosure requirements as subsidiaries. In addition, there are certain further disclosure requirements detailed below.

228 IFRS 12.14 Does the entity disclose the terms of any contractual arrangements that could require the parent or its subsidiaries to provide financial support to a consolidated structured entity, including events or circumstances that could expose the reporting entity to a loss (e.g., liquidity arrangements or credit rating triggers associated with obligations to purchase assets of the structured entity or provide financial support)?

229 IFRS 12.15 If, during the reporting period, a parent or any of its subsidiaries has, without having a contractual obligation to do so, provided financial or other support to a consolidated structured entity (e.g., purchasing assets of or instruments issued by the structured entity), does the entity disclose:

a. The type and amount of support provided, including situations in which the parent or its subsidiaries assisted the structured entity in obtaining financial support
b. The reasons for providing the support

230 IFRS 12.16 If, during the reporting period, a parent or any of its subsidiaries has, without having a contractual obligation to do so, provided financial or other support to a previously unconsolidated structured entity and that provision of support resulted in the entity controlling the structured entity, does the entity disclose an explanation of the relevant factors in reaching that decision?

231 IFRS 12.17 Does the entity disclose any current intentions to provide financial or other support to a consolidated structured entity, including intentions to assist the structured entity in obtaining financial support?

Unconsolidated structured entities

IFRS 12.24 An entity shall disclose information that enables users of its financial statements:

a. To understand the nature and extent of its interests in unconsolidated structured entities (paragraphs 26-28)
b. To evaluate the nature of, and changes in, the risks associated with its interests in unconsolidated structured entities (paragraphs 29-31)

IFRS 12.25 The information required by IFRS 12.24(b) includes information about an entity’s exposure to risk from involvement that it had with unconsolidated structured entities in previous periods (e.g., sponsoring the structured entity), even if the entity no longer has any contractual involvement with the structured entity at the reporting date.

IFRS 12.25A An investment entity need not provide the disclosures required by IFRS 12.24 for an unconsolidated structured entity that it
controls and for which it presents the disclosures required by IFRS 12.19A-19G above.

232 IFRS 12.26 Does the entity disclose qualitative and quantitative information about its interests in unconsolidated structured entities, including, but not limited to, the nature, purpose, size and activities of the structured entity and how the structured entity is financed?

233 IFRS 12.27 If an entity has sponsored an unconsolidated structured entity for which it does not provide information (e.g., because it does not have an interest in the entity at the reporting date), does the entity disclose:
   a. How it has determined which structured entities it has sponsored?
   b. Income from those structured entities during the reporting period, including a description of the types of income presented?
   c. The carrying amount (at the time of transfer) of all assets transferred to those structured entities during the reporting period?

234 IFRS 12.29 Does the entity (in tabular format unless another format is more appropriate) disclose a summary of:
   a. The carrying amounts of the assets and liabilities recognised in its financial statements relating to its interests in unconsolidated structured entities?
   b. The line items in the statement of financial position in which those assets and liabilities are recognised?
   c. The amount that best represents the entity's maximum exposure to loss from its interests in unconsolidated structured entities, including how the maximum exposure to loss is determined, unless the entity cannot quantify its maximum exposure to loss from its interests in unconsolidated structured entities, then that fact and the reasons?
   d. A comparison of the carrying amounts of the assets and liabilities of the entity that relate to its interests in unconsolidated structured entities and the entity's maximum exposure to loss from those entities?

235 IFRS 12.26 Does the entity disclose the following additional information that, depending on the circumstances, might be relevant to an assessment of the risks to which an entity is exposed when it has an interest in an unconsolidated structured entity:
   a. The terms of an arrangement that could require the entity to provide financial support to an unconsolidated structured entity (e.g., liquidity arrangements or credit rating triggers associated with obligations to purchase assets of the structured entity or provide financial support), including:
      ▶ A description of events or circumstances that could expose the reporting entity to a loss
      ▶ Whether there are any terms that would limit the obligation
      ▶ Whether there are any other parties that provide financial support and, if so, how the reporting entity’s obligation ranks with those of other parties?
   b. Losses incurred by the entity during the reporting period relating to its interests in unconsolidated structured entities?
   c. The types of income the entity received during the reporting period from its interests in unconsolidated structured entities?
   d. Whether the entity is required to absorb losses of an unconsolidated structured entity before other parties, the maximum limit of such losses for the entity, and (if relevant) the ranking and amounts of potential losses?
borne by parties whose interests rank lower than the entity's interest in the unconsolidated structured entity.

e. Information about any liquidity arrangements, guarantees or other commitments with third parties that may affect the fair value or risk of the entity's interests in unconsolidated structured entities.

f. Any difficulties an unconsolidated structured entity has experienced in financing its activities during the reporting period.

g. In relation to the funding of an unconsolidated structured entity, the forms of funding (e.g., commercial paper or medium-term notes) and their weighted-average life. That information might include maturity analyses of the assets and funding of an unconsolidated structured entity if the structured entity has longer-term assets funded by shorter-term funding.

If, during the reporting period, the entity has, without having a contractual obligation to do so, provided financial or other support to an unconsolidated structured entity in which it previously had or currently has an interest (for example, purchasing assets of or instruments issued by the structured entity), does the entity disclose:

a. The type and amount of support provided, including situations in which the entity assisted the structured entity in obtaining financial support.

b. The reasons for providing the support.

Does the entity disclose any current intentions to provide financial or other support to an unconsolidated structured entity, including intentions to assist the structured entity in obtaining financial support.

Disclosure in parent’s and investor’s separate financial statements

IFRS 12 does not apply to an entity’s separate financial statements to which IAS 27 applies. However, if an entity has interests in unconsolidated structured entities and prepares separate financial statements as its only financial statements, it must apply the requirements in IFRS 12.24-31 when preparing those separate financial statements.

In the parent’s separate financial statements (where consolidated financial statements are not presented in accordance with IFRS 10.4(a)), does the entity disclose:

a. That the financial statements are separate financial statements.

b. That the exemption from consolidation has been used.

c. The name and principal place of business (and country of incorporation, if different) of the entity whose consolidated financial statements that comply with IFRSs have been produced for public use (and the address where these are obtainable).

d. A list of significant investments in subsidiaries, joint ventures and associates, including the names of those investees, the principal place of business (and country of incorporation, if different) of those investees, its proportion of the ownership interest (and if different, proportion of the voting rights) held in those investees.

e. A description of the method used to account for investments listed under (d) above.

Please note that when an entity prepares separate financial statements, it shall account for investments in subsidiaries, joint ventures and associates either at cost, in accordance with IFRS 9 or using the equity method, as described in IAS 28. If an entity elects to measure such investments at fair value, in accordance with IFRS 9, fair value would be measured in accordance with IFRS 13.
f. If the method used to account for investments in subsidiaries, associates and joint ventures is fair value, the fair value measurement disclosures required by IFRS 13 (refer to 'Fair value measurement' section)

239 IAS 27.17 When a parent (other than a parent covered by paragraph 16-16A) or an investor with joint control of, or significant influence over, an investee prepares separate financial statements, the parent or investor shall identify the financial statements prepared in accordance with IFRS 10, IFRS 11 or IAS 28 (as amended in 2011) to which they relate, does the parent or investor disclose in its separate financial statements:

a. The fact that the statements are separate financial statements
b. The reasons why those statements are prepared if not required by law
c. A list of significant investments in subsidiaries, joint ventures and associates, including:
   ▶ The names of those investees
   ▶ The principal place of business (and country of incorporation, if different) of those investees
   ▶ Its proportion of the ownership interest (and its proportion of the voting rights, if different) held in those investees
d. A description of the method used to account for the investments listed under (c)

IFRS 13.5-7 e. If the method used to account for the investments listed under (c) is fair value, the fair value measurement disclosures required by IFRS 13 (refer to 'Fair value measurement' section)

Separate financial statements (investment entities)

IFRS 12.6(b)(i) An investment entity that prepares financial statements in which all of its subsidiaries are measured at fair value through profit or loss, in accordance with IFRS 10.31, must present the disclosures relating to investment entities required by IFRS 12.

240 IAS 27.8A Does an investment entity that is required, throughout the current period and all comparative periods presented, to apply the exception to consolidation for all of its subsidiaries in accordance with IFRS 10.31 present separate financial statements as its only financial statements

241 IAS 27.16A When an investment entity that is a parent (other than a parent under IAS 27.16) prepares, in accordance with IAS 27.8A, separate financial statements as its only financial statements, does the entity disclose that fact and present the disclosures relating to investment entities required by IFRS 12

242 IAS 27.17 When a parent (other than a parent covered by IAS 27.16-16A) or an investor with joint control of, or significant influence over, an investee prepares separate financial statements, the parent or investor must identify the financial statements prepared in accordance with IFRS 10, IFRS 11 or IAS 28 (as amended in 2011) to which they relate. Does the parent or investor also disclose in its separate financial statements:

a. The fact that the statements are separate financial statements
b. The reasons why those statements are prepared if not required by law
c. A list of significant investments in subsidiaries, joint ventures and associates, including:
   ▶ The name of those investees
   ▶ The principal place of business (and country of incorporation, if different) of those investees
   ▶ Its proportion of the ownership interest (and its proportion of the voting rights, if different) held in those investees
d. A description of the method used to account for the investments listed under (c)
e. If the method used to account for the investments listed under (c) is fair value, the fair value measurement disclosures required by IFRS 13 (refer to 'Fair value measurement' section)

**Correction of errors**

**243 IAS 8.42** Does the entity report the amount of the correction of an error (unless this is impracticable) either:

a. By restating the comparative amounts for the prior period(s) in which the error occurred

Or

b. If the error occurred before the earliest prior period presented, by restating the opening balances of assets, liabilities and retained equity for that period

**244 IAS 8.43**

If it is impracticable to determine the period-specific effects of an error on comparative information, does the entity restate the opening balance of assets, liabilities and equity for the earliest period for which retrospective restatement is practicable

**245 IAS 8.43**

If it is impracticable to determine the cumulative effect at the beginning of the current reporting period of an error on all prior reporting periods, does the entity restate the comparative information to correct the error prospectively from the earliest date practicable

**IAS 8.46**

The entity excludes the correction of a prior period error from profit or loss for the period in which it discovers the error. The entity restates any information presented about prior periods, including any historical summaries of financial data, as far back as practicable.

**246 IAS 8.49**

In applying IAS 8.42, does the entity disclose:

a. The nature of the prior period error

b. The amount of the correction for each prior period presented (to the extent practicable) for each financial statement line item affected

c. The amount of the correction for each prior period presented (to the extent practicable) for basic and diluted earnings per share (if IAS 33 applies to the entity)

d. The amount of the correction at the beginning of the earliest prior period presented

e. If retrospective restatement is impracticable for a particular prior period, the circumstances that led to the existence of that condition and a description of how and from when the entity corrected the error

**IAS 8.49**

Financial statements of subsequent periods need not repeat these disclosures.

**Dividends**

**247 IAS 1.137** Does the entity disclose:

a. The amount of dividends proposed or declared before the financial statements were authorised for issue, but not recognised as a distribution to owners during the period

b. The related amount per share

c. The amount of any cumulative preference dividends not recognised

**Distributions of non-cash assets to owners (IFRIC 17)**

**248 IFRIC 17.16** In a distribution of non-cash assets to owners, does the entity disclose:

a. The carrying amount of the dividend payable at the beginning and end of the reporting period

b. The increase or decrease in the carrying amount of the dividend payable recognised in the reporting period, because of a change in the fair value of the assets to be distributed

**249 IFRS 13.5-7** For fair value measurements required by IFRIC 17 Distributions of Non-cash Assets to Owners, does the entity provide the disclosures required by IFRS 13 (refer to 'Fair value measurement' section)
If the entity declares a dividend to distribute a non-cash asset after the end of a reporting period, but before the financial statements are authorised for issue, does the entity disclose:

- The nature of the asset to be distributed
- The carrying amount of the asset to be distributed as of the end of the reporting period
- The fair value of the asset to be distributed as of the end of the reporting period, if it is different from the asset’s carrying amount
- If the fair value of the asset to be distributed is disclosed in accordance with (c) above, the following disclosures required by IFRS 13:
  - IFRS 13.99: Quantitative disclosures required by IFRS 13 in a tabular format, unless another format is more appropriate
  - IFRS 13.93(b): The level of the fair value hierarchy within which the fair value measurements are categorised in their entirety (Level 1, 2 or 3)
  - IFRS 13.93(d): For fair value measurements categorised within Level 2 and Level 3 of the hierarchy:
    - A description of the valuation technique(s) and the inputs used in the measurement
    - If there has been a change in valuation technique, that change and the reason(s) for making it
    - For fair value measurements categorised within Level 3 of the fair value hierarchy, quantitative information about the significant unobservable inputs used in the fair value measurement
  - An entity is not required to create quantitative information to comply with this disclosure requirement if significant unobservable inputs are not developed by the entity when measuring fair value (e.g., when an entity uses prices from prior transactions or third-party pricing information without adjustment). However, an entity cannot ignore quantitative unobservable inputs that are significant to the fair value measurement and are reasonably available to the entity.
  - For fair value measurements categorised within Level 3 of the fair value hierarchy, a description of the valuation processes used by the entity (including, for example, how an entity decides its valuation policies and procedures and analyses changes in fair value measurements from period to period)
  - IFRS 13.93(i): If the highest and best use of a non-financial asset differs from its current use, that fact and why the non-financial asset is being used in a manner that differs from its highest and best use

**Employee benefits**

- Although IAS 19 does not require specific disclosures about short-term employee benefits, other long-term employee benefits or termination benefits, other IFRSs may require disclosures. For example, IAS 1 requires that the entity disclose employee benefits expense and IAS 24 Related Party Disclosures requires disclosures about employee benefits for key management personnel.

**New**

- IAS 19.179: If the entity applies Amendments to IAS 19 Employee Benefits - Plan Amendment, Curtailment or Settlement issued in February 2018 to plan amendments, curtailments or settlements occurring on or after the beginning of the annual reporting period beginning before 1 January 2019, does it disclose that fact

**Multi-employer plans**

- IAS 19.33(b): If a multi-employer plan is a defined benefit plan and the entity accounts for the plan as a defined benefit plan, does the entity make the disclosures in ‘Defined benefit plans’ section below and IAS 19.148(a)-(c) below
If sufficient information is not available to use defined benefit accounting for a multi-employer plan that is a defined benefit plan, does the entity disclose:

a. A description of the funding arrangements, including the method used to determine the entity’s rate of contributions and any minimum funding requirements

b. A description of the extent to which the entity can be liable to the plan for other entities’ obligations under the terms and conditions of the multi-employer plan

c. A description of any agreed allocation of a deficit or surplus on:
   ▶ Wind-up of the plan
   Or
   ▶ The entity’s withdrawal from the plan

d. The fact that the plan is a defined benefit plan

e. The reason why sufficient information is not available to enable the entity to account for the plan as a defined benefit plan

f. The expected contributions to the plan for the next annual reporting period

g. Information about any deficit or surplus in the plan that may affect the amount of future contributions, including the basis used to determine that deficit or surplus and the implications, if any, for the entity

h. An indication of the level of participation of the entity in the plan compared with other participating entities

**Defined benefit plans that share risks between various entities under common control**

**IAS 19.40**
Defined benefit plans that share risks between various entities under common control (for example, a parent and its subsidiaries) are not multi-employer plans. Participation in such a plan is a related party transaction for each entity. The disclosure requirements in IAS 19.149 below only relate to the entity’s separate financial statements.

**IAS 19.42**

**IAS 19.149**
If the entity participates in a defined benefit plan that shares risks between various entities under common control, does the entity disclose the following:

a. The contractual agreement or stated policy for charging the net defined benefit cost or the fact that there is no such policy

b. The policy for determining the contribution to be paid by the entity

c. If the entity accounts for an allocation of the net defined benefit cost under paragraph 41, does the entity disclose all the information about the plan as a whole as required by IAS 19.135-147

This would occur when the risks of a defined benefit plan are shared between entities under common control and there is a contractual agreement or stated policy for allocating the net defined benefit cost.

Or

d. If the entity accounts for the contribution payable for the period as noted in IAS 19.41, the information about the plan as a whole required by IAS 19.135-137,139,142-144 and 147(a) and (b)

**IAS 19.150**
The information required by items c. and d. above can be disclosed by cross-reference to disclosures in another group entity’s financial statements if:

- That group entity’s financial statements separately identify and disclose the information required about the plan
- That group entity’s financial statements are available to users of the financial statements on the same terms as the financial statements of the entity and at the same time as, or earlier than, the financial statements of the entity

**Defined contribution plans**

**IAS 19.53**
Does the entity disclose the amount recognised as an expense for defined contribution plans
Does the entity disclose contributions to defined contribution plans for key management personnel, when required by IAS 24

Defined benefit plans

IAS 19 requires disclosure of information that:

a. Explains the characteristics of its defined benefit plans and risks associated with them
b. Identifies and explains the amounts in its financial statements arising from its defined benefit plans
c. Describes how its defined benefit plans may affect the amount, timing and uncertainty of the entity's future cash flows

To meet the objectives in IAS 19.135 above, an entity shall consider all the following:

► The level of detail necessary to satisfy the disclosure requirements
► How much emphasis to place on each of the various requirements
► How much aggregation or disaggregation to undertake
► Whether users of financial statements need additional information to evaluate the quantitative information disclosed

If the disclosures provided in accordance with the requirements in this standard and other IFRSs are insufficient to meet the objectives in IAS 19.135 above, an entity shall disclose additional information necessary to meet those objectives. For example, an entity may present an analysis of the present value of the defined benefit obligation that distinguishes the nature, characteristics and risks of the obligation. Such a disclosure could distinguish:

► Between amounts owing to active members, deferred members, and pensioners
► Between vested benefits and accrued but not vested benefits
► Between conditional benefits, amounts attributable to future salary increases and other benefits

An entity shall assess whether all or some disclosures should be disaggregated to distinguish plans or groups of plans with materially different risks. For example, an entity may disaggregate disclosure about plans showing one or more of the following features:

► Different geographical locations
► Different characteristics such as flat salary pension plans, final salary pension plans or post-employment medical plans
► Different regulatory environments
► Different reporting segments
► Different funding arrangements (e.g., wholly unfunded, wholly or partly funded)

Characteristics and risks associated with defined benefit plans

Does the entity disclose:

a. Information about the characteristics of its defined benefit plans, including:

► The nature of the benefits provided by the plan (e.g., final salary defined benefit plan or contribution-based plan with guarantee)

► A description of the regulatory framework in which the plan operates, for example, the level of any minimum funding requirements, and any effect of the regulatory framework on the plan, such as the asset ceiling

► A description of any other entity’s responsibilities for the governance of the plan, for example, responsibilities of trustees or of board members of the plan
b. A description of the risks to which the plan exposes the entity, focused on any unusual, entity-specific or plan-specific risks, and of any significant concentrations of risk. For example, if plan assets are invested primarily in one class of investments, e.g., property, the plan may expose the entity to a concentration of property market risk.

c. A description of any plan amendments, curtailments and settlements.

Explanations of the amounts in the financial statements

258 IAS 19.140 Does the entity provide a reconciliation from the opening balance to the closing balance for each of the following, if applicable:

a. The net defined benefit liability (asset), showing separate reconciliations for:
   - Plan assets
   - The present value of the defined benefit obligation
   - The effect of the asset ceiling

b. Any reimbursement rights, and a description of the relationship between any reimbursement right and the related obligation.

259 IAS 19.141 Does each reconciliation listed in IAS 19.140 show each of the following, if applicable:

a. Current service cost

b. Interest income or expense

c. Remeasurements of the net defined benefit liability (asset), showing separately:
   - The return on plan assets, excluding amounts included in interest in (b)
   - Actuarial gains and losses arising from changes in demographic assumptions

IAS 19.76(a) Demographic assumptions deal with matters such as:

- Mortality
- Rates of employee turnover, disability and early retirement
- The proportion of plan members with dependants who will be eligible for benefits
- The proportion of plan members who will select each form of payment option available under the plan terms
- Claim rates under medical plans

- Actuarial gains and losses arising from changes in demographic assumptions

IAS 19.76(b) Financial assumptions deal with items such as:

- The discount rate
- Benefit levels, excluding any cost of the benefits to be met by employees, and future salary
- In the case of medical benefits, future medical costs, including claim handling costs (i.e., the costs that will be incurred in processing and resolving claims, including legal and adjuster's fees)
- Taxes payable by the plan on contributions relating to service before the reporting date or on benefits resulting from that service

- Changes in the effect of limiting a net defined benefit asset to the asset ceiling, excluding amounts included in interest in (b), and how it determined the maximum economic benefit available, i.e., whether those benefits would be in the form of refunds, reductions in future contributions or a combination of both

d. Past service cost and gains and losses arising from settlements

Past service cost and gains and losses arising from settlements need not be distinguished if they occur together.

e. The effect of changes in foreign exchange rates
f. Contributions to the plan, showing separately those by the employer and by plan participants

g. Payments from the plan, showing separately the amount paid in respect of any settlements

h. The effects of business combinations and disposals

260  IAS 19.142
Does the entity disaggregate the fair value of the plan assets into classes that distinguish the nature and risks of those assets, subdividing each class of plan asset into those that have a quoted market price in an active market as defined in IFRS 13 and those that do not, for example:

a. Cash and cash equivalents

b. Equity instruments (segregated by industry type, company size, geography, etc.)

c. Debt instruments (segregated by type of issuer, credit quality, geography, etc.)

d. Real estate (segregated by geography, etc.)

e. Derivatives (segregated by type of underlying risk in the contract, for example, interest rate contracts, foreign exchange contracts, equity contracts, credit contracts, longevity swaps, etc.)

f. Investment funds (segregated by type of fund)

g. Asset-backed securities

h. Structured debt

Please note that information disclosed under IAS 19.142 is intended to provide third parties with all of the required information to understand risks associated with defined benefit plan assets considering the level of detail of disclosure, aggregation and emphasis discussed in IAS 19.136 above. In addition, the fair value of the plan assets is determined using IFRS 13, but the disclosure requirements of IFRS 13 do not apply.

261  IAS 19.143
Does the entity disclose the fair value of the entity's own transferable financial instruments held as plan assets, and the fair value of plan assets that are property occupied by, or other assets used by, the entity

262  IAS 19.144
Does the entity disclose the significant actuarial assumptions used to determine the present value of the defined benefit obligation (see examples of actuarial assumptions in IAS 19.76), which must be in absolute terms (e.g., as an absolute percentage, and not just as a margin between different percentages and other variables). When an entity provides disclosures in total for a grouping of plans, it must provide such disclosures in the form of weighted averages or relatively narrow ranges

263  IAS 19.145
Amount, timing and uncertainty of future cash flows

Does the entity disclose:

a. A sensitivity analysis for each significant actuarial assumption disclosed under IAS 19.144 above (see examples of actuarial assumptions in IAS 19.76 above) as of the end of the reporting period, showing how the defined benefit obligation would have been affected by changes in the relevant actuarial assumption that were reasonably possible at that date

b. The methods and assumptions used in preparing the sensitivity analyses required by item a. and the limitations of those methods

c. Changes from the previous period in the methods and assumptions used in preparing the sensitivity analyses, and the reasons for such changes

264  IAS 19.146
Does the entity disclose a description of any asset-liability matching strategies used by the plan or the entity, including the use of annuities and other techniques, such as longevity swaps, to manage risk

265  IAS 19.147
Does the entity disclose the following to provide an indication of the effect of the defined benefit plan on the entity’s future cash flows:
a. A description of any funding arrangements and funding policy that affect future contributions
b. The expected contributions to the plan for the next annual reporting period
c. Information about the maturity profile of the defined benefit obligation, including the weighted average duration of the defined benefit obligation and other information about the distribution of the timing of benefit payments

Disclosure requirements in other IFRSs

Where required by IAS 24, does the entity disclose information about:

a. Related party transactions with post-employment benefit plans
b. Post-employment benefits for key management personnel

Where required by IAS 37, does the entity disclose information about contingent liabilities arising from post-employment benefit obligations

The limit on a defined benefit asset, minimum funding requirements and their interaction (IFRIC 14)

Does the entity disclose any restrictions on the current realisability of the surplus (from a defined benefit plan) or the basis used to determine the amount of the economic benefit available

Under IAS 1, the entity discloses key sources of estimation uncertainty at the end of the reporting period that have a significant risk of causing a material adjustment to the carrying amount of the net asset or liability in the statement of financial position.

Equity

Does the entity disclose all of the following for each class of share capital (or for each category of equity interest for an entity without share capital):

a. The number of shares authorised
b. The number of shares issued and fully paid, and issued but not fully paid
c. Par value per share, or that the shares have no par value
d. A reconciliation of the shares outstanding at the beginning and at the end of the period
e. The rights, preferences and restrictions attaching to that class including restrictions on the distribution of dividends and the repayment of capital
f. Shares in the entity held by the entity or by its subsidiaries or associates (“treasury shares”)  
g. Shares reserved for issue under options and contracts for the sale of shares, including terms and amounts

An entity without share capital, such as a partnership or trust, discloses information equivalent to that required in IAS 1.79(a), showing movements during the reporting period in each category of equity interest, and the rights, preferences and restrictions attaching to each category of equity interest.

Does the entity disclose the nature and purpose of each reserve within equity

Does the entity provide disclosures in accordance with IAS 24, if the entity reacquires its own shares from related parties

Members’ shares in co-operative entities and similar instruments (IFRIC 2)

The contractual right of the holder of a financial instrument (including members’ shares in co-operative entities) to request redemption does not, in itself, require a financial instrument to be classified as a financial liability. Rather, the entity must consider all of the terms and conditions of the financial instrument in determining its classification as a financial liability or equity. Those terms and conditions include relevant...
local laws, regulations and the entity’s governing charter in effect at the date of classification that can impose various types of prohibitions on the redemption of members’ shares.

272  **IFRIC 2.13**  
If a change in the redemption prohibition of members’ shares leads to a transfer between financial liabilities and equity, does the entity disclose separately the amount, timing and reason for the transfer?

**Events after the reporting period**

273  **IAS 10.19**  
Do the disclosures in the financial statements reflect information received after the reporting period that relates to conditions that existed at the end of the reporting period?

274  **IAS 10.21**  
If non-adjusting events after the reporting period are material, and thus non-disclosure could influence the economic decisions of users taken on the basis of the financial statements, does the entity disclose the following for each material category of non-adjusting events after the reporting period (IAS 10.22 provides examples of such events):

   a. The nature of the event
   b. An estimate of its financial effect, or a statement that such an estimate cannot be made

In addition, please note that disclosure might be required if applicable in other sections of this checklist as under IFRS 3.B66 (regarding post year-end acquisitions), IAS 33.64 (regarding post year-end earnings per share changes due to capitalisation, share split, bonus issue, reverse share split), and IFRS 5.12 (regarding non-current assets or disposal groups) held for sale post year-end.

**Fair value measurement**

IFRS 13 specifies how to measure fair value, when fair value (and measures based on fair value, such as fair value less costs to sell) is required or permitted by another IFRS. Such fair value measurements may be recognised in the statement of financial position or disclosed in the notes to the financial statements (for example, the comparison of carrying value and fair value required by IFRS 7).

   **IFRS 13.5**
   IFRS 13 applies when another IFRS requires or permits measurement(s) or disclosure(s) of fair value, except for:

   a. Share-based payment transactions within the scope of IFRS 2 Share-based Payment
   b. Leasing transactions within the scope of IAS 17 Leases (or leasing transactions accounted for under IFRS 16 if an entity applies IFRS 16 early)
   c. Measurements that have some similarities to fair value, but are not fair value, such as net realisable value in IAS 2 or value in use in IAS 36

   **IFRS 13.7**
   IFRS 13 also requires disclosures about fair value measurements. If fair value is measured in accordance with IFRS 13 after initial recognition (whether recognised or only disclosed), the disclosure requirements in IFRS 13 will apply, unless IFRS 13 provides a specific exemption. The disclosures required by IFRS 13 are not required for the following:

   a. Plan assets measured at fair value in accordance with IAS 19
   b. Retirement benefit plan investments measured at fair value in accordance with IAS 26 Accounting and Reporting by Retirement Benefit Plans
   c. Assets for which recoverable amount is fair value less costs of disposal in accordance with IAS 36

**Disclosure objectives**

275  **IFRS 13.91**  
Does the entity disclose information that helps users of its financial statements assess both of the following:

   a. For assets and liabilities that are measured at fair value on a recurring or non-recurring basis in the statement of financial position after initial recognition, the valuation techniques and inputs used to develop those measurements
b. For recurring fair value measurements using significant unobservable inputs (Level 3), the effect of the measurements on profit or loss or other comprehensive income for the period

<table>
<thead>
<tr>
<th>IFRS 13.92</th>
<th>To meet the objectives of IFRS 13.91, an entity is required to consider all of the following:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>The level of detail necessary to satisfy the disclosure requirements</td>
</tr>
<tr>
<td></td>
<td>How much emphasis to place on each of the various requirements</td>
</tr>
<tr>
<td></td>
<td>How much aggregation or disaggregation to undertake</td>
</tr>
<tr>
<td></td>
<td>Whether users of financial statements need additional information to evaluate the quantitative information disclosed</td>
</tr>
</tbody>
</table>

| 276 IFRS 13.92 | If the disclosures provided in accordance with IFRS 13 and other IFRSs are insufficient to meet the objectives in IFRS 13.91, does the entity disclose additional information in order to meet those objectives |

| IFRS 13.93 | In addition, IFRS 13.93 establishes the minimum disclosure requirements for fair value measurements (and those based on fair value) that are recognised in the statement of financial position after initial recognition. The requirements vary depending on whether the fair value measurements are recurring or non-recurring and their categorisation within the fair value hierarchy (i.e., Level 1, 2 or 3).

In order to determine the appropriate categorisation of a fair value measurement (as a whole) within the hierarchy, an entity determines the categorisation of the inputs used to measure fair value and categorisation of the fair value measurement (as a whole)

(i) Categorisation of the inputs in the fair value hierarchy: IFRS 13’s fair value hierarchy categorises inputs to valuation techniques into the following levels, based on their observability:

<table>
<thead>
<tr>
<th>IFRS 13.App. A</th>
<th>Level 1 inputs: Quoted prices (that are unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Level 2 inputs: Inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly</td>
</tr>
<tr>
<td></td>
<td>Level 3 inputs: Unobservable inputs for the asset or liability</td>
</tr>
</tbody>
</table>

(ii) Categorisation of the fair value measurement (as a whole) in the fair value hierarchy:

| IFRS 13.73 | A fair value measurement (as a whole) is categorised within the fair value hierarchy, based on the lowest level input that is significant to the entire measurement (Level 1 inputs being the highest and Level 3 inputs, the lowest). For measures based on fair value (such as fair value less costs to sell), this determination does not consider the ‘costs to sell’.

When measured based on quoted prices in an active market (that are unadjusted) for identical assets or liabilities, fair value measurement is categorised within Level 1.

When measured using valuation techniques for which the lowest level input that is significant to the fair value measurement is market directly or indirectly observable, the fair value measurement as a whole is categorised within Level 2.

When measured using valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable, the fair value measurement as a whole is categorised within Level 3.

| Accounting policies | |

| 277 IFRS 13.95 | Does the entity disclose its policy for determining when transfers between levels of the fair value hierarchy are deemed to have occurred |

| IFRS 13.95(c) | |

| IFRS 13.95(e) (iv) | IFRS 13.95 requires that an entity determine (and consistently follow) its policy for determining when transfers between levels in the fair value hierarchy are deemed to have occurred. The |
policy for the timing of recognising transfers is required to be the same for transfers into and out of levels. Examples of such policies include:
(a) The date of the event, or change in circumstances, that caused the transfer
(b) The beginning of the reporting period
(c) The end of the reporting period

If an entity makes an accounting policy decision to use the exception in IFRS 13.48, does the entity disclose that policy, including its policy for allocating bid-ask spread adjustments and credit adjustments?

279 IFRS 13.94 If an entity holds a group of financial assets and financial liabilities is exposed to market risks (as defined in IFRS 7) and to the credit risk (as defined in IFRS 7) of each of the counterparties and manages that group of assets and liabilities on the basis of its net exposure, IFRS 13.48 permits the use of a measurement exception for measuring fair value, provided the criteria set out in IFRS 13.49 are met. Under this exception, an entity measures the fair value of the group of financial assets and liabilities consistently with how market participants would price the net risk exposure at the measurement date. Please note that the exception does not affect financial statement presentation requirements. In addition, the reference to financial assets and financial liabilities in IFRS 13.48 to 51 should be read as applying to all contracts within the scope of, and accounted for, under IFRS 9, regardless of whether they meet the definitions of financial assets or financial liabilities in IAS 32.

Class of assets and liabilities

Does the entity classify assets and liabilities under the scope of IFRS 13 based on both:

(a) The nature, characteristics and risks of the asset or liability
(b) The level of the fair value hierarchy within which the fair value measurement is categorised

280 IFRS 13.94 The number of classes of assets and liabilities may need to be greater for fair value measurements categorised within Level 3 because those measurements have a greater degree of uncertainty and subjectivity. Determining the appropriate classes of assets and liabilities requires judgement and often may require more disaggregation than the line items presented in the statement of financial position. Note: If another IFRS specifies the class for an asset or liability, an entity may use that class when providing the disclosures required by IFRS 13, provided that class meets IFRS 13’s requirements for determining classes.

Does the entity provide sufficient information to permit reconciliation between the classes of assets and liabilities and the line items presented in the statement of financial position?

Fair value disclosures

General

281 IFRS 13.99 Does the entity present the quantitative disclosures required by IFRS 13 in tabular format, unless another format is more appropriate?

282 IFRS 13.98 For a liability measured at fair value and issued with an inseparable third-party credit enhancement, does the entity disclose the existence of that credit enhancement and whether it is reflected in the fair value measurement of the liability?

Assets and liabilities not measured at fair value, but for which fair value is disclosed

283 IFRS 13.97 For each class of assets and liabilities not measured at fair value in the statement of financial position, but for which fair value is disclosed, does the entity disclose:
(a) The level of fair value hierarchy within which the fair value measurement(s) are categorised in their entirety
(b) For fair value measurement(s) categorised within Levels 2 and 3 of the fair value hierarchy:
  ▶ A description of the valuation technique(s) and the inputs used in the measurement
► If there has been a change in valuation technique, that change and the reason(s) for making it

**IFRS 13.93(c)**

> c. If the highest and best use of a non-financial asset differs from its current use, that fact and why the non-financial asset is being used in a manner that differs from its highest and best use

---

**Recurring fair value measurements of assets and liabilities**

**IFRS 13.93(a)**

Recurring fair value measurements of assets or liabilities are those that other IFRSs require or permit in the statement of financial position at the end of each reporting period.

Non-recurring fair value measurements of assets or liabilities are those that other IFRSs require or permit in the statement of financial position in particular circumstances (e.g., when an entity measures an asset held for sale at fair value less costs to sell in accordance with IFRS 5 because the asset’s fair value less costs to sell is lower than its carrying amount).

