On December 16, 2018, ENI Mexico and Qatar Petroleum (the “Parties”) entered into a Farm-Out Agreement for the transfer of Working Interest on one shallow water block awarded by virtue of Round 1.2 (i.e. Contractual Area 1). Please be advised that said Agreement is still pending to be approved by the National Hydrocarbon Commission (“CNH”, per its acronym in Spanish).

As of the date, ENI Mexico (“ENI”) has drilled 5 successful wells in the aforementioned block. Additionally, the first Development Plan associated to this Contractual Area has been already approved by CNH. It should be noted that according to its latest appraisal, ENI estimates that Contractual Area 1 holds 2.1 billion barrels of oil equivalent on the Amoca, Miztón and Tecoalli fields. Said the above, please find below a map with the location of the fields corresponding to this block:

According to the Agreement, ENI will grant Qatar Petroleum 35% of Working Interest in the Production Sharing Contract corresponding to Contractual Area 1, where ENI will remain as the Operator.

Given the above, please find below the Working Interest percentages agreed between the Parties in the aforementioned Contractual Area once CNH approves the Agreement:

About EY
EY is a global leader in assurance, tax, transaction and advisory services. The insights and quality services we deliver help build trust and confidence in the capital markets and in economies the world over. We develop outstanding leaders who team to deliver on our promises to all of our stakeholders. In so doing, we play a critical role in building a better working world for our people, for our clients and for our communities.
EY refers to the global organization, and may refer to one or more, of the member firms of Ernst & Young Global Limited, each of which is a separate legal entity. Ernst & Young Global Limited, a UK company limited by guarantee, does not provide services to clients. For more information about our organization, please visit ey.com.

How EY’s Global Oil & Gas Center can help your business
The oil and gas sector is constantly changing. Increasingly uncertain energy policies, geopolitical complexities, cost management and climate change all present significant challenges. EY’s Global Oil & Gas Center supports a global network of more than 10,000 oil and gas professionals with extensive experience in providing assurance, tax, transaction and advisory services across the upstream, midstream, downstream and oilfield service sub-sectors. The Center works to anticipate market trends, execute the mobility of our global resources and articulate points of view on relevant key sector issues. With our deep sector focus, we can help your organization drive down costs and compete more effectively.
