

Shape the future  
with confidence

## How can AI-driven insights enhance human judgment in critical transformation decisions?

EY Assess – From maturity assessment to decisive action, powered by AI and EY intelligence

The better the prompt. The better the answer. The better the world works.

### Challenge

In today's fast-evolving environment, organizations need a clear understanding of their current state to align stakeholders and support informed transformation decisions, yet fragmented assessments and manual processes often limit visibility and slow progress. As organizations seek to move from insight to action more quickly, consistent, data-driven and repeatable maturity assessments are becoming a leading practice.

### Product description

EY Assess is a comprehensive, AI-powered maturity assessment platform that enables organizations to rapidly assess their current state, benchmark against industry standards, identify gaps, and develop actionable strategies and roadmaps to support informed decision-making and transformation.

EY Assess is designed to manage the complete assessment lifecycle with autonomy and efficiency. It addresses common challenges such as inconsistent assessment approaches, lack of comparability across entities, and limited confidence in supporting evidence.

The platform enables organizations to:

- Establish a consistent approach to maturity assessments.
- Gain transparency across functions, geographies, and subsidiaries.
- Generate timely insights to support decision-making.
- Help accelerate transformation initiatives through informed prioritization.

### Case studies

## Key product features

### ■ Customizable questionnaires

Create fully configurable maturity assessments or surveys tailored to objectives, domains, and standards.

### ■ AI-based evidence management

Attach documentation directly to questions and leverage embedded AI to identify, prioritize, and analyze supporting evidence.

### ■ Benchmarking tools

Compare results across peers, competitors, industries, or standards using multiple attributes and EY proprietary data.

### ■ AI-powered insights

Use AI to generate real-time actionable insights to support data-driven decisions.

## Product benefits

### ■ Enhanced questionnaires

Easily customize maturity assessments and surveys to fit evolving business needs.

### ■ High consistency at global scale

Enable standardized assessments and seamless collaboration across regions and organizations.

### ■ Real-time visibility

Keep your finger on the pulse with live data and reporting-any update is reflected instantly.

### ■ Increased productivity

Reuse assessment templates, respond to multiple methodologies in a single questionnaire, and bulk import content to reduce effort and accelerate delivery.