284 **IFRS 13.93**

For each class of assets and liabilities that are measured at fair value on a recurring basis in the statement of financial position after initial recognition, does the entity disclose:

a. The fair value measurement at the end of the reporting period

b. The level of the fair value hierarchy within which the fair value measurements are categorised in their entirety (Level 1, 2 or 3)

c. For assets and liabilities held at the end of the reporting period, the amount of any transfers between Level 1 and Level 2, separately disclosing transfers into each level from transfers out of each level, and the reasons for those transfers

d. For fair value measurements categorised within Level 2 and Level 3 of the hierarchy:

   ▶ A description of the valuation technique(s) and the inputs used in the measurement

   ▶ If there has been a change in valuation technique, that change and the reason(s) for making it

   ▶ For fair value measurements categorised within Level 3 of the fair value hierarchy, quantitative information about the significant unobservable inputs used in the fair value measurement

**IFRS 13.93(d)**

An entity is not required to create quantitative information to comply with this disclosure requirement if significant unobservable inputs are not developed by the entity when measuring fair value (e.g., when an entity uses prices from prior transactions or third-party pricing information without adjustment). However, an entity cannot ignore quantitative unobservable inputs that are significant to the fair value measurement and are reasonably available to the entity.

e. For fair value measurements categorised within Level 3 of the fair value hierarchy, a reconciliation from the opening balances to the closing balances disclosing separately changes during the period attributable to the following:

   ▶ Total gains and losses recognised during the period in profit or loss, and the line item(s) in profit or loss in which those gains or losses are recognised

   ▶ Total gains and losses recognised during the period in other comprehensive income, and the line item(s) in other comprehensive income in which those gains or losses are recognised

   ▶ Purchases, sales, issues and settlements (each disclosed separately)

   ▶ The amounts of any transfers into and out of Level 3 of the fair value hierarchy, separately disclosing transfers into Level 3 from transfers out of Level 3, and the reasons for those transfers
f. For total gains and losses recognised during the period in profit or loss in accordance with IFRS 13.93(e)(i) (see e. above), the amount that is attributable to the change in unrealised gains or losses relating to those assets and liabilities held at the end of the period, and the line item(s) in profit or loss in which those unrealised gains or losses are recognised.

g. For fair value measurements categorised within Level 3 of the fair value hierarchy, a description of the valuation processes used by the entity (including, for example, how an entity decides its valuation policies and procedures and analyses changes in fair value measurements from period to period).

h. For fair value measurements categorised within Level 3 of the fair value hierarchy:
   ▶ A narrative description of the sensitivity if a change in an unobservable input (including at a minimum those unobservable inputs disclosed in accordance with IFRS 13.93(d), see d. above) to a different amount might result in a significantly higher or lower fair value measurement.
   ▶ If there are interrelationships between significant unobservable inputs and other unobservable inputs used in the fair value measurement, a narrative description of those interrelationships and of how they might magnify or mitigate the effect of changes in the unobservable inputs on the fair value measurement.
   ▶ For financial assets and financial liabilities, if changing one or more of the unobservable inputs to reflect reasonably possible alternative assumptions would change fair value significantly, that fact, the effect of those changes and how the effect of a change was calculated.

i. If the highest and best use of a non-financial asset differs from its current use, that fact and why the non-financial asset is being used in a manner that differs from its highest and best use.

IFRS 13.93(h) For the sensitivity analysis for financial assets and financial liabilities, significance is judged with respect to profit or loss, and total assets or total liabilities, or, when changes in fair value are recognised in other comprehensive income, total equity.

IFRS 13 Appendix A The highest and best use of a non-financial asset is the use by market participants that would maximise the value of the asset or the group of assets and liabilities (e.g., a business) within which the asset would be used.

Non-recurring fair value measurements of assets and liabilities

IFRS 13.93(a) Non-recurring fair value measurements of assets or liabilities are those that other IFRSs require or permit in the statement of financial position in particular circumstances (e.g., when an entity measures an asset held for sale at fair value less costs to sell in accordance with IFRS 5 because the asset’s fair value less costs to sell is lower than its carrying amount).

285 IFRS 13.93 Does the entity disclose for assets and liabilities that are measured at fair value on a non-recurring basis in the statement of financial position after initial recognition:
   a. The fair value measurement at the end of the reporting period.
   b. The reasons for the fair value measurement.
   c. The level of the fair value hierarchy within which the fair value measurements are categorised in their entirety (Level 1, 2 or 3).
   d. For fair value measurements categorised within Level 2 and Level 3 of the hierarchy:
      ▶ A description of the valuation technique(s) and the inputs used in the measurement.
If there has been a change in valuation technique, that change and the reason(s) for making it.

For fair value measurements categorised within Level 3 of the fair value hierarchy, quantitative information about the significant unobservable inputs used in the fair value measurement.

IFRS 13.93(d) An entity is not required to create quantitative information to comply with this disclosure requirement if significant unobservable inputs are not developed by the entity when measuring fair value (e.g., when an entity uses prices from prior transactions or third-party pricing information without adjustment). However, an entity cannot ignore quantitative unobservable inputs that are significant to the fair value measurement and are reasonably available to the entity.

e. For fair value measurements categorised within Level 3 of the fair value hierarchy, a description of the valuation processes used by the entity (including, for example, how an entity decides its valuation policies and procedures and analyses changes in fair value measurements from period to period).

f. If the highest and best use of a non-financial asset differs from its current use, that fact and why the non-financial asset is being used in a manner that differs from its highest and best use.

Financial guarantee contracts

A financial guarantee contract is defined as a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

IFRS 9 Appendix A

Does the entity disclose its accounting policy for financial guarantee contracts?

286 IAS 1.117 Does the entity disclose its accounting policy for financial guarantee contracts?

287 IFRS 7.39 Does the entity disclose a maturity analysis for non-derivative financial liabilities (including issued financial guarantee contracts) that shows the remaining contractual maturities?

IFRS 7.B11C(c) For issued financial guarantee contracts the maximum amount of the guarantee is allocated to the earliest period in which the guarantee could be called.

288 IFRS 7.B10(c) Does the entity disclose maximum credit risk exposure relating to financial guarantee contracts at the maximum amount the entity could have to pay if the guarantee is called on (which may be significantly greater than the amount recognised as a liability)?

Financial Instruments

Items in this section set out the disclosure requirements if the entity adopts IFRS 9 Financial Instruments (2014).

289 IFRS 7.6 If disclosures are required by class of financial instrument, does the entity:

a. Group financial instruments into classes that are appropriate to the nature of the information disclosed?
and that take into account the characteristics of those financial instruments.

b. Provide sufficient information to permit reconciliation to the relevant items in the statement of financial position.

IFRS 7.6 requires the entity to group financial instruments into classes that are appropriate to the nature of the information disclosed and that take into account the characteristics of those financial instruments. These classes are determined by the entity and, as such, are distinct from the categories of financial instruments specified in IFRS 9.

In determining classes of financial instruments, an entity, at minimum:

a. Distinguishes between instruments measured at amortised cost from those measured at fair value.

b. Treats as a separate class or classes those financial instruments outside the scope of this IFRS.

The entity decides how much detail it provides to satisfy the requirements, how much emphasis it places on different aspects of the requirements, and how it aggregates information to display the overall picture without combining information with different characteristics, in the light of its circumstances. It is necessary to balance between excessive detail and obscuring important information as a result of too much aggregation. For example, an entity must not obscure important information by including it among a large amount of insignificant detail. Similarly, an entity must not aggregate information so that it obscures important differences between individual transactions or associated risks.

IFRS 7.7 Does the entity disclose information that enables users of its financial statements to evaluate the significance of financial instruments to its financial position and performance?

New IFRS 7.8 Does the entity disclose, either in the statement of financial position or in the notes, the carrying amounts of each of the following:

a. Financial assets measured at fair value through profit or loss, showing separately:

   - Those designated as such upon initial recognition or subsequently in accordance with IFRS 9.6.7.1
   - Those mandatorily measured at fair value through profit or loss in accordance with IFRS 9
   - Those measured as such in accordance with the election in IFRS 9.3.3.5, if the entity adopts IFRS 17 early
   - Those measured as such in accordance with the election in IAS 32.33A, if the entity adopts IFRS 17 early

b. Financial liabilities at fair value through profit or loss, showing separately:

   - Those designated as such upon initial recognition or subsequently in accordance with IFRS 9.6.7.1
   - Those that meet the definition of held for trading in IFRS 9

   c. Financial assets measured at amortised cost
   d. Financial liabilities measured at amortised cost
   e. Financial assets measured at fair value through other comprehensive income, showing separately:

   - Financial assets that are measured at fair value through other comprehensive income in accordance with IFRS 9.4.1.2A

IFRS 9.5.7.5 Investments in equity instruments designated as such upon initial recognition in accordance with IFRS 9.5.7.5

Financial assets or financial liabilities at fair value through profit or loss

New IFRS 7.9 If the entity has designated a financial asset (or group of financial assets) as measured at fair value through profit or loss that would otherwise be measured at fair value through other comprehensive income or amortised cost, does it disclose:
a. The maximum exposure to credit risk (see IFRS 7.36(a)) of the financial asset (or group of financial assets) at the end of the reporting period

b. The amount by which any related credit derivatives or similar instruments mitigate that maximum exposure to credit risk (see IFRS 7.36(b))

c. The amount of change, during the period and cumulatively, in the fair value of the financial asset (or group of financial assets) that is attributable to changes in the credit risk of the financial asset determined either:
   ▶ As the change in its fair value that is not attributable to changes in market conditions that give rise to market risk
   Or
   ▶ Using an alternative method that the entity believes more faithfully represents the change in its fair value that is attributable to changes in credit risk of the asset

Changes in market conditions that give rise to market risk include changes in an interest rate, commodity price, foreign exchange rate or index of prices or rates.

d. The amount of the change in the fair value of any related credit derivatives or similar instruments that has occurred during the reporting period and cumulatively since the financial asset was designated

New 293

If the entity (a) has designated a financial liability as at fair value through profit or loss in accordance with IFRS 9.4.2.2 and (b) is required to present the effects of changes in that liability's credit risk in other comprehensive income (see IFRS 9.5.7.7) does it disclose:

- 85.7.13
  a. The amount of change, cumulatively, in the fair value of the financial liability that is attributable to changes in the credit risk of that liability
  b. The difference between the financial liability's carrying amount and the amount the entity would be contractually required to pay at maturity to the holder of the obligation
  c. Any transfers of the cumulative gain or loss within equity during the reporting period, including the reason for such transfers
  d. If a liability is derecognised during the reporting period, the amount (if any) presented in other comprehensive income that was realised at derecognition

An entity presents a gain or loss on a financial liability designated at fair value through profit or loss, as follows:

a. The change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is presented in other comprehensive income

b. The remaining amount of change in the fair value of the liability is presented in profit or loss unless the treatment of the effects of changes in the liability's credit risk described in (a) would create or enlarge an accounting mismatch in profit or loss.

If these requirements were to create or enlarge an accounting mismatch in profit or loss, an entity must present all gains and losses on that liability (including the effects of changes in the credit risk of that liability) in profit or loss.

New 294

If the entity (a) has designated a financial liability as at fair value through profit or loss in accordance with IFRS 9.4.2.2 and (b) is required to present all changes in the fair value of that liability (including the effects of changes in the credit risk of the liability) in profit or loss (see IFRS 9.5.7.7-8) does it disclose:

- 85.7.13
  a. The amount of change, during the period and cumulatively, in the fair value of the financial liability that is attributable to changes in the credit risk of that liability
  b. The difference between the financial liability's carrying amount and the amount the entity would be contractually required to pay at maturity to the holder of the obligation

New 295

Does the entity disclose:
IFRS 9.5.7.7

(a) A detailed description of the methods used to comply with the requirements in IFRS 7.9(c), 10(a) and 10A(a) and IFRS 9.5.7.7(a), including an explanation of why the method is appropriate

b. If the entity believes that the disclosure it has given, either in the statement of financial position or in the notes, to comply with the requirements in IFRS 7.9(c), 10(a) and 10A(a) or IFRS 9.5.7.7(a) does not faithfully represent the change in the fair value of the financial asset or financial liability attributable to changes in its credit risk:
   ▶ The reasons for reaching this conclusion
   ▶ The factors the entity believes are relevant

IFRS 9. B5.7.7

(c) A detailed description of the methodology or methodologies used to determine whether presenting the effects of changes in a liability’s credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss

IFRS 9. B5.7.6

d. If the entity is required to present the effects of changes in a liability’s credit risk in profit or loss (to comply with c. above), the disclosure must include a detailed description of the economic relationship described in IFRS 9.B5.7.6

Investments in equity instruments designated at fair value through other comprehensive income

New 296 IFRS 7.11A IFRS 9.5.7.5
If an entity designated investments in equity instruments to be measured at fair value through other comprehensive income, as permitted by IFRS 9.5.7.5, does it disclose:

a. Which investments in equity instruments have been designated to be measured at fair value through other comprehensive income
b. The reasons for using this presentation alternative
c. The fair value of each such investment at the end of the reporting period
d. Dividends recognised during the period, showing separately:
   ▶ Those related to investments derecognised during the reporting period
   ▶ Those related to investments held at the end of the reporting period
e. Any transfers of the cumulative gain or loss within equity during the reporting period and the reason for such transfers

New 297 IFRS 7.11B
If an entity derecognises investments in equity instruments measured at fair value through other comprehensive income during the reporting period, does it disclose:

a. The reasons for disposing of the investments
b. The fair value of the investments at the date of derecognition
c. The cumulative gain or loss on disposal

Reclassification

New 298 IFRS 7.12B IFRS 9.4.4.1
If the entity, in the current or previous reporting periods, has reclassified any financial assets in accordance with paragraph 4.4.1 of IFRS 9, for each such event, does the entity disclose:

a. The date of reclassification
b. A detailed explanation of the change in business model and a qualitative description of its effect on the entity’s financial statements
c. The amount reclassified into and out of each category
d. For any financial assets reclassified out of the amortised cost measurement category so that they are measured at fair value through profit or loss, any gain or loss arising from a difference between the previous amortised cost of the financial asset and its fair value at the reclassification date

eas. For any financial asset is reclassified out of the fair value through other comprehensive income measurement category so that it is measured at fair value through profit or loss, any cumulative gain or loss previously recognised in other comprehensive income that is reclassified to profit or loss
For each reporting period following reclassification until derecognition of assets reclassified out of the fair value through profit or loss category so that they are measured at amortised cost or fair value through other comprehensive income in accordance with IFRS 9.4.4.1, does the entity disclose:

a. The effective interest rate determined on the date of reclassification

b. The interest revenue recognised

If, since its last annual reporting date, the entity has reclassified financial assets out of the fair value through other comprehensive income category so that they are measured at amortised cost or out of the fair value through profit or loss category so that they are measured at amortised cost or fair value through other comprehensive income, does it disclose:

a. The fair value of the financial assets at the end of the reporting period

b. The fair value gain or loss that would have been recognised in profit or loss or other comprehensive income during the reporting period if the financial assets had not been reclassified

If an entity treats the fair value of a financial asset or financial liability as its amortised cost at the date of initial application of IFRS 9, does the entity make the disclosures in IFRS 7.42N for each reporting period until derecognition?

Transfers of financial assets

Does the entity present the disclosures required by IFRS 7.42B-42H in a single note in its financial statements?

Does the entity disclose information that enables users of its financial statements:

a. To understand the relationship between transferred financial assets that are not derecognised in their entirety and the associated liabilities

b. To evaluate the nature of, and risks associated with, the entity’s continuing involvement in derecognised financial assets

The disclosures required by IFRS 7.42B-42H relating to transferred financial assets supplement the other disclosure requirements of IFRS 7. The entity provides these disclosures for all transferred financial assets that are not derecognised and for any continuing involvement in a transferred asset, existing at the reporting date, irrespective of when the related transfer transaction occurred.

For these disclosures, an entity transfers all or part of a financial asset (the transferred financial asset), if it either:

a. Transfers the contractual rights to receive the cash flows of that financial asset

Or

b. Retains the contractual rights to receive the cash flows of that financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients in an arrangement (commonly referred to as a ‘pass-through arrangement’)

Note: the meaning of ‘transfer’ in IFRS 7 differs from that in IFRS 9 with respect to pass-through arrangements. In particular, for pass-through arrangements to qualify as transfers under IFRS 9, all three conditions in IFRS 9.3.2.5 (commonly referred to as the pass-through conditions) need to be met. In contrast, pass-through conditions need not be met for pass-through arrangements to be within the scope of IFRS 7. Accordingly, an arrangement whereby a reporting entity (including any consolidated structured entity) issues notes payable to investors that are contractually referenced to specified assets, and are non-recourse to the group, falls within the scope of these disclosure requirements, irrespective of whether such an arrangement meets all the IFRS 9 pass-through conditions.
Transferred financial assets that are not derecognised in their entirety

To meet the objectives in IFRS 7.42B(a) above, does the entity disclose for each class of transferred financial assets that are not derecognised in their entirety:

a. The nature of the transferred assets
b. The nature of the risks and rewards of ownership to which the entity remains exposed
c. A description of the nature of the relationship between the transferred assets and the associated liabilities, including any restrictions arising from the transfer on the entity’s use of the transferred assets
d. When the counterparty (counterparties) to the associated liabilities has (have) recourse only to the transferred assets, a schedule that sets out:
   ▶ The fair value of the transferred assets
   ▶ The fair value of the associated liabilities
   ▶ The net position
e. When the entity continues to recognise all of the transferred assets, the carrying amounts of the transferred assets and the associated liabilities

To meet the objectives in IFRS 7.42B(b), when the entity derecognises transferred financial assets in their entirety, but

Transferred financial assets that are derecognised in their entirety

For the purpose of applying the disclosure requirements of IFRS 7.42E-42H, an entity has continuing involvement in a transferred financial asset if, as part of the transfer, the entity retains any of the contractual rights or obligations inherent in the transferred financial asset or obtains any new contractual rights or obligations relating to the transferred financial asset. The following do not constitute continuing involvement:

a. Normal representations and warranties relating to fraudulent transfer and concepts of reasonableness, good faith and fair dealings that could invalidate a transfer as a result of legal action
b. Forward, option and other contracts to reacquire the transferred financial asset for which the contract price (or exercise price) is the fair value of the transferred financial asset
c. An arrangement whereby an entity retains the contractual rights to receive the cash flows of a financial asset, but assumes a contractual obligation to pay the cash flows to one or more entities and the conditions in IFRS 9.3.2.5(a)-(c) are met

The assessment of continuing involvement in a transferred financial asset for the purpose of the disclosure requirements of IFRS 7.42E-42H is made at the level of the reporting entity. IFRS 7.42E-42H requires qualitative and quantitative disclosures for each type of continuing involvement in derecognised financial assets. An entity aggregates its continuing involvement into types that are representative of the entity’s exposure to risks. For example, by type of financial instrument (e.g., guarantees or call options) or by type of transfer (e.g., factoring of receivables, securitisations and secured lending).

To meet the objectives in IFRS 7.42B(b), when the entity derecognises transferred financial assets in their entirety, but
has continuing involvement in them, does the entity disclose for each type of continuing involvement at the reporting date:

<p>| | | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>a.</td>
<td>The carrying amount of the assets and liabilities that are recognised in the entity’s statement of financial position and represent the entity’s continuing involvement in the derecognised financial assets, and the line items in which those assets and liabilities are recognised</td>
<td></td>
</tr>
<tr>
<td>b.</td>
<td>The fair value of the assets and liabilities that represent the entity’s continuing involvement in the derecognised financial assets</td>
<td></td>
</tr>
<tr>
<td>c.</td>
<td>The amount that best represents the entity’s maximum exposure to loss from its continuing involvement in the derecognised financial assets, and how the maximum exposure to loss is determined</td>
<td></td>
</tr>
<tr>
<td>d.</td>
<td>The undiscounted cash outflows that would or may be required to repurchase the derecognised financial assets or other amounts payable to the transferee for the transferred assets</td>
<td></td>
</tr>
</tbody>
</table>

Examples of cash outflows to repurchase the derecognised financial assets include the strike price in an option agreement or the repurchase price in a repurchase agreement. If the cash outflow is variable, then the amounts disclosed are based on the conditions that exist at each reporting date.

e. A maturity analysis of the undiscounted cash outflows that would or may be required to repurchase the derecognised financial assets or other amounts payable to the transferee in respect of the transferred assets, showing the remaining contractual maturities of the entity’s continuing involvement.

f. Qualitative information that explains and supports the quantitative disclosures in (a)–(e), that includes:

- The derecognised financial assets and the nature and purpose of the continuing involvement retained after transferring those assets
- The risks to which an entity is exposed, including:
  - A description of how the entity manages the risk inherent in its continuing involvement in the derecognised financial assets
  - Whether the entity is required to bear losses before other parties, and the ranking and amounts of losses borne by parties whose interests rank lower than the entity’s interest in the asset (i.e., its continuing involvement in the asset)
  - A description of any triggers associated with obligations to provide financial support or to repurchase a transferred financial asset

An entity may aggregate the information required by IFRS 7.42E above for a particular asset if the entity has more than one type of continuing involvement in that derecognised financial asset, and report it under one type of continuing involvement.

Does the entity disclose, for each reporting period for which a statement of comprehensive income is presented, for each type of continuing involvement:

a. The gain or loss recognised at the date of transfer of the assets, including:

- Whether that gain or loss on derecognition arose because the fair values of the components of the previously recognised asset (i.e., the interest in the asset
derecognised and the interest retained by the entity) were different from the fair value of the previously recognised asset as a whole.

► If that gain or loss on derecognition arose because the fair values of the components of the previously recognised asset were different from the fair value of the previously recognised asset as a whole, whether the fair value measurements included significant inputs that were not based on observable market data.

b. Income and expenses recognised, both in the reporting period and cumulatively, from the entity’s continuing involvement (for example, fair value changes in derivative instruments).

c. If the total amount of proceeds from transfer activity (that qualifies for derecognition) in a reporting period is not evenly distributed throughout the reporting period (for example, if a substantial proportion of the total amount of transfer activity takes place in the closing days of a reporting period):

► When the greatest transfer activity took place within that reporting period (for example, the last five days before the end of the reporting period).

► The amount recognised (for example, related gains or losses) from transfer activity in that part of the reporting period.

► The total amount of proceeds from transfer activity in that part of the reporting period.

### Supplementary information

New 307 IFRS 7.42H Does the entity disclose any additional information that it considers necessary to meet the disclosure objectives of IFRS 7.42B above.

Collateral

New 308 IFRS 7.14 Does the entity disclose:

a. The carrying amount of financial assets pledged as collateral for liabilities or contingent liabilities, including amounts reclassified in accordance with IFRS 9.3.2.23(a).

b. The terms and conditions relating to the pledge.

If a transferor provides non-cash collateral (such as debt or equity instruments) to the transferee, the accounting for the collateral by the transferor and the transferee depends on whether the transferee has the right to sell or repledge the collateral and whether the transferor has defaulted. If the transferee has the right by contract or custom to sell or repledge the collateral, then the transferor reclassifies that asset in its statement of financial position (for example, as a loaned asset, pledged equity instrument or repurchase receivable) separately from other assets.

Some transactions involving the provision of non-cash financial collateral may be considered transfers that fall within the scope of IFRS 7.42D (e.g., non-cash collateral transferred in a repo). This would normally be the case when: (a) the transferee’s rights to control the asset are not conditional on the transferor’s default. This is often evidenced by the transfer of legal ownership and/or the transferee’s ability to re-sell or re-pledge the financial asset; or (b) when the arrangement is considered a pass-through arrangement.

Collateral pledged or received subject to a netting arrangement would also fall within the scope of the offsetting disclosures irrespective of whether or not the collateral meets the offsetting criteria.

New 309 IFRS 7.15 If the entity holds collateral (of financial or non-financial assets) and may sell or repledge the collateral in the absence of default by the owner of the collateral, does the entity disclose:

a. The fair value of the collateral held.

b. The fair value of any such collateral sold or repledged, and whether the entity has an obligation to return it.
c. The terms and conditions associated with its use of this collateral

**Allowance account for credit losses**

**New 310 IFRS 7.16A** Does the entity disclose the loss allowance for a debt instrument measured at fair value through other comprehensive income in the notes to the financial statements

**IFRS 7.16A** The carrying amount of financial assets measured at fair value through other comprehensive income in accordance with IFRS 9.4.1.2A is not reduced by a loss allowance and an entity should not present the loss allowance separately in the statement of financial position as a reduction of the carrying amount of the financial asset.

**Compound financial instruments with multiple embedded derivatives**

**311 IFRS 7.17** If the entity issued an instrument that contains both a liability and an equity component and the instrument has multiple embedded derivatives whose values are interdependent (such as a callable convertible debt instrument), does the entity disclose the existence of those features

**Defaults and breaches**

**312 IFRS 7.18** For loans payable recognised at the end of the reporting period, does the entity disclose:

a. Details of any defaults during the period of principal, interest, sinking fund, or redemption terms of those loans payable

b. The carrying amount of the loans payable in default at the end of the reporting period

c. Whether the default was remedied, or the terms of the loans payable were renegotiated, before the financial statements were authorised for issue

**313 IFRS 7.19** If, during the reporting period, there are breaches of loan agreement terms other than those described in IFRS 7.18, does the entity disclose the same information as required by IFRS 7.18 if those breaches permit the lender to demand accelerated repayment (unless the breaches were remedied, or the terms of the loan were renegotiated, on or before the end of the reporting period)

**Statement of comprehensive income**

**Items of income, expense, gains and losses**

**New 314 IFRS 7.20(a)** Does the entity disclose the following items of income, expense, gains or losses, either in the statement of comprehensive income or in the notes:

Net gains or net losses on:

- Financial assets or liabilities measured at fair value through profit or loss, showing separately:
  - Net gains or net losses on financial assets or financial liabilities designated as such upon initial recognition, or subsequently in accordance with IFRS 9.6.7.1
  - Net gains or net losses on financial assets or financial liabilities that are mandatorily measured at fair value through profit or loss in accordance with IFRS 9 (e.g., financial liabilities that meet the definition of held for trading in IFRS 9)
  - Financial liabilities designated as at fair value through profit or loss under the fair value option, showing separately:
    - The amount of gain or loss recognised in other comprehensive income
    - The amount of gain or loss recognised in profit or loss
    - Financial assets measured at amortised cost
    - Financial liabilities measured at amortised cost
    - Investments in equity instruments designated at fair value through other comprehensive income in accordance with IFRS 9.5.7.5
Financial assets measured at fair value through other comprehensive income in accordance with IFRS 9.1.2A, showing separately the amount of gain or loss recognised in other comprehensive income during the period and the amount reclassified upon derecognition from accumulated other comprehensive income to profit or loss for the period:

Does the entity disclose either in the statement of comprehensive income or in the notes (calculated using the effective interest method) for financial assets that are measured at amortised cost or that are measured at fair value through other comprehensive income in accordance with IFRS 9.1.2A (showing these amounts separately) or financial liabilities not at fair value through profit or loss:

a. Total interest revenue
b. Total interest expense

The entity discloses the total interest expense recognised in profit or loss, but does not need to calculate such interest expense using the effective interest method as required under IFRS 7.20(b) for financial instruments that contain a discretionary participation feature.

Does the entity disclose either in the statement of comprehensive income or in the notes, the fee income and expense (other than amounts included in determining the effective interest rate) arising from:

a. Financial assets and financial liabilities that are not at fair value through profit or loss
b. Trust and other fiduciary activities that result in the holding or investing of assets on behalf of individuals, trusts, retirement benefit plans and other institutions

If the entity derecognised a financial asset measured at amortised cost, does it disclose:

a. An analysis of the gain or loss recognised in the statement of profit or loss and other comprehensive income arising from the derecognition of those financial assets, showing separately gains and losses arising from derecognition
b. The reasons for derecognising those financial assets

The entity discloses the total interest expense recognised in profit or loss, but does not need to calculate such interest expense using the effective interest method as required under IFRS 7.20(b) for financial instruments that contain a discretionary participation feature.

Does the entity disclose either in the statement of comprehensive income or in the notes, the fee income and expense (other than amounts included in determining the effective interest rate) arising from:

a. Financial assets and financial liabilities that are not at fair value through profit or loss
b. Trust and other fiduciary activities that result in the holding or investing of assets on behalf of individuals, trusts, retirement benefit plans and other institutions

If the entity derecognised a financial asset measured at amortised cost, does it disclose:

a. An analysis of the gain or loss recognised in the statement of profit or loss and other comprehensive income arising from the derecognition of those financial assets, showing separately gains and losses arising from derecognition
b. The reasons for derecognising those financial assets

Does the entity disclose its significant accounting policies comprising the measurement basis (or bases) used in preparing the financial statements and the other accounting policies that are relevant to an understanding of the financial statements in relation to financial instruments?

Does the entity disclose, for financial liabilities designated as at fair value through profit or loss:

a. The nature of the financial liabilities the entity has designated as at fair value through profit or loss
b. The criteria for so designating such financial liabilities on initial recognition

c. How the entity has satisfied the conditions in IFRS 9.4.2.2 for such designation

For financial assets designated at fair value through profit or loss, does the entity disclose:

a. The nature of the financial assets the entity has designated as at fair value through profit or loss
b. How the entity has satisfied the criteria in paragraph 4.1.5 of IFRS 9 for such designation

Does the entity disclose:

a. Whether regular way purchases and sales of financial assets are accounted for at trade date or at settlement date (IFRS 9.3.1.12).
b. How net gains or net losses on each category of financial instrument are determined, for example, whether the net gains or net losses on items at fair value through profit or loss include interest or dividend income

Does the entity disclose management’s judgements for financial instruments that have the most significant effect on the financial statements?
Hedge accounting

Does the entity apply the disclosure requirements in IFRS 7.21B-24F for those risk exposures that an entity hedges and for which it elects to apply hedge accounting. Hedge accounting disclosures must provide information about:

a. An entity’s risk management strategy and how it is applied to manage risk (see IFRS 7.22A-C)

b. How the entity’s hedging activities may affect the amount, timing and uncertainty of its future cash flows (see IFRS 7.23A-F)

c. The effect that hedge accounting has had on the entity’s statement of financial position, statement of comprehensive income and statement of changes in equity (see IFRS 7.24A-F)

An entity must present the required disclosures in a single note or separate section in its financial statements. However, an entity need not duplicate information that is already presented elsewhere, provided that it is incorporated by cross-reference from the financial statements to some other statement, such as a management commentary or risk report that is available to users of the financial statements on the same terms as the financial statements and at the same time. Without the information incorporated by cross-reference, the financial statements are incomplete.

To meet the objectives of paragraph 21A, an entity must (except as otherwise specified below) determine how much detail to disclose, how much emphasis to place on different aspects of the disclosure requirements, the appropriate level of aggregation or disaggregation, and whether users of financial statements need additional explanations to evaluate the quantitative information disclosed. However, an entity must use the same level of aggregation or disaggregation that it uses for the disclosure requirements of related information in IFRS 9 and IFRS 13.

When paragraphs 22A-24F require the entity to separate by risk category the information disclosed, the entity must determine each risk category on the basis of the risk exposures it decides to hedge and for which hedge accounting is applied. The entity must determine risk categories consistently for all hedge accounting disclosures.

Does the entity explain its risk management strategy for each risk category of risk exposures that it decides to hedge and for which hedge accounting is applied. This explanation should enable users of financial statements to evaluate (for example):

a. How each risk arises

b. How the entity manages each risk; this includes whether the entity hedges an item in its entirety for all risks or hedges a risk component (or components) of an item and why

c. The extent of risk exposures that the entity manages

To meet the requirements in IFRS 7.22A, does the entity provide information that includes (but is not limited to) a description of:

a. The hedging instruments that are used (and how they are used) to hedge risk exposures

b. How the entity determines the economic relationship between the hedged item and the hedging instrument for the purpose of assessing hedge effectiveness

c. How the entity establishes the hedge ratio and what the sources of hedge ineffectiveness are

When an entity designates a specific risk component as a hedged item (see IFRS 9.6.3.7) does the entity provide, in addition to the disclosures required by IFRS 7.22A and 22B, qualitative or quantitative information about:

a. How it determined the risk component that is designated as the hedged item (including a description of the nature of the relationship between the risk component and the item as a whole)

b. How the risk component relates to the item in its entirety (e.g., the designated risk component historically covered
on average 80% of the changes in fair value of the item as a whole)

New 327 IFRS 7.23A Unless exempted by IFRS 7.23C, does the entity disclose, by risk category, quantitative information to allow users of its financial statements to evaluate the terms and conditions of hedging instruments and how they affect the amount, timing and uncertainty of future cash flows of the entity?

New 328 IFRS 7.23B To meet the requirement in IFRS 7.23A, does the entity provide a breakdown that discloses:

a. A profile of the timing of the nominal amount of the hedging instrument
b. If applicable, the average price or rate (e.g., strike or forward prices, etc.) of the hedging instrument

New 329 IFRS 7.23C In situations in which an entity frequently resets (i.e., discontinues and restarts) hedging relationships because both the hedging instrument and the hedged item frequently change (i.e., the entity uses a dynamic process in which both the exposure and the hedging instruments used to manage that exposure do not remain the same for long – such as in the example in IFRS 9.B6.5.24(b)) the entity is exempt from providing the disclosures required by IFRS 7.23A and 23B. In such a situation, does the entity disclose:

a. Information about the ultimate risk management strategy in relation to those hedging relationships
b. A description of how it reflects its risk management strategy by using hedge accounting and designating those particular hedging relationships
c. An indication of how frequently the hedging relationships are discontinued and restarted as part of the entity’s process in relation to those hedging relationships

New 330 IFRS 7.23D Does the entity disclose by risk category a description of the sources of hedge ineffectiveness that are expected to affect the hedging relationship during its term?

New 331 IFRS 7.23E If other sources of hedge ineffectiveness emerge in a hedging relationship, does the entity disclose those sources by risk category and explain the resulting hedge ineffectiveness?

New 332 IFRS 7.23F For cash flow hedges, does the entity disclose a description of any forecast transaction for which hedge accounting had been used in the previous period, but which is no longer expected to occur?

