British Columbia	2.00	12.00 ⁹	12.00 ⁹
Northwest Territories	4.00	11.50	11.50
Nunavut	4.00	12.00	12.00
Yukon	1.50/2.00 ¹⁰	2.50	12.00

*Rates represent calendar-year rates unless indicated otherwise.

Notes:

1. Nova Scotia increased the small-business limit from \$350,000 to \$500,000, effective 1 January 2017. In accordance with its 2018-19 budget, Manitoba indicated it will increase its small-business limit from \$450,000 to \$500,000 effective 1 January 2019. The small-business limit for the remaining provinces and territories is \$500,000, with the exception of Saskatchewan, which increased its small-business limit to \$600,000 effective 1 January 2018.
2. In accordance with its 2018-19 budget, Prince Edward Island reduced the small-business rate from 4.5% to 4.0% retroactive to 1 January 2018.
3. The New Brunswick small-business rate was reduced from 3.5% to 3.0% effective 1 April 2017. On 14 November 2017, the province announced its intention to further reduce the small-business rate to 2.5% effective 1 April 2018.
4. Effective for taxation years beginning on or after 1 January 2017, a Canadian-controlled private corporation (CCPC) must meet certain qualification criteria concerning the minimum number of hours paid or be a CCPC in either the primary (i.e., agriculture, forestry, fishing, hunting and certain resource-based sectors) or M&P sector to benefit from the small-business tax rate. The minimum number of hours paid criterion requires that an eligible corporation's employees work at least 5,500 hours annually, and the amount of the deduction is reduced linearly when the hours are between 5,500 and 5,000 hours. A maximum of 40 hours per week per employee is considered. Special conversion rules apply to take into consideration hours worked (but not necessarily paid in the form of wages) by actively engaged shareholders who hold, directly or indirectly, shares of the corporation that carry more than 50% of the voting rights.
5. CCPCs engaged in M&P activities in Quebec may be eligible for an additional 4% reduction in the small business rate. This additional deduction is extended to CCPCs in the primary sector effective for taxation years beginning on or after 1 January 2017. The additional deduction rate reaches 4% where the proportion of activities in the primary or M&P sector is 50% or more, and is reduced linearly where the proportion is between 50% and 25%. However, in its 2018-19 budget, Quebec announced it will ease the tax burden on small businesses in sectors other than the primary and M&P sectors by standardizing the small-business rate so that it is reduced to 4% by 2021. Effective 28 March 2018, Quebec reduced the small-business rate for these other sectors from 8% to 7%, resulting in an effective rate of 7.24% for the 2018 taxation year. Quebec will gradually reduce this rate to 4% as follows: 1 January 2019 - 6%; 1 January 2020 - 5%; and 1 January 2021 - 4%. Quebec is also phasing out the additional deduction for CCPCs in the primary and M&P sectors over the same time period to maintain an effective small-business rate of 4% for CCPCs in these sectors throughout this period.
6. In accordance with its 2015-16 budget, Quebec is gradually reducing the general corporate income tax rate from 11.9% to 11.5% over four years, effective 1 January of each year beginning in 2017 and based on the following schedule: 2017 - 11.8%; 2018 - 11.7%; 2019 - 11.6%; and 2020 - 11.5%.
7. On 14 November 2017, Ontario announced its intention to decrease the small-business rate from 4.5% to 3.5% effective 1 January 2018.
8. Saskatchewan increased the general corporate income tax rate from 11.5% to 12.0%, effective 1 January 2018. This measure reverses the government's previously announced (and enacted) reductions in the general corporate tax rate from 12.0% to 11.5% effective 1 July 2017, and to 11.0% effective 1 July 2019. The M&P profits tax reduction remains at 2.0%. As a result, the effective rate on Saskatchewan M&P profits is increased from 9.5% to 10.0%, effective 1 January 2018.

9. British Columbia increased its general corporate income tax rate from 11.0% to 12.0%, effective 1 January 2018.
10. The Yukon M&P rate is less than the small-business rate. The first rate applies to M&P income eligible for the SBD, while the second rate is for non-M&P income.
