EY supports clients in a spectrum of analyses identifying opportunities to unlock value, mitigate risks and improve project delivery.
WORKPLACE AND ACCOMMODATION STRATEGIES	EY helps clients to develop short and long term accommodation plans that align with their business goals and objectives. Determining the optimal footprint by including workplace considerations around metrics, hybrid workspace, utilization, flexibility and occupancy costs will allow the client to get the greatest return on their investment.

This service offering brings together project management and organizational transformation with a laser focus on real asset and capital development sector specifics.

From blended finance solutions, to structuring social and affordable housing transactions, to helping you understand the framework and landscape of debt financing options available to you for different projects (i.e. green and sustainable bond offerings), our EY team is well versed in this emerging area that we believe will become increasingly significant to our clients over the coming years.