New 333 IFRS 7.24A Does the entity disclose, in a tabular format, the following amounts related to items designated as hedging instruments separately, by risk category, for each type of hedge (fair value hedge, cash flow hedge or hedge of a net investment in a foreign operation):

a. The carrying amount of the hedging instruments (financial assets separately from financial liabilities)
b. The line item in the statement of financial position that includes the hedging instrument
c. The change in fair value of the hedging instrument used as the basis for recognising hedge ineffectiveness for the period
d. The nominal amounts (including quantities such as tonnes or cubic metres) of the hedging instruments

New 334 IFRS 7.24B(a) Does the entity disclose, in a tabular format, the following amounts related to hedged items separately by risk category for fair value hedges:

a. The carrying amount of the hedged item recognised in the statement of financial position (presenting assets separately from liabilities)
b. The accumulated amount of fair value hedge adjustments on the hedged item included in the carrying amount of the hedged item recognised in the statement of financial position (presenting assets separately from liabilities)
c. The line item in the statement of financial position that includes the hedged item
d. The change in value of the hedged item used as the basis for recognising hedge ineffectiveness for the period
e. The accumulated amount of fair value hedge adjustments remaining in the statement of financial position for any other purpose.
hedged items that have ceased to be adjusted for hedging gains and losses in accordance with IFRS 9.6.5.10

**New 335 IFRS 7.24B(b)**

Does the entity disclose, in a tabular format, the following amounts related to hedged items separately, by risk category, for cash flow hedges and hedges of a net investment in a foreign operation:

- **IFRS 9.6.5.11 (c)** a. The change in value of the hedged item used as the basis for recognising hedge ineffectiveness for the period (i.e., for cash flow hedges the change in value used to determine the recognised hedge ineffectiveness in accordance with IFRS 9.6.5.11(c))

- **IFRS 9.6.5.11 (a)** b. The balances in the cash flow hedge reserve and the foreign currency translation reserve for continuing hedges that are accounted for in accordance with IFRS 9.6.5.11 and 6.5.13(a)

- **IFRS 9.6.5.11 (c)** c. The balances remaining in the cash flow hedge reserve and the foreign currency translation reserve from any hedging relationships for which hedge accounting is no longer applied

**New 336 IFRS 7.24C(a)**

Does the entity disclose, in a tabular format, the following amounts separately by risk category for fair value hedges:

- **IFRS 9.5.7.5 a.** Hedge ineffectiveness - i.e., the difference between the hedging gains or losses of the hedging instrument and the hedged item - recognised in profit or loss (or other comprehensive income for hedges of an equity instrument for which an entity has elected to present changes in fair value in other comprehensive income in accordance with IFRS 9.5.7.5)

- **IFRS 9.5.7.5 b.** The line item in the statement of comprehensive income that includes the recognised hedge ineffectiveness

**New 337 IFRS 7.24C(b)**

Does the entity disclose, in a tabular format, the following amounts separately, by risk category, for cash flow hedges and hedges of a net investment in a foreign operation:

- **IFRS 9.6.6.4 a.** Hedging gains or losses of the reporting period that were recognised in other comprehensive income

- **IFRS 9.6.6.4 b.** Hedge ineffectiveness recognised in profit or loss

- **IFRS 9.6.6.4 c.** The line item in the statement of comprehensive income that includes the recognised hedge ineffectiveness

- **IAS 1.92 d.** The amount reclassified from the cash flow hedge reserve or the foreign currency translation reserve into profit or loss as a reclassification adjustment (see IAS 1) (differentiating between amounts for which hedge accounting had previously been used, but for which the hedged future cash flows are no longer expected to occur, and amounts that have been transferred because the hedged item has affected profit or loss)

- **IFRS 9.6.6.4 e.** The line item in the statement of comprehensive income that includes the reclassification adjustment (see IAS 1)

- **IFRS 9.6.6.4 f.** For hedges of net positions, the hedging gains or losses recognised in a separate line item in the statement of comprehensive income (see IFRS 9.6.6.4)

**New 338 IFRS 7.24D**

When the volume of hedging relationships to which the exemption in IFRS 7.23C applies is unrepresentative of normal volumes during the period (i.e., the volume at the reporting date does not reflect the volumes during the period) does the entity disclose that fact and the reason it believes the volumes are unrepresentative

**New 339 IFRS 7.24E**

Does the entity provide a reconciliation of each component of equity and an analysis of other comprehensive income in accordance with IAS 1 that, taken together:

- **IFRS 9.6.5.11 a.** Differentiates, at a minimum, between the amounts that relate to the disclosures in IFRS 7.24C(b)(i) and (b)(iv) as well as the amounts accounted for in accordance with IFRS 9.6.5.11(d)(X) and (d)(iii)

- **IFRS 9.6.5.15 b.** Differentiates between:
  - The amounts associated with the time value of options that hedge transaction-related hedged items
  - The amounts associated with the time value of options that hedge time-period related hedged items when
an entity accounts for the time value of an option in accordance with IFRS 9.6.5.15

IFRS 9.6.5.16

c. Differentiates between the amounts associated with forward elements of forward contracts and the foreign currency basis spreads of financial instruments that hedge transaction-related hedged items, and the amounts associated with forward elements of forward contracts and the foreign currency basis spreads of financial instruments that hedge time-period related hedged items when an entity accounts for those amounts in accordance with IFRS 9.6.5.16

New 340 IFRS 7.24F Does the entity disclose the information required in IFRS 7.24E separately by risk category. This disaggregation by risk may be provided in the notes to the financial statements

New 341 IFRS 7.24G If an entity designated a financial instrument, or a proportion of it, as measured at fair value through profit or loss because it uses a credit derivative to manage the credit risk of that financial instrument, does it disclose:

IFRS 9.6.7.1

a. For credit derivatives that have been used to manage the credit risk of financial instruments designated as measured at fair value through profit or loss in accordance with IFRS 9.6.7.1, a reconciliation of each of the nominal amount and the fair value at the beginning and at the end of the period

IFRS 9.6.7.1

b. The gain or loss recognised in profit or loss on designation of a financial instrument, or a proportion of it, as measured at fair value through profit or loss in accordance with IFRS 9.6.7.1

IFRS 9.6.7.4

c. On discontinuation of measuring a financial instrument, or a proportion of it, at fair value through profit or loss, that financial instrument’s fair value that has become the new carrying amount in accordance with IFRS 9.6.7.4 and the related nominal or principal amount (except for providing comparative information in accordance with IAS 1, an entity does not need to continue this disclosure in subsequent periods)

Fair value

IFRS 7.29 The entity is not required to disclose fair value:

IFRS 4.App A

a. If the carrying amount is a reasonable approximation of fair value, for example, for financial instruments such as short-term trade receivables and payables

b. For a contract containing a discretionary participation feature, if the fair value of that feature cannot be measured reliably, if the entity does not adopt IFRS 17 early

c. For lease liabilities if the entity adopts IFRS 16 early

New 342 IFRS 7.25 Does the entity disclose for each class of financial assets and financial liabilities, the fair value of that class of assets and liabilities in a way that permits it to be compared with its carrying amount (except for those noted in IFRS 7.29)

New 343 IFRS 7.26 In disclosing fair values, does the entity group financial assets and financial liabilities into classes, but offset them only to the extent that their carrying amounts are offset in the statement of financial position

IFRS 13.5-7 Please note that for fair value measurements (whether recognised or only disclosed), the entity should also provide the disclosures required by IFRS 13 (refer to ‘Fair value measurement’ section).

New 344 IFRS 7.28 In some cases, an entity does not recognise a gain or loss on initial recognition of a financial asset or financial liability because the fair value is neither evidenced by a quoted price in an active market for an identical asset or liability (i.e., a Level 1 input) nor based on a valuation technique that uses only data from observable markets (see IFRS 9.B5.1.2A). In such cases, does the entity disclose by class of financial asset or financial liability:

IFRS 9. B5.1.2A

a. Its accounting policy for recognising in profit or loss the difference between the fair value at initial recognition and the transaction price to reflect a change in factors (including time) that market participants would take into account when pricing the asset or liability (see IFRS 9.B5.1.2A(b))
b. The aggregate difference yet to be recognised in profit or loss at the beginning and end of the reporting period and reconciliation of changes in the balance of this difference

c. Why it has concluded that the transaction price was not the best evidence of fair value, including a description of the evidence that supports the fair value

In the cases described in IFRS 7.29(c), does the entity which does not adopt IFRS 17 early disclose information to help users of the financial statements make their own judgements about the extent of possible differences between the carrying amount of those contracts and their fair value, including:

a. The fact that the entity does not disclose fair value information for these instruments because their fair value cannot be measured reliably

b. A description of the financial instruments, their carrying amount and an explanation of why fair value cannot be measured reliably

c. Information about the market for the instruments

d. Information about whether and how the entity intends to dispose of the financial instruments

e. If financial instruments whose fair value previously could not be reliably measured are derecognised:
   ▶ That fact
   ▶ Their carrying amount at the time of derecognition
   ▶ The amount of gain or loss recognised

**Nature and extent of risk arising from financial instruments**

IFRS 7.32

The disclosures required by IFRS 7.33-42 focus on the risks that arise from financial instruments and how they have been managed. These risks typically include, but are not limited to, credit risk, liquidity risk and market risk.

IFRS 7.86

The disclosures are either given in the financial statements or incorporated by cross-reference from the financial statements to some other statement, such as a management commentary or risk report that is available to users of the financial statements on the same terms as the financial statements and at the same time. Without the information incorporated by cross-reference, the financial statements are incomplete. Qualitative disclosures in combination with quantitative disclosures enable users to gain an understanding of the nature and extent of risks arising from financial instruments and evaluate the entity's exposure to risk.

IFRS 7.31

Does the entity disclose information that enables users of its financial statements to evaluate the nature and extent of risks arising from financial instruments to which the entity is exposed at the end of the reporting period?

**Qualitative disclosures**

IFRS 7.33

For each type of risk arising from financial instruments, does the entity disclose:

a. The exposures to risk and how they arise

b. Its objectives, policies and processes for managing the risk and the methods used to measure the risk

c. Any changes in (a) or (b) from the previous period

**Quantitative disclosures**

IFRS 7.34

For each type of risk arising from financial instruments, does the entity disclose:

a. Summary quantitative data about its exposure to that risk at the end of the reporting period based on the information provided internally to key management personnel of the entity (as defined in IAS 24), for example, the entity's board of directors and chief executive officer

b. The disclosures required by IFRS 7.35A-42 below to the extent they are not provided in accordance with (a)
c. Concentrations of risk if not apparent from the disclosures made in accordance with (a) and (b)

For concentrations of risk, does the entity disclose:

- How management determines concentrations
- The shared characteristic that identifies each concentration (e.g., counterparty, geographical area, currency and/or market)
- The amount of the risk exposure associated with all financial instruments sharing that characteristic

Concentrations of risk arise from financial instruments that have similar characteristics and are affected similarly by changes in economic or other conditions. The identification of concentrations of risk requires judgement taking into account the circumstances of the entity (see IFRS 7.IG18).

In accordance with IFRS 7.B8, disclosure of concentrations of risk includes the shared characteristic that identifies each concentration. For example, the shared characteristic may refer to geographical distribution of counterparties by groups of countries, individual countries or regions within countries.

If the quantitative data disclosed as at the end of the reporting period are unrepresentative of the entity’s exposure to risk during the period, does the entity provide further information that is representative?

To meet this requirement, the entity might disclose the highest, lowest and average amount of risk to which it was exposed during the reporting period. For example, if an entity typically has a large exposure to a particular currency, but at the end of the reporting period unwinds the position, the entity might disclose a graph that shows the exposure at various times during the reporting period, or disclose the highest, lowest and average exposures.

### Credit risk

An entity shall apply the disclosure requirements in IFRS 7.35F–35N to financial instruments to which the impairment requirements in IFRS 9 are applied. However:

a. For trade receivables, contract assets and lease receivables, IFRS 7.35J(a) applies to those trade receivables, contract assets or lease receivables on which lifetime expected credit losses are recognised in accordance with IFRS 9.5.5.15, if those financial assets are modified while more than 30 days past due.

b. IFRS 7.35K(b) does not apply to lease receivables.

The credit risk disclosures made in accordance with paragraphs 35F–35N shall enable users of financial statements to understand the effect of credit risk on the amount, timing and uncertainty of future cash flows. To achieve this objective, credit risk disclosures shall provide:

a. Information about an entity’s credit risk management practices and how they relate to the recognition and measurement of expected credit losses, including the methods, assumptions and information used to measure expected credit losses.

b. Quantitative and qualitative information that allows users of financial statements to evaluate the amounts in the financial statements arising from expected credit losses, including changes in the amount of expected credit losses and the reasons for those changes.

c. Information about an entity’s credit risk exposure (i.e., the credit risk inherent in an entity’s financial assets and commitments to extend credit) including significant credit risk concentrations.

An entity need not duplicate information that is already presented elsewhere, provided that the information is incorporated by cross-reference from the financial statements to other statements, such as a management commentary or risk report that is available to users of the financial statements on the same terms as the financial statements and at the same time. Without the information incorporated by cross-reference, the financial statements are incomplete.
To meet the objectives in paragraph 35B, an entity shall (except as otherwise specified) consider how much detail to disclose, how much emphasis to place on different aspects of the disclosure requirements, the appropriate level of aggregation or disaggregation, and whether users of financial statements need additional explanations to evaluate the quantitative information disclosed.

If the disclosures provided in accordance with IFRS 7.35F-35N are insufficient to meet the objectives in IFRS 7.35B, does the entity disclose additional information that is necessary to meet those objectives

The credit risk management practices

An entity must explain its credit risk management practices and how they relate to the recognition and measurement of expected credit losses. To meet this objective, does the entity disclose information that enables users of financial statements to understand and evaluate:

a. How an entity determined whether the credit risk of financial instruments has increased significantly since initial recognition, including, if and how:
   - Financial instruments are considered to have low credit risk in accordance with IFRS 9.5.5.10, including the classes of financial instruments to which it applies
   - The presumption in IFRS 9.5.5.11, that there have been significant increases in credit risk since initial recognition when financial assets are more than 30 days past due, has been rebutted

b. An entity’s definitions of default, including the reasons for selecting those definitions

IFRS 7.35F(b) requires the disclosure of information about how an entity has defined default for different financial instruments and the reasons for selecting those definitions. In accordance with IFRS 9.5.5.9, the determination of whether lifetime expected credit losses should be recognised is based on the increase in the risk of a default occurring since initial recognition. Information about an entity’s definitions of default that will assist users of financial statements in understanding how an entity has applied the expected credit loss requirements in IFRS 9 may include:

a. The qualitative and quantitative factors considered in defining default
b. Whether different definitions have been applied to different types of financial instruments
c. Assumptions about the cure rate (i.e., the number of financial assets that return to a performing status) after a default occurred on the financial asset
d. How the instruments were grouped if expected credit losses were measured on a collective basis
e. An entity’s write-off policy, including the indicators that there is no reasonable expectation of recovery and information about the policy for financial assets that are written-off but are still subject to enforcement activity
f. How the requirements in IFRS 9.5.5.12 for the modification of contractual cash flows of financial assets have been applied, including how an entity:
   - Determines whether the credit risk on a financial asset that has been modified while the loss allowance was measured at an amount equal to lifetime expected credit losses, has improved to the extent that the loss allowance reverts to being measured at an amount equal to 12-month expected credit losses in accordance with IFRS 9.5.5.5
   - Monitors the extent to which the loss allowance on financial assets meeting the criteria in (i) is subsequently remeasured at an amount equal to lifetime expected credit losses in accordance with IFRS 9.5.5.3
To assist users of financial statements in evaluating an entity’s restructuring and modification policies, IFRS 7.35F(f)(ii) requires the disclosure of information about how an entity monitors the extent to which the loss allowance on financial assets previously disclosed in accordance with IFRS 7.35F(f)(i) are subsequently measured at an amount equal to lifetime expected credit losses in accordance with IFRS 9.5.5.3. Quantitative information that will assist users in understanding the subsequent increase in credit risk of modified financial assets may include information about modified financial assets meeting the criteria in IFRS 7.35F(f)(i), for which the loss allowance has reverted to being measured at an amount equal to lifetime expected credit losses (i.e., a deterioration rate).

An entity must explain the inputs, assumptions and estimation techniques used to apply the requirements of IFRS 9.5.5. For this purpose, does the entity disclose:

a. The basis of inputs and assumptions and the estimation techniques used to:
   ▶ Measure the 12-month and lifetime expected credit losses
   ▶ Determine whether the credit risk of financial instruments has increased significantly since initial recognition
   ▶ Determine whether a financial asset is a credit-impaired financial asset

b. How forward-looking information has been incorporated into the determination of expected credit losses, including the use of macroeconomic information

c. Changes in the estimation techniques or significant assumptions made during the reporting period and the reasons for those changes

Quantitative and qualitative information about amounts arising from expected credit losses

To explain the changes in the loss allowance and the reasons for those changes, does the entity provide, by class of financial instrument, a reconciliation from the opening balance to the closing balance of the loss allowance, in a table, showing separately the changes during the period for:

a. The loss allowance measured at an amount equal to 12-month expected credit losses

b. The loss allowance measured at an amount equal to lifetime expected credit losses for:
   ▶ Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets
   ▶ Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired)
   ▶ Trade receivables, contract assets or lease receivables for which the loss allowances are measured in accordance with IFRS 9.5.5.15

c. Financial assets that are purchased or originated credit-impaired. In addition to the reconciliation, an entity must disclose the total amount of undiscounted expected credit losses at initial recognition on financial assets initially recognised during the reporting period

In accordance with IFRS 7.35H, an entity is required to explain the reasons for the changes in the loss allowance during the period. In addition to the reconciliation from the opening
balance to the closing balance of the loss allowance, it may be necessary to provide a narrative explanation of the changes. This narrative explanation may include an analysis of the reasons for changes in the loss allowance during the period, including:

a. The portfolio composition
b. The volume of financial instruments purchased or originated
c. The severity of the expected credit losses

For loan commitments and financial guarantee contracts, the loss allowance is recognised as a provision. Does the entity disclose information about the changes in the loss allowance for financial assets separately from those for loan commitments and financial guarantee contracts?

New IFRS 7.B8E

However, if a financial instrument includes both a loan (i.e., a financial asset) and an undrawn commitment (i.e., a loan commitment) component and the entity cannot separately identify the expected credit losses on the loan commitment component from those on the financial asset component, the expected credit losses on the loan commitment should be recognised together with the loss allowance for the financial asset. To the extent that the combined expected credit losses exceed the gross carrying amount of the financial asset, the expected credit losses should be recognised as a provision.

New IFRS 7.35I

To enable users of financial statements to understand the changes in the loss allowance disclosed in accordance with IFRS 7.35H, does the entity provide an explanation of how significant changes in the gross carrying amount of financial instruments during the period contributed to changes in the loss allowance?

The information shall be provided separately for financial instruments that represent the loss allowance as listed in IFRS 7.35H(a)-(c) and shall include relevant qualitative and quantitative information.

Examples of changes in the gross carrying amount of financial instruments that contributed to the changes in the loss allowance may include:

a. Changes because of financial instruments originated or acquired during the reporting period
b. The modification of contractual cash flows on financial assets that do not result in a derecognition of those financial assets in accordance with IFRS 9
c. Changes because of financial instruments that were derecognised (including those that were written-off) during the reporting period
d. Changes arising from whether the loss allowance is measured at an amount equal to 12-month or lifetime expected credit losses

New IFRS 7.35J

To enable users of financial statements to understand the nature and effect of modifications of contractual cash flows on financial assets that have not resulted in derecognition and the effect of such modifications on the measurement of expected credit losses, does the entity disclose:

a. The amortised cost before the modification and the net modification gain or loss recognised for financial assets for which the contractual cash flows have been modified during the reporting period while they had a loss allowance measured at an amount equal to lifetime expected credit losses
b. The gross carrying amount, at the end of the reporting period, of financial assets that have been modified since initial recognition at a time when the loss allowance was measured at an amount equal to lifetime expected credit losses and for which the loss allowance has changed during the reporting period to an amount equal to 12-month expected credit losses

New IFRS 7.35K

To enable users of financial statements to understand the effect of collateral and other credit enhancements on the amounts arising from expected credit losses, does the entity disclose by class of financial instrument:
a. The amount that best represents its maximum exposure to credit risk at the end of the reporting period without taking account of any collateral held or other credit enhancements (e.g., netting agreements that do not qualify for offset in accordance with IAS 32)

<table>
<thead>
<tr>
<th>IFRS 7.B9</th>
<th>IFRS 7.35K(a) requires disclosure of the amount that best represents the entity’s maximum exposure to credit risk. For a financial asset, this is typically the gross carrying amount, net of:</th>
</tr>
</thead>
<tbody>
<tr>
<td>a.</td>
<td>Any amounts offset in accordance with IAS 32</td>
</tr>
<tr>
<td>b.</td>
<td>Any loss allowance recognised in accordance with IFRS 9</td>
</tr>
</tbody>
</table>

Activities that give rise to credit risk and the associated maximum exposure to credit risk include, but are not limited to:

<table>
<thead>
<tr>
<th>IFRS 7.B10</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>a.</td>
<td>Granting loans to customers and placing deposits with other entities. In these cases, the maximum exposure to credit risk is the carrying amount of the related financial assets</td>
</tr>
<tr>
<td>b.</td>
<td>Entering into derivative contracts such as foreign exchange contracts, interest rate swaps and credit derivatives. If the entity measures the resulting asset at fair value, the maximum exposure to credit risk at the end of the reporting period will equal the carrying amount</td>
</tr>
<tr>
<td>c.</td>
<td>Granting financial guarantees. In this case, the maximum exposure to credit risk is the maximum amount the entity would have to pay if the guarantee is called on, which may be significantly greater than the amount recognised as a liability</td>
</tr>
<tr>
<td>d.</td>
<td>Making a loan commitment that is irrevocable over the life of the facility or is revocable only in response to a material adverse change. If the issuer cannot settle the loan commitment net in cash or another financial instrument, the maximum credit exposure is the full amount of the commitment. This is because it is uncertain whether the amount of any undrawn portion may be drawn upon in the future. This may be significantly greater than the amount recognised as a liability</td>
</tr>
</tbody>
</table>

b. A narrative description of collateral held as security and other credit enhancements, including:

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>A description of the nature and quality of the collateral held</td>
<td></td>
</tr>
<tr>
<td>An explanation of any significant changes in the quality of that collateral or credit enhancements as a result of deterioration or changes in the collateral policies of the entity during the reporting period</td>
<td></td>
</tr>
<tr>
<td>Information about financial instruments for which an entity has not recognised a loss allowance because of the collateral</td>
<td></td>
</tr>
</tbody>
</table>

Please note that IFRS 7.35K(b) does not apply to lease receivables.

c. Quantitative information about the collateral held as security and other credit enhancements (for example, quantification of the extent to which collateral and other credit enhancements mitigate credit risk) for financial assets that are credit-impaired at the reporting date

<p>| | |</p>
<table>

<td>The volume of collateral held and other credit enhancements and its significance in terms of the loss allowance</td>
</tr>
</tbody>
</table>
c. The policies and processes for valuing and managing collateral and other credit enhancements

d. The main types of counterparties to collateral and other credit enhancements and their creditworthiness

e. Information about risk concentrations within the collateral and other credit enhancements

**New 358 IFRS 7.35L**
Does the entity disclose the contractual amount outstanding on financial assets that were written off during the reporting period and are still subject to enforcement activity

**Credit risk exposure**

**New 359 IFRS 7.35M**
To enable users of financial statements to assess an entity’s credit risk exposure and understand its significant credit risk concentrations, does the entity disclose, by credit risk rating grades:

- The gross carrying amount of financial assets
- The exposure to credit risk on loan commitments and financial guarantee contracts

This information must be provided separately for financial instruments:

a. For which the loss allowance is measured at an amount equal to 12-month expected credit losses

b. For which the loss allowance is measured at an amount equal to lifetime expected credit losses and that are:
   - Financial instruments for which credit risk has increased significantly since initial recognition but are not credit-impaired financial assets
   - Financial assets that are credit-impaired at the reporting date (but are not purchased or originated credit-impaired)
   - Trade receivables, contract assets or lease receivables for which the loss allowances are measured in accordance with IFRS 9.5.5.15

c. That are purchased or originated credit-impaired financial assets

**IFRS 7.35N**
For trade receivables, contract assets and lease receivables to which an entity applies IFRS 9.5.5.15, the information provided in accordance with IFRS 7.35M may be based on a provision matrix (see IFRS 9.B5.5.35).

**IFRS 7.B8H**
IFRS 7.35M requires the disclosure of information about an entity’s credit risk exposure and significant concentrations of credit risk at the reporting date. A concentration of credit risk exists when a number of counterparties are located in a geographical region or are engaged in similar activities and have similar economic characteristics that would cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions. An entity should provide information that enables users of financial statements to understand whether there are groups or portfolios of financial instruments with particular features that could affect a large portion of that group of financial instruments such as concentration to particular risks. This could include, for example, loan-to-value groupings, geographical, industry or issuer-type concentrations.

**IFRS 7.BBI**
The number of credit risk rating grades used to disclose the information in accordance with IFRS 7.35M must be consistent with the number that the entity reports to key management personnel for credit risk management purposes. If past due information is the only borrower-specific information available and an entity uses past due information to assess whether credit risk has increased significantly since initial recognition in accordance with IFRS 9.5.5.10, the entity must provide an analysis by past due status for those financial assets.

**IFRS 7.BBJ**
When an entity has measured expected credit losses on a collective basis, the entity may not be able to allocate the gross carrying amount of individual financial assets or the exposure to credit risk on loan commitments and financial guarantee contracts to the credit risk rating grades for which lifetime expected credit losses are recognised. In that case:
a. The entity must apply the requirement in IFRS 7.35M to those financial instruments that can be directly allocated to a credit risk rating grade.
b. The entity must disclose separately the gross carrying amount of financial instruments for which lifetime expected credit losses have been measured on a collective basis.

New 360 IFRS 7.36 IAS 32.42 For all financial instruments within the scope of IFRS 7, but to which the impairment requirements in IFRS 9 are not applied, does the entity disclose by class of financial instrument:

<p>| | | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>a.</td>
<td>The amount that best represents its maximum exposure to credit risk at the end of the reporting period without taking account of any collateral held or other credit enhancements (e.g., netting agreements that do not qualify for offsetting in accordance with IAS 32.42), if the carrying amount does not represent the maximum exposure to credit risk</td>
<td></td>
</tr>
</tbody>
</table>

IFRS 7.B9 If IFRS 7.36(a) requires disclosure of the amount that best represents the entity’s maximum exposure to credit risk. For a financial asset, this is typically the gross carrying amount, net of:

<p>| | | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>a.</td>
<td>Any amounts offset in accordance with IAS 32</td>
<td></td>
</tr>
<tr>
<td>b.</td>
<td>Any impairment losses recognised in accordance with IFRS 9</td>
<td></td>
</tr>
</tbody>
</table>

IFRS 7.B10 Activities that give rise to credit risk and the associated maximum exposure to credit risk include, but are not limited to:

<p>| | | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>a.</td>
<td>Granting loans and receivables to customers and placing deposits with other entities. In these cases, the maximum exposure to credit risk is the carrying amount of the related financial assets</td>
<td></td>
</tr>
<tr>
<td>b.</td>
<td>Entering into derivative contracts such as foreign exchange contracts, interest rate swaps and credit derivatives. If the entity measures the resulting asset at fair value, the maximum exposure to credit risk at the end of the reporting period will equal the carrying amount</td>
<td></td>
</tr>
<tr>
<td>c.</td>
<td>Granting financial guarantees. In this case, the maximum exposure to credit risk is the maximum amount the entity would have to pay if the guarantee is called on, which may be significantly greater than the amount recognised as a liability</td>
<td></td>
</tr>
<tr>
<td>d.</td>
<td>Making a loan commitment that is irrevocable over the life of the facility or is revocable only in response to a material adverse change. If the issuer cannot settle the loan commitment net in cash or another financial instrument, the maximum credit exposure is the full amount of the commitment. This is because it is uncertain whether the amount of any undrawn portion may be drawn upon in the future. This may be significantly greater than the amount recognised as a liability</td>
<td></td>
</tr>
</tbody>
</table>

IFRS 7.IG22 If the entity obtains financial or non-financial assets during the period by taking possession of collateral it holds as security or calling on other credit enhancements (e.g., guarantees), and such assets meet the recognition criteria in other IFRSs, does the entity disclose for such assets held at the reporting date:

<p>| | | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>a.</td>
<td>The nature and carrying amount of the assets obtained</td>
<td></td>
</tr>
<tr>
<td>b.</td>
<td>If the assets are not readily convertible into cash, its policies for disposing of such assets or for using them in its operations</td>
<td></td>
</tr>
</tbody>
</table>

Collateral and other credit enhancements obtained

361 IFRS 7.38 If the entity obtains financial or non-financial assets during the period by taking possession of collateral it holds as security or calling on other credit enhancements (e.g., guarantees), and such assets meet the recognition criteria in other IFRSs, does the entity disclose for such assets held at the reporting date:

<p>| | | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>a.</td>
<td>The nature and carrying amount of the assets obtained</td>
<td></td>
</tr>
<tr>
<td>b.</td>
<td>If the assets are not readily convertible into cash, its policies for disposing of such assets or for using them in its operations</td>
<td></td>
</tr>
</tbody>
</table>

Liquidity risk

362 IFRS 7.39 Does the entity disclose:

<p>| | | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
</table>
a. A maturity analysis for non-derivative financial liabilities 
   (including issued financial guarantee contracts) that shows 
   the remaining contractual maturities

| IFRS 7.B11 | In preparing the maturity analyses in IFRS 7.39(a) and (b), the 
|            | entity uses its judgement to determine appropriate time bands. |
| IFRS 7.B11A | In preparing the maturity analyses, the entity does not separate 
|            | an embedded derivative from a hybrid (combined) financial 
|            | instrument. For such instruments, the entity shall apply 
|            | IFRS 7.39(a). |
| IFRS 7.B11C | If the counterparty has a choice of when an amount is paid, 
|            | the liability is included on the earliest date on which the entity 
|            | can be required to pay. For example, financial liabilities that 
|            | an entity must repay on demand (such as demand deposits) 
|            | are included in the earliest time band. |
|            | If the entity is committed to make amounts available in 
|            | instalments, each instalment is allocated to the earliest period 
|            | in which the entity can be required to pay. For example, 
|            | an undrawn loan commitment is included in the time band 
|            | containing the earliest date on which it can be drawn down. |
|            | For issued guarantee contracts, the maximum amount of 
|            | the guarantee is allocated to the earliest period in which 
|            | the guarantee could be called. |
| New  | IFRS 7.B11D | The amounts in the maturity analysis are the contractual 
|            | undiscounted cash flows. Some relevant examples may be 
|            | gross finance lease obligations (or gross lease liabilities if 
|            | an entity applies IFRS 16 early) (before deducting finance 
|            | charges), prices specified in forward agreements to purchase 
|            | financial assets for cash, net amounts for pay-floating/receive-
|            | fixed interest rate swaps for which net cash flows are 
|            | exchanged, and contractual amounts to be exchanged in 
|            | a derivative financial instrument (e.g., a currency swap) 
|            | for which gross cash flows are exchanged and gross loan 
|            | commitments. |
|            | Such undiscounted cash flows differ from the amount included 
|            | in the statement of financial position because the statement of 
|            | financial position amount is based on discounted cash flows. |
|            | If the amount payable is not fixed, the entity discloses the 
|            | amount based on the conditions existing at the end of the 
|            | reporting period. For example, if the amount payable varies 
|            | with changes in an index, the amount disclosed may be based 
|            | on the level of the index at the end of the reporting period. |

b. A maturity analysis for derivative financial liabilities, which 
   includes the remaining contractual maturities for those 
   derivative financial liabilities for which contractual 
   maturities are essential for an understanding of the timing 
   of the cash flows

| IFRS 7.B11B | For example, this would be the case for: |
|             | a. An interest rate swap with a remaining maturity of five 
|             | years in a cash flow hedge of a variable rate financial asset 
|             | or liability |
|             | b. All loan commitments |
|             | c. How it manages the liquidity risk inherent in (a) and (b) |

| IFRS 7.B11E | The entity discloses a maturity analysis of financial assets it 
|             | holds for managing liquidity risk (e.g., financial assets that 
|             | are readily saleable or expected to generate cash inflows to 
|             | meet cash outflows on financial liabilities), if that information 
|             | is necessary to enable users of its financial statements to 
|             | evaluate the nature and extent of liquidity risk. |

| IFRS 7.B11F | Other factors that the entity considers in IFRS 7.39(c) include, 
|             | but are not limited to, whether the entity has the following: |
|             | a. Committed borrowing facilities (e.g., commercial paper 
|             | facilities) or other lines of credit (for example, stand-by 
|             | credit facilities) that it can access to meet liquidity needs |
|             | b. Deposits at central banks to meet liquidity needs |
|             | c. Very diverse funding sources |
|             | d. Significant concentrations of liquidity risk in either its assets 
|             | or its funding sources |
|             | e. Internal control processes and contingency plans for 
|             | managing liquidity risk |
f. Instruments that include accelerated repayment terms (e.g., upon the downgrade of the entity’s credit rating)

g. Instruments that could require the posting of collateral (e.g., margin calls for derivatives)

h. Instruments that allow the entity to choose whether it settles its financial liabilities by delivering cash (or another financial asset) or by delivering its own shares

Or

i. Instruments that are subject to master netting agreements

IFRS 7.34(a)

d. Does the entity explain how summary quantitative data about its exposure to liquidity risk are determined

IFRS 7.B10A

In accordance with IFRS 7.34(a), an entity discloses summary quantitative data about its exposure to liquidity risk on the basis of information provided internally to key management personnel.

IFRS 7.B10A

e. If the outflow of cash (or another financial asset) included in the data in (d) above could either:
   ▶ Occur significantly earlier than indicated in the data
   Or
   ▶ Be for significantly different amounts from those indicated in the data (e.g., for a derivative that is included in the data on a net settlement basis, but for which, the counterparty has the option to require gross settlement)

Does the entity state that fact and provide quantitative information that enables users of its financial statements to evaluate the extent of this risk unless the information is included in the contractual maturity analysis required by IFRS 7.39(a) or 39(b) above

Market risk

Sensitivity analysis

IFRS 7.B21

An entity must provide sensitivity analyses for the whole of its business, but may provide different types of sensitivity analyses for different classes of financial instruments.

IFRS 7.B22

Interest rate risk

Interest rate risk arises on interest-bearing financial instruments recognised in the statement of financial position (e.g., debt instruments acquired or issued) and on some financial instruments not recognised in the statement of financial position (e.g., some loan commitments).

IFRS 7.B23-B24

Currency risk

Currency risk does not arise from financial instruments that are non-monetary items or from financial instruments denominated in the functional currency. An entity discloses a sensitivity analysis for each currency to which it has significant exposure.

IFRS 7.B25-B28

Other price risk

Other price risk arises on financial instruments because of changes in, for example, commodity prices or equity prices. To comply with IFRS 7.40, the entity might disclose the effect of a decrease in a specified stock market index, commodity price, or other risk variable. For example, if an entity gives residual value guarantees that are financial instruments, the entity discloses an increase or decrease in the value of the assets to which the guarantee applies.

Two examples of financial instruments that give rise to equity price risk are a holding of equities in another entity and an investment in a trust, which, in turn, holds investments in equity instruments. The fair values of such financial instruments are affected by changes in the market price of the underlying equity instruments.

Under IFRS 7.40(a), an entity discloses the sensitivity of profit or loss separately from the sensitivity of equity. For example, the sensitivity from instruments classified as at fair value through profit or loss is disclosed separately from the sensitivity of instruments whose changes in fair value are presented in other comprehensive income.
Financial instruments that the entity classifies as equity instruments are not remeasured. Neither profit or loss or equity will be affected by the equity price risk of those instruments. Accordingly, no sensitivity analysis is required.

**IFRS 7.40**

Unless the entity complies with IFRS 7.41 below, does the entity disclose:

- A sensitivity analysis for each type of market risk to which the entity is exposed at the end of the reporting period, showing how profit or loss and equity would have been affected by changes in the relevant risk variable that were reasonably possible at the end of the reporting period
- The methods and assumptions used in preparing the sensitivity analysis
- Changes from the previous period in the methods and assumptions used and reasons for such changes

**IFRS 7.41**

If the entity prepares a sensitivity analysis, such as a value-at-risk, that reflects interdependencies between risk variables (e.g., interest rates and exchange rates) and uses it to manage financial risks, the entity may use that sensitivity analysis in place of the analysis in IFRS 7.40 above. If the entity uses such a sensitivity analysis, does the entity also explain:

- The method used in preparing such a sensitivity analysis, and the main parameters and assumptions underlying the data
b. The objective of the method used and limitations that may result in the information not fully reflecting the fair value of the assets and liabilities involved

IFRS 7.B20

IFRS 7.41 applies even if such methodology measures only the potential for loss and does not measure the potential for gain. Such an entity might comply with IFRS 7.41(a) by disclosing the type of value-at-risk model used (e.g., whether the model relies on Monte Carlo simulations), an explanation about how the model works and the main assumptions (e.g., the holding period and confidence level). Entities might also disclose the historical observation period and weightings applied to observations within that period, an explanation of how options are dealt with in the calculations, and which volatilities and correlations (or, alternatively, Monte Carlo probability distribution simulations) are used.

365 IFRS 7.42

If the sensitivity analyses in IFRS 7.40 or 41 above are unrepresentative of a risk inherent in a financial instrument (e.g., because the exposure at the end of the reporting period does not reflect the exposure during the reporting period), does the entity disclose that fact and the reason it believes the sensitivity analyses are unrepresentative?

IFRS 7.IG37-IG40

The entity discloses additional information if the sensitivity analysis is unrepresentative of a risk inherent in a financial instrument. This can occur if:

a. A financial instrument contains terms and conditions whose effects are not apparent from the sensitivity analysis, e.g., options that remain out of (or in) the money for the chosen change in the risk variable

b. Financial assets are illiquid, e.g., if there is a low volume of transactions in similar assets and the entity finds it difficult to find a counterparty

Or

c. The entity has a large holding of a financial asset that, if sold in its entirety, would be sold at a discount or premium to the quoted market price for a smaller holding

Puttable instruments and other similar instruments classified as equity

366 IAS 1.80A

If the entity reclassifies:

a. A puttable financial instrument classified as an equity instrument

Or

b. An instrument that imposes on the entity an obligation to deliver to another party a pro rata share of the net assets of the entity only on liquidation, and is classified as an equity instrument between financial liabilities and equity, does it disclose:

- The amount reclassified into and out of each category (financial liabilities or equity)
- The timing of the reclassification
- The reason for the reclassification

367 IAS 1.136A

For puttable financial instruments classified as equity instruments, does the entity disclose:

a. Summary quantitative data about the amount classified as equity

b. Its objectives, policies and processes for managing its obligation to repurchase or redeem the instruments if required to do so by the instrument holders, including any changes from the previous period

c. The expected cash outflow on redemption or repurchase of that class of financial instruments

d. Information about how the expected cash outflow on redemption or repurchase was determined

Offset financial assets and financial liabilities

IAS 32.43

When an entity has the right to receive or pay a single net amount and intends to do so, it has, in effect, only a single financial asset or financial liability. In other circumstances, financial assets and financial liabilities are presented separately.
from each other consistently with their characteristics as resources or obligations of the entity.

