1. The tax rates reflect budget proposals and news releases to January 15, 2025. Where the tax is determined under the alternative minimum tax provisions (AMT), the above table is not applicable. AMT may be applicable where the tax otherwise payable is less than the tax determined by applying the relevant AMT rate to the individual's taxable income adjusted for certain preference items.
2. The tax determined by the table should be reduced by the applicable federal and provincial tax credits (see chart below), other than the basic personal tax credits, which have been reflected in the calculations (see Notes 5 and 6 below).
3. The rates apply to the actual amount of taxable dividends received from taxable Canadian corporations. Eligible dividends are those paid by public corporations and private companies out of earnings that have been taxed at the general corporate tax rate (the dividend must be designated by the payor corporation as an eligible dividend). Where the dividend tax credit exceeds the federal and provincial tax otherwise payable on the dividends, the rates do not reflect the value of the excess credit that may be used to offset taxes payable from other sources of income. This assumption is consistent with prior year rates.
4. The rates apply to the actual amount of the capital gain. The 2024 federal budget proposes to increase the capital gains inclusion rate for individuals from one-half to two-thirds on the portion of capital gains realized in the year exceeding \$250,000, for capital gains realized on or after June 25, 2024. For purposes of this table, it is assumed that the net capital gains realized in the year do not exceed \$250,000 and the one-half inclusion rate applies. A capital gains exemption may be available to reduce or eliminate the tax on capital gains from certain qualifying property and qualifying business transfers.
5. The federal basic personal amount comprises two elements: the base amount (\$14,538 for 2025) and an additional amount (\$1,591 for 2025). The additional amount is reduced for individuals with net income in excess of \$177,882 and is fully eliminated for individuals with net income in excess of \$253,414. Consequently, the additional amount is clawed back on net income in excess of \$177,882 until the additional tax credit of \$239 is eliminated; this results in additional federal income tax (e.g., 0.32% on ordinary income) on net income between \$177,883 and \$253,414.
6. The full Manitoba basic personal amount is available for individuals with net income below \$200,000. The basic personal amount is gradually reduced for individuals with net income in excess of \$200,000 and is fully eliminated for individuals with net income of \$400,000 or more. Consequently, the amount is clawed back on net income in excess of \$200,000 until the tax credit of \$1,725 is eliminated; this results in additional provincial income tax (e.g., 0.86% on ordinary income) on net income between \$200,001 and \$400,000.

1. This table lists the most common non-refundable tax credits; other non-refundable and refundable credits may be available.
2. The federal tax value of the basic personal credit, the spousal credit and the equivalent-to-spouse credit represents the amount available to taxpayers in the highest tax bracket. An additional amount may be available for individuals with net income below \$253,414 (see Note 5 to the chart above). The provincial tax value of the basic personal credit represents the amount available for individuals with net income below \$200,000. This credit gradually declines to nil as net income rises from \$200,000 to \$400,000 (see Note 6 to the chart above).
3. A federal caregiver tax credit of \$403 may be available in respect of a spouse, dependant or child who is dependent on the individual by reason of mental or physical infirmity.
4. The maximum federal age credit of \$1,354 occurs at \$45,522 of net income and declines to nil as net income rises to \$105,709. The maximum provincial age credit of \$403 occurs at \$27,749 of net income and declines to nil as net income rises to \$52,602.
5. A federal supplement of \$887 is available for an individual who is under 18 years of age, reduced by the total child care and attendant care expenses claimed for the individual in excess of \$3,464. A provincial supplement of \$389 is available for an individual who is under 18 years of age, reduced for the total child care and attendant care expenses claimed for the individual in excess of \$2,112.
6. The child fitness credit may be available for an individual up to 24 years of age. Additional amounts may be available for a child with a disability.
7. The federal credit applies to medical expenses that exceed the lesser of \$2,834 and 3% of net income. The provincial credit applies to medical expenses that exceed the lesser of \$1,728 and 3% of net income.
8. The federal tax credit rate of 33% applies to charitable donations in excess of \$200 to the extent the individual has taxable income in excess of \$253,414; otherwise, a federal tax credit rate of 29% applies.
9. One-half of CPP paid by self-employed individuals is deductible in computing taxable income.
