Online versions

In addition to this format, the checklist is also available as an EY Intelligent Checklist. The scoping questions in the EY Intelligent Checklist allow the checklist to be made specific to an entity's annual financial statements. It is essential that the scoping questions are carefully assessed to avoid inappropriate scoping of the checklist.

IFRS as issued by the IASB – a complete set of financial statements

This checklist is designed to assist you in the preparation of financial statements in accordance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB), and in compliance with the disclosure requirements of IFRS. Entities applying IFRS under a local endorsement mechanism must consider the relevant local effective dates.

The checklist is applicable to annual financial statements and a complete set of financial statements for an entity's interim financial report.

The checklist does not explain other accounting requirements, nor does it reflect the requirements of IFRS 19 *Subsidiaries without Public Accountability: Disclosures*, IFRS for Small and Medium-Sized Entities (SMEs) or the IFRS Practice Statement for Management Commentary. In some instances, to simplify the use of the checklist, disclosure requirements have been paraphrased, so you may need to refer to the standards for full details.

Applicable to a complete set of financial statements for annual and interim periods for entities with 31 December 2025 year ends

The checklist is prepared specifically for entities with a year end of 31 December 2025. Thus, for later year ends, it may not be applicable, depending on the relevant year end and whether standards and amendments that were not effective for 31 December 2025 year end have become effective for the later year end.

The checklist is updated semi-annually, reflecting standards issued by the IASB since the previous version. Prior to completing this checklist, refer to the IASB's website to ensure no other standards have been issued between the cut-off date of this checklist (31 August 2025) and the date when the financial statements are authorised for issue.

IFRS 18 Presentation and Disclosure in Financial Statements

IFRS 18 was published in April 2024; it replaces IAS 1 and applies for annual periods beginning on or after 1 January 2027. IFRS 18 introduces significant new requirements regarding the presentation of financial statements and makes consequential amendments to many existing accounting standards.

This disclosure checklist includes both the requirements that apply to entities that still apply IAS 1 and well as the requirements that apply to entities that early adopt IFRS 18. Questions in the checklist that are based on requirements that remain unchanged include reference to the existing IAS 1 paragraphs and the new IFRS 18 paragraphs. To the extent that IFRS 18 introduces limited additional requirements, the disclosure checklist indicates in the question itself that these requirements only apply to early adopter of IFRS 18. Finally, significant new requirements or significant revisions to existing wording of standards has been included at the end of the checklist in the section on *New Pronouncements*.

IFRS Accounting Standards

IFRS 18 and the IFRS Foundation Trade Mark Guidelines refer to the set of accounting standards issued by the IASB as 'IFRS accounting standards', which replaces the previously preferred term 'IFRSs'. This disclosure checklist, therefore, refers to IFRS accounting standards, as it is synonymous with the term 'IFRSs' that appears in versions of the standards that do not reflect the IFRS 18 consequential amendments.

Materiality and judgement

The checklist does not address the appropriateness or clarity of the disclosures, for instance, the format and the structure of the notes and the tailoring of the information. These are matters of judgement based on the individual facts and circumstances of the entity.

IFRS sets out the minimum disclosure requirements. However, the minimum disclosure requirements only apply to the extent that the transaction, event or item to which the disclosure requirement applies, is material to the entity, as clarified in paragraph 31 of IAS 1 *Presentation of Financial Statements*. Therefore, in applying the checklist, the user should carefully assess the materiality of the information. The inclusion of disclosures of immaterial information may, in some circumstances, reduce the relevance of the financial statements. In such circumstances, it is appropriate to exclude the information.

In addition, entities are encouraged to refer to the *Practice Statement 2: Making Materiality Judgements* that was issued in 2017, which provides non-mandatory guidance to help entities making materiality judgements when preparing general purpose IFRS financial statements. It also contains guidance on the general characteristics of materiality, a four-step process that may be applied in making materiality judgements and guidance on how to make materiality judgements in specific circumstances, namely, prior period information, errors and covenants and in the context of interim reporting (including illustrative examples).

The IASB also issued *Amendments to IAS 1 and IAS 8 - Definition of Material* in 2018 in order to clarify and align the definition of material.

Additionally, the IASB issued *Amendments to IAS 1 and IFRS Practice Statement 2 - Disclosure of Accounting Policies* in 2021, in which it provides guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments to IAS 1 must be applied for annual periods beginning on or after 1 January 2023. IFRS 18 will replace IAS 1, but does not change the materiality guidance above.