***IFRS 7.13A***
Disclosures below also apply to recognised financial instruments that are subject to an enforceable master netting arrangement or similar agreement, irrespective of whether they are set off in accordance with IAS 32.42.

***IFRS 7.13B***
An entity must disclose information to enable users of its financial statements to evaluate the effect, or potential effect, of netting arrangements on the entity’s financial position. This includes the effect, or potential effect, of rights of set-off associated with the entity’s recognised financial assets and recognised financial liabilities that are within the scope of IFRS 7.13A.

368 | 369 | 370
---|---|---
**IFRS 7.13C**<br>**IFRS 7.13D**
Does the entity separately disclose, in a tabular format (unless another format is more appropriate), recognised financial assets and recognised financial liabilities that have been set off in accordance with IAS 32.42 or that are subject to an enforceable master netting arrangement or similar agreement, the following quantitative information:
- The gross amounts of those recognised financial assets and recognised financial liabilities
- The amounts that are set off in accordance with the criteria in IAS 32.42 when determining the net amounts presented in the statement of financial position
- The net amounts presented in the statement of financial position
- The amounts subject to an enforceable master netting arrangement or similar agreement that are not otherwise included in b. above (for each instrument limited to the amount included in c. above), including:
  - Amounts related to recognised financial instruments that do not meet some or all of the offsetting criteria in IAS 32.42
  - Amounts related to financial collateral (including cash collateral)
- The net amount after deducting the amounts in d. from the amounts in c. above

369 | 370
---|---
**IFRS 7.13E**
Does the entity disclose a description of the rights of set-off associated with the entity’s recognised financial assets and recognised financial liabilities subject to enforceable master netting arrangements and similar agreements that are disclosed in accordance with IFRS 7.13C(d) above, including the nature of those rights

370 | 370
---|---
**IFRS 7.13F**
Does the entity cross-reference the information of IFRS 7.13B-13E above if it is disclosed in more than one note to the financial statements

### Transition requirements

**IFRS 9.7.2.1<br>IFRS 9.7.2.15<br>IFRS 7.42K**
Despite the requirements of IFRS 9.7.2.1, an entity that adopts the classification and measurement requirements of IFRS 9 must provide the disclosures set out in IFRS 7.42L-42O. The entity need not restate prior periods. The entity may restate prior periods if, and only if, it is possible without the use of hindsight.

**IFRS 7.42Q**
In the reporting period that includes the date of initial application of IFRS 9, an entity is not required to disclose the line item amounts that would have been reported in accordance with the classification and measurement requirements (which includes the requirements related to amortised cost measurement of financial assets and impairment in sections 5.4 and 5.5 of IFRS 9) of:
- IFRS 9 for prior periods
- IAS 39 for the current period

**New IFRS 9.7.2.31**
An entity that first applies Amendments to IFRS 9 - Prepayment Features with Negative Compensation after it first applies IFRS 9 shall apply paragraphs 7.2.32-7.2.34. The entity shall also apply the other transition requirements in IFRS 9 necessary for applying these amendments. For that purpose, references to the date of initial application shall be read as referring to the beginning of the reporting period in which an
If the entity applies Amendments to IFRS 9 - Prepayment Features with Negative Compensation, issued in October 2017, in its annual IFRS financial statements for a period beginning before 1 January 2019, does it disclose that fact.

In the reporting period that includes the date of initial application of IFRS 9, does the entity disclose the following information for each class of financial assets and financial liabilities as at the date of initial application:

   a. The original measurement category and carrying amount determined in accordance with IAS 39 or in accordance with a previous version of IFRS 9 (if the entity’s chosen approach to applying IFRS 9 involves more than one date of initial application for different requirements)
   b. The new measurement category and carrying amount determined in accordance with IFRS 9
   c. The amount of any financial assets and financial liabilities in the statement of financial position that were previously designated as measured at fair value through profit or loss, but are no longer so designated, distinguishing between those that IFRS 9 requires an entity to reclassify and those that an entity elects to reclassify at the date of initial application.

In accordance with IFRS 9.7.2.2, depending on the entity’s chosen approach to applying IFRS 9, the transition can involve more than one date of initial application. Therefore, this paragraph may result in disclosure on more than one date of initial application. The entity must present these quantitative disclosures in a table unless another format is more appropriate.

In the reporting period that includes the date of initial application of amendments for prepayment features with negative compensation, does the entity disclose the following information as at that date of initial application for each class of financial assets and financial liabilities that were affected by the amendments:

   a. The previous measurement category and carrying amount determined immediately before applying the amendments
   b. The new measurement category and carrying amount determined after applying the amendments
   c. The carrying amount of any financial assets and financial liabilities in the statement of financial position that were previously designated as measured at fair value through profit or loss, but are no longer so designated
   d. The reasons for any designation or de-designation of financial assets or financial liabilities as measured at fair value through profit or loss

In accordance with IFRS 9.7.2.2, depending on the entity’s chosen approach to applying IFRS 9, the transition can involve more than one date of initial application. Therefore, this paragraph may result in disclosure on more than one date of initial application.

When required by IFRS 7.42K, does the entity disclose the changes in the classifications of financial assets and financial liabilities as at the date of initial application of IFRS 9, showing separately:
a. The changes in the carrying amounts on the basis of their measurement categories in accordance with IAS 39 (i.e., not resulting from a change in measurement attribute on transition to IFRS 9) ☐ ☐ ☐
b. The changes in the carrying amounts arising from a change in measurement attribute on transition to IFRS 9 ☐ ☐ ☐

IFRS 7.42L

Please note that the disclosures in IFRS 7.42L need not be made after the annual reporting period in which the entity initially applies the classification and measurement requirements for financial assets in IFRS 9.

New 376 IFRS 7.42M

When required by IFRS 7.42K, does the entity disclose the following for financial assets and financial liabilities that have been reclassified so that they are measured at amortised cost and, in the case of financial assets, that have been reclassified out of fair value through profit or loss so that they are measured at fair value through other comprehensive income, as a result of the transition to IFRS 9:

a. The fair value of the financial assets or financial liabilities at the end of the reporting period ☐ ☐ ☐
b. The fair value gain or loss that would have been recognised in profit or loss or other comprehensive income during the reporting period if the financial assets or financial liabilities had not been reclassified ☐ ☐ ☐

IFRS 7.42M

Please note that the disclosures in IFRS 7.42M need not be made after the annual reporting period in which the entity initially applies the classification and measurement requirements for financial assets in IFRS 9.

New 377 IFRS 7.42N

When required by IFRS 7.42K, does the entity disclose the following for financial assets and financial liabilities that have been reclassified out of the fair value through profit or loss category as a result of the transition to IFRS 9:

a. The effective interest rate determined on the date of initial application ☐ ☐ ☐
b. The interest revenue or expense recognised ☐ ☐ ☐

IFRS 7.42N

Please note that the disclosures in IFRS 7.42N need not be made after the annual reporting period in which the entity initially applies the classification and measurement requirements for financial assets in IFRS 9. However, if an entity treats the fair value of a financial asset or financial liability as its amortised cost at the date of initial application, the disclosures in IFRS 7.44U(c) and (d) must be made for each reporting period following reclassification until derecognition.

New 378 IFRS 7.42O

When an entity presents the disclosures set out in IFRS 7.42K–42N, do those disclosures, and the disclosures in IFRS 7.25, permit reconciliation between:

a. The measurement categories presented in accordance with IAS 39 and IFRS 9 ☐ ☐ ☐
b. The class of financial instrument as at the date of initial application ☐ ☐ ☐

New 379 IFRS 7.42P

On the date of initial application of section 5.5 of IFRS 9, does the entity disclose information that would permit the reconciliation of the ending impairment allowances, in accordance with IAS 39, and the provisions, in accordance with IAS 37, to the opening loss allowances determined in accordance with IFRS 9 ☐ ☐ ☐

IFRS 7.42P

For financial assets, this disclosure must be provided by the related financial assets’ measurement categories, in accordance with IAS 39 and IFRS 9, and must show separately the effect of the changes in the measurement category on the loss allowance at that date.

New 380 IFRS 7.42R

Does the entity disclose the carrying amount at the reporting date of the financial assets whose contractual cash flow characteristics have been assessed based on the facts and circumstances that existed at the initial recognition of the financial asset without taking into account the requirements related to the modification of the time value of money element ☐ ☐ ☐
in IFRS 9.B4.1.9B-B4.1.9D until those financial assets are derecognised.

**IFRS 7.42R**

In accordance with IFRS 9.7.2.4, if it is impracticable (as defined in IAS 8) at the date of initial application of IFRS 9 for an entity to assess a modified time value of money element in accordance with IFRS 9.B4.1.9B-B4.1.9D, based on the facts and circumstances that existed at the initial recognition of the financial asset, an entity shall assess the contractual cash flow characteristics of that financial asset based on the facts and circumstances that existed at the initial recognition of the financial asset without taking into account the requirements related to the modification of the time value of money element in IFRS 9.B4.1.9B-B4.1.9D.

**New 381 IFRS 7.42S**

Does the entity disclose the carrying amount at the reporting date of the financial assets whose contractual cash flow characteristics have been assessed based on the facts and circumstances that existed at the initial recognition of the financial asset without taking into account the exception for prepayment features in IFRS 9.B4.1.12 until those financial assets are derecognised?

**IFRS 7.42S**

In accordance with IFRS 9.7.2.5, if it is impracticable (as defined in IAS 8) at the date of initial application for an entity to assess whether the fair value of a prepayment feature was insignificant in accordance with IFRS 9.B4.1.12(d) based on the facts and circumstances that existed at the initial recognition of the financial asset, an entity shall assess the contractual cash flow characteristics of that financial asset based on the facts and circumstances that existed at the initial recognition of the financial asset without taking into account the exception for prepayment features in IFRS 9.B4.1.12.

**Extinquishing financial liabilities with equity instruments (IFRIC 19)**

**382 IFRIC 19.11**

Does the entity disclose a gain or loss recognised in accordance with paragraphs 9 and 10 of IFRIC 19 as a separate line item in profit or loss or in the notes?

**IFRIC 19** provides guidance for the accounting when an entity renegotiates terms of a liability, with the result that a debtor extinguishes a financial liability fully or partially by issuing equity instruments to the creditor.

**Foreign currency**

**IAS 21.51**

In a group, ‘functional currency’ refers to the functional currency of the parent.

**383 IAS 21.52**

Does the entity disclose the following information:

- a. The amount of exchange differences recognised in profit or loss except for those arising on financial instruments measured at fair value through profit or loss
- b. Net exchange differences recognised in other comprehensive income and accumulated in a separate component of equity, and a reconciliation of the amount of such exchange differences at the beginning and end of the period

**384 IAS 21.53**

If the presentation currency is different from the functional currency, does the entity disclose:

- a. That fact
- b. The functional currency
- c. The reason for using a different presentation currency

**385 IAS 21.54**

If there is a change in the functional currency of either the reporting entity or a significant foreign operation, does the entity disclose:

- a. That fact
- b. The reason for the change in functional currency
If the entity presents its financial statements in a currency that is different from its functional currency, does it describe the financial statements as complying with IFRSs only if they comply with all the requirements of each applicable IFRSs, including the translation method set out in IAS 21.39 and IAS 21.42?

When the entity presents its financial statements or other financial information in a currency that is different from either its functional currency or its presentation currency and the requirements of IAS 21.55 are not met, does the entity disclose:

- That the information is supplementary information to distinguish it from the information that complies with IFRSs
- The currency in which the supplementary information is displayed
- The functional currency and the method of translation used to determine the supplementary information

**Final interim period information**

If an estimate of an amount reported in a previous interim period is changed significantly during the final interim period of the financial year, but a separate financial report is not published for that final interim period, has the following information been disclosed in a note to the annual financial statements for that financial year:

- The nature of that change in estimate
- The amount of that change in estimate

**Goodwill**

Does the entity disclose the following information to enable users of its financial statements to evaluate changes in the carrying amount of goodwill during the reporting period:

- The gross amount of goodwill and accumulated impairment losses at the beginning of the reporting period
- Additional goodwill recognised during the reporting period, except goodwill included in a disposal group that, on acquisition, meets the criteria to be classified as held for sale in accordance with IFRS 5
- Adjustments resulting from the subsequent recognition of deferred tax assets during the reporting period
- Goodwill included in a disposal group classified as held for sale in accordance with IFRS 5 and goodwill derecognised during the period without having previously been included in a disposal group classified as held for sale
- Impairment losses recognised during the reporting period in accordance with IAS 36
- Net exchange differences arising during the reporting period in accordance with IAS 21
- Any other changes in the carrying amount during the reporting period
- The gross amount of goodwill and accumulated impairment losses at the end of the reporting period

If any portion of the goodwill acquired in a business combination during the period has not been allocated to a cash generating unit (group of units) at the end of the reporting period, does the entity disclose:

- The amount of the unallocated goodwill
- The reasons why that amount remains unallocated

**Government grants**

Does the entity disclose the following information on government grants:

- The accounting policy for government grants
- The methods of presentation in the financial statements
- The nature and extent of government grants recognised in the financial statements
d. An indication of other forms of government assistance from which the entity has directly benefited

e. Any unfulfilled conditions and other contingencies attaching to government assistance that has been recognised

Hyperinflation

392 IAS 29.39 Does the entity disclose:

a. That the financial statements and the corresponding figures for previous periods have been restated for the changes in the general purchasing power of the functional currency and, as a result, are stated in terms of the measuring unit current at the end of the reporting period

b. Whether the financial statements are based on a historical cost approach or a current cost approach

c. The identity and level of the price index at the end of the reporting period and the movement in the index during the current and the previous reporting period

393 IAS 29.9 Does the entity separately disclose the gain or loss on the net monetary position (which results from the application of IAS 29.27-28)

394 IAS 29.40 The disclosures required by IAS 29 Financial Reporting in Hyperinflationary Economies are needed to make clear the basis for dealing with the effects of hyperinflation in the financial statements. They are also intended to provide other information necessary to understand that basis and the resulting amounts. Does the entity make all necessary disclosures

Impairment of assets

395 IAS 36.126 Does the entity disclose the following information for each class of assets:

a. The amount of impairment losses recognised in profit or loss during the period and the line item(s) of the statement of comprehensive income in which those impairment losses are included

b. The amount of reversals of impairment losses recognised in profit or loss during the period and the line item(s) of the statement of comprehensive income in which those impairment losses are reversed

c. The amount of impairment losses on revalued assets recognised in other comprehensive income during the reporting period

d. The amount of reversals of impairment losses on revalued assets recognised in other comprehensive income during the reporting period

396 IAS 36.129 If the entity reports segment information under IFRS 8 Operating Segments, does it disclose the following for each reportable segment:

a. The amount of impairment losses recognised in profit or loss and in other comprehensive income during the reporting period

b. The amount of reversals of impairment losses recognised in profit or loss and in other comprehensive income during the reporting period

397 IAS 36.130 If an impairment loss for an individual asset, including goodwill, or a cash-generating unit is recognised or reversed during the period, does the entity disclose:

a. The events and circumstances that led to the recognition or reversal of the impairment loss

b. The amount of the impairment loss recognised or reversed

c. For an individual asset:
   ▶ The nature of the asset
If the entity reports segment information under IFRS 8, the reportable segment to which the asset belongs.

d. For a cash-generating unit:
   - A description of the cash-generating unit (such as whether it is a product line, a plant, a business operation, a geographical area, or a reportable segment as defined in IFRS 8)
   - The amount of the impairment loss recognised or reversed by class of assets and, if the entity reports segment information in accordance with IFRS 8, by reportable segment
   - If the aggregation of assets for identifying the cash-generating unit has changed since the previous estimate of the cash-generating unit’s recoverable amount (if any), a description of the current and former way of aggregating assets and the reasons for changing the way the cash-generating unit is identified

  
  e. The recoverable amount of the asset (cash-generating unit) and whether the recoverable amount of the asset (cash-generating unit) is its fair value less costs of disposal or its value in use

f. If the recoverable amount is fair value less costs of disposal, does the entity disclose the following information:
   - The level of the fair value hierarchy (see IFRS 13) within which the fair value measurement of the asset (cash-generating unit) is categorised in its entirety (without taking into account whether the ‘costs of disposal’ are observable)
   - For fair value measurements categorised within Level 2 and Level 3 of the fair value hierarchy, a description of the valuation technique(s) used to measure fair value less costs of disposal. If there has been a change in valuation technique, the entity must disclose that change and the reason(s) for making it
   - For fair value measurements categorised within Level 2 and Level 3 of the fair value hierarchy, each key assumption on which management has based its determination of fair value less costs of disposal. Key assumptions are those to which the asset’s (cash-generating unit’s) recoverable amount is most sensitive. The entity must also disclose the discount rate(s) used in the current measurement and previous measurement if fair value less costs of disposal is measured using a present value technique

  
  g. If recoverable amount is value in use, the discount rate(s) used in the current estimate and previous estimate (if any) of value in use

IAS 36.132
An entity is encouraged to disclose the assumptions used to determine the recoverable amount of assets (cash-generating units) during the period.

398 IAS 36.131
Does the entity disclose the following for the aggregate impairment losses and the aggregate reversals of impairment losses recognised for which no information is disclosed under IAS 36.130 above:
   a. The main classes of assets affected by impairment losses and the main classes of assets affected by reversals of impairment losses
   b. The main events and circumstances that led to the recognition of these impairment losses and reversals of impairment losses

399 IAS 36.134
Does the entity disclose the following for each cash-generating unit (group of units) for which the carrying amount of goodwill or intangible assets with indefinite useful lives allocated to

February 2019 Disclosure Checklist 96
that unit (group of units) is significant in comparison with the entity’s total carrying amount of goodwill or intangible assets with indefinite useful lives:

a. The carrying amount of goodwill allocated to the unit (group of units)
b. The carrying amount of intangible assets with indefinite useful lives allocated to the unit (group of units)
c. The basis on which the unit’s (group of units’) recoverable amount has been determined (i.e., value in use or fair value less costs of disposal)
d. If the unit’s (group of units’) recoverable amount is based on value in use:
   ▶ Each key assumption on which management has based its cash flow projections for the period covered by the most recent budgets/forecasts. Key assumptions are those to which the unit’s (group of units’) recoverable amount is most sensitive
   ▶ Description of management’s approach to determining the value(s) assigned to each key assumption, whether those value(s) reflect past experience or, if appropriate, are consistent with external sources of information, and, if not, how and why they differ from past experience or external sources of information
   ▶ The period over which management has projected cash flows based on financial budgets/forecasts approved by management and, when a period greater than five years is used for a cash-generating unit (group of units), an explanation of why that longer period is justified
   ▶ The growth rate used to extrapolate cash flow projections beyond the period covered by the most recent budgets/forecasts
   ▶ The justification for using any growth rate that exceeds the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market to which the unit (group of units) is dedicated
   ▶ The discount rate(s) applied to the cash flow projections

e. If the unit’s (group of units’) recoverable amount is based on fair value less costs of disposal, disclose the valuation technique(s) used to measure fair value less costs of disposal. An entity is not required to provide the disclosures required by IFRS 13. If fair value less costs of disposal is not measured using a quoted price for an identical unit (group of units), does the entity disclose the following information:
   ▶ Each key assumption on which management has based its determination of fair value less costs of disposal. Key assumptions are those to which the unit’s (group of units’) recoverable amount is most sensitive
   ▶ Description of management’s approach to determining the value(s) assigned to each key assumption, whether those value(s) reflect past experience or, if appropriate, are consistent with external sources of information, and, if not, how and why they differ from past experience or external sources of information
   ▶ The level of the fair value hierarchy (see IFRS 13) within which the fair value measurement is categorised in its entirety (without giving regard to the observability of ‘costs of disposal’)
   ▶ If there has been a change of valuation technique, the change and the reason(s) for making it

f. If fair value less costs of disposal is measured using discounted cash flow projections, does the entity disclose the following information:
   ▶ The period over which management has projected cash flows
   ▶ The growth rate used to extrapolate cash flow projections
   ▶ The discount rate(s) applied to the cash flow projections
g. If a reasonably possible change in a key assumption on which management has based its determination of the unit’s (group of units’) recoverable amount would cause the unit’s (group of units’) carrying amount to exceed its recoverable amount:

- The amount by which the unit’s (group of units’) recoverable amount exceeds its carrying amount
- The value assigned to the key assumption
- The amount by which the value assigned to the key assumption must change, after incorporating any consequential effects of that change on the other variables used to measure recoverable amount, in order for the unit’s (group of units’) recoverable amount to be equal to its carrying amount

IAS 36.136

The most recent detailed calculation made in a preceding period of the recoverable amount of a cash-generating unit (group of units) may, in accordance with IAS 36.24 or 99, be carried forward and used in the impairment test for that unit (group of units) in the current period provided specified criteria are met. When this is the case, the information for that unit (group of units), that is incorporated in the disclosures required by IAS 36.134 and 135, relates to the carried forward calculation of recoverable amount.

400 IAS 36.135

If some or all of the carrying amount of goodwill or intangible assets with indefinite useful lives is allocated across multiple cash-generating units (groups of units), and the amount so allocated to each unit (group of units) is not significant in comparison with the entity’s total carrying amount of goodwill or intangible assets with indefinite useful lives, does the entity disclose:

a. That fact
b. The aggregate carrying amount of goodwill or intangible assets with indefinite useful lives allocated to those units (groups of units)

401 IAS 36.135

If the recoverable amounts of any of those units (groups of units) are based on the same key assumption(s) and the aggregate carrying amount of goodwill or intangible assets with indefinite useful lives allocated to them is significant in comparison with the entity’s total carrying amount of goodwill or intangible assets with indefinite useful lives, does the entity disclose:

a. That fact
b. The aggregate carrying amount of goodwill allocated to those units (groups of units)
c. The aggregate carrying amount of intangible assets with indefinite useful lives allocated to those units (groups of units)
d. A description of the key assumption(s)
e. A description of management’s approach to determining the value(s) assigned to the key assumption(s), whether those value(s) reflect past experience or, if appropriate, are consistent with external sources of information, and, if not, how and why they differ from past experience or external sources of information
f. If a reasonably possible change in the key assumption(s) would cause the aggregate of the units’ (groups of units’) carrying amounts to exceed the aggregate of their recoverable amounts:

- The amount by which the aggregate of the units’ (groups of units’) recoverable amounts exceeds the aggregate of their carrying amounts
- The value(s) assigned to the key assumption(s)
- The amount by which the value(s) assigned to the key assumption(s) must change, after incorporating any consequential effects of the change on the other variables used to measure recoverable amount, in order for the aggregate of the units’ (groups of units’)
recoverable amounts to be equal to the aggregate of their carrying amounts

**Income taxes**

**IAS 12.78**

If the entity recognises exchange differences on deferred foreign tax liabilities or assets in the statement of comprehensive income, it may classify such differences as deferred tax expense (income), if that presentation is most useful to financial statement users.

**New 402 IFRIC 23.B1**

If the entity applies IFRIC 23 Uncertainty over Income Tax Treatments issued in June 2017 in its annual IFRS financial statements for a period beginning before 1 January 2019, does it disclose that fact

**New 403 IAS 12.98I**

If the entity applies Amendments to IAS 12 - Income tax consequences of payments on financial instruments classified as equity as part of the Annual Improvements to IFRS Standards 2015-2017 Cycle issued in December 2017 in its annual IFRS financial statements for a period beginning before 1 January 2019, does it disclose that fact

**404 IAS 12.79**

Does the entity disclose separately:

a. The current tax expense (income)

b. Any adjustments recognised in the period for current tax of prior periods

c. The deferred tax expense (income) relating to the origination and reversal of temporary differences

d. The deferred tax expense (income) relating to changes in tax rates or the imposition of new taxes

e. The benefit arising from a previously unrecognised tax loss, tax credit or temporary difference of a prior period that is used to reduce current tax expense

f. The benefit from a previously unrecognised tax loss, tax credit or temporary difference of a prior period that is used to reduce deferred tax expense

**405 IAS 12.81**

Does the entity separately disclose the following information:

a. The aggregate current and deferred tax relating to items that are charged or credited directly to equity (IAS 12.62A)

b. The amount of income tax relating to each component of other comprehensive income (IAS 12.62 and IAS 1)

c. The relationship between tax expense (income) and accounting profit or loss in either or both of the following forms:
   - A numerical reconciliation between tax expense (income) and the product of accounting profit multiplied by the applicable tax rate(s), disclosing also the basis on which the applicable tax rate(s) is (are) computed
   - Or
   - A numerical reconciliation between the average effective tax rate and the applicable tax rate, disclosing also the basis on which the applicable tax rate is computed

d. The changes in the applicable tax rate(s) compared to the previous accounting period

e. For deductible temporary differences, unused tax losses and unused tax credits for which no deferred tax asset is recognised in the statement of financial position:
   - The amount
   - Expiry date, if any

**f. The aggregate amount of temporary differences associated with investments in subsidiaries, branches and associates and interests in joint arrangements, for which deferred tax liabilities have not been recognised**
An entity is encouraged to disclose the unrecognised deferred tax liabilities associated with investments in subsidiaries, branches and associates and interests in joint arrangements, if this disclosure is practicable.

g. For each type of temporary difference and for each type of unused tax losses and unused tax credits:
   - The amount of the deferred tax assets and liabilities recognised in the statement of financial position for each period presented
   - The amount of the deferred tax income or expense recognised in profit and loss if this is not apparent from the changes in the amounts recognised in the statement of financial position

h. For discontinued operations, the tax expense relating to:
   - The gain or loss on discontinuance
   - The profit or loss from the ordinary activities of the discontinued operation for the period, together with the corresponding amounts for each prior period presented

i. The amount of income tax consequences of dividends to shareholders of the entity that were proposed or declared before the financial statements were authorised for issue, but are not recognised as a liability in the financial statements

Does the entity disclose:

a. If a business combination in which the entity is the acquirer causes a change in the amount recognised for its pre-acquisition deferred tax asset, the amount of that change

b. If the deferred tax benefits acquired in a business combination are not recognised at the acquisition date, but are recognised after the acquisition date, the event or change in circumstances that caused the deferred tax benefits to be recognised

If the entity recognises acquired deferred tax benefits in the measurement period based on new information about facts and circumstances that existed at the acquisition date, it recognises the adjustment as a reduction in goodwill related to that acquisition. If the carrying amount of goodwill is zero, it recognises all other acquired deferred tax benefits in profit or loss. All other acquired deferred tax benefits realised are recognised in profit or loss (or, if IAS 12 so requires, outside profit or loss).

If (1) the utilisation of the deferred tax asset is dependent on future taxable profits in excess of the profits arising from the reversal of existing taxable temporary differences, and (2) the entity has suffered a loss in either the current or preceding period in the tax jurisdiction to which the deferred tax asset relates, does the entity disclose the following:

a. The amount of a deferred tax asset

b. The nature of the evidence supporting its recognition

In the circumstances in IAS 12.52A, does the entity disclose:

The nature of the potential income tax consequences that would result from the payment of dividends to its shareholders, including the important features of the income tax systems and the factors that will affect the amount of the potential income tax consequences of dividends

The amounts of the potential income tax consequences practicably determinable

Whether there are any potential income tax consequences not practicably determinable

In some jurisdictions, income taxes are payable at a higher or lower rate if part or all of the net profit or retained earnings is paid out as a dividend to shareholders of the entity. In other
jurisdictions, income taxes may be refundable or payable if part or all of the net profit or retained earnings is paid out as a dividend to shareholders of the entity.

It may sometimes require undue cost or effort to compute the total amount of the potential income tax consequences that would result from the payment of dividends to shareholders. However, in such circumstances, it may be possible to compute some portions of the total, for example:

a. If in a consolidated group, a parent and some of its subsidiaries (1) have paid income taxes at a higher rate on undistributed profits, and (2) are aware of the amount that would be refunded on the payment of future dividends to shareholders from consolidated retained earnings, does the entity disclose the refundable amount?

b. If applicable, does the entity disclose that there are additional potential income tax consequences that cannot be determined without undue cost or effort?

c. Do the parent’s separate financial statements, if any, disclose the potential income tax consequences relating to the parent’s retained earnings?

Does the entity disclose any tax-related contingent liabilities and contingent assets in accordance with IAS 37?

Contingent liabilities and contingent assets may arise, for example, from unresolved disputes with the taxation authorities.

**Intangible assets**

**General**

Does the entity disclose the following for each class of intangible assets, distinguishing between internally generated intangible assets and other intangible assets:

a. Whether the useful lives are indefinite or finite and, if finite, the useful lives or the amortisation rates used?

b. The amortisation methods used for intangible assets with finite useful lives?

c. The gross carrying amount and the accumulated amortisation (aggregated with accumulated impairment losses):
   - At the beginning of the reporting period?
   - At the end of the reporting period?

d. The line item(s) of the statement of comprehensive income in which any amortisation of intangible assets is included?

e. A reconciliation of the carrying amount at the beginning and end of the reporting period, showing:
   - Additions during the period, indicating separately those from internal development, those acquired separately, and those acquired through business combinations?
   - Assets classified as held for sale or included in a disposal group classified as held for sale under IFRS 5 and other disposals?
   - Increases or decreases during the reporting period resulting from revaluations under IAS 38.75, IAS 38.85 and IAS 38.86, and from impairment losses recognised or reversed in other comprehensive income under IAS 36, if any?
   - Impairment losses recognised in profit or loss during the reporting period under IAS 36, if any?
   - Impairment losses reversed in profit or loss during the reporting period under IAS 36, if any?
   - Any amortisation recognised during the reporting period?
   - Net exchange differences arising on the translation of the financial statements into the presentation currency, and on the translation of a foreign operation into the presentation currency of the reporting entity?
► Other changes in the carrying amount during the reporting period

**IAS 38.119**
A class of intangible assets is a grouping of assets of a similar nature and use in an entity's operations.

412  **IAS 38.122**
Does the entity disclose:

a. For an intangible asset assessed as having an indefinite useful life, the carrying amount of that asset and reasons supporting the assessment of an indefinite useful life

b. In giving the reasons in (a), does the entity disclose the factor(s) that play a significant role in determining that the asset has an indefinite useful life

c. For any individual intangible asset that is material to the entity's financial statements:
   ► A description of that intangible asset
   ► The carrying amount
   ► Remaining amortisation period

**IAS 38.44**

d. For intangible assets acquired by way of a government grant and initially recognised at fair value:
   ► The fair value initially recognised for these assets
   ► Their carrying amount
   ► Whether they are measured after recognition under the cost model or the revaluation model

e. The existence and carrying amounts of intangible assets whose title is restricted and the carrying amounts of intangible assets pledged as security for liabilities

f. The amount of contractual commitments for the acquisition of intangible assets

**Revalued intangible assets**

413  **IAS 38.124**
If the entity accounts for intangible assets at revalued amounts, does the entity disclose:

a. By class of intangible assets:
   ► The effective date of the revaluation
   ► The carrying amount of revalued intangible assets

**IAS 38.74**

b. The carrying amount that would have been recognised had the revalued class of intangible assets been measured after recognition using the cost model in IAS 38.74

c. The fair value measurement disclosures required by IFRS 13 (refer to 'Fair value measurement' section)

**Research and development**

414  **IAS 38.126**
Does the entity disclose the aggregate amount of research and development expenditure recognised as an expense during the reporting period

**Other information**

415  **IAS 38.128**
Does the entity disclose:

a. Any fully amortised intangible asset that is still in use

b. Significant intangible assets controlled by the entity but not recognised as assets because they do not meet the recognition criteria of IAS 38 or because they were acquired or generated before the version of IAS 38 issued in 1998 was effective

**Inventories**

416  **IAS 2.36**
Does the entity disclose:

a. The accounting policies for measuring inventories, including the cost formula used

b. The total carrying amount of inventories and the carrying amount in classifications appropriate to the entity
Information about the carrying amounts held in different classifications of inventories and the extent of the changes in these assets is useful to financial statement users. Common classifications of inventories are merchandise, production supplies, materials, work in progress and finished goods.

c. The carrying amount of inventories carried at fair value less costs to sell

d. The amount of inventories recognised as an expense during the period

e. The amount of any write-down of inventories recognised as an expense in the period

f. The amount of any reversal of any write-down that is recognised as a reduction in the amount of inventories recognised as expense in the period

g. The circumstances or events that led to the reversal of a write-down of inventories

h. The carrying amount of inventories pledged as security for liabilities

Investment property

The disclosures set out in this section apply in addition to those in IAS 17 (or IFRS 16 if an entity applies IFRS 16 early). Under IAS 17 (or IFRS 16), an owner of an investment property provides lessor disclosures for the leases into which it has entered. An entity (or a lessee) that holds an investment property under a finance lease or an operating lease (or as a right-of-use asset under IFRS 16) provides lessees’ disclosures for finance leases (or lessees’ disclosures as required by IFRS 16) and lessors’ disclosures (or lessor’s disclosures as required by IFRS 16) for any operating leases into which it has entered.

Fair value model and cost model

Does the entity disclose:

a. Whether it applies the fair value model or the cost model

b. If it applies the fair value model and applies IAS 17, whether, and in what circumstances, property interests held under operating leases are classified and accounted for as investment property

c. If classification is difficult, the criteria the entity uses to distinguish investment property from owner-occupied property and from property held for sale in the ordinary course of business

d. The fair value measurement disclosures required by IFRS 13 (refer to ‘Fair value measurement’ section)

e. The extent to which the fair value of investment property (as measured or disclosed in the financial statements) is based on a valuation by an independent valuer who holds a recognised and relevant professional qualification and who has recent experience in the location and category of the investment property being valued

f. If there is no valuation by an independent valuer as described in (e), that fact

g. The amounts included in the profit or loss for:
   - Rental income from investment property
   - Direct operating expenses (including repairs and maintenance) arising from investment property that generated rental income during the period
   - Direct operating expenses (including repairs and maintenance) arising from investment property that do not generate rental income during the period
IAS 40.32C
► The cumulative change in fair value recognised in profit or loss on a sale of investment property from a pool of assets in which the cost model is used into a pool in which the fair value model is used
  h. The existence and amounts of restrictions on the realisability of investment property or the remittance of income and proceeds of disposal
  i. The contractual obligations to purchase, construct or develop investment property or for repairs, maintenance or enhancements

Fair value model

419 IAS 40.76
If the entity applies the fair value model, does it also reconcile the carrying amount of investment property at the beginning and end of the reporting period showing the following:
  a. Additions, disclosing separately those additions resulting from acquisitions and those resulting from subsequent expenditure recognised in the carrying amount of an asset
  b. Additions resulting from acquisitions through business combinations
  c. Assets classified as held for sale or included in a disposal group classified as held for sale in accordance with IFRS 5 and other disposals
  d. Net gains or losses from fair value adjustments
  e. The net exchange differences arising on the translation of the financial statements into a different presentation currency and on the translation of a foreign operation into the presentation currency of the reporting entity
  f. Transfers to and from inventories and owner-occupied property
  g. Other changes

420 IAS 40.77
If the entity adjusts a valuation obtained for an investment property significantly for the purpose of the financial statements, does the entity reconcile between the valuation obtained and the adjusted valuation included in the financial statements, showing separately:
  a. The aggregate amount of any recognised lease obligations (or lease liabilities if the entity applies IFRS 16 early) that have been added back
  b. Any other significant adjustments

421 IAS 40.78
In the exceptional cases in which the entity’s policy is to account for investment properties at fair value, but because of the lack of a reliable fair value, it measures investment property at cost less any accumulated depreciation and any accumulated impairment losses (or in accordance with IFRS 16 if the entity applies IFRS 16 early), does the entity disclose:
  a. A reconciliation under IAS 40.76 – relating to that investment property separately – of the carrying amount at the beginning and end of the period
  b. A description of the investment property
  c. An explanation of why fair value cannot be measured reliably
  d. If possible, the range of estimates within which fair value is highly likely to lie
  e. On disposal of investment property not carried at fair value:
    ► The fact that the entity has disposed of investment property not carried at fair value
    ► The carrying amount of that investment property at the time of sale
    ► The amount of gain or loss recognised

Cost model

422 IAS 40.79
If the entity applies the cost model, does it disclose:
  a. The depreciation methods used
  b. The useful lives or the depreciation rates used
c. The gross carrying amount and the accumulated depreciation (aggregated with accumulated impairment losses) at the beginning and end of the period

d. A reconciliation of the carrying amount of investment property at the beginning and end of the period, showing the following:
   - Additions, disclosing separately those additions resulting from acquisitions and those resulting from subsequent expenditure recognised as an asset
   - Additions resulting from acquisitions through business combinations
   - Assets classified as held for sale or included in a disposal group classified as held for sale in accordance with IFRS 5 and other disposals
   - The amount of impairment losses recognised, and the amount of impairment losses reversed, during the period in accordance with IAS 36
   - The net exchange differences arising on the translation of the financial statements into a different presentation currency, and on translation of a foreign operation into the presentation currency of the reporting entity:
   - Transfers to and from inventories and owner-occupied property
   - Other changes

e. The fair value of investment property

f. In the exceptional cases in which the entity cannot measure the fair value of the investment property reliably, does the entity disclose:
   - A description of the investment property
   - An explanation of why fair value cannot be measured reliably
   - If possible, the range of estimates within which fair value is highly likely to lie

---

**Lease disclosures by lessees**

If the entity adopted IFRS 16 Leases, please refer to the 'New pronouncements: IFRS 16' section.

