EY GloBE Engine: your Pillar Two command center

Collect data your way

- Identify your data points using the EY Data Dictionary.
- Use pre-built templates for bulk upload or upload your own data sources.

Run the numbers with confidence

- Review the EY Rules Database to understand the rules driving the calculations.
- Run multiple projects at the same time - compliance, provision, modeling, scenario planning, country-by-country reporting (CBCR), Public CBCR.

Comply with all Pillar Two filing requirements

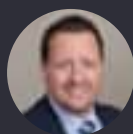

- Review dashboards and reports to understand the story behind the numbers.
- Generate an Extensible Markup Language (XML) file to file your GloBE Information Return (GIR) and access local country pro forma reports to review all the data you need to submit local country returns.

Report with confidence

EY GloBE Engine centralizes global data, automates Pillar Two calculations and provides clear, actionable insights to help you manage Pillar Two compliance with clarity, flexibility and confidence.
