The Information System will also publish official texts of international standards in Azerbaijani. The Information System will also host software that aids in accounting practices and offers educational resources.

The overarching goal of establishing this Information System is to optimize state governance. It aims to enhance the analysis of accounting practices, facilitate the preparation of forecasts and reports, and ultimately improve the quality of services provided.

Furthermore, this Decision encompasses various provisions, including guidelines on the data entered into and transmitted by the Information System, rules for its usage, and the rights and responsibilities of participants and users.

The Decision entered into force on September 12, 2025.

## Abolishment of State Regulation on Prices for Temporary Storage Services in Azerbaijan's Customs Facilities

According to the Amendments, services related to the storage of goods temporarily kept in temporary storage facilities and customs warehouses (except for warehouses under the control of customs authorities) that are imported into or exported from the customs territory of the Republic of Azerbaijan have been removed from the list of services with prices (tariffs) regulated by the state.

The Amendments came into force on September 19, 2025.

## Decision on the "Highly Qualified Migrant" Portal and Integrated Information Systems

*On October 30, 2025, Decision "On the approval of the Regulation on the "Highly Qualified Migrant" portal and the list of information systems to be integrated into the "Highly Qualified Migrant" portal" (the "Decision") was adopted by the Cabinet of Ministers of the Republic of Azerbaijan.*

Pursuant to the Decision, the "Highly Qualified Migrant" portal (hereinafter referred to as the "Portal") facilitates the electronic submission of applications by highly qualified migrants, aiming to expand opportunities for their engagement in paid employment within the Republic of Azerbaijan. Additionally, it ensures that these applications are reviewed and responded to through the "Highly Qualified Migrants" subsystem established within the unified migration information system of the State Migration Service of the Republic of Azerbaijan.

The Portal enables networking of legal entities and individuals registered as taxpayers in the Republic of Azerbaijan, as well as the representative offices or branches of foreign legal entities with highly qualified migrants based on their requests.

Furthermore, Automated Tax Information System of the State Tax Service will be integrated with the Portal.

The functions of the Portal and its usage, specifically the acceptance, registration, and review of applications, as well as the rights and responsibilities of participants and users, along with other related matters, are also specified in this Decision.