**Finance leases**

The requirements for disclosure under the following IFRSs also apply to lessees for assets leased under finance leases:

a. IAS 16 Property, Plant and Equipment
b. IAS 36 Impairment of Assets
c. IAS 38 Intangible Assets
d. IAS 40 Investment Property
e. IAS 41 Agriculture

 Does the entity disclose the following information for finance leases (in which it is the lessee), in addition to meeting the requirements of IFRS 7:

a. For each class of asset, the net carrying amount at the end of the reporting period
b. A reconciliation between total future minimum lease payments at the end of the reporting period and their present value
c. The future minimum lease payments at the end of the reporting period and their present value for each of the following periods:
   - Not later than one year
   - Later than one year and not later than five years
   - Later than five years
d. The contingent rents recognised as an expense in the period
e. The future minimum sublease payments expected to be received under non-cancellable subleases at the end of the reporting period
f. The lessee’s material leasing arrangements including, but not limited to, the following:
   - The basis on which contingent rent payable is determined
   - The existence and terms of renewal or purchase options and escalation clauses
   - Restrictions imposed by lease arrangements, such as those concerning dividends, additional debt and further leasing

**Operating leases**

IAS 17.35  The disclosure requirements of IFRS 7 also apply to operating leases.

424 IAS 17.35  Does the entity disclose the following information for operating leases (in which it is the lessee):

a. The future minimum lease payments under non-cancellable operating leases for each of the following periods:
   - Not later than one year  ☐ ☐ ☐
   - Later than one year and not later than five years  ☐ ☐ ☐
   - Later than five years  ☐ ☐ ☐

b. The future minimum sublease payments expected to be received under non-cancellable subleases at the end of the reporting period  ☐ ☐ ☐

c. The lease and sublease payments recognised as an expense in the period, with separate amounts for:
   - Minimum lease payments  ☐ ☐ ☐
   - Contingent rents  ☐ ☐ ☐
   - Sublease payments  ☐ ☐ ☐

d. The lessee’s material leasing arrangements including, but not limited to, the following:
   - The basis on which contingent rent payable is determined  ☐ ☐ ☐
   - The existence and terms of renewal or purchase options and escalation clauses  ☐ ☐ ☐
   - Restrictions imposed by lease arrangements, such as those concerning dividends, additional debt and further leasing  ☐ ☐ ☐

**Sale and leaseback transactions**

IAS 17.65  Does the disclosure of material leasing arrangements include the unique or unusual provisions of the agreement or terms of the sale and leaseback transactions  ☐ ☐ ☐

IAS 17.66  IAS 1.29-31, 55, 57-59, 77, 78, 85, 86, 97, 112(c), 117

Sale and leaseback transactions may trigger the separate disclosure criteria in IAS 1, which require that an entity does not offset income and expense, unless required or permitted by an IFRS, and that the entity discloses material items of income or expense.

**Evaluating the substance of transactions involving the legal form of a lease**

SIC 27.10  SIC 27.11

426 If the entity has arrangements that are leases in form but not in substance, does the entity disclose, separately for each arrangement or each class of arrangements, the following information:

a. A description of the arrangement including:
   - The underlying asset and any restrictions on its use  ☐ ☐ ☐
   - The life and other significant terms of the arrangement  ☐ ☐ ☐
   - The transactions that are linked together, including any options  ☐ ☐ ☐

b. The accounting treatment applied to any fee received  ☐ ☐ ☐

c. The amount of fees recognised as income in the period  ☐ ☐ ☐

d. The line item of the statement of comprehensive income in which the fee income is included  ☐ ☐ ☐
Determining whether an arrangement contains a lease (IFRIC 4)

427  IAS 1.117  Does the entity disclose its accounting policy for determining whether an arrangement contains a lease

428  IFRIC 4.15  IAS 17.35  If in an operating lease the entity is a purchaser and concludes that it is impracticable to reliably separate the payments for the lease from payments for other elements in the arrangement, does the entity:
   Treat all payments under the arrangement as lease payments to comply with the disclosure requirements of IAS 17, but:
   ▶ Disclose those payments separately from minimum lease payments of other arrangements that do not include payments for non-lease elements
   ▶ State that the disclosed payments also include payments for non-lease elements in the arrangement

IFRIC 4.12  IFRIC 4.13  IFRIC 4 provides guidance for determining whether an arrangement that does not take the legal form of a lease but conveys a right to use an asset is, or contains, a lease that is accounted for under IAS 17. Under IAS 17, the entity separates lease payments from other consideration required by the arrangement. In some cases, it is impracticable to separate the payments for the lease from payments for other elements in the arrangement reliably.

Non-current assets held for sale and discontinued operations

IFRS 5 specifies the disclosures required in respect of non-current assets (or disposal groups) classified as held for sale or discontinued operations. Disclosures in other IFRSs do not apply to such assets (or disposal groups) unless those IFRSs require:

a. Specific disclosures in respect of non-current assets (or disposal groups) classified as held for sale or discontinued operations
   Or

b. Disclosures about measurement of assets and liabilities within a disposal group that are not within the scope of the measurement requirement of IFRS 5 and such disclosures are not already provided in the other notes to the financial statements

IFRS 5.31  A 'component' of an entity comprises operations and cash flows that can be clearly distinguished, operationally and for financial reporting purposes, from the rest of the entity. In other words, a component of an entity was a cash-generating unit or a group of cash-generating units while being held for use.

IFRS 5.32  A discontinued operation is a component of an entity that either has been disposed of, or is classified as held for sale, and:

a. Represents a separate major line of business or geographical area of operations
b. Is part of a single coordinated plan to dispose of a separate major line of business or geographical area of operations
   Or
c. Is a subsidiary acquired exclusively with a view to resale

429  IFRS 5.30  IFRS 5.33  Does the entity present information that enables users of the financial statements to evaluate the financial effects of discontinued operations by disclosing:

a. A single amount in the statement of comprehensive income comprising the total of:
   ▶ The post-tax profit or loss of discontinued operations
   ▶ The post-tax gain or loss recognised on the measurement to fair value less costs to sell or on the disposal of the assets or disposal group(s) constituting the discontinued operation
If the entity presents the items of profit or loss in a separate statement as described in IAS 1.10A, a section identified as relating to discontinued operations is presented in that statement.

b. An analysis of the single amount in (a) into the following:

IAS 12.81(h)
- The revenue, expenses and pre-tax profit or loss of discontinued operations and the related income tax expense
- The gain or loss recognised on the measurement to fair value less costs to sell or on the disposal of the assets or disposal group(s) constituting the discontinued operation and the related income tax expense

The entity may present the analysis in (b) in the notes or in the statement of comprehensive income. If it is presented in the statement of comprehensive income, it is presented in a section identified as relating to discontinued operations, separately from continuing operations. The analysis is not required for disposal groups that are newly acquired subsidiaries that meet the criteria to be classified as held for sale on acquisition.

c. The net cash flows attributable to the operating, investing and financing activities of discontinued operations

d. The income from continuing operations and from discontinued operations attributable to owners of the parent

The analysis in (d) may be presented either in the notes or in the statement of comprehensive income.

Does the entity re-present the disclosures in IFRS 5.33 for prior periods presented in the financial statements so that the disclosures relate to all operations that are discontinued by the end of the current reporting period?

Does the entity classify separately in discontinued operations and disclose the nature and amount of adjustments that are made in the current period to amounts previously presented in discontinued operations that are directly related to the disposal of a discontinued operation in a prior period?

Examples of circumstances in which these adjustments may arise include:

a. The resolution of uncertainties that arise from the terms of the disposal transaction, such as the resolution of purchase price adjustments and indemnification issues with the purchaser
b. The resolution of uncertainties that arise from and are directly related to the operations of the component before its disposal, such as environmental and product warranty obligations retained by the seller
c. The settlement of employee benefit plan obligations, if the settlement is directly related to the disposal transaction

If the entity ceases to classify a component of the entity as held for sale, does the entity reclassify the results of operations of the component previously presented in discontinued operations under IFRS 5.33-35 and include them in income from continuing operations for all period presented?

The amounts for prior periods must be described as having been re-presented.

If an entity commits to a sale plan involving loss of control of a subsidiary and the subsidiary is a disposal group that meets the definition of a discontinued operation under IFRS 5.32, does it disclose the information required by IFRS 5.33-36 for this subsidiary?
Does the entity present information that enables users of the financial statements to evaluate the financial effects of disposals of non-current assets (or disposal groups)

For non-current assets or disposal groups held for sale does the entity present:

a. Non-current asset(s) and assets from a disposal group classified as held for sale separately from other assets in the statement of financial position

b. Liabilities of a disposal group classified as held for sale separately from other liabilities in the statement of financial position

c. Assets and liabilities classified as held for sale on a gross basis, i.e., not netted off against each other

d. The major classes of assets and liabilities classified as held for sale either in the statement of financial position or in the notes, except when the disposal group is a newly acquired subsidiary that meets the criteria to be held for sale on acquisition

e. Cumulative income or expense recognised in other comprehensive income relating to a non-current asset (or disposal group) classified as held for sale

In the period in which a non-current asset (or disposal group) is either classified as held for sale or sold, does the entity disclose:

a. A description of the non-current asset (or disposal group)

b. The facts and circumstances of the sale, or leading to the expected disposal, and the expected manner and timing of that disposal

c. The gain or loss recognised in accordance with IFRS 5.20-22 and, if not separately presented in the statement of comprehensive income, the caption in the statement of comprehensive income that includes that gain or loss

d. The reportable segment in which the non-current asset (or disposal group) is presented under IFRS 8, if applicable

If the entity ceases to classify the asset (or disposal group) as held for sale or removes an individual asset or liability from a disposal group classified as held for sale, does the entity disclose the following information in the period of the decision to change the plan to sell the non-current asset (or disposal group):

a. The facts and circumstances leading to the decision

b. The effect of the decision on the results of operations for the period and any prior periods presented

For measurements and disclosures of fair value (including fair value less costs to sell) required by IFRS 5, does the entity provide the disclosures required by IFRS 13 (refer to 'Fair value measurement' section)

When the criteria for classification of a non-current asset (or disposal group) as held for sale are met after the reporting period but before the authorisation of the financial statements for issue, does the entity disclose the information specified in IFRS 5.41(a), (b) and (d) in the notes

Operating segments

Does the entity disclose the following for each period for which a statement of comprehensive income is presented, to enable users of its financial statements to evaluate the nature and financial effects of the business activities in which it engages and the economic environment in which it operates:

a. General information as described in IFRS 8.22 below

b. Information about reported segment profit or loss, including specified revenues and expenses included in reported segment profit or loss, segment assets, segment liabilities and the basis of measurement, as described in IFRS 8.23-27

c. Reconciliations of the totals of segment revenues, reported segment profit or loss, segment assets, segment liabilities
and other material segment items to corresponding entity amounts as described in IFRS 8.28

441 IFRS 8.21 For each date that a statement of financial position is presented, does the entity reconcile the amounts in the statement of financial position to the amounts for reportable segments (Information for prior periods is restated as described in IFRS 8.29-30)

General information

442 IFRS 8.22 Does the entity disclose:

a. Factors used to identify the entity's reportable segments, including the basis of organisation (for example, whether management has chosen to organise the entity around differences in products and services, geographical areas, regulatory environments, or a combination of factors and whether operating segments have been aggregated)

b. The judgements made by management in applying the aggregation criteria in IFRS 8.12. This includes a brief description of the operating segments that have been aggregated in this way and the economic indicators that have been assessed in determining that the aggregated operating segments share similar economic characteristics

c. Types of products and services from which each reportable segment derives its revenues

Information about profit or loss, assets and liabilities

443 IFRS 8.23 Does the entity disclose a measure of profit or loss for each reportable segment

444 IFRS 8.23 Does the entity disclose a measure of total assets and liabilities for each reportable segment if such amounts are regularly provided to the chief operating decision maker

445 IFRS 8.23 Does the entity disclose the following about each reportable segment if the specified amounts are included in the measure of segment profit or loss reviewed by the chief operating decision maker or are otherwise regularly provided to the chief operating decision maker, even if not included in the measure of segment profit or loss:

a. Revenues from external customers
b. Revenues from transactions with other operating segments of the same entity
c. Interest revenue
d. Interest expense
e. Depreciation and amortisation
f. Material items of income and expense disclosed in accordance with IAS 1.97
g. The entity's interest in the profit or loss of associates and joint ventures accounted for by the equity method
h. Income tax expense or income
i. Material non-cash items other than depreciation and amortisation

IFRS 8.23 An entity shall report interest revenue separately from interest expense for each reportable segment unless a majority of the segment’s revenues are from interest and the chief operating decision maker relies primarily on net interest revenue to assess the performance of the segment and make decisions about resources to be allocated to the segment.

446 IFRS 8.24 Does the entity disclose the following about each reportable segment if the specified amounts are included in the measure of segment assets reviewed by the chief operating decision maker or are otherwise regularly provided to the chief operating decision maker, even if not included in the measure of segment assets:

a. The amount of investment in associates and joint ventures accounted for by the equity method
b. The amounts of additions to non-current assets other than financial instruments, deferred tax assets, post-employment benefit assets and rights arising under insurance contracts
**Measurement**

447 IFRS 8.25 Are the amounts in each segment item reported included in the measure of the segment's profit or loss, its assets, or its liabilities reported to the chief operating decision maker for allocating resources to the segment and assessing its performance?

448 IFRS 8.26 If the chief operating decision maker uses only one measure of an operating segment's profit or loss, its assets or its liabilities, is the segment information reported at those measures?

**Reconciliations**

450 IFRS 8.28 Does the entity reconcile:

a. Total reportable segments' revenues to the entity's revenue

b. Total reportable segments' measures of profit or loss to the entity's profit or loss before tax expense (tax income) and discontinued operations
However, if the entity allocates to reportable segments items such as tax expense (tax income), the entity may reconcile the total of the segments' measures of profit or loss to the entity's profit or loss after those items.

c. Total reportable segments' assets to the entity's assets if the segment assets are reported under IFRS 8.23

d. Total reportable segments' liabilities to the entity's liabilities if segment liabilities are reported under IFRS 8.23 above

e. Total reportable segments' amounts for every other material item of information disclosed to the corresponding amount for the entity

Does the entity separately identify and describe all material reconciling items

For example, the entity separately identifies and describes the amount of each material adjustment needed to reconcile reportable segment profit or loss to the entity's profit or loss arising from different accounting policies.

Restatement of previously reported information

If the entity changed the structure of its internal organisation in a manner that causes the composition of its reportable segments to change, has the comparative information for earlier periods, including interim periods, been restated if it is available and the cost to develop it is not excessive

The determination of whether the information is not available and the cost to develop it is excessive is made for each individual item of disclosure. Following a change in the composition of its reportable segments, the entity discloses whether it restated the corresponding items of segment information for earlier periods.

If the entity changes the structure of its internal organisation in a manner that causes the composition of its reportable segments to change and does not restate segment information for prior periods, including interim periods, for the change, does the entity disclose, in the reporting period in which the change occurs, segment information for the current period on both the old basis and the new basis of segmentation, unless the necessary information is not available and the cost to develop it would be excessive

Information about products and services

Does the entity report the revenues from external customers for each product and service, or each group of similar products and services, unless the necessary information is not available and the cost to develop it is excessive, in which case that fact is disclosed

The revenues reported are based on the financial information used to produce the entity's financial statements.

The entity-wide disclosures set out in IFRS 8.32-34 apply to all entities subject to IFRS 8, including those with a single reportable segment. The entity provides this information only to the extent that it is not already provided as part of the reportable operating segment information required by this IFRS.

Information about geographical areas

Does the entity report the following geographical information, unless the necessary information is not available and the cost to develop it would be excessive:

a. Revenues from external customers:
   - Attributed to the entity's country of domicile
   - Attributed to all foreign countries in total from which the entity derives revenues
   - Attributed to an individual foreign country, if material
   - The basis for attributing revenues from external customers to individual countries
b. Non-current assets other than financial instruments, deferred tax assets, post-employment benefit assets and rights arising under insurance contracts:
   ▶ Located in the entity's country of domicile  
   ▶ Located in all foreign countries in total in which the entity holds assets  
   ▶ Located in an individual foreign country, if material

c. If the necessary information is not available and the cost to develop it would be excessive, does the entity disclose that fact

IFRS 8.33 The amounts reported are based on the financial information that is used to produce the entity’s financial statements. The entity may disclose subtotals of geographical information about groups of countries.

Information about major customers

456 IFRS 8.34 If revenues from transactions with a single external customer amount to 10% or more of the entity’s revenues, does the entity disclose:
   a. This fact  
   b. The revenues from each such customer  
   c. The identity of the segment or segments reporting the revenues

IFRS 8.34 The entity need not disclose the identity of a major customer or the revenues that each segment reports from that customer. Under IFRS 8, a group of entities known to a reporting entity to be under common control are considered a single customer. However, judgement is required to assess whether a government (national, state, provincial, territorial, local or foreign) and entities known to the reporting entity to be under the control of that government are considered a single customer.

Property, plant and equipment

457 IAS 16.42 Does the entity disclose the effects of taxes on income, if any, resulting from the revaluation of property, plant and equipment in accordance with IAS 12

458 IAS 16.73 For each class of property, plant and equipment, does the entity disclose:
   a. The measurement bases used for determining the gross carrying amount  
   b. The depreciation methods used  
   c. The useful lives or the depreciation rates used  
   d. The gross carrying amount and the accumulated depreciation (aggregated with accumulated impairment losses) at the beginning and end of the period  
   e. A reconciliation of the carrying amount at the beginning and end of the period showing:
      ▶ Additions  
      ▶ Assets classified as held for sale or included in a disposal group classified as ‘held for sale’ in accordance with IFRS 5 and other disposals  
      ▶ Acquisitions through business combinations  
      ▶ Increases or decreases resulting from revaluations and impairment losses recognised or reversed in other comprehensive income under IAS 36 during the reporting period  
      ▶ Impairment losses recognised in profit or loss during the period under IAS 36  
      ▶ Impairment losses reversed in profit or loss during the period under IAS 36  
      ▶ Depreciation (whether recognised in profit or loss or as a part of the cost of other assets)  
      ▶ The net exchange differences arising on the translation of the financial statements from the functional currency into a different presentation
currency, including the translation of a foreign operation into the presentation currency of the reporting entity

Other changes

IAS 16.37
A class of property, plant and equipment is a grouping of assets of a similar nature and use in an entity’s operations.

IAS 16.78
An entity discloses information on impaired property, plant and equipment under IAS 36 in addition to the information required by IAS 16.73(e)(iv)-(vi).

459 IAS 16.74
Does the entity disclose the following information:

a. The existence and amounts of restrictions on title, and property, plant and equipment pledged as security for liabilities

b. The amount of expenditures recognised in the carrying amount of an item of property, plant and equipment during its construction

c. The amount of contractual commitments for the acquisition of property, plant and equipment

d. If it is not disclosed separately in the statement of comprehensive income, the amount of compensation from third parties for items of property, plant and equipment that were impaired, lost or given up that is included in profit or loss

460 IAS 16.77
If items of property, plant and equipment are stated at revalued amounts under the revaluation model, does the entity disclose the following information:

a. The effective date of the revaluation

b. Whether an independent valuer was involved

c. The fair value measurement disclosures required by IFRS 13 (refer to ‘Fair value measurement’ section)

d. For each revalued class of property, plant and equipment, the carrying amount that would have been recognised had the assets been carried under the cost model

e. The revaluation surplus, indicating the change for the period and any restrictions on the distribution of the balance to shareholders

461 IAS 16.79
Does the entity disclose:

a. The carrying amount of temporarily idle property, plant and equipment

b. The gross carrying amount of any fully depreciated property, plant and equipment that is still in use

c. The carrying amount of property, plant and equipment retired from active use and not classified as held for sale

d. If the cost model is used, the fair value of property, plant and equipment, if this is materially different from the carrying amount

Provisions, contingent liabilities and contingent assets

462 IAS 37.84
For each class of provision (comparative information is not required), does the entity disclose:

a. The carrying amount at the beginning and end of the reporting period

b. Additional provisions made in the reporting period, including increases to existing provisions

c. Amounts used (that is, incurred and charged against the provision) during the reporting period

d. Unused amounts reversed during the reporting period

e. The increase during the reporting period in the discounted amount arising from the passage of time and the effect of any change in the discount rate

IAS 37.87
In determining which provisions or contingent liabilities may be aggregated to form a class, it is necessary to consider whether the nature of the items is sufficiently similar for a single
Statement about them to fulfil the requirements of IAS 37.85 and 86.

For each class of provision, does the entity disclose:

a. The nature of the obligation and the expected timing of any resulting outflows of economic benefits

b. The uncertainties about the amount or timing of those outflows

c. If necessary to provide adequate information, the major assumptions made concerning future events

d. The amount of any expected reimbursement, stating the amount of any asset that has been recognised for that expected reimbursement

Unless the possibility of any outflow in settlement is remote, does the entity disclose the following for each class of contingent liability at the end of the reporting period:

a. The nature of the contingent liability

b. An estimate of its financial effect, measured in accordance with the requirements for measuring provisions (under IAS 37.36-52)

c. The uncertainties relating to the amount or timing of any outflow

d. The possibility of any reimbursement

e. If the entity does not disclose any of the information in (a)-(d), the fact that it is not practicable to do so

If a provision and a contingent liability arise from the same set of circumstances, does the entity disclose items in IAS 37.84-86 above in a way that shows the link between the provision and the contingent liability

If an inflow of economic benefits is probable, does the entity disclose:

a. The nature of the contingent assets at the end of the reporting period

b. An estimate of their financial effect, measured in accordance with the requirements for measuring provisions (under IAS 37.36-52)

c. If the entity does not disclose information in (a) and (b), the fact that it is not practicable to do so

In extremely rare cases, some or all of the disclosures regarding provisions, contingent liabilities or contingent assets can prejudice seriously the position of the entity in a dispute with other parties. In such cases, does the entity disclose:

a. The general nature of the dispute

b. The fact, and the reason why, the information is not disclosed

Rights to interests arising from decommissioning, restoration and environmental rehabilitation funds (IFRIC 5)

Does the entity disclose its accounting policy for decommission, restoration and environmental rehabilitation funds

IFRIC 5 applies to accounting in the financial statements of a contributor for interests arising from decommissioning funds that have both of the following features:

a. The assets are administered separately (either by being held in a separate legal entity or as segregated assets within another entity)

b. A contributor's right to access the assets is restricted

Does the entity (as a contributor) disclose the nature of its interest in a fund and any restrictions on access to the assets in the fund

If the entity (as a contributor) has an obligation to make potential contributions that it does not recognise as a liability, does the entity make the disclosures required by IAS 37.86
If an entity (as a contributor) accounts for its interest in the fund under IFRIC 5.9, does the entity make the disclosures required by IAS 37.85(c)?

Liabilities arising from participating in a specific market-waste electrical and electronic equipment (IFRIC 6)

Does the entity disclose its accounting policy for liabilities arising from participating in specific market-waste electrical and electronic equipment?

Related parties

The disclosure requirements of IAS 24 Related Party Disclosures for related party transactions and outstanding balances, including commitments, apply for consolidated and separate financial statements of a parent or investors with joint control of, or significant influence over, an investee presented under IFRS 10 or IAS 27. The standard also applies to individual financial statements.

An entity discloses related party transactions and outstanding balances with other entities in a group in the entity’s separate financial statements. Intra-group related party transactions and outstanding balances are eliminated in the preparation of consolidated financial statements of the group except for those between an investment entity and its subsidiaries measured at fair value through profit or loss.

An entity may disclose items of a similar nature in aggregate except when separate disclosure is necessary for an understanding of the effects of related party transactions on the financial statements of the entity.

Does the entity disclose relationships between parents and subsidiaries, irrespective of whether there are transactions between them?

The requirement to disclose related party relationships between a parent and its subsidiaries is in addition to the disclosure requirements in IAS 27 and IFRS 12 Disclosure of Interests in Other Entities.

Does the entity disclose:

- The name of the entity’s parent
- If different, the ultimate controlling party
- Or
- If neither the entity’s parent nor the ultimate controlling party produces consolidated financial statements available for public use, the name of the next most senior parent that does so

Does the entity disclose key management personnel compensation in total and for each of the following categories:

- Short-term employee benefits
- Post-employment benefits
- Other long-term benefits
- Termination benefits
- Share-based payments

If an entity obtains key management personnel services from another entity (the ‘management entity’), the entity is not required to apply IAS 24.17 to the compensation paid or payable by the management entity to the management entity’s employees or directors.

If there are related party transactions during the reporting period covered by the financial statements, does the entity disclose the following information:

- The nature of the related party relationship
- Information about the transactions and outstanding balances, including commitments, necessary for an understanding of the potential effect of the relationship on the financial statements, including the following disclosures:
  - The amount of the transactions
Disclosures that related party transactions were made on terms equivalent to those that prevail in arm's length transactions are made only if such terms can be substantiated.

If the entity applies the exemption in IAS 24.25, does the entity disclose the following about transactions and outstanding balances, including commitments:

a. The name of the government and the nature of its relationship with the reporting entity (i.e., control, joint control or significant influence)

b. The following information in sufficient detail to enable users of the entity's financial statements to understand the effect of related party transactions on its financial statements:
   - The nature and amount of each individually significant transaction
   - For other transactions, which are collectively, but not individually significant, a qualitative or quantitative indication of their extent

In using its judgement to determine the level of detail to be disclosed in accordance with the requirements in IAS 24.26(b)
above, the reporting entity considers the closeness of
the related party relationship and other factors relevant in
establishing the level of significance of the transaction such
as whether it is:

IAS 24.27

► Significant in terms of size
► Carried out on non-market terms
Outside normal day-to-day business operations, such as
the purchase and sale of businesses
► Disclosed to regulatory or supervisory authorities
► Reported to senior management
► Subject to shareholder approval

Revenue from Contracts with Customers

IFRS 15 Revenue from Contracts with Customers applies
with limited exceptions to all contracts with customers and is
effective for annual periods beginning on or after 1 January
2018.

Transition to IFRS 15

IFRS 15.C3

An entity adopts IFRS 15 using one of the following two
methods:

a. Retrospectively to each prior reporting period presented
   in accordance with IAS 8, subject to the expedients in
   IFRS 15.C5
Or

b. Retrospectively with the cumulative effect of initially
   applying IFRS 15 recognised at the date of initial application
   in accordance with IFRS 15.C7-C8

IFRS 15.C2

For the purposes of the transition requirements:

a. The date of initial application is the start of the reporting
   period in which an entity first applies IFRS 15
b. A completed contract is a contract for which the entity
   has transferred all of the goods or services identified
   in accordance with IAS 11 Construction Contracts,
   IAS 18 Revenue and related Interpretations

Full retrospective approach

New 481 IFRS 15.C3(a)
IAS 8.22 If IFRS 15 is applied retrospectively, in accordance with
IFRS 15.C3(a), does the entity disclose the adjustment to
the opening balance of each affected component of equity for
the earliest prior period presented and the other comparative
amounts for each prior period presented as if the entity had
always applied the new accounting policy

New 482 IAS 8.28 If the initial application of IFRS 15 has an effect on the current
period or any prior period presented or might have an effect
on future periods, unless it is impracticable to determine
the amount of the adjustment, does the entity disclose:

a. The title of the IFRS
b. That the change in accounting policy is in accordance
   with its transitional provisions, if applicable
c. The nature of the change in accounting policy
d. The description of transitional provisions, if applicable
e. The transitional provisions that might have an effect on
   future periods, if applicable
f. The amount of the adjustment for each financial statement
   line item affected and the basic and diluted earnings per
   share for the annual period immediately preceding the first
   annual period for which IFRS 15 is applied, to the extent
   practicable (if IAS 33 applies to the entity)

IFRS 15.C4

Notwithstanding the requirements of IAS 8.28, when IFRS 15
is first applied, an entity need only present the quantitative
information required by IAS 8.28(f) for the annual period
immediately preceding the first annual period for which
IFRS 15 is applied (the ‘immediately preceding period’) and
only if the entity applies IFRS 15 retrospectively in accordance
with IFRS 15.C3(a). An entity may also present this information
for the current period or for earlier comparative periods, but is not required to do so.

<p>| | |</p>

Financial statements of subsequent periods need not repeat these disclosures.

*New IFRS 15.C6*

Does the entity disclose all of the following for any of the practical expedients in IFRS 15.C5 that it uses:

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>a.</td>
<td>The expedients that have been used</td>
</tr>
<tr>
<td>b.</td>
<td>To the extent reasonably possible, a qualitative assessment of the estimated effect of applying each of those expedients</td>
</tr>
</tbody>
</table>

*IFRS 15.C5*

An entity may use one or more of the following practical expedients when applying IFRS 15 retrospectively under IFRS 15.C3(a):

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>a.</td>
<td>For completed contracts, an entity need not restate contracts that either: (i) begin and end within the same annual reporting period; or (ii) are completed contracts at the beginning of the earliest period presented</td>
</tr>
<tr>
<td>b.</td>
<td>For completed contracts that have variable consideration, an entity may use the transaction price at the date the contract was completed rather than estimating variable consideration amounts in the comparative reporting periods</td>
</tr>
<tr>
<td>c.</td>
<td>For contracts that were modified before the beginning of the earliest period presented, an entity need not retrospectively restate the contract for those contract modifications in accordance with IFRS 15.20-21. Instead, an entity shall reflect the aggregate effect of all of the modifications that occur before the beginning of the earliest period presented when: (i) identifying the satisfied and unsatisfied performance obligations; (ii) determining the transaction price; and (iii) allocating the transaction price to the satisfied and unsatisfied performance obligations</td>
</tr>
<tr>
<td>d.</td>
<td>For all reporting periods presented before the date of initial application, an entity need not disclose the amount of the transaction price allocated to the remaining performance obligations and an explanation of when the entity expects to recognise that amount as revenue (see IFRS 15.120)</td>
</tr>
</tbody>
</table>

**Modified retrospective approach**

*New IFRS 15.C8*  

If IFRS 15 is applied retrospectively in accordance with IFRS 15.C3(b), for reporting periods that include the date of initial application does the entity provide both of the following:

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>a.</td>
<td>The amount by which each financial statement line item is affected in the current reporting period by the application of IFRS 15 as compared to IAS 11, IAS 18 and related Interpretations that were in effect before the change</td>
</tr>
<tr>
<td>b.</td>
<td>An explanation of the reasons for significant changes identified in IFRS 15.C8(a)</td>
</tr>
</tbody>
</table>

*IFRS 15.C7*

If an entity elects to apply IFRS 15 retrospectively in accordance with IFRS 15.C3(b), the entity must recognise the cumulative effect of initially applying IFRS 15 as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) of the annual reporting period that includes the date of initial application. Under this transition method, an entity may elect to apply IFRS 15 retrospectively only to contracts that are not completed contracts at the date of initial application (for example, 1 January 2018 for an entity with a 31 December year-end).
Does the entity disclose the following for any of the practical expedients in IFRS 15.C7A that it uses:

a. The expedients that have been used
b. To the extent reasonably possible, a qualitative assessment of the estimated effect of applying each of those expedients

When applying IFRS 15 retrospectively under IFRS 15.C3(b), an entity may use the following practical expedient: for contracts that were modified before the beginning of the earliest period presented, an entity need not retrospectively restate the contract for those contract modifications in accordance with paragraphs 20-21. Instead, an entity shall reflect the aggregate effect of all of the modifications that occur before the beginning of the earliest period presented when:

(i) identifying the satisfied and unsatisfied performance obligations; (ii) determining the transaction price; and (iii) allocating the transaction price to the satisfied and unsatisfied performance obligations. An entity may apply this expedient either:

a. For all contract modifications that occur before the beginning of the earliest period presented
b. For all contract modifications that occur before the date of initial application

**Presentation**

Does the entity present any unconditional rights to consideration separately from contract assets as a receivable?

A receivable is an entity’s right to consideration that is unconditional. A right to consideration is unconditional if only the passage of time is required before payment of that consideration is due. For example, an entity would recognise a receivable if it has a present right to payment even though that amount may be subject to refund in the future. An entity must account for a receivable in accordance with IFRS 9.

Upon initial recognition of a receivable from a contract with a customer, does the entity present any difference between the measurement of the receivable in accordance with IFRS 9 and the corresponding amount of revenue as an expense (for example, as an impairment loss)?

If the entity performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, does the entity present the contract as a contract asset, excluding any amounts presented as a receivable?

A contract asset is an entity’s right to consideration in exchange for goods or services that the entity has transferred to a customer. An entity must assess a contract asset for impairment in accordance with IFRS 9. An impairment of a contract asset shall be measured, presented and disclosed on the same basis as a financial asset that is within the scope of IFRS 9 - see also IFRS 15.113(b).

If a customer pays consideration, or the entity has a right to an amount of consideration that is unconditional (i.e., a receivable), before the entity transfers a good or service to the customer, does the entity present the contract as a contract liability when the payment is made or the payment is due (whichever is earlier)?

A contract liability is an entity’s obligation to transfer goods or services to a customer for which the entity has received consideration (or an amount of consideration is due) from the customer.

If the entity uses an alternative description for a contract asset, does the entity provide sufficient information for a user of the financial statements to distinguish between receivables and contract assets?

IFRS 15 uses the terms ‘contract asset’ and ‘contract liability’, but does not prohibit an entity from using alternative descriptions in the statement of financial position for those items.

The existence of a significant financing component in the contract.
Does the entity present the effects of financing (interest revenue or interest expense) separately from revenue from contracts with customers in the statement of comprehensive income?

**IFRS 15.65** Interest revenue or interest expense is recognised only to the extent that a contract asset (or receivable) or a contract liability is recognised in accounting for a contract with a customer.

Does the entity present the asset for an entity’s right to recover products from a customer on settling a refund liability separately from the refund liability?

**IFRS 15.825** An asset recognised for an entity’s right to recover products from a customer on settling a refund liability shall initially be measured by reference to the former carrying amount of the product (for example, inventory) less any expected costs to recover those products (including potential decreases in the value to the entity of returned products). At the end of each reporting period, an entity must update the measurement of the asset arising from changes in expectations about products to be returned.

**Disclosures**

The objective of the disclosure requirements in IFRS 15 is for an entity to disclose sufficient information to enable users of financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers.

An entity must consider the level of detail necessary to satisfy the disclosure objective and how much emphasis to place on each of the various requirements. An entity must aggregate or disaggregate disclosures so that useful information is not obscured by either the inclusion of a large amount of insignificant detail or the aggregation of items that have substantially different characteristics.

An entity need not disclose information in accordance with IFRS 15 if it has provided the information in accordance with another standard.

