

Organizations often struggle to secure business case funding for change initiatives due to challenges in creating a compelling value narrative and establishing trust in projected figures. Identifying and quantifying value drivers often compounds these challenges. Questions arise, such as how to quantify innovation or long-term value, or the value of a diverse set of suppliers.

EY DRIVE

EY DRIVE supports business stakeholders to dynamically create a clear value story, align on project scenarios and drive go-decisions for transformation initiatives. This 'story-telling engine' assists clients and project teams in making critical investment decisions by identifying, capturing, and articulating a broad range of value in both quantitative and qualitative terms.

Return on investment visualization engine

EY DRIVE, with its leading-edge digital framework, transforms the approach to investment decisions.

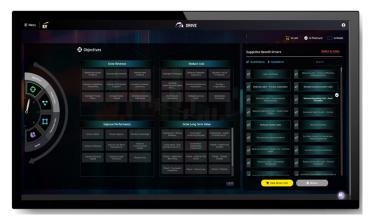

EY DRIVE supports businesses to structure their business models, customize categories, map benefits and costs, and refine value drivers. It offers a vast library of over 500 drivers, accommodating both quantitative and qualitative sources of value.

With real-time scenario analysis, seamless collaboration, and support for multiple users, EY DRIVE helps organizations make informed investment decisions. It's a detailed digital tool for conveying value-driven narratives and simplifying complex investment landscapes.
