

Shape the future  
with confidence

# Digital Tax Intelligence for SAP

Data-driven tax management

Build confidence in your  
automated tax decisions  
by taking control

**The majority of sales and purchase transactions are handled without involving tax professionals.**

**With Digital Tax Intelligence, we help EY clients become trusted business partners by providing three essentials for efficient tax management.**

## Immediate transparency

With Digital Tax Intelligence you enjoy tax-tailored insights into business flows and system processes at your fingertips. Live monitoring dashboards provide management views and 360° panoramas of taxrelevant facts for sales and purchasing transactions. This helps in enabling the targeted reconciliation with the business and preventive risk management.

## Intelligent decision-making

The automation of tax decisions is at the heart of efficient tax management. Digital Tax Intelligence lets you manage transactional tax decisions by using a flexible rule engine tailored for tax professionals. LogTech and monitoring features allow you to visualize business flows, data quality and tax decisions along with the legal structure of tax laws.

## Data quality governance

Clear responsibility for tax master data is key to tax compliance. Digital Tax Intelligence is either used as a one-stop shop for customer, supplier and material master data maintenance or as a control instrument for validating master data. In either case, you create a governance process that relieves you from lengthy case-by-case reconciliations.

The better the question.  
The better the answer.  
The better the world works.

Digital Tax Intelligence for SAP is a ready-to-go solution for the automation of transactional tax decisions and data quality assurance.

90%

**Increased automation by data quality**

Based on average of manual intervention in tax determination for five out of ten transactions (output 2/10, input 8/10)

20x

**Deeper insight in transactions**

Based on average of ten tax determination parameters used for tax relevant condition type

50%

**Reduced compliance costs**

Based on average increase in efficiency of the reporting process due to lower reconciliation and correction efforts

“

EY clients appreciate when things work as they're supposed to. Digital Tax Intelligence lets them experience smooth processes daily.