To achieve the disclosure objective stated in IFRS 15.110, does the entity disclose qualitative and quantitative information about all of the following:

a. Its contracts with customers (see IFRS 15.113-122)

b. The significant judgements, and changes in the judgements, made in applying IFRS 15 to those contracts (see IFRS 15.123-126)

c. Any assets recognised from the costs to obtain or fulfil a contract with a customer in accordance with IFRS 15.91 or IFRS 15.95 (see IFRS15.127-128)

Does the entity disaggregate all of the following amounts for the reporting period unless those amounts are presented separately in the statement of comprehensive income in accordance with other standards:

a. Revenue recognised from contracts with customers, which the entity must disclose separately from its other sources of revenue

b. Any impairment losses recognised (in accordance with IFRS 9) on any receivables or contract assets arising from the entity’s contracts with customers, which the entity must disclose separately from impairment losses from other contracts

Does the entity disaggregate revenue recognised from contracts with customers into categories that depict how the nature, amount, timing and uncertainty of revenue and cash flows are affected by economic factors
IFRS 15.114 requires an entity to disaggregate revenue from contracts with customers into categories that depict how the nature, amount, timing and uncertainty of revenue and cash flows are affected by economic factors. Consequently, the extent to which an entity’s revenue is disaggregated for the purposes of this disclosure depends on the facts and circumstances that pertain to the entity’s contracts with customers. Some entities may need to use more than one type of category to meet the objective in IFRS 15.114 for disaggregating revenue. Other entities may meet the objective by using only one type of category to disaggregate revenue.

When selecting the type of category (or categories) to use to disaggregate revenue, an entity must consider how information about the entity’s revenue has been presented for other purposes, including all of the following:

a. Disclosures presented outside the financial statements (for example, in earnings releases, annual reports or investor presentations)

b. Information regularly reviewed by the chief operating decision maker for evaluating the financial performance of operating segments

c. Other information that is similar to the types of information identified in IFRS 15.B88(a) and (b) and that is used by the entity or users of the entity’s financial statements to evaluate the entity’s financial performance or make resource allocation decisions

Examples of categories that might be appropriate include, but are not limited to, all of the following:

- Type of good or service (for example, major product lines)
- Geographical region (for example, country or region)
- Market or type of customer (for example, government and non-government customers)
- Type of contract (for example, fixed-price and time-and-materials contracts)
- Contract duration (for example, short-term and long-term contracts)
- Timing of transfer of goods or services (for example, revenue from goods or services transferred to customers at a point in time and revenue from goods or services transferred over time)
- Sales channels (for example, goods sold directly to consumers and goods sold through intermediaries)

If the entity applies IFRS 8, does the entity disclose sufficient information to enable users of financial statements to understand the relationship between the disclosure of disaggregated revenue (in accordance with IFRS 15.114) and revenue information that is disclosed for each reportable segment?

Contract balances

Does the entity disclose all of the following:

a. The opening and closing balances of receivables, contract assets and contract liabilities from contracts with customers, if not otherwise separately presented or disclosed

b. Revenue recognised in the reporting period that was included in the contract liability balance at the beginning of the period

c. Revenue recognised in the reporting period from performance obligations satisfied (or partially satisfied) in previous periods (for example, changes in transaction price)

Does the entity explain how the timing of satisfaction of its performance obligations (see IFRS 15.119(a)) relates to the typical timing of payment (see IFRS 15.119(b)) and the effect that those factors have on the contract asset and contract liability balances; the explanation provided may use qualitative information.
### Disclosure Checklist

**New 499 IFRS 15.118**

Does the entity provide an explanation (with both qualitative and quantitative information) of the significant changes in the contract asset and the contract liability balances during the reporting period?

**IFRS 15.118**

Examples of changes in the entity’s balances of contract assets and contract liabilities include any of the following:

- Changes due to business combinations
- Cumulative catch-up adjustments to revenue that affect the corresponding contract asset or contract liability, including adjustments arising from a change in the measure of progress, a change in an estimate of the transaction price (including any changes in the assessment of whether an estimate of variable consideration is constrained) or a contract modification
- Impairment of a contract asset
- A change in the time frame for a right to consideration to become unconditional (i.e., for a contract asset to be reclassified to a receivable)
- A change in the time frame for a performance obligation to be satisfied (i.e., for the recognition of revenue arising from a contract liability)

**Performance obligations**

**New 500 IFRS 15.119**

Does the entity disclose information about its performance obligations in contracts with customers, including a description of all of the following:

- When the entity typically satisfies its performance obligations (for example, upon shipment, upon delivery, as services are rendered or upon completion of service), including when performance obligations are satisfied in a bill-and-hold arrangement
- The significant payment terms
- For example, when payment is typically due, whether the contract has a significant financing component, whether the consideration amount is variable and whether the estimate of variable consideration is typically constrained in accordance with IFRS 15.56–58.
- The nature of the goods or services that the entity has promised to transfer, highlighting any performance obligations to arrange for another party to transfer goods or services (i.e., if the entity is acting as an agent)
- Obligations for returns, refunds and other similar obligations
- Types of warranties and related obligations

**Transaction price allocated to the remaining performance obligations**

**New 501 IFRS 15.120**

Does the entity disclose all of the following information about its remaining performance obligations:

- The aggregate amount of the transaction price allocated to the performance obligations that are unsatisfied (or partially unsatisfied) as of the end of the reporting period
- An explanation of when the entity expects to recognise as revenue the amount disclosed in accordance with IFRS 15.120(a), which the entity discloses in either of the following ways:
  - On a quantitative basis using the time bands that would be most appropriate for the duration of the remaining performance obligations
  - By using qualitative information

**IFRS 15.121**

As a practical expedient, an entity need not disclose the information in IFRS 15.120 for a performance obligation if either of the following conditions is met:

- The performance obligation is part of a contract that has an original expected duration of one year or less
- The entity recognises revenue from the satisfaction of the performance obligation in accordance with IFRS 15.B16
That is, if an entity has a right to consideration from a customer in an amount that corresponds directly with the value to the customer of the entity’s performance completed to date (for example, a service contract in which an entity bills a fixed amount for each hour of service provided), as a practical expedient, the entity may recognise revenue in the amount to which the entity has a right to invoice.

**New 502 IFRS 15.122** Does the entity explain qualitatively whether it is applying the practical expedient in IFRS 15.121 and whether any consideration from contracts with customers is not included in the transaction price and, therefore, not included in the information disclosed in accordance with IFRS 15.120

**New 503 IFRS 15.123** Does the entity disclose the judgements, and changes in the judgements, made in applying IFRS 15 that significantly affect the determination of the amount and timing of revenue from contracts with customers. In particular, does the entity explain the judgements, and changes in the judgements, used in determining both of the following:

- a. The timing of satisfaction of performance obligations (see IFRS 15.124-125)
- b. The transaction price and the amounts allocated to performance obligations (see IFRS 15.126)

**Determining the timing of satisfaction of performance obligations**

**New 504 IFRS 15.124** For performance obligations that the entity satisfies over time, does the entity disclose both of the following:

- a. The methods used to recognise revenue (for example, a description of the output methods or input methods used and how those methods are applied)
- b. An explanation of why the methods used provide a faithful depiction of the transfer of goods or services

**New 505 IFRS 15.125** For performance obligations satisfied at a point in time, does the entity disclose the significant judgements made in evaluating when a customer obtains control of promised goods or services

**Determining the transaction price and the amounts allocated to performance obligations**

**New 506 IFRS 15.126** Does the entity disclose information about the methods, inputs and assumptions used for all of the following:

- a. Determining the transaction price, which includes, but is not limited to, estimating variable consideration, adjusting the consideration for the effects of the time value of money and measuring non-cash consideration
- b. Assessing whether an estimate of variable consideration is constrained
- c. Allocating the transaction price, including:
  - Estimating stand-alone selling prices of promised goods or services
  - Allocating discounts to a specific part of the contract (if applicable)
  - Allocating variable consideration to a specific part of the contract (if applicable)
- d. Measuring obligations for returns, refunds and other similar obligations

**Assets recognised from the costs to obtain or fulfil a contract with a customer**

**New 507 IFRS 15.127** Does the entity describe both of the following:

- a. The judgements made in determining the amount of the costs incurred to obtain or fulfil a contract with a customer
- b. The method it uses to determine the amortisation for each reporting period

**New 508 IFRS 15.128** Does the entity disclose all of the following:

- a. The closing balances of assets recognised from the costs incurred to obtain or fulfil a contract with a customer (in accordance with IFRS 15.91 or IFRS 15.95), by main
category of asset (for example, costs to obtain contracts with customers, pre-contract costs and setup costs)

b. The amount of amortisation recognised in the reporting period

c. The amount of any impairment losses recognised in the reporting period

Practical expedients

New 509 IFRS 15.129
If the entity elects to use the practical expedient in IFRS 15.63 regarding the existence of a significant financing component, does the entity disclose that fact

IFRS 15.63
As a practical expedient, an entity need not adjust the promised amount of consideration for the effects of a significant financing component if the entity expects, at contract inception, that the period between when the entity transfers a promised good or service to a customer and when the customer pays for that good or service will be one year or less.

New 510 IFRS 15.129
If the entity elects to use the practical expedient in IFRS 15.94 regarding the incremental costs of obtaining a contract, does the entity disclose that fact

IFRS 15.94
As a practical expedient, an entity may recognise the incremental costs of obtaining a contract as an expense when incurred if the amortisation period of the asset that the entity otherwise would have recognised is one year or less.

Service concession arrangements
(IFRIC 12)

511 SIC 29.6
SIC 29.6A
SIC 29.7
The entity (as an Operator) may enter into an arrangement with another entity (the Grantor) to provide services that give the public access to major economic and social facilities. The entity considers all aspects of a service concession arrangement in determining the appropriate disclosures. If the entity is an Operator or a Grantor, does the entity disclose the following for each service concession arrangement or in aggregate each class of service concession arrangements:

a. A description of the arrangement
b. Significant terms of the arrangement that may affect the amount, timing and certainty of future cash flows such as the period of the concession, re-pricing dates and the basis upon which re-pricing or re-negotiation is determined
c. The nature and extent (for example, quantity, period, or amount) of the following:
   ▶ Rights to use specified assets
   ▶ Obligations to provide or rights to expect provision of services
   ▶ Obligations to acquire or build items of property, plant and equipment
   ▶ Obligations to deliver or rights to receive specified assets at the end of the concession period
   ▶ Renewal and termination options
   ▶ Other rights and obligations
d. Changes in the arrangement occurring during the reporting period
e. How the service arrangement is classified
f. The revenue and profits or losses recognised in the reporting period on exchanging construction services for a financial asset or an intangible asset

Share-based payment

512 IFRS 2.44
IFRS 2.45
Does the entity disclose information that enables users of the financial statements to understand the nature and extent of a share-based payment arrangement in existence during the period by disclosing, as a minimum, the following:

a. A description of each type of share-based payment arrangement that existed at any time during the period including the general terms and conditions of each arrangement such as:
The vesting requirements
The maximum term of options granted
The method of settlement (for example, whether in cash or equity)

b. The number and weighted average exercise prices of share options for each of the following groups of options:

- Outstanding at the beginning of the period
- Granted during the period
- forfeited during the period
- Exercised during the period
- Expired during the period
- Outstanding at the end of the period
- Exercisable at the end of the period

c. For share options exercised during the reporting period, the weighted average share price at the date of exercise, or if options were exercised on a regular basis throughout the reporting period, the entity may instead disclose the weighted average share price during the reporting period.

d. For share options outstanding at the end of the reporting period, the following information. Where the range of exercise prices is wide, the outstanding options should be divided into ranges that are meaningful for assessing the number and timing of additional shares that may be issued and the cash that may be received upon exercise of those options:

- The range of exercise prices
- The weighted average remaining contractual life

IFRS 2.45
An entity with substantially similar types of share-based payment arrangements may aggregate the information in IFRS 2.45 above, unless separate disclosure of each arrangement is necessary to enable users of the financial statements to understand the nature and extent of share-based payment arrangements that existed during the reporting period.

513 IFRS 2.46
IFRS 2.47
If the entity measured the fair value of goods or services received as consideration for equity instruments of the entity indirectly, by reference to the fair value of the equity instruments granted, does the entity disclose information that enables users of the financial statements to understand how the fair value of the equity instruments granted during the period was determined by disclosing at least the following:

a. For share options granted during the period, the weighted average fair value of those options at the measurement date and information on how that fair value was measured, including:

IFRS 2.6A
Please note that this fair value is measured in terms of IFRS 2 and not IFRS 13.

- The option pricing model used
- The inputs to that model, including
  - The weighted average share price
  - Exercise price
  - Expected volatility
  - Option life
  - Expected dividends
  - The risk-free interest rate
  - Any other inputs to the model, including the method used and the assumptions made to incorporate the effects of expected early exercise
  - How expected volatility was determined, including an explanation of the extent to which expected volatility was based on historical volatility
  - Whether and how any other features of the option grant were incorporated into the measurement of fair value, such as market condition
b. For other equity instruments granted during the period (that is, other than share options):
   ► The number of those equity instruments at the measurement date
   ► The weighted average fair value of those equity instruments at the measurement date
   ► Information on how the fair value was measured, including:
     ▶ If fair value was not measured on the basis of an observable market price, how it was determined
     ▶ Whether and how expected dividends were incorporated into the measurement of fair value
     ▶ Whether and how expected any other features of the equity instruments granted were incorporated into the measurement of fair value

c. For share-based payment arrangements that were modified during the period:
   ► An explanation of those modifications
   ► The incremental fair value granted (as a result of those modifications)
   ► Information on how the incremental fair value granted was measured, consistently with the requirements set out in (a) and (b), if applicable

514 IFRS 2.46
514 IFRS 2.48

If the entity measured directly the fair value of goods or services received during the period, does the entity disclose information that enables users of the financial statements to understand how the fair value of the goods and services received during the period was determined (for example, whether fair value was measured at a market price for those goods or services)

515 IFRS 2.49

If the equity-settled share-based payment transactions involve parties other than employees, and the entity determines that it cannot estimate the fair value of the goods and services received reliably, does the entity disclose:
   a. That fact
   b. Why the entity rebutted the presumption

516 IFRS 2.50
516 IFRS 2.51

Does the entity disclose information that enables users of the financial statements to understand the effect of share-based payment transactions on the entity’s profit or loss for the period and on its financial position, by disclosing at least the following:
   a. The total expense recognised for the period (relating to share-based payment transactions in which the goods or services received do not qualify for recognition as assets and hence are recognised immediately as an expense), including separate disclosure of that portion of the total expense that arises from transactions accounted for as equity-settled share-based payment transactions
   b. For liabilities arising from share-based payment transactions:
     ▶ The total carrying amount at the end of the period
     ▶ The total intrinsic value at the end of the period of liabilities for which the counterparty’s right to cash or other assets had vested by the end of the period (for example, vested share appreciation rights)

517 IFRS 2.52

Does the entity disclose additional information necessary to satisfy the principles in IFRS 2.44, IFRS 2.46, and IFRS 2.50, outlined above

New 518 IFRS 2.52

If the entity has classified any share-based payment transactions as equity-settled under IFRS 2.33F, does it disclose an estimate of the amount that it expects to transfer to the tax authority to settle the employee’s tax obligation when it is necessary to inform users about the future cash flow effects associated with the share-based payment arrangement

Agriculture
General
519  IAS 41.40 Does the entity disclose the aggregate gain or loss arising during the current period on initial recognition of biological assets and agricultural produce and from the change in fair value less costs to sell of biological assets

☐ ☐ ☐

520  IAS 41.41 Does the entity disclose a description of each group of biological assets, either in the form of a narrative or a quantified description

☐ ☐ ☐

521  IAS 41.42 Does the entity elect to provide a quantified description of each group of biological assets, distinguishing between consumable and bearer biological assets or between mature and immature biological assets, and disclose the basis for making any such distinction

☐ ☐ ☐

IAS 41.43 For example, an entity may disclose the carrying amounts of consumable biological assets and bearer biological assets by group. An entity may further divide those carrying amounts between mature and immature assets. These distinctions may provide information that may be helpful in assessing the timing of future cash flows.

522  IAS 41.46 If not disclosed elsewhere in information published with the financial statements, does the entity describe:

a. The nature of its activities involving each group of biological assets

☐ ☐ ☐

b. Non-financial measures or estimates of the physical quantities of:

   ▶ Each group of the entity’s biological assets at the end of the period

   ☐ ☐ ☐

   ▶ Output of agricultural produce during the period

   ☐ ☐ ☐

523  IFRS 13.5-7 Does the entity provide the fair value measurement disclosures required by IFRS 13 (refer to ‘Fair value measurement’ section)

☐ ☐ ☐

524  IAS 41.49 Does the entity disclose:

a. The existence and carrying amounts of biological assets whose title is restricted

☐ ☐ ☐

b. The carrying amounts of biological assets pledged as security for liabilities

☐ ☐ ☐

c. The amount of commitments for the development or acquisition of biological assets

☐ ☐ ☐

d. Financial risk management strategies related to agricultural activity

525  IAS 41.50 Does the entity provide a reconciliation of changes in the carrying amount of biological assets between the beginning and the end of the current period that includes at least:

a. The gain or loss arising from changes in fair value less costs to sell

☐ ☐ ☐

b. Increases due to purchases

☐ ☐ ☐

c. Decreases due to sales and biological assets classified as held for sale (or included in a disposal group that is classified as held for sale) in accordance with IFRS 5

☐ ☐ ☐

d. Decreases due to harvest

☐ ☐ ☐

e. Increases resulting from business combinations

☐ ☐ ☐

f. Net exchange differences arising on the translation of financial statements into a different presentation currency and on translation of a foreign operation into the presentation currency of the reporting entity

☐ ☐ ☐

g. Other changes

☐ ☐ ☐
Does the entity disclose the nature and amount of material items of income or expense that result from climatic, disease, or other natural risks? □ □ □

Examples of such an event include an outbreak of a virulent disease, a flood, a severe drought or frost, and a plague of insects.

Does the entity elect to disclose, by group or otherwise, the amount of change in fair value less costs to sell included in profit or loss due to physical changes and due to price changes? □ □ □

Biological transformation results in a number of types of physical change—growth, degeneration, production, and procreation, each of which is observable and measurable. Each of those physical changes has a direct relationship to future economic benefits. A change in fair value of a biological asset due to harvesting is also a physical change.

Disclosure when fair value cannot be measured reliably

There is a presumption that fair value can be measured reliably for a biological asset. However, that presumption can be rebutted only on initial recognition for a biological asset for which quoted market prices are not available and for which alternative fair value measurements are determined to be clearly unreliable. In such a case, that biological asset shall be measured at its cost less any accumulated depreciation and any accumulated impairment losses. Once the fair value of such a biological asset becomes reliably measurable, it shall measure it at its fair value less costs to sell. Once a non-current biological asset meets the criteria to be classified as held for sale (or is included in a disposal group that is classified as held for sale) in accordance with IFRS 5, it is presumed that fair value can be measured reliably.

If the entity measures biological assets at their cost less any accumulated depreciation and any accumulated impairment losses at the end of the period (because fair value cannot be measured reliably), does the entity disclose the following information for such biological assets:

a. A description of the biological assets □ □ □

b. An explanation of why fair value cannot be measured reliably □ □ □

c. The range of estimates within which fair value is highly likely to lie, if possible □ □ □

d. The depreciation method used □ □ □

e. The useful lives or the depreciation rates used □ □ □

f. The gross carrying amount and the accumulated depreciation (aggregated with accumulated impairment losses) at the beginning and end of the period □ □ □

If the entity measures biological assets at their cost less any accumulated depreciation and any accumulated impairment losses during the current period, does the entity disclose:

a. Any gain or loss recognised on disposal of such biological assets □ □ □

b. A reconciliation of changes in the carrying amount of such biological assets between the beginning and the end of the current period that includes at least:

   ▶ Increases due to purchases □ □ □
   ▶ Decreases due to sales and biological assets classified as held for sale in accordance with IFRS 5 □ □ □
   ▶ Decreases due to harvest □ □ □
   ▶ Increases resulting from business combinations □ □ □
   ▶ Net exchange differences arising on the translation of financial statements into a different presentation currency, and on translation of a foreign operation into the presentation currency of the reporting entity □ □ □
   ▶ Impairment losses included in profit or loss □ □ □
   ▶ Reversals of impairment losses included in profit or loss □ □ □
Depreciation included in profit or loss
Other changes

IAS 41.55 These biological assets are disclosed separately from those measured at fair value.

IAS 41.56 If the fair value of biological assets previously measured at their cost less any accumulated depreciation and any accumulated impairment losses becomes reliably measurable during the current period, does the entity disclose:

a. A description of the biological assets
b. An explanation of why fair value has become reliably measurable
c. The effect of the change

Government grants related to agricultural activity

Does the entity disclose the following information for government grants related to agricultural activity covered by IAS 41 Agriculture:

a. The nature and extent of government grants recognised in the financial statements
b. Any unfulfilled conditions and other contingencies attaching to government grants
c. Significant decreases expected in the level of government grants

Extractive industries

Exploration and evaluation expenditure

The objective of IFRS 6 Exploration and Evaluation of Mineral Resources is to specify the financial reporting for the exploration for and evaluation of mineral resources.

IFRS 6.15 Does the entity classify exploration and evaluation assets as tangible or intangible according to the nature of the assets acquired and apply the classification consistently

IFRS 6.17 Does the entity stop classifying exploration and evaluation assets as such when the technical feasibility and commercial viability of extracting a mineral resource are demonstrable

IFRS 6.18 Does the entity present and disclose any impairment loss relating to exploration and evaluation assets in accordance with IAS 36

IFRS 6.23 Does the entity disclose the following information that identifies and explains the amounts recognised in its financial statements arising from the exploration for and evaluation of mineral resources:

a. Its accounting policies for exploration and evaluation expenditures including the recognition of exploration and evaluation assets
b. The following amounts arising from the exploration for and evaluation of mineral resources:
   ▶ Assets
   ▶ Liabilities
   ▶ Income
   ▶ Expense
   ▶ Operating cash flows
   ▶ Investing cash flows

IFRS 6.25 Does the entity treat exploration and evaluation assets as a separate class of assets and make the disclosures required by either IAS 16 or IAS 38 consistently with how the assets are classified

Insurance contracts

IFRS 4.36 Does the insurer identify and explain the amounts in its financial statements arising from insurance contracts, by disclosing:

a. Its accounting policies for insurance contracts and related assets, liabilities, income and expense
b. The recognised assets, liabilities, income and expense (and, if it presents its statement of cash flow using the direct method, cash flows) arising from insurance contracts

c. If the insurer is a cedant:
   ▶ Gains and losses recognised in profit or loss on buying reinsurance
   ▶ If the cedant defers and amortises gains and losses arising on buying reinsurance, the amortisation for the period and the amounts remaining unamortised at the beginning and end of the period

d. The process used to determine the assumptions that have the greatest effect on the measurement of the recognised amounts described in (b) and (c), including quantifying those assumptions, if practicable

e. The effect of changes in assumptions used to measure insurance assets and insurance liabilities, showing separately the effect of each change that has a material effect on the financial statements

f. Reconciliations of changes in insurance liabilities, reinsurance assets and, if any, related deferred acquisition costs

Discretionary participation features

IFRS 4.35 If the entity issues a financial instrument containing a discretionary participation feature, does it disclose the total interest expense recognised in profit or loss

IFRS 4.35 The interest does not need to be calculated using the effective interest method.

Nature and extent of risk arising from insurance contracts

IFRS 4.38 Does the insurer enable users of its financial statements to evaluate the nature and extent of risks arising from insurance contracts by disclosing:

a. Its objectives, policies and processes for managing risks arising from insurance contracts and the methods used to manage those risks

b. Information about insurance risk (both before and after risk mitigation by reinsurance), including information about:
   ▶ The sensitivity to insurance risk (see IFRS 4.39A)
   ▶ Concentrations of insurance risk, including how management determines concentrations and a description of the shared characteristic that identifies each concentration (for example, the type of insured event, geographical area, or currency)
   ▶ Actual claims compared with previous estimates (i.e., claims development)

IFRS 4.39 The disclosure about claims development goes back to the period when the earliest material claim arose for which there is still uncertainty about the amount and timing of the claims payments, but need not go back more than 10 years. An insurer need not disclose this information for claims for which uncertainty about the amount and timing of claims payments is typically resolved within one year.

IFRS 4.44 Furthermore, if it is impracticable to prepare information about claims development that occurred before the beginning of the earliest reporting period for which an entity presents full comparative information that complies with this IFRS, the entity discloses that fact.

c. Information about credit risk, liquidity risk, and market risk that IFRS 7.31-42 would require if the insurance contracts were within the scope of IFRS 7

IFRS 4.39 An insurer need not disclose the maturity analysis required by IFRS 7.39(a) and (b) if it discloses the estimated timing of the net cash outflows resulting from recognised insurance liabilities instead. This may be an analysis of the amounts, by estimated timing, recognised in the statement of financial position.
### IFRS 4.39

If an insurer uses an alternative method to manage sensitivity to market conditions, such as an embedded value analysis, it may use that sensitivity analysis to meet the requirement in IFRS 7.40(a). Such an insurer also provides the disclosures required by IFRS 7.41.

d. Information about exposures to market risk arising from embedded derivatives contained in a host insurance contract if the insurer is not required to, and does not, measure the embedded derivatives at fair value.

### IFRS 4.39A

To comply with the requirements to disclose information about the sensitivity to insurance risk does the entity disclose either:

a. Quantitative information about sensitivity, which comprises:
   - A sensitivity analysis that shows how profit or loss and equity would have been affected had changes in the relevant risk variable that were reasonably possible at the end of the reporting period occurred.
   - The methods and assumptions used in preparing the sensitivity analysis.
   - Any changes from the previous period in the methods and assumptions used.

b. Qualitative information about sensitivity, and information about those terms and conditions of insurance contracts that have a material effect on the amount, timing and uncertainty of the insurer’s future cash flows.

### Applying IFRS 9 Financial Instruments with IFRS 4 Insurance Contracts (Amendments to IFRS 4)

New IFRS 4.20A
New IFRS 4.35B

Items in this section set out the presentation and disclosure requirements if the entity adopts either the temporary exemption from IFRS 9 (2014) or the overlay approach applying IFRS 9 Financial Instruments with IFRS 4 Insurance Contracts issued in September 2016. The temporary exemption enables eligible entities to defer the implementation date of IFRS 9 until annual reporting periods beginning on or after 1 January 2021. The overlay approach allows an entity applying IFRS 9 from 2018 onwards to remove from profit or loss the effects of some of the accounting mismatches that may occur from applying IFRS 9 before IFRS 17 is applied.

### Transition

IFRS 4.46-47

Temporary exemption from IFRS 9

An entity that discloses the information required by IFRS 4.39B-39J shall use the transitional provisions in IFRS 9 that are relevant to making the assessments required for those disclosures.

An insurer applying the temporary exemption from IFRS 9 is permitted to elect to apply only the requirements of IFRS 9 for the presentation in other comprehensive income (OCI) of gains and losses attributable to changes in an entity’s own credit risk on financial liabilities designated as at fair value through profit or loss (FVPL).

IFRS 4.48-49

The overlay approach

An entity electing the overlay approach shall apply that approach retrospectively to designated financial assets on transition to IFRS 9 and restate comparative information to reflect it if, and only if, the entity restates comparative information applying IFRS 9.

### Temporary exemption from IFRS 9: Disclosures

New IFRS 4.20B

An insurer may apply the temporary exemption from IFRS 9 if, and only if: (a) It has not previously applied any version of IFRS 9, other than only the requirements for the presentation of gains and losses on financial liabilities designated as at
fair value through profit or loss; and (b) its activities are predominantly connected with insurance, as described in paragraph 20D of IFRS 4, at its annual reporting date that immediately precedes 1 April 2016, or at a subsequent annual reporting date as specified in paragraph 20G of IFRS 4.

An insurer’s activities are predominantly connected with insurance if, and only if:

a. The carrying amount of its liabilities arising from contracts within the scope of this IFRS, which includes any deposit components or embedded derivatives unbundled from insurance contracts applying paragraphs 7–12 of IFRS 4, is significant compared to the total carrying amount of all its liabilities

And

b. The percentage of the total carrying amount of its liabilities connected with insurance (see paragraph 20E of IFRS 4) relative to the total carrying amount of all its liabilities is:

   ▶ Greater than 90 per cent
   Or
   ▶ Less than or equal to 90 per cent but greater than 80 per cent, and the insurer does not engage in a significant activity unconnected with insurance (see paragraph 20F of IFRS 4)

New 541 IFRS 4.39B Does an insurer that elects to apply the temporary exemption from IFRS 9 disclose information to enable users of financial statements:

a. To understand how the insurer qualified for the temporary exemption
b. To compare insurers applying the temporary exemption with entities applying IFRS 9

New 542 IFRS 4.39C To comply with paragraph 39B(a) of IFRS 4, does an insurer disclose the fact that it is applying the temporary exemption from IFRS 9

To comply with paragraph 39B(a) of IFRS 4, does an insurer disclose how it concluded on the date specified in paragraph 20B(b) of IFRS 4 that it qualifies for the temporary exemption from IFRS 9, including:

a. If the carrying amount of its liabilities arising from contracts within the scope of this IFRS (i.e., those liabilities described in paragraph 20E(a) of IFRS 4) was less than or equal to 90 per cent of the total carrying amount of all its liabilities:
   ▶ The nature
   ▶ Carrying amounts of the liabilities connected with insurance that are not liabilities arising from contracts within the scope of this IFRS (i.e., those liabilities described in paragraphs 20E(b) and 20E(c) of IFRS 4)

b. If the percentage of the total carrying amount of its liabilities connected with insurance relative to the total carrying amount of all its liabilities was less than or equal to 90 per cent but greater than 80 per cent:
   ▶ How the insurer determined that it did not engage in a significant activity unconnected with insurance
   ▶ What information it considered

c. If the insurer qualified for the temporary exemption from IFRS 9 on the basis of a reassessment applying paragraph 20G(b) of IFRS 4:
   ▶ The reason for the reassessment
   ▶ The date on which the relevant change in its activities occurred
   ▶ A detailed explanation of the change in its activities and a qualitative description of the effect of that change on the insurer’s financial statements

New 543 IFRS 4.390 IFRS 4.20G(a) If an entity concludes that its activities are no longer predominantly connected with insurance, does it disclose the following information in each reporting period before it begins to apply IFRS 9:
a. The fact that it no longer qualifies for the temporary exemption from IFRS 9
b. The date on which the relevant change in its activities occurred
c. A detailed explanation of the change in its activities and a qualitative description of the effect of that change on the entity's financial statements

New 544 IFRS 4.39E

To comply with paragraph 39B(b) of IFRS 4, does an insurer disclose the fair value at the end of the reporting period and the amount of change in the fair value during that period for the following two groups of financial assets separately:

a. Financial assets with contractual terms that give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding (i.e., financial assets that meet the condition in paragraphs 4.1.2(b) and 4.1.2A(b) of IFRS 9), excluding any financial asset that meets the definition of held for trading in IFRS 9, or that is managed and whose performance is evaluated on a fair value basis (see paragraph B4.1.6 of IFRS 9)
b. All financial assets other than those specified in paragraph 39E(a) of IFRS 4; that is, any financial asset:
   - With contractual terms that do not give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding
   - That meets the definition of held for trading in IFRS 9
   - That is managed and whose performance is evaluated on a fair value basis

When disclosing the information in paragraph 39E of IFRS 4, the insurer:

a. May deem the carrying amount of the financial asset measured applying IAS 39 to be a reasonable approximation of its fair value if the insurer is not required to disclose its fair value applying paragraph 29(a) of IFRS 7 (e.g., short-term trade receivables)
b. Shall consider the level of detail necessary to enable users of financial statements to understand the characteristics of the financial assets

New 545 IFRS 4.39G

To comply with paragraph 39B(b) of IFRS 4, does an insurer disclose information about the credit risk exposure, including significant credit risk concentrations, inherent in the financial assets described in paragraph 39E(a) of IFRS 4.

At a minimum, does the insurer disclose the following information for those financial assets at the end of the reporting period:

a. By credit risk rating grades as defined in IFRS 7, the carrying amounts applying IAS 39 (in the case of financial assets measured at amortised cost, before adjusting for any impairment allowances)
b. For the financial assets described in paragraph 39E(a) of IFRS 4 that do not have low credit risk at the end of the reporting period, the fair value and the carrying amount applying IAS 39 (in the case of financial assets measured at amortised cost, before adjusting for any impairment allowances). For the purposes of this disclosure, paragraph B5.5.22 of IFRS 9 provides the relevant requirements for assessing whether the credit risk on a financial instrument is considered low

New 546 IFRS 4.39H

To comply with paragraph 39B(b) of IFRS 4, does an insurer disclose information about where a user of financial statements can obtain any publicly available IFRS 9 information that relates to an entity within the group that is not provided in the group's consolidated financial statements for the relevant reporting period. For example, such IFRS 9 information could be obtained from the publicly available individual or separate financial statements of an entity within the group that has applied IFRS 9
If an entity elected to apply the exemption in paragraph 200 from particular requirements in IAS 28, does it disclose that fact?

If an entity applied the temporary exemption from IFRS 9 when accounting for its investment in an associate or joint venture using the equity method (for example, see paragraph 200(a) of IFRS 4), does it disclose the following, in addition to the information required by IFRS 12:

- a. The information described by paragraphs 39B-39H of IFRS 4 for each associate or joint venture that is material to the entity. The amounts disclosed shall be those included in the IFRS financial statements of the associate or joint venture after reflecting any adjustments made by the entity when using the equity method (see paragraph B14(a) of IFRS 12), rather than the entity’s share of those amounts.
- b. The quantitative information described by paragraphs 39B-39H of IFRS 4 in aggregate for all individually immaterial associates or joint ventures.

The aggregate amounts:
- Disclosed shall be the entity’s share of those amounts.
- For associates shall be disclosed separately from the aggregate amounts disclosed for joint ventures.

If an entity elects to apply only the requirements for the presentation of gains and losses on financial liabilities designated as at fair value through profit or loss in IFRS 9 paragraphs 5.7.1(c), 5.7.7-5.7.9, 7.2.14 and B5.7.5-B5.7.20 (i.e., own credit risk), does it disclose the information set out in IFRS 7.10-11 (refer to ‘Financial Instruments’ section).

The overlay approach allows an entity applying IFRS 9 from 2018 onwards to remove from profit or loss the effects of some of the accounting mismatches that may occur from applying IFRS 9 before IFRS 17 is applied. An insurer is permitted, but not required, to apply the overlay approach to designated financial assets. An insurer that applies the overlay approach shall:

- a. Reclassify between profit or loss and other comprehensive income an amount that results in the profit or loss at the end of the reporting period for the designated financial assets being the same as if the insurer had applied IAS 39 to the designated financial assets. Accordingly, the amount reclassified is equal to the difference between:
  - The amount reported in profit or loss for the designated financial assets applying IFRS 9.
  - The amount that would have been reported in profit or loss for the designated financial assets if the insurer had applied IAS 39.

Does an insurer present the amount reclassified between profit or loss and other comprehensive income applying the overlay approach:

- a. In profit or loss as a separate line item.
- b. In other comprehensive income as a separate component of other comprehensive income.

Does an insurer that applies the overlay approach disclose information to enable users of financial statements to understand:

- a. How the total amount reclassified between profit or loss and other comprehensive income in the reporting period is calculated.
- b. The effect of that recategorization on the financial statements.
To comply with paragraph 39K of IFRS 4, does an insurer disclose:

a. The fact that it is applying the overlay approach

b. The carrying amount at the end of the reporting period of financial assets to which the insurer applies the overlay approach by class of financial asset

c. The basis for designating financial assets for the overlay approach, including an explanation of any designated financial assets that are held outside the legal entity that issues contracts within the scope of this IFRS

d. An explanation of the total amount reclassified between profit or loss and other comprehensive income in the reporting period in a way that enables users of financial statements to understand how that amount is derived, including:
   ➢ The amount reported in profit or loss for the designated financial assets applying IFRS 9
   ➢ The amount that would have been reported in profit or loss for the designated financial assets if the insurer had applied IAS 39

e. The effect of the reclassification described in paragraphs 35B and 35M of IFRS 4 on each affected line item in profit or loss

f. If, during the reporting period, the insurer has changed the designation of financial assets:
   ➢ The amount reclassified between profit or loss and other comprehensive income in the reporting period relating to newly designated financial assets applying the overlay approach (see paragraph 35F(b) of IFRS 4)
   ➢ The amount that would have been reclassified between profit or loss and other comprehensive income in the reporting period if the financial assets had not been de-designated (see paragraph 35(a) of IFRS 4)
   ➢ The amount reclassified in the reporting period to profit or loss from accumulated other comprehensive income for financial assets that have been de-designated (see paragraph 35J of IFRS 4)

If an entity applied the overlay approach when accounting for its investment in an associate or joint venture using the equity method, does the entity disclose the following, in addition to the information required by IFRS 12:

a. The information described by paragraphs 39K–39L for each associate or joint venture that is material to the entity. The amounts disclosed shall be those included in the IFRS financial statements of the associate or joint venture after reflecting any adjustments made by the entity when using the equity method (see paragraph B14(a) of IFRS 12), rather the entity's share of those amounts

b. The quantitative information described by paragraphs 39K–39L(d) and 39L(f) of IFRS 4, and the effect of the reclassification described in paragraph 35B on profit or loss and other comprehensive income in aggregate for all individually immaterial associates or joint ventures

Lease disclosures by lessors

If the entity adopted IFRS 16 Leases, please refer to the ‘New pronouncements: IFRS 16’ section.

Finance leases

The disclosure requirements of IFRS 7 also apply to finance leases.
554 **IAS 17.36** Does the entity present assets held under a finance lease in the statement of financial position as a receivable at an amount equal to the net investment in the lease?

555 **IAS 17.47** For finance leases, does the entity disclose:

a. A reconciliation between the gross investment in the lease at the end of the reporting period, and the present value of minimum lease payments receivable at the end of the reporting period?

b. The gross investment in the lease and the present value of minimum lease payments receivable at the end of the reporting period, for each of the following periods:
   - Not later than one year
   - Later than one year and not later than five years
   - Later than five years

c. The accumulated allowance for uncollectible minimum lease payments receivable

d. The unguaranteed residual values accruing to the benefit of the lessor

e. The unearned finance income

556 **IAS 17.48** Does the entity disclose the gross investment less unearned income in new business added during the period, after deducting the relevant amounts for cancelled leases?

557 **IAS 17.49** Does the entity present assets subject to operating leases in the statement of financial position according to the nature of the asset?

558 **IAS 17.56** Does the entity disclose, in addition to meeting the requirements of IFRS 7, the following information for operating leases:

a. The future minimum lease payments under non-cancellable operating leases in the aggregate and for each of the following periods:
   - Not later than one year
   - Later than one year and not later than five years
   - Later than five years

b. Total contingent rents recognised as income in the period

c. A general description of the lessor’s leasing arrangements

559 **IAS 17.65** Does the disclosure of material leasing arrangements include the unique or unusual provisions of the agreement or terms of the sale and leaseback transactions?

560 **SIC 27.10** If the entity enters into arrangements that are leases in form, but not in substance, does the entity disclose the following information in each reporting period that an arrangement exists, separately for each arrangement or each class of arrangements:

a. A description of the arrangement including:
- The underlying asset and any restrictions on its use
- The life and other significant terms of the arrangement
- The transactions that are linked together, including any options

b. The accounting treatment applied to any fee received
c. The amount of fees recognised as income in the period
d. The line item of the statement of comprehensive income in which the fee income is included

**Determining whether an arrangement contains a lease (IFRIC 4)**

<table>

<tr>
<th>Paragraph</th>
<th>Question</th>
</tr>
</thead>
<tbody>
<tr>
<td>IAS 1.117</td>
<td>Does the entity disclose its accounting policy for determining whether an arrangement contains a lease?</td>
</tr>
<tr>
<td>IFRIC 4.12</td>
<td>IFRIC 4 provides guidance for determining whether an arrangement that does not take the legal form of a lease, but conveys a right to use an asset is, or contains, a lease that is accounted for in accordance with IAS 17. In applying IAS 17, the entity separates lease payments from other consideration required by the arrangement.</td>
</tr>
</tbody>
</table>

**Rate-regulated activities**

The scope of IFRS 14 is limited to first-time adopters that conduct rate-regulated activities and recognise regulatory deferral account balances in their financial statements in accordance with their previous GAAP, as defined in IFRS 1 First-time Adoption of International Financial Reporting Standards (i.e., the accounting basis used by a first-time adopter immediately before adopting IFRS). An entity which recognised regulatory deferral account balances by electing to apply IFRS 14 must apply IFRS 14 in its financial statements for subsequent periods.

**Presentation**

<table>

<tr>
<th>Paragraph</th>
<th>Question</th>
</tr>
</thead>
<tbody>
<tr>
<td>IFRS 14.20</td>
<td>Does the entity present separate line items in the statement of financial position for</td>
</tr>
<tr>
<td>IFRS 14.21</td>
<td>When an entity presents current and non-current assets, and current and non-current liabilities, as separate classifications in its statement of financial position, it shall not classify the totals of regulatory deferral account balances as current or non-current. Instead, the separate line items required by IFRS 14.20 shall be distinguished from the assets and liabilities that are presented in accordance with other standards by the use of sub-totals, which are drawn before the regulatory deferral account balances are presented.</td>
</tr>
<tr>
<td>IFRS 14.22</td>
<td>Does the entity present, in the other comprehensive income section of the statement of profit or loss and other comprehensive income, the net movement in all regulatory deferral account balances for the reporting period that relate to items recognised in other comprehensive income</td>
</tr>
<tr>
<td>IFRS 14.23</td>
<td>Does the entity use separate line items for the net movement, in accordance with other standards</td>
</tr>
<tr>
<td>IFRS 14.23</td>
<td>This separate line item above shall be distinguished from the income and expenses that are presented in accordance with other standards by the use of a sub-total, which is drawn before the net movement in regulatory deferral account balances.</td>
</tr>
</tbody>
</table>
When an entity recognises a deferred tax asset or a deferred tax liability as a result of recognising regulatory deferral account balances, does the entity present the resulting deferred tax asset (liability) and the related movement in that deferred tax asset (liability) with the related regulatory deferral account balances and movements in those balances, instead of within the total presented in accordance with IAS 12 for deferred tax assets (liabilities) and the tax expense (income) (see IFRS 14.B9–B12)?

Instead of applying IAS 12, does the entity present the deferred tax asset (liability) that arises as a result of recognising regulatory deferral account balances either:

a. With the line items that are presented for the regulatory deferral account debit balances and credit balances

Or

b. As a separate line item alongside the related regulatory deferral account debit balances and credit balances

Instead of applying IAS 12, does the entity present the movement in the deferred tax asset (liability) that arises as a result of recognising regulatory deferral account balances either:

a. With the line items that are presented in the statement(s) of profit or loss and other comprehensive income for the movements in regulatory deferral account balances

Or

b. As a separate line item alongside the related line items that are presented in the statement(s) of profit or loss and other comprehensive income for the movements in regulatory deferral account balances

When an entity presents a discontinued operation or a disposal group in accordance with IFRS 5, does the entity present any related regulatory deferral account balances and the net movement in those balances, as applicable, with the regulatory deferral account balances and movements in those balances, instead of within the disposal groups or discontinued operations (see IFRS 14.B19–B22)?

Instead of applying IFRS 5.33, does the entity present the movement in regulatory deferral account balances that arose from the rate-regulated activities of the discontinued operation either:

a. Within the line item that is presented for movements in the regulatory deferral account balances related to profit or loss

Or

b. As a separate line item alongside the related line item that is presented for movements in the regulatory deferral account balances related to profit or loss

Instead of applying IFRS 5.38, does the entity present the total of the regulatory deferral account debit balances and credit balances that are part of the disposal group either:

a. Within the line items that are presented for the regulatory deferral account debit balances and credit balances

Or

b. As separate line items alongside the other regulatory deferral account debit balances and credit balances

If the entity chooses to include the regulatory deferral account balances and movements in those balances that are related to the disposal group or discontinued operation within the related regulated deferral account line items, does the entity disclose them separately as part of the analysis of the regulatory deferral account line items described by IFRS 14.33?

When an entity presents earnings per share in accordance with IAS 33 Earnings per Share, does the entity present additional basic and diluted earnings per share, which are calculated using the earnings amounts required by IAS 33?
but excluding the movements in regulatory deferral account balances

**IFRS 14.814**  
For each earnings per share amount presented in accordance with IAS 33, does the entity applying IFRS 14 present additional basic and diluted earnings per share amounts that are calculated in the same way, except that those amounts shall exclude the net movement in the regulatory deferral account balances. Consistent with the requirement in IAS 33.73, does the entity present the earnings per share required by IFRS 14.26 with equal prominence to the earnings per share required by IAS 33 for all periods presented

**Disclosures**

**IFRS 14.27**  
If the entity elects to apply IFRS 14, does it disclose information that enables users to assess:

a. The nature of, and the risks associated with, the rate regulation that establishes the price(s) that the entity can charge customers for the goods or services it provides  

b. The effects of that rate regulation on its financial position, financial performance and cash flows

**IFRS 14.29**  
To meet the disclosure objective in IFRS 14.27, the entity shall consider all of the following:

a. The level of detail that is necessary to satisfy the disclosure requirements;

b. How much emphasis to place on each of the various requirements;

c. How much aggregation or disaggregation to undertake; and

d. Whether users of financial statements need additional information to evaluate the quantitative information disclosed

**Explanation of activities subject to rate regulation**

**IFRS 14.28**  
If any of the disclosures set out in IFRS 14.30–36 are not considered relevant to meet the objective in IFRS 14.27, they may be omitted from the financial statements.

**IFRS 14.28**  
If the disclosures provided in accordance with IFRS 14.30–36 are insufficient to meet the objective in IFRS 14.27, does the entity disclose additional information that is necessary to meet that objective

**IFRS 14.30**  
To help users of the financial statements assess the nature of, and the risks associated with, the entity’s rate-regulated activities, does the entity disclose for each type of rate-regulated activity:

a. A brief description of the nature and extent of the rate-regulated activity and the nature of the regulatory rate-setting process

b. The identity of the rate regulator(s)

   ▶ If the rate regulator is a related party (as defined in IAS 24 Related Party Disclosures), does the entity disclose that fact, together with an explanation of how it is related

c. How the future recovery of each class (i.e., each type of cost or income) of regulatory deferral account debit balance or reversal of each class of regulatory deferral account credit balance is affected by risks and uncertainty, for example:

   ▶ Demand risk (e.g., changes in consumer attitudes, the availability of alternative sources of supply or the level of competition)

   ▶ Regulatory risk (e.g., the submission or approval of a rate-setting application or the entity’s assessment of the expected future regulatory actions)

   ▶ Other risks (e.g., currency or other market risks)
The disclosures required by IFRS 14.30 shall be given in the financial statements either directly in the notes or incorporated by cross-reference from the financial statements to some other statement, such as a management commentary or risk report, that is available to users of the financial statements on the same terms as the financial statements and at the same time. If the information is not included in the financial statements directly or incorporated by cross-reference, the financial statements are incomplete.

### Explanation of recognised amounts

578 **IFRS 14.32**

Does the entity disclose the basis on which regulatory deferral account balances are recognised and derecognised, and how they are measured initially and subsequently, including how regulatory deferral account balances are assessed for recoverability and how any impairment loss is allocated?

579 **IFRS 14.33**

For each type of rate-regulated activity, does the entity disclose the following information for each class of regulatory deferral account balance:

a. A reconciliation of the carrying amount at the beginning and the end of the period in a table, unless another format is more appropriate. The entity shall apply judgement in deciding the level of detail necessary (see IFRS 14.28-29), but the following components would usually be relevant:
   - The amounts that have been recognised in the current period in the statement of financial position as regulatory deferral account balances
   - The amounts that have been recognised in the statement(s) of profit or loss and other comprehensive income relating to balances that have been recovered (sometimes described as amortised) or reversed in the current period
   - Other amounts, separately identified, that affected the regulatory deferral account balances, such as impairments, items acquired or assumed in a business combination, items disposed of, or the effects of changes in foreign exchange rates or discount rates

b. The rate of return or discount rate (including a zero rate or a range of rates, when applicable) used to reflect the time value of money that is applicable to each class of regulatory deferral account balance

c. The remaining periods over which the entity expects to recover (or amortise) the carrying amount of each class of regulatory deferral account debit balance or to reverse each class of regulatory deferral account credit balance

580 **IFRS 14.34**

When rate regulation affects the amount and timing of an entity’s income tax expense (income), does the entity disclose the impact of the rate regulation on the amounts of current and deferred tax recognised?

581 **IFRS 14.34**

Does the entity separately disclose any regulatory deferral account balance that relates to taxation and the related movement in that balance when an entity provides disclosures in accordance with IFRS 12 Disclosure of Interests in Other Entities for an interest in a subsidiary, associate or joint venture that has rate-regulated activities and for which regulatory deferral account balances are recognised in accordance with this standard, does the entity disclose:

a. The amounts that are included for the regulatory deferral account debit and credit balances

b. The net movement in those balances for the interests disclosed (see IFRS 14.B25-B28)

583 **IFRS 14.B25**

Does the entity that recognises regulatory deferral account balances in accordance with IFRS 14 disclose the net movement in regulatory deferral account balances that is included within the amounts that are required to be disclosed by IFRS 12.12(e)?
In addition to the information specified in IFRS 12.12, 21, B10, B12-B13 and B16, does the entity that recognises regulatory deferral account balances in accordance with IFRS 14 also disclose:

1. The total regulatory deferral account debit balance
2. The total regulatory deferral account credit balance
3. The net movements in the balances above, split between amounts recognised in profit or loss and amounts recognised in other comprehensive income, for each entity for which the IFRS 12 disclosures are required

In addition to the information required by IFRS 12.19 (listed in the section Disclosure of Interests in Other Entities), does the entity that elects to apply IFRS 14 disclose the portion of that gain or loss that is attributable to derecognising regulatory deferral account balances in the former subsidiary at the date when control is lost

When an entity concludes that a regulatory deferral account balance is no longer fully recoverable or reversible, does the entity disclose

1. That fact
2. The reason why it is not recoverable or reversible and the amount by which the regulatory deferral account balance has been reduced

The disclosures in this section only apply to the financial statements of retirement benefit plans and reports containing such financial statements. The term 'report' refers to published information that may include the financial statements of the retirement benefit plan.

Do the financial statements of the retirement benefit plan contain the following information:

1. A statement of net assets available for benefits disclosing:
   - Assets at the end of the period suitably classified
   - The basis of valuation of assets
   - Details of any single investment exceeding either 5% of the net assets available for benefits or 5% of any class or type of security
   - Details of any investment in the employer
   - Liabilities other than the actuarial present value of promised retirement benefits
2. A statement of changes in net assets available for benefits showing the following:
   - Employer contributions
   - Employee contributions
   - Investment income such as interest and dividends
   - Other income
   - Benefits paid or payable (analysed, for example, as retirement, death and disability benefits and lump sum payments)
   - Administrative expenses
   - Other expenses
   - Taxes on income
   - Profits and losses on disposal of investments and changes in value of investments
   - Transfers from and to other plans
3. A description of the funding policy
4. A summary of significant accounting policies
5. A description of the plan and the effect of any changes in the plan during the period
Does the entity disclose in the report of a retirement benefit plan either as part of the financial statements or in a separate report, a description of the plan, which may contain the following:

a. The names of the employers and the employee groups covered
b. The number of participants receiving benefits
c. The number of other participants, classified as appropriate
d. The type of plan - defined contribution
e. A note as to whether participants contribute to the plan
f. A description of the retirement benefits promised to participants
g. A description of any plan termination terms
h. Changes in items (a)-(g) during the period covered by the report

If plan investments are held for which an estimate of fair value is not possible, does the entity disclose the reason it does not use fair value?

Do the financial statements of a defined contribution plan contain:

a. The significant activities for the period and the effect of any changes relating to the plan, and its membership and terms and conditions
b. Statements reporting on the transactions and investment performance for the period and the financial position of the plan at the end of the period
c. A description of the investment policies

Defined benefit plans

For defined benefit plans, information is presented in one of the following formats, which reflect different practices in the disclosure and presentation of actuarial information:

a. A statement is included in the financial statements of the plan that shows the net assets available for benefits, the actuarial present value of promised retirement benefits, and the resulting excess or deficit. The financial statements of the plan also contain statements of changes in net assets available for benefits and changes in the actuarial present value of promised retirement benefits. The financial statements of the plan may be accompanied by a separate actuary's report supporting the actuarial present value of promised retirement benefits.

b. Financial statements of the plan include a statement of net assets available for benefits and a statement of changes in net assets available for benefits. An entity discloses the actuarial present value of promised retirement benefits. The financial statements of the plan may be accompanied by a report from an actuary supporting the actuarial present value of promised retirement benefits.

And

c. Financial statements of the plan include a statement of net assets available for benefits and a statement of changes in net assets available for benefits with the actuarial present value of promised retirement benefits contained in a separate actuarial report.

Do the financial statements of the retirement benefit plan contain the following information:

a. A statement of net assets available for benefits disclosing:
   ▶ Assets at the end of the period suitably classified
   ▶ The basis of valuation of assets
   ▶ Details of any single investment exceeding either 5% of the net assets available for benefits or 5% of any class or type of security
   ▶ Details of any investment in the employer
   ▶ Liabilities other than the actuarial present value of promised retirement benefits
b. A statement of changes in net assets available for benefits showing the following:
   - Employer contributions
   - Employee contributions
   - Investment income such as interest and dividends
   - Other income
   - Benefits paid or payable (analysed, for example, as retirement, death and disability benefits and lump sum payments)
   - Administrative expenses
   - Other expenses
   - Taxes on income
   - Profits and losses on disposal of investments and changes in value of investments
   - Transfers from and to other plans

c. A description of the funding policy

d. A summary of significant accounting policies

e. A description of the significant actuarial assumptions made to calculate the actuarial present value of promised retirement benefits

f. A description of the method used to calculate the actuarial present value of promised retirement benefits

g. The actuarial present value of promised retirement benefits (which may distinguish between vested benefits and non-vested benefits) based on the benefits promised under the terms of the plan, on service rendered to date, and which uses either current salary levels or projected salary levels

h. A description of the plan and the effect of any changes in the plan during the period

592 IAS 26.36 Does the entity disclose in the report of a retirement benefit plan either as part of the financial statements or in a separate report, a description of the plan, which may contain the following:

a. The names of the employers and the employee groups covered

b. The number of participants receiving benefits

c. The number of other participants, classified as appropriate

d. The type of plan – defined benefit

e. A note as to whether participants contribute to the plan

f. A description of the retirement benefits promised to participants

g. A description of any plan termination terms

h. Changes in items (a) – (g) during the period covered by the report

593 IAS 26.17 If an actuarial valuation is not prepared at the date of the financial statements of the plan, does the entity disclose the date of the valuation

594 IAS 26.18 Does the entity disclose the effects of any change in actuarial assumptions that had a significant effect on the actuarial present value of promised retirement benefits

595 IAS 26.18 Does the entity disclose the basis used – using either current salary levels or projected salary levels – to calculate the actuarial present value of promised retirement benefits

596 IAS 26.32 If plan investments are held for which an estimate of fair value is not possible, does the entity disclose the reason why fair value is not used

597 IAS 26.17 Do the financial statements of a defined benefit plan contain:

a. A statement that shows:
   - The net assets available for benefits
   - The actuarial present value of promised retirement benefits, distinguishing between vested benefits and non-vested benefits
   - The resulting excess or deficit
b. A statement of net assets available for benefits including either:
   ▶ A note disclosing the actuarial present value of promised retirement benefits, distinguishing between vested benefits and non-vested benefits
   ▶ A reference to this information in an accompanying actuarial report

598  IAS 26.19  Do the financial statements explain the relationship between the actuarial present value of promised retirement benefits and the net assets available for benefits, and the policy for the funding of promised benefits

599  IAS 26.22  Do the financial statements of a defined benefit plan contain:
   a. The significant activities for the period and the effect of any changes relating to the plan, and its membership and terms and conditions
   b. Statements reporting on the transactions and investment performance for the period and the financial position of the plan at the end of the period
   c. Actuarial information either as part of the statements or by way of a separate report
   d. A description of the investment policies

Condensed interim reporting

IAS 34.1  IAS 34 does not mandate whether, how frequently, or how soon after the end of an interim period, an entity publishes interim financial reports. However, IAS 34 applies if the entity publishes an interim financial report in accordance with IFRSs.

IAS 34.9  If the entity publishes a complete set of financial statements in its interim financial report, the form and content of those statements conform to the requirements of IAS 1 for a complete set of financial statements.

Other IFRSs specify required disclosures in financial statements. In that context, “financial statements” means complete sets of financial statements of the type normally included in an annual financial report and sometimes included in other reports. The disclosures required by those other IFRSs are not required if the entity's interim financial report includes only condensed financial statements and selected explanatory notes rather than a complete set of financial statements.

Therefore, this section of the checklist contains only those interim disclosures that are specifically required by IFRSs for condensed financial statements. Consistent with IAS 34.6, any disclosures that would duplicate the disclosure contained in the most recent annual financial statements, such as details of accounts that have not changed significantly in amount since the end of the most recently completed fiscal year, may be omitted. However, consistent with the principles of the Conceptual Framework and IAS 34.15, disclosure must be provided for events subsequent to the end of the most recent annual reporting period that have a material effect on the interim financial statements. For example, disclosures must address significant changes in accounting policies and methods, estimates used in the preparation of financial statements, status of long-term contracts, capitalisation (including significant new borrowings or modification of existing financing arrangements) and the reporting entity resulting from business combinations or dispositions.

IAS 34.19  The entity does not describe an interim financial report as complying with IFRSs unless it complies with all of the requirements of each IFRS.

IAS 34.43  IAS 34.43 and IAS 34.44 provide guidance for reporting a change in accounting policy in interim financial reports.
Components of condensed interim financial statements

If the entity's interim financial report complies with IAS 34, does the entity disclose that fact:

- [ ] Yes
- [ ] No
- [x] Not Applicable

Do the interim financial statements include at least the following components:

- [ ] A condensed statement of financial position
- [ ] A condensed statement of profit or loss and other comprehensive income as either:
  - [ ] A condensed single statement
  - [ ] A condensed separate statement of profit or loss and a condensed statement presenting comprehensive income
- [ ] A condensed statement of changes in equity
- [ ] A condensed statement of cash flows
- [ ] Selected explanatory notes

The format of the condensed financial statements is consistent with the format presented in the annual accounts. Do the condensed financial statements include, at a minimum:

- [ ] Each of the headings and subtotals that were included in its most recent annual financial statements
- [ ] Additional line items or notes whose omission would make the condensed interim financial statements misleading

The entity is within the scope of IAS 33 Earnings per Share, does the entity present basic and diluted earnings per share in the statement that presents profit or loss (which may be a separate income statement):

- [ ] Yes
- [ ] No
- [x] Not Applicable

If the entity's business is highly seasonal, the entity is encouraged to disclose:

- [ ] Financial information for the 12 months ending on the interim reporting period
- [x] Comparative information for the prior 12-month period

Periods to be included

Does the entity include in interim financial reports (condensed or complete) the following statements:

- [ ] A statement of financial position:
  - [ ] As of the end of the current interim period
  - [ ] As of the end of the immediately preceding financial year
- [ ] A statement of profit or loss and other comprehensive income. As permitted by IAS 1, an interim report may present profit or loss and other comprehensive income in separate statements:
  - [ ] For the current interim period
  - [ ] For the same current interim period of the immediately preceding financial year
  - [ ] Cumulatively for the current financial year to date
  - [ ] For the same year to date current interim period of the immediately preceding financial year
- [ ] A statement showing changes in equity:
  - [ ] Cumulatively for the current financial year to date
  - [ ] For the comparable year-to-date period of the immediately preceding financial year
- [ ] A statement of cash flows:
  - [ ] Cumulatively for the current financial year to date
  - [ ] For the comparable year-to-date period of the immediately preceding financial year

If the entity presents items of profit or loss in a separate statement as described in IAS 1.10A, it shall present interim condensed information from that statement.

- [ ] Yes
- [ ] No
- [x] Not Applicable

If the entity presents items of profit or loss in a separate statement as described in IAS 1.10A, it presents basic and diluted earnings per share in that statement.

- [ ] Yes
- [ ] No
- [x] Not Applicable

If the entity presents items of profit or loss in a separate statement as described in IAS 1.10A, it presents basic and diluted earnings per share in that statement.

- [ ] Yes
- [ ] No
- [x] Not Applicable

If the entity presents items of profit or loss in a separate statement as described in IAS 1.10A, it presents basic and diluted earnings per share in that statement.

- [ ] Yes
- [ ] No
- [x] Not Applicable

If the entity's business is highly seasonal, the entity is encouraged to disclose:

- [x] Financial information for the 12 months ending on the interim reporting period
- [ ] Comparative information for the prior 12-month period
Does the entity also disclose any significant events or transactions of the current interim reporting period or financial year-to-date reporting period such as (Please note that the list below is not exhaustive):

a. The write-down of inventories to net realisable value and the reversal of such a write-down

b. Recognition of a loss from the impairment of financial assets, property, plant, and equipment, intangible assets, or other assets, and the reversal of such an impairment loss

c. The reversal of any provisions for the costs of restructuring

d. Acquisitions and disposals of items of property, plant, and equipment

e. Commitments for the purchase of property, plant, and equipment

f. Litigation settlements

g. Corrections of prior period errors

h. Changes in the business or economic circumstances that affect the fair value of the entity’s financial assets and financial liabilities, whether those assets or liabilities are recognised at fair value or amortised cost

i. Any loan default or breach of a loan agreement that has not been remedied on or before the end of the reporting period

j. Related party transactions

k. Transfers between levels of the fair value hierarchy used in measuring the fair value of financial instruments

l. Changes in the classification of financial assets as a result of a change in the purpose or use of those assets

m. Changes in contingent liabilities or contingent assets

n. Recognition of a loss from the impairment of assets arising from contracts with customers

An entity must include in its interim financial report, an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the entity since the end of the last annual reporting period. Information disclosed in relation to those events and transactions must update the relevant information presented in the most recent annual financial report.

Does the entity disclose its accounting policy for impairment losses in relation to goodwill recognised in an interim period

Explanatory notes

Does the entity disclose the following information in the notes to its interim financial statements or elsewhere in the interim financial report (the information is normally reported on a financial year-to-date basis):

The following disclosures shall be given either in the interim financial statements or incorporated by cross-reference from the interim financial statements to some other statement (such as management commentary or risk report) that is available to users of the financial statements on the same terms as the interim financial statements and at the same time. If users of the financial statements do not have access to the information incorporated by cross-reference on the same terms and at the same time, the interim financial report is incomplete.

a. The same accounting policies and methods of computation as were followed in the most recent annual financial statements or, if those policies or methods have been changed, the nature and effect of the change

b. The seasonality or cyclicality of interim operations

c. The nature and amount of items affecting assets, liabilities, equity, net income, or cash flows that are unusual because of their nature, size, or incidence
d. The nature and amount of changes in estimates of amounts reported in prior interim periods of the current financial year, or changes in estimates of amounts reported in prior financial years

e. The issues, repurchases, and repayments of debt and equity securities

f. The dividends paid (aggregate or per share) separately for ordinary shares and other shares

g. The following segment information:
   ▶ Revenues from external customers, if included in the measure of segment profit or loss reviewed by the chief operating decision maker or otherwise regularly provided to the chief operating decision maker
   ▶ Intersegment revenues, if included in the measure of segment profit or loss reviewed by the chief operating decision maker or otherwise regularly provided to the chief operating decision maker
   ▶ A measure of segment profit or loss
   ▶ A measure of total assets and liabilities for a particular reportable segment if such amounts are regularly provided to the chief operating decision maker and if there has been a material change from the amount disclosed in the last annual financial statements for that reportable segment
   ▶ A description of differences from the last annual financial statements in the basis of segmentation or in the basis of measurement of segment profit or loss
   ▶ A reconciliation of the total of the reportable segments’ measures of profit or loss to the entity’s profit or loss before tax expense (tax income) and discontinued operations. However, if an entity allocates to reportable segments items such as tax expense (tax income), the entity may reconcile the total of the segments’ measures of profit or loss to profit or loss after those items. Material reconciling items must be separately identified and described in that reconciliation

h. Events after the interim period that are not reflected in the financial statements for the interim period

i. The effect of changes in the composition of the entity during the interim period, including business combinations, obtaining or losing control of subsidiaries and long-term investments, restructurings and discontinued operations. In the case of business combinations, the entity discloses the information required by IFRS 3

j. For financial instruments, the disclosures about fair value required by IFRS 13.91-93(h), 94-96, 98 and 99 and IFRS 7.25, 26 and 28-30. Please refer below for detailed disclosure requirements

k. For entities becoming, or ceasing to be, investment entities, as defined in IFRS 10, the disclosures in IFRS 12.9B. Please refer below for detailed disclosure requirements

l. The disaggregation of revenue from contracts with customers required by IFRS 15.114-115

IFRS 13 Disclosures

Please note that the ‘IFRS 13 Disclosures’ section applies only to financial instruments.

Disclosure objectives

Does the entity disclose information that helps users of its financial statements assess both of the following:

a. For assets and liabilities that are measured at fair value on a recurring or non-recurring basis in the statement of financial position after initial recognition, the valuation techniques and inputs used to develop those measurements
b. For recurring fair value measurements using significant unobservable inputs (Level 3), the effect of the measurements on profit or loss or other comprehensive income for the period

IFRS 13.92
To meet the objectives in IFRS 13.91, an entity is required to consider all of the following:

► The level of detail necessary to satisfy the disclosure requirements
► How much emphasis to place on each of the various requirements
► How much aggregation or disaggregation to undertake
► Whether users of financial statements need additional information to evaluate the quantitative information disclosed

IFRS 13.92
If the disclosures provided in accordance with IFRS 13 and other IFRSs are insufficient to meet the objectives in IFRS 13.91, does the entity disclose additional information in order to meet those objectives

IFRS 13.93
In addition, IFRS 13.93 establishes the minimum disclosure requirements for fair value measurements (and those based on fair value) that are recognised in the statement of financial position after initial recognition. The requirements vary depending on whether the fair value measurements are recurring or non-recurring and their categorisation within the fair value hierarchy (i.e., Level 1, 2, or 3).

In order to determine the appropriate categorisation of a fair value measurement (as a whole) within the hierarchy, an entity determines the categorisation of the inputs used to measure fair value and categorisation of the fair value measurement (as a whole).

(i) Categorisation of the inputs in the fair value hierarchy:
IFRS 13’s fair value hierarchy categorises inputs to valuation techniques in the following levels, based on their observability:

Level 1 inputs: quoted prices (that are unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date

Level 2 inputs: inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly

Level 3 inputs: unobservable inputs for the asset or liability

(ii) Categorisation of the fair value measurement (as a whole)
in the fair value hierarchy:
A fair value measurement (as a whole) is categorised within the fair value hierarchy, based on the lowest level input that is significant to the entire measurement (Level 1 inputs being the highest and Level 3, the lowest). For measures based on fair value (such as fair value less costs to sell), this determination does not consider the costs to sell.

When measured based on quoted prices in an active market (that are unadjusted) for identical assets or liabilities, fair value measurement is categorised within Level 1.

When measured using valuation techniques for which the lowest level input that is significant to the fair value measurement is market directly or indirectly observable, the fair value measurement as a whole is categorised within Level 2.

When measured using valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable, the fair value measurement as a whole is categorised within Level 3.
## Accounting policies

<table>
<thead>
<tr>
<th>IFRS 13.95</th>
<th>Does the entity disclose its policy for determining when transfers between levels of the fair value hierarchy are deemed to have occurred?</th>
<th>□ □ □</th>
</tr>
</thead>
<tbody>
<tr>
<td>IFRS 13.95(c)</td>
<td>IFRS 13.95 requires that an entity determines (and consistently follows) its policy for determining when transfers between levels in the fair value hierarchy are deemed to have occurred. The policy for the timing of recognising transfers is required to be the same for transfers into and out of levels. Examples of policies include: a. The date of the event or change in circumstances that caused the transfer b. The beginning of the reporting period c. The end of the reporting period</td>
<td>□ □ □</td>
</tr>
</tbody>
</table>

<tbody>
<tr>
<td>IFRS 13.48-52</td>
<td>If an entity that holds a group of financial assets and financial liabilities is exposed to the market risks (as defined in IFRS 7) and the credit risk (as defined in IFRS 7) of each of the counterparties and manages that group of assets and liabilities on the basis of its net exposure, IFRS 13.48 permits the use of a measurement exception for measuring fair value, provided the criteria set out in IFRS 13.49 are met. Under this exception, an entity measures the fair value of the group of financial assets and liabilities consistently with how market participants would price the net risk exposure at the measurement date. Please note that the exception does not affect financial statement presentation requirements. In addition, the reference to financial assets and financial liabilities in IFRS 13.48 to 51 should be read as applying to all contracts within the scope of, and accounted for under IFRS 9, regardless of whether they meet the definitions of financial assets or financial liabilities in IAS 32.</td>

Recurring fair value measurements of assets and liabilities

Recurring fair value measurements of assets or liabilities are those that other IFRSs require or permit in the statement of financial position at the end of each reporting period. Non-recurring fair value measurements of assets or liabilities are those that other IFRSs require or permit in the statement of financial position in particular circumstances (e.g., when an entity measures an asset held for sale at fair value less costs to sell in accordance with IFRS 5 because the asset’s fair value less costs to sell is lower than its carrying amount).

For each class of assets and liabilities that are measured at fair value on a recurring basis in the statement of financial position after initial recognition, does the entity disclose:

a. The fair value measurement at the end of the reporting period
b. The level of the fair value hierarchy within which the fair value measurements are categorised in their entirety (Level 1, 2 or 3)
c. For assets and liabilities held at the end of the reporting period, the amount of any transfers between Level 1 and Level 2, separately disclosing transfers into each level from transfers out of each level, and the reasons for those transfers
d. For fair value measurements categorised within Level 2 and Level 3 of the hierarchy:
   ▶ A description of the valuation technique(s) and the inputs used in the measurement
   ▶ If there has been a change in valuation technique, that change and the reason(s) for making it
   ▶ For fair value measurements categorised within Level 3 of the fair value hierarchy, quantitative information about the significant unobservable inputs used in the fair value measurement

e. An entity is not required to create quantitative information to comply with this disclosure requirement if significant unobservable inputs are not developed by the entity when measuring fair value (e.g., when an entity uses prices from prior transactions or third-party pricing information without adjustment). However, an entity cannot ignore quantitative unobservable inputs that are significant to the fair value measurement and are reasonably available to the entity.

f. For total gains and losses recognised during the period in profit or loss in accordance with IFRS 13.93(e)(i) (see e. above), the amount that is attributable to the change in unrealised gains or losses relating to those assets and liabilities held at the end of the period, and the line item(s) in profit or loss in which those unrealised gains or losses are recognised
g. For fair value measurements categorised within Level 3 of the fair value hierarchy, a description of the valuation processes used by the entity (including for example, how an entity decides its valuation policies and procedures and analyses changes in fair value measurements from period to period) ☐ ☐ ☐

h. For fair value measurements categorised within Level 3 of the fair value hierarchy:
   ▶ A narrative description of the sensitivity if a change in an unobservable input (including, at a minimum, those unobservable inputs disclosed in accordance with IFRS 13.93(d), see d. above) to a different amount might result in a significantly higher or lower fair value measurement ☐ ☐ ☐
   ▶ If there are interrelationships between significant unobservable inputs and other unobservable inputs used in the fair value measurement, a narrative description of those interrelationships and how they might magnify or mitigate the effect of changes in the unobservable inputs on the fair value measurement ☐ ☐ ☐
   ▶ For financial assets and financial liabilities, if changing one or more of the unobservable inputs to reflect reasonably possible alternative assumptions would change fair value significantly, that fact, the effect of those changes and how the effect of a change was calculated ☐ ☐ ☐

IFRS 13.93(h) For the sensitivity analysis for financial assets and financial liabilities, significance is judged with respect to profit or loss, and total assets or total liabilities, or, when changes in fair value are recognised in other comprehensive income, total equity.

Non-recurring fair value measurements of assets and liabilities

IFRS 13.93(a) Non-recurring fair value measurements of assets or liabilities are those that other IFRSs require or permit in the statement of financial position in particular circumstances (e.g., when an entity measures an asset held for sale at fair value less costs to sell in accordance with IFRS 5 because the asset’s fair value less costs to sell is lower than its carrying amount).

618 IFRS 13.93 Does the entity disclose for assets and liabilities that are measured at fair value on a non-recurring basis in the statement of financial position after initial recognition:
   a. The fair value measurement at the end of the reporting period ☐ ☐ ☐
   b. The reasons for the fair value measurement ☐ ☐ ☐
   c. The level of the fair value hierarchy within which the fair value measurements are categorised in their entirety (Level 1, 2 or 3) ☐ ☐ ☐
   d. For fair value measurements categorised within Level 2 and Level 3 of the hierarchy:
      ▶ A description of the valuation technique(s) and the inputs used in the measurement ☐ ☐ ☐
      ▶ If there has been a change in valuation technique, that change and the reason(s) for making it ☐ ☐ ☐
      ▶ For fair value measurements categorised within Level 3 of the fair value hierarchy, quantitative information about the significant unobservable inputs used in the fair value measurement ☐ ☐ ☐

IFRS 13.93(d) An entity is not required to create quantitative information to comply with these disclosure requirements if significant unobservable inputs are not developed by the entity when measuring fair value (e.g., when an entity uses prices from prior transactions or third-party pricing information without adjustment). However, an entity cannot ignore quantitative unobservable inputs that are significant to the fair value measurement and are reasonably available to the entity.
e. For fair value measurements categorised within Level 3 of the fair value hierarchy, a description of the valuation processes used by the entity (including, for example, how an entity decides its valuation policies and procedures and analyses changes in fair value measurements from period to period)

Investment entity disclosures

623  

IAS 34.16A(k)  

IFRS 12.9B  

When an entity becomes, or ceases to be, an investment entity, as defined in IFRS 10, does the entity disclose the change of investment entity status and the reasons for the change?  

624  

IAS 34.16A(k)  

IFRS 12.9B  

When an entity becomes an investment entity, does the entity disclose the effect of the change of status on the financial statements for the period presented, including:  

a. The total fair value, as of the date of change of status, of the subsidiaries that cease to be consolidated  

b. The total gain or loss, if any, calculated in accordance with IFRS 10.B101  

c. The line item(s) in profit or loss in which the gain or loss is recognised (if not presented separately)

First-time adoption requirements

IFRS 1.IG63  

IFRS 1.IG63 provides an example of the level of detail required in the reconciliations from previous GAAP to IFRSs.

625  

IFRS 1.32  

If the entity presents an interim financial report for part of the period covered by its first IFRS financial statements, does the entity:  

a. Reconcile, if the entity presented an interim financial report for the comparative interim period of the immediately preceding financial year:  

   ► Its equity under previous GAAP at the end of that comparable interim period to its equity under IFRSs at that date  

   ► Its current total comprehensive income (or, if an entity did not report such a total, profit or loss) under previous GAAP for that comparable interim period to its total comprehensive income under IFRSs for that period  

   ► Its year-to-date total comprehensive income (or, if an entity did not report such a total, profit or loss) under previous GAAP for that comparable interim period to its total comprehensive income under IFRSs for that period  

b. Disclose, in the entity's first interim financial report, the following information or cross-reference to another published document that contains this information:  

   ► Reconciliations of its equity reported under previous GAAP to its equity under IFRSs for:  

      ► The date of transition to IFRSs  

      ► The end of the latest period presented in the entity's most recent annual financial statements under previous GAAP  

      ► A reconciliation of the total comprehensive income (or, if the entity did not report such a total, profit or loss) reported under previous GAAP for the latest period in the entity's most recent annual financial statements to its total comprehensive income under IFRSs for the same period  

      ► If the entity presented a statement of cash flows under its previous GAAP, explanation of the material adjustments to the statement of cash flows  

   ► In the reconciliations of equity, any errors made under previous GAAP and any changes in accounting policies  

   ► In the reconciliation of profit or loss, any errors made under previous GAAP and any changes in accounting policies  

   c. If the entity changes its accounting policies or its use of the exemptions contained in IFRS 1, does the entity explain
the changes in each such interim financial report under IFRS 1.23 and update the reconciliations in (a) and (b) above

626 IFRS 1.33 If the entity does not, in its most recent annual financial statements under previous GAAP, disclose information material to an understanding of the current interim period, does it disclose in its interim financial report that information or include a cross-reference to another published document that includes it

☐ ☐ ☐ ☐

New pronouncements

627 Does the entity disclose items required by recent accounting pronouncements issued subsequent to the cut-off date of this checklist

☐ ☐ ☐ ☐

IFRS 16 Leases

IFRS 16 Leases was issued in January 2016. IFRS 16 is effective for annual periods beginning on or after 1 January 2019. Earlier application is permitted for entities that also apply IFRS 15.

Transition

IAS 40.84B An entity applying IFRS 16 and its related amendments to IAS 40 for the first time must apply the transition requirements in IFRS 16 Appendix C to its investment property held as a right-of-use asset.

New 628 IFRS 16.C1 If the entity applies IFRS 16 in its annual IFRS financial statements for a period beginning before 1 January 2019, does it disclose that fact

☐ ☐ ☐ ☐

New 629 IFRS 16.C4 If the entity applies the practical expedient in IFRS 16.C3, does it disclose that fact

☐ ☐ ☐ ☐

IFRS 16.C3 As a practical expedient, an entity is not required to reassess whether a contract is, or contains, a lease at the date of initial application. Instead, the entity is permitted:

a. To apply IFRS 16 to contracts that were previously identified as leases under IAS 17 and IFRIC 4. The entity must apply the transition requirements in C5-C18 to those leases

b. Not to apply IFRS 16 to contracts that were not previously identified as containing a lease under IAS 17 and IFRIC 4

For the purposes of the requirements in IFRS 16.C1-C19, the date of initial application is the beginning of the annual reporting period in which an entity first applies IFRS 16.

New 630 IFRS 16.C12 If the entity (a lessee) elects to apply IFRS 16 in accordance with paragraph C5(b), does it disclose information about initial application required by IAS 8.28, except for the information specified in IAS 8.28(f)

☐ ☐ ☐ ☐

New 631 IFRS 16.C12 Instead of the information specified in IAS 8.28(f), does the entity (a lessee) disclose:

a. The weighted average lessee’s incremental borrowing rate applied to lease liabilities recognised in the statement of financial position at the date of initial application

b. An explanation of any difference between:

► Operating lease commitments disclosed under IAS 17 at the end of the annual reporting period immediately preceding the date of initial application, discounted using the incremental borrowing rate at the date of initial application as described in IFRS 16.C8(a); and

► Lease liabilities recognised in the statement of financial position at the date of initial application

New 632 IFRS 16.C10 If the entity (a lessee) elects not to apply the requirements in IFRS 16.C8 to leases for which the lease term ends within 12 months of the date of initial application, does it include the cost associated with those leases within the disclosure of short-term lease expense in the annual reporting period that includes the date of initial application

☐ ☐ ☐ ☐
Presentation and disclosures by lessees

**Presentation**

New 633 IFRS 16.C13

If the entity (a lessee) uses one or more of the specified practical expedients in IFRS 16.C10, does it disclose that fact?

**Disclosure**

New 634 IFRS 16.47(a)

Does the entity present in the statement of financial position (or disclose in the notes) right-of-use assets separately from other assets?

New 635 IFRS 16.47(a)

If the entity does not present right-of-use assets separately in the statement of financial position, does it:

a. Include right-of-use assets within the same line item as that within which the corresponding underlying assets would be presented if they were owned

b. Disclose which line items in the statement of financial position include those right-of-use assets

New 636 IFRS 16.47(b)

Does the entity:

- Present lease liabilities separately from other liabilities in the statement of financial position

Or

- If not, disclose which line items in the statement of financial position include those liabilities

New 637 IFRS 16.49

In the statement of profit or loss and other comprehensive income, does the entity present interest expense on the lease liability separately from the depreciation charge for the right-of-use asset?

IFRS 16.49 Interest expense on the lease liability is a component of finance costs, which IAS 1.82(b) requires to be presented separately in the statement of profit or loss and other comprehensive income.

New 638 IFRS 16.50

In the statement of cash flows, does the entity classify:

a. Cash payments for the principal portion of the lease liability within financing activities

b. Cash payments for the interest portion of the lease liability applying the requirements in IAS 7 for interest paid

c. Short-term lease payments, payments for leases of low-value assets and variable lease payments not included in the measurement of the lease liability within operating activities

**Disclosures**

New 639 IFRS 16.52

Does the entity disclose (or incorporate by way of cross-reference) information about its leases, for which it is a lessee, in a single note or separate section in its financial statements?

New 640 IFRS 16.53

Does the entity disclose the following amounts for the reporting period:

a. Depreciation charge for right-of-use assets by class of underlying asset

b. Interest expense on lease liabilities

c. The expense relating to short-term leases accounted for under IFRS 16.6
This expense need not include the expense relating to leases with a lease term of one month or less.

**IFRS 16.6**

d. The expense relating to leases of low-value assets accounted for under IFRS 16.6

This expense must not include the expense relating to short-term leases of low-value assets included in IFRS 16.53(c).

**IFRS 16.6**

e. The expense relating to variable lease payments not included in the measurement of lease liabilities

f. Income from subleasing right-of-use assets

g. Total cash outflow for leases

h. Additions to right-of-use assets

i. Gains or losses arising from sale and leaseback transactions

j. The carrying amount of right-of-use assets at the end of the reporting period by class of underlying asset

**IFRS 16.54**

An entity must provide the disclosures specified in IFRS 16.53 in a tabular format, unless another format is more appropriate. The amounts disclosed must include costs that a lessee has included in the carrying amount of another asset during the reporting period.

**New 641 IFRS 16.55**

If the portfolio of short-term leases to which the entity is committed at the end of the reporting period is dissimilar to the portfolio of short-term leases to which the short-term lease expense disclosed applying IFRS 16.53(c) relates, does the entity disclose the amount of its lease commitments for short-term leases that are accounted for under IFRS 16.6

**New 642 IFRS 16.56**

If right-of-use assets meet the definition of investment property, does the entity apply the disclosure requirements in IAS 40

In that case, an entity is not required to provide the disclosures in IFRS 16.53(a), (f), (h) or (j) for those right-of-use assets.

**New 643 IFRS 16.57**

If the entity measures right-of-use assets at revalued amounts under IAS 16, does the entity disclose the information required by IAS 16.77 for those right-of-use assets

**New 644 IFRS 16.58**

Does the entity disclose a maturity analysis of lease liabilities under IFRS 7.39 and IFRS 7.B11 separately from the maturity analyses of other financial liabilities

**New 645 IFRS 16.59**

In addition to the disclosures required in IFRS 16.53–58, does the entity disclose additional qualitative and quantitative information about its leasing activities necessary to meet the disclosure objective in IFRS 16.51 (as described in IFRS 16.B48). This additional information may include, but is not limited to, information that helps users of financial statements to assess:

a. The nature of the lessee’s leasing activities

b. Future cash outflows to which the lessee is potentially exposed that are not reflected in the measurement of lease liabilities. This includes exposure arising from:

   i. Variable lease payments

   ii. Extension options and termination options

   iii. Residual value guarantees

   iv. Leases not yet commenced to which the lessee is committed

   v. Restrictions or covenants imposed by leases

   vi. Sale and leaseback transactions

**New 646 IFRS 16.848**

In determining whether additional information about leasing activities is necessary to meet the disclosure objective in IFRS 16.51, the entity must consider:

a. Whether that information is relevant to users of financial statements. The entity (lessee) must provide the additional...
information specified in IFRS 16.59 only if that information is expected to be relevant to users of financial statements.

b. Whether that information is apparent from information either presented in the primary financial statements or disclosed in the notes. The entity (lessee) need not duplicate information that is already presented elsewhere in the financial statements.

IFRS 16.849-52 provides examples of additional information that could help users of financial statements for variable lease payments, extension options and termination options, residual value guarantees and sale and leaseback transactions, respectively.

Finance leases

Does the entity provide a qualitative and quantitative explanation of the significant changes in the carrying amount of the net investment in finance leases?

Does the entity disclose a maturity analysis of the lease payments receivable, showing the undiscounted lease payments to be received on an annual basis for a minimum of each of the first five years and a total of the amounts for the remaining years?

Does the entity reconcile the undiscounted lease payments to the net investment in the lease. The reconciliation must identify the unearned finance income relating to the lease payments receivable and any discounted unguaranteed residual value?

Operating leases

For items of property, plant and equipment subject to an operating lease, does the entity apply the disclosure requirements of IAS 16?

In applying the disclosure requirements in IAS 16, an entity must disaggregate each class of property, plant and equipment into assets subject to operating leases and assets not subject to operating leases. Accordingly, an entity must provide the disclosures required by IAS 16 for assets subject to an operating lease (by class of underlying asset) separately from owned assets held and used by the entity.

IFRS 17 Insurance Contracts

IFRS 17 Insurance Contracts was issued in May 2017. It applies to all types of insurance contracts, with limited exceptions. IFRS 17 is effective for annual periods beginning on or after 1 January 2021. Earlier application is permitted, provided the entity also applies IFRS 9 and IFRS 15 on or before the date it first applies IFRS 17.

Transition to IFRS 17

For the purposes of the transition requirements in IFRS 17:

- The date of initial application is the beginning of the annual reporting period in which an entity first applies IFRS 17
- The transition date is the beginning of the annual reporting period immediately preceding the date of initial application

- If an entity also presents adjusted comparative information when applying IFRS 17 for any earlier periods presented, the reference to ‘the beginning of the annual reporting period immediately preceding the date of initial application’ shall be read as ‘the beginning of the earliest adjusted comparative period presented’

An entity shall apply IFRS 17 retrospectively unless impracticable, except that:

- An entity is not required to present the quantitative information required by IAS 8.28(f)
- An entity shall not apply the option in IFRS 17.B115 for periods before the date of initial application of IFRS 17

If, and only if, full retrospective application in IFRS 17.C3 is impracticable for a group of insurance contracts, an entity shall apply one of the following two approaches:

- The modified retrospective approach in IFRS 17.C6–C19, subject to C6(a)
- The fair value approach in IFRS 17.C20–C24

An entity that has applied IFRS 9 to annual periods before the initial application of IFRS 17:

- May reassess whether an eligible financial asset meets the condition in IFRS 9.4.1.2(a) or IFRS 9.4.1.2A(a)
(a) A financial asset is eligible only if it is not held in respect of an activity that is unconnected with contracts within the scope of IFRS 17. Examples of financial assets that would not be eligible for reassessment are financial assets held in respect of banking activities or financial assets held in funds relating to investment contracts that are outside the scope of IFRS 17.

**IFRS 9.4.1.5**

b. Shall revoke its previous designation of a financial asset as measured at fair value through profit or loss if the condition in IFRS 9.4.1.5 is no longer met because of the application of IFRS 17.

c. May designate a financial asset as measured at fair value through profit or loss if the condition in IFRS 9.4.1.5 is met.

**IFRS 9.5.7.5**

d. May designate an investment in an equity instrument as at fair value through other comprehensive income applying IFRS 9.5.7.5.

e. May revoke its previous designation of an investment in an equity instrument as at fair value through other comprehensive income applying IFRS 9.5.7.5.

Transition amounts

To enable users of financial statements to identify the effect of groups of insurance contracts measured at the transition date applying either the modified retrospective approach (see paragraphs C6–C19) or the fair value approach (see paragraphs C20–C24) on the contractual service margin and insurance revenue in subsequent periods, does the entity disclose the reconciliation of the contractual service margin applying IFRS 17.101(c), and the amount of insurance revenue applying IFRS 17.103(a), separately for:

a. Insurance contracts that existed at the transition date to which the entity has applied the modified retrospective approach
b. Insurance contracts that existed at the transition date to which the entity has applied the fair value approach
c. All other insurance contracts

For all periods in which disclosures are made applying IFRS 17.114(a) or 114(b), to enable users of financial statements to understand the nature and significance of the methods used and judgements applied in determining the transition amounts, does the entity explain how it determined the measurement of insurance contracts at the transition date?

The reconciliation mentioned above shall include, for example, gains or losses recognised in other comprehensive income in the period and gains or losses previously recognised in other comprehensive income in previous periods reclassified in the period to profit or loss.

Presentation: Statement of financial position

Does the entity present separately in the statement of financial position the carrying amount of groups of:

a. Insurance contracts issued that are assets
b. Insurance contracts issued that are liabilities
c. Reinsurance contracts held that are assets
d. Reinsurance contracts held that are liabilities

An entity shall include any assets or liabilities for insurance acquisition cash flows recognised applying IFRS 17.27 in the carrying amount of the related groups of insurance contracts issued, and any assets or liabilities for cash flows related to groups of reinsurance contracts held (see IFRS 17.65(a)) in the carrying amount of the groups of reinsurance contracts held.

Presentation: Statement(s) of financial performance

Applying IFRS 17.41-42, does the entity disaggregate the amounts recognised in the statement(s) of profit or loss and other comprehensive income (hereafter referred to as the statement(s) of financial performance in this section) into:

a. An insurance service result (see IFRS 17.83–86), comprising insurance revenue and insurance service expenses

And

b. Insurance finance income or expenses (see IFRS 17.87–92)

An entity is not required to disaggregate the change in the risk adjustment for non-financial risk between the insurance service result and insurance finance income or expenses. If an entity does not make such a disaggregation, it shall include the entire
change in the risk adjustment for non-financial risk as part of the insurance service result.

New 667 IFRS 17.82 Does the entity present income or expenses from reinsurance contracts held separately from the expenses or income from insurance contracts issued?

Insurance service result

New 668 IFRS 17.83 Does the entity present in profit or loss insurance revenue arising from the groups of insurance contracts issued?

IFRS 17.83 Insurance revenue shall depict the provision of coverage and other services arising from the group of insurance contracts at an amount that reflects the consideration to which the entity expects to be entitled in exchange for those services. IFRS 17.B120-B127 specify how an entity measures insurance revenue.

New 669 IFRS 17.84 Does the entity present in profit or loss insurance service expenses arising from a group of insurance contracts issued, comprising incurred claims (excluding repayments of investment components), other incurred insurance service expenses and other amounts as described in IFRS 17.103(b)?

New 670 IFRS 17.85 Insurance revenue and insurance service expenses presented in profit or loss shall exclude any investment components. Does the entity avoid presenting premium information in profit or loss if that information is inconsistent with IFRS 17.83?

New 671 IFRS 17.86 If an entity presents separately the amounts recovered from the reinsurer and an allocation of the premiums paid, does it:

a. Treat reinsurance cash flows that are contingent on claims on the underlying contracts as part of the claims that are expected to be reimbursed under the reinsurance contract held?

b. Treat amounts from the reinsurer that it expects to receive that are not contingent on claims of the underlying contracts (for example, some types of ceding commissions) as a reduction in the premiums to be paid to the reinsurer?

c. Avoid presenting the allocation of premiums paid as a reduction in revenue?

IFRS 17.86 An entity may present the income or expenses from a group of reinsurance contracts held (see IFRS 17.60-70), other than insurance finance income or expenses, as a single amount; or it may present separately the amounts recovered from the reinsurer and an allocation of the premiums paid that together give a net amount equal to that single amount.

Disclosure

IFRS 17.93 The objective of the disclosure requirements is for an entity to disclose information in the notes that, together with the information provided in the statement of financial position, statement(s) of financial performance and statement of cash flows, gives a basis for users of financial statements to assess the effect that contracts within the scope of IFRS 17 have on its financial position, financial performance and cash flows.

New 672 IFRS 17.93 To achieve the disclosure objective described in IFRS 17.93, does the entity disclose qualitative and quantitative information about:

a. The amounts recognised in its financial statements for contracts within the scope of IFRS 17 (see IFRS 17.97-116)?

b. The significant judgements, and changes in those judgements, made when applying IFRS 17 (see IFRS 17.117-120)?

c. The nature and extent of the risks from contracts within the scope of IFRS 17 (see IFRS 17.121-132)?

New 673 IFRS 17.94 An entity shall consider the level of detail necessary to satisfy the disclosure objective and how much emphasis to place on each of the various requirements. If the disclosures provided, applying IFRS 17.97-132, are not enough to meet the objective in IFRS 17.93, does an entity disclose additional information necessary to meet that objective?

IFRS 17.95, 96 An entity shall aggregate or disaggregate information so that useful information is not obscured either by the inclusion of
IAS 1.29–31 set out requirements relating to materiality and aggregation of information. Examples of aggregation bases that might be appropriate for information disclosed about insurance contracts include:

a. Type of contract (for example, major product lines)
b. Geographical area (for example, country or region)
c. Reportable segment, as defined in IFRS 8 Operating Segments

**Explanation of recognised amounts**

IFRS 17.97

Of the disclosures required by IFRS 17.98–109, only those in IFRS 17.98–100 and 102–105 apply to contracts to which the premium allocation approach has been applied.

New 674 IFRS 17.97

If an entity uses the premium allocation approach, does it also disclose:

a. Which of the criteria in IFRS 17.53 and IFRS 17.69 it has satisfied

b. Whether it makes an adjustment for the time value of money and the effect of financial risk applying IFRS 17.56 and 57(b)

c. The method it has chosen to recognise insurance acquisition cash flows applying IFRS 17.59(a)

New 675 IFRS 17.98

Does the entity disclose reconciliations that show how the net carrying amounts of contracts within the scope of IFRS 17 changed during the period because of cash flows and income and expenses recognised in the statements of financial performance, separately for insurance contracts issued and reinsurance contracts held.

IFRS 17.98

An entity shall adapt the requirements of IFRS 17.100–109 to reflect the features of reinsurance contracts held that differ from insurance contracts issued; for example, the generation of expenses or reduction in expenses rather than revenue.

New 676 IFRS 17.99

An entity shall provide enough information in the reconciliations to enable users of financial statements to identify changes from cash flows and amounts that are recognised in the statement(s) of financial performance. To comply with this requirement, does it:

a. Disclose, in a table, the reconciliations set out in IFRS 17.100–105

b. For each reconciliation, present the net carrying amounts at the beginning and at the end of the period, disaggregated into a total for groups of contracts that are assets and a total for groups of contracts that are liabilities, that equal the amounts presented in the statement of financial position applying IFRS 17.78

New 677 IFRS 17.100

Does the entity disclose reconciliations from the opening to the closing balances separately for each of:

a. The net liabilities (or assets) for the remaining coverage component, excluding any loss component

b. Any loss component (see IFRS 17.47–52 and 57–58)

c. The liabilities for incurred claims

d. For insurance contracts to which the premium allocation approach described in IFRS 17.53–59 or 69–70 has been applied, does the entity disclose reconciliations from the opening to the closing balances separately for each of:

  ▶ The estimates of the present value of the future cash flows

  ▶ The risk adjustment for non-financial risk

New 678 IFRS 17.101

For insurance contracts other than those to which the premium allocation approach described in IFRS 17.53–59 or 69–70 has been applied, does the entity also disclose reconciliations from the opening to the closing balances separately for each of:

a. The estimates of the present value of the future cash flows
b. The risk adjustment for non-financial risk

c. The contractual service margin

IFRS 17.102 The objective of the reconciliations in IFRS 17.100-101 is to provide different types of information about the insurance service result.

New 679 IFRS 17.103 Does the entity separately disclose in the reconciliations required in IFRS 17.100 each of the following amounts related to insurance services, if applicable:

a. Insurance revenue

b. Insurance service expenses, showing separately:
   ▶ Incurred claims (excluding investment components) and other incurred insurance service expenses
   ▶ Amortisation of insurance acquisition cash flows
   ▶ Changes that relate to past service, i.e., changes in fulfilment cash flows relating to the liability for incurred claims
   ▶ Changes that relate to future service, i.e., losses on onerous groups of contracts and reversals of such losses

New 680 IFRS 17.104 Does the entity separately disclose in the reconciliations required in IFRS 17.101 each of the following amounts related to insurance services, if applicable:

a. Changes that relate to future service, applying IFRS 17. B96-B118, showing separately:
   ▶ Changes in estimates that adjust the contractual service margin
   ▶ Changes in estimates that do not adjust the contractual service margin, i.e., losses on groups of onerous contracts and reversals of such losses
   ▶ The effects of contracts initially recognised in the period

b. Changes that relate to current service include:
   ▶ The amount of the contractual service margin recognised in profit or loss to reflect the transfer of services
   ▶ The change in the risk adjustment for non-financial risk that does not relate to future service or past service
   ▶ Experience adjustments (see IFRS 17.B96(a), B97(c) and B113(a))

c. Changes that relate to past service, i.e., changes in fulfilment cash flows relating to incurred claims (see IFRS 17.B97(b) and B113(a))

New 681 IFRS 17.105 To complete the reconciliations in IFRS 17.100-101, does the entity also disclose separately each of the following amounts not related to insurance services provided in the period, if applicable:

a. Cash flows in the period, including:
   ▶ Premiums received for insurance contracts issued (or paid for reinsurance contracts held)
   ▶ Insurance acquisition cash flows
   ▶ Incurred claims paid and other insurance service expenses paid for insurance contracts issued (or recovered under reinsurance contracts held), excluding insurance acquisition cash flows

b. The effect of changes in the risk of non-performance by the issuer of reinsurance contracts held

c. Insurance finance income or expenses

d. Any additional line items that may be necessary to understand the change in the net carrying amount of the insurance contracts

New 682 IFRS 17.106 For insurance contracts issued other than those to which the premium allocation approach described in IFRS 17.53-59 has been applied, does the entity disclose an analysis of the insurance revenue recognised in the period comprising:
a. The amounts relating to the changes in the liability for remaining coverage as specified in IFRS 17.B124, separately disclosing:
   ▶ The insurance service expenses incurred during the period as specified in IFRS 17.B124(a)
   ▶ The change in the risk adjustment for non-financial risk, as specified in IFRS 17.B124(b)
   ▶ The amount of the contractual service margin recognised in profit or loss because of the transfer of services in the period, as specified in IFRS 17.B124(c)

b. The allocation of the portion of the premiums that relate to the recovery of insurance acquisition cash flows

New 683 IFRS 17.107 For insurance contracts other than those to which the premium allocation approach described in IFRS 17.53-59 or 69-70 has been applied, does the entity disclose the effect on the statement of financial position separately for insurance contracts issued and reinsurance contracts held that are initially recognised in the period, showing their effect at initial recognition on:
   a. The estimates of the present value of future cash outflows, showing separately the amount of the insurance acquisition cash flows
   b. The estimates of the present value of future cash inflows
   c. The risk adjustment for non-financial risk
   d. The contractual service margin

New 684 IFRS 17.108 In the disclosures required by IFRS 17.107 above, does the entity separately disclose amounts resulting from:
   a. Contracts acquired from other entities in transfers of insurance contracts or business combinations
   b. Groups of contracts that are onerous

New 685 IFRS 17.109 For insurance contracts other than those to which the premium allocation approach described in IFRS 17.53-59 or 69-70 has been applied, does the entity disclose an explanation of when it expects to recognise the contractual service margin remaining at the end of the reporting period in profit or loss, separately for insurance contracts issued and reinsurance contracts held, either quantitatively, in appropriate time bands, or by providing qualitative information

New 686 IFRS 17.110 Does the entity:
   a. Disclose and explain the total amount of insurance finance income or expenses in the reporting period
   b. Explain the relationship between insurance finance income or expenses and the investment return on its assets, to enable users of its financial statements to evaluate the sources of finance income or expenses recognised in profit or loss and other comprehensive income

New 687 IFRS 17.111 For contracts with direct participation features, does the entity:
   a. Describe the composition of the underlying items
   b. Disclose their fair value

New 688 IFRS 17.112 For contracts with direct participation features, if an entity chooses not to adjust the contractual service margin for some changes in the fulfilment cash flows, applying IFRS 17.B115, does it disclose the effect of that choice on the adjustment to the contractual service margin in the current period

New 689 IFRS 17.113 For contracts with direct participation features, if an entity changes the basis of disaggregation of insurance finance income or expenses between profit or loss and other comprehensive income, applying IFRS 17.B135, does it disclose, in the period when the change in approach occurred:
   a. The reason why the entity was required to change the basis of disaggregation
b. The amount of any adjustment for each financial statement line item affected  

c. The carrying amount of the group of insurance contracts to which the change applied at the date of the change  

**Significant judgements in applying IFRS 17**  

New 690  **IFRS 17.117** Does the entity disclose the significant judgements and changes in judgements made in applying IFRS 17?  

New 691  **IFRS 17.117** Specifically, does the entity disclose the inputs, assumptions and estimation techniques used, including:  

a. The methods used to measure insurance contracts within the scope of IFRS 17 and the processes for estimating the inputs to those methods  

► Unless impracticable, does the entity also provide quantitative information about those inputs?  

b. Any changes in the methods and processes for estimating inputs used to measure contracts, including:  

► The reason for each change  

► The type of contracts affected  

c. To the extent not covered in IFRS 17.117(a) above, the approach used:  

► To distinguish changes in estimates of future cash flows arising from the exercise of discretion from other changes in estimates of future cash flows for contracts without direct participation features (see IFRS 17.B98)  

► To determine the risk adjustment for non-financial risk, including whether changes in the risk adjustment for non-financial risk are disaggregated into an insurance service component and an insurance finance component  

► To determine discount rates  

► To determine investment components  

New 692  **IFRS 17.118** If an entity chooses to disaggregate insurance finance income or expenses into amounts presented in profit or loss and amounts presented in other comprehensive income, applying IFRS 17.88(b) or 89(b), does it disclose an explanation of the methods used to determine the insurance finance income or expenses recognised in profit or loss?  

New 693  **IFRS 17.119** Does the entity disclose the confidence level used to determine the risk adjustment for non-financial risk?  

New 694  **IFRS 17.119** If the entity uses a technique other than the confidence level technique for determining the risk adjustment for non-financial risk, does it disclose the technique used and the confidence level corresponding to the results of that technique?  

New 695  **IFRS 17.120** Does the entity disclose the yield curve (or range of yield curves) used to discount cash flows that do not vary based on the returns on underlying items when applying IFRS 17.36?  

New 696  **IFRS 17.120** When an entity provides the disclosure of the yield curve (or range of yield curves) in aggregate for a number of groups of insurance contracts, does it provide such disclosures in the form of weighted averages, or relatively narrow ranges?  

**Nature and extent of risks that arise from contracts within the scope of IFRS 17**  

New 697  **IFRS 17.121** Does the entity disclose information that enables users of its financial statements to evaluate the nature, amount, timing and uncertainty of future cash flows that arise from contracts within the scope of IFRS 17?  

*IFRS 17.121*  

*IFRS 17.122*–132 contain requirements for disclosures that would normally be necessary to meet this requirement.  

*IFRS 17.122*  

These disclosures focus on the insurance and financial risks that arise from insurance contracts and how they have been managed. Financial risks typically include, but are not limited to, credit risk, liquidity risk and market risk.  

New 698  **IFRS 17.123** If the information disclosed about an entity's exposure to risk at the end of the reporting period is not representative of its exposure to risk during the period, does it disclose:  

a. That fact
b. The reason why the period-end exposure is not representative

c. Further information that is representative of its risk exposure during the period

For each type of risk arising from contracts within the scope of IFRS 17, does the entity disclose:

a. The exposures to risks and how they arise

b. The entity’s objectives, policies and processes for managing the risks and the methods used to measure the risks

c. Any changes in (a) or (b) from the previous period

For each type of risk arising from contracts within the scope of IFRS 17, does the entity disclose:

a. Summary quantitative information about its exposure to that risk at the end of the reporting period. This disclosure shall be based on the information provided internally to the entity’s key management personnel

b. The disclosures required by IFRS 17.127-132, to the extent they are not provided when applying IFRS 17.125(a) above

Does the entity disclose information about the effect of the regulatory frameworks in which it operates, for example, minimum capital requirements or required interest-rate guarantees

If an entity applies IFRS 17.20 in determining the groups of insurance contracts to which it applies the recognition and measurement requirements of IFRS 17, does it disclose that fact

All types of risk—concentrations of risk

Does the entity disclose information about concentrations of risk arising from contracts within the scope of IFRS 17, including:

a. A description of how the entity determines the concentrations

b. A description of the shared characteristic that identifies each concentration (for example, the type of insured event, industry, geographical area, or currency)

Concentrations of financial risk might arise, for example, from interest-rate guarantees that come into effect at the same level for a large number of contracts. Concentrations of financial risk might also arise from concentrations of non-financial risk, for example, if an entity provides product liability protection to pharmaceutical companies and also holds investments in those companies.

Insurance and market risks—sensitivity analysis

An entity shall disclose information about sensitivities to changes in risk exposures arising from contracts within the scope of IFRS 17. To comply with this requirement, does it disclose:

a. A sensitivity analysis that shows how profit or loss and equity would have been affected by changes in risk exposures that were reasonably possible at the end of the reporting period:
   ▶ For insurance risk—showing the effect for insurance contracts issued, before and after risk mitigation by reinsurance contracts held
   ▶ For each type of market risk— in a way that explains the relationship between the sensitivities to changes in risk exposures arising from insurance contracts and those arising from financial assets held by the entity

b. The methods and assumptions used in preparing the sensitivity analysis

c. Changes from the previous period:
   ▶ The methods and assumptions used in preparing the sensitivity analysis
   ▶ The reasons for such changes
If an entity prepares a sensitivity analysis that shows how amounts different from those specified in IFRS 17.128(a) are affected by changes in risk exposures and uses that sensitivity analysis to manage risks arising from contracts within the scope of IFRS 17, in place of the analysis specified in IFRS 17.128(a), does it also disclose:

a. An explanation of both the method used in preparing such a sensitivity analysis and the main parameters and assumptions underlying the information provided

b. An explanation of the objective of the method used and any limitations that may result in the information provided

**Insurance risk – claims development**

Does the entity disclose actual claims compared with previous estimates of the undiscounted amount of the claims (i.e., claims development)?

Does the entity reconcile the disclosure about claims development with the aggregate carrying amount of the groups of insurance contracts, which the entity discloses applying IFRS 17.100(c)?

The disclosure about claims development shall start with the period when the earliest material claim(s) arose and for which there is still uncertainty about the amount and timing of the claims payments at the end of the reporting period, but the disclosure is not required to start more than 10 years before the end of the reporting period. The entity is not required to disclose information about the development of claims for which uncertainty about the amount and timing of the claims payments is typically resolved within one year.

**Credit risk — other information**

For credit risk that arises from contracts within the scope of IFRS 17, does the entity disclose:

a. The amount that best represents its maximum exposure to credit risk at the end of the reporting period, separately for insurance contracts issued and reinsurance contracts held

b. Information about the credit quality of reinsurance contracts held that are assets

**Liquidity risk — other information**

For liquidity risk arising from contracts within the scope of IFRS 17, does the entity disclose:

a. A description of how it manages the liquidity risk

b. Separate maturity analyses for groups of insurance contracts issued that are liabilities and groups of reinsurance contracts held that are liabilities that show, as a minimum, net cash flows of the groups for each of the first five years after the reporting date and, in aggregate, beyond the first five years

An entity is not required to include in these analyses liabilities for remaining coverage measured applying IFRS 17.55-59. The analyses may take the form of:

a. An analysis, by estimated timing, of the remaining contractual undiscounted net cash flows

Or

b. An analysis, by estimated timing, of the estimates of the present value of the future cash flows

c. The amounts that are payable on demand, explaining the relationship between such amounts and the carrying amount of the related groups of contracts, if not disclosed applying IFRS 17.132(b)

About EY

EY is a global leader in assurance, tax, transaction and advisory services. The insights and quality services we deliver help build trust and confidence in the capital markets and in economies the world over. We develop outstanding leaders who team to deliver on our promises to all of our stakeholders. In so doing, we play a critical role in building a better working world for our people, for our clients and for our communities.

EY refers to the global organization, and may refer to one or more, of the member firms of Ernst & Young Global Limited, each of which is a separate legal entity. Ernst & Young Global Limited, a UK company limited by guarantee, does not provide services to clients. For more information about our organization, please visit ey.com.

About EY’s International Financial Reporting Standards Group

A global set of accounting standards provides the global economy with one measure to assess and compare the performance of companies. For companies applying or transitioning to International Financial Reporting Standards (IFRS), authoritative and timely guidance is essential as the standards continue to change. The impact stretches beyond accounting and reporting to the key business decisions you make. We have developed extensive global resources — people and knowledge — to support our clients applying IFRS and to help our client teams. Because we understand that you need a tailored service as much as consistent methodologies, we work to give you the benefit of our deep subject matter knowledge, our broad sector experience and the latest insights from our work worldwide.