For more guidance on how to improve disclosure effectiveness, please refer to our publications, *Applying IFRS: Enhancing communication effectiveness (February 2017)*, [Applying IFRS: Disclosure of accounting policy information](#) and [IFRS Developments Issue 187: The Disclosure Initiative - IASB amends the accounting policy requirements](#)¹

In addition to the mandatory disclosure requirements, the checklist includes (*in italics*) the IASB's recommended disclosures.

Other sources of guidance

Comment boxes that summarise and/or refer to relevant IFRS guidance regarding the scope and interpretation of certain disclosure requirements are also included. However, the checklist alone is not sufficient to provide the user with a thorough understanding of the applicable IFRS. Therefore, the checklist should be read together with the standards and interpretations themselves, as well as other relevant guidance, such as [International GAAP® 2025 - The global perspective on IFRS, Good Group \(International\) Limited - December 2025](#) and [Good Group illustrative financial statements \(December 2025\) | EY - Global](#). Comparative amounts in the financial statement disclosures are always required, unless explicitly exempted by the applicable IFRS.

Identification of requirements that are applicable for the first time

To assist users of the checklist in identifying disclosure requirements that are new in the reporting period ending 31 December 2025, such requirements are marked 'New'. New requirements include requirements that are mandatory for the first time in the current reporting period. Consequential amendments are included in the relevant sections.

A list of the new pronouncements that may introduce new requirements for entities with 31 December 2025 year-end reporting is provided below. This checklist reflects IFRS in issue at 31 August 2025 that are effective for entities with year-ends of 31 December 2025.

Title	Status	Issue date of original standard	Effective date (annual periods beginning on or after)
Effective for annual periods (and interim periods therein) ending 31 December 2025 and thereafter			
<i>Amendments to IFRS 10 and IAS 28 - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture</i>	May adopt early	September 2014	See note 1 below

<i>Amendments to IFRS 9 and IFRS 7 - Amendments to the Classification and Measurement of Financial Instruments</i>	May adopt early	May 2024	1 January 2026 See note 2 below
<i>Amendments to IFRS 1, IFRS 7, IFRS 9, IFRS 10 and IAS 7 - Annual improvements to IFRS Accounting Standards Volume 11</i>	May adopt early	July 2024	1 January 2026 See note 3 below
<i>Amendments to IFRS 9 and IFRS 7 - Contracts Referencing Nature-dependent Electricity</i>	May adopt early See note 4 below	December 2024	1 January 2026 See note 4 below
<i>IFRS 18 Presentation and Disclosure in Financial Statements</i>	May adopt early	April 2024	1 January 2027
<i>IFRS 19 Subsidiaries without Public Accountability: Disclosures (not reflected in this checklist)</i>	May adopt early	May 2024	1 January 2027 See note 5 below

- 1) In December 2015, the IASB postponed the effective date of *Amendments to IFRS 10 and IAS 28 - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture* indefinitely pending the outcome of its standard-setting project on the equity method of accounting.
- 2) The amendments to IFRS 7 and IFRS 9 - *Amendments to the Classification and Measurement of Financial Instruments* must be applied at the same time. If an entity applies the amendments to IFRS 9 regarding classification of financial assets (Section 4.1) early, it must also apply paragraphs 20B, 20C and 20D of the amendments to IFRS 7.
- 3) The amendments to each IFRS accounting standard in the Annual Improvements to IFRS Accounting Standards are permitted to be adopted early, but an entity can individually elect which amendments to IFRS accounting standards it applies early.
- 4) The amendments to IFRS 7 and IFRS 9 - *Contracts Referencing Nature-dependent Electricity* must be applied at the same time. The date of initial application of these amendments to must be the beginning of a reporting period, which might be a reporting period other than an annual reporting period, starting after the issue of the amendments.
- 5) This checklist does not reflect the requirements of IFRS 19 *Subsidiaries without Public Accountability: Disclosures*.

Ticking the right boxes

Each item should be answered with a tick in the appropriate column:

Yes = Disclosure has been made. Reference can be made in the 'Comments' column to the section (or page) of the financial statements in which the related disclosure has been made.

No = Disclosure has not been made. Any item marked 'No' should be explained, giving the reason for the omission on the checklist or on a separate working paper, including disclosures that are omitted because they are deemed by management to be immaterial, and also including the amounts or percentages involved, to assist in the assessment of compliance with IFRS. If the engagement team concurs that the disclosure is immaterial and does not affect the fair presentation of the financial statements, the omission of such disclosure does not represent a misstatement that requires disclosure in the SAD.

N/A = The question is not applicable to the entity, for instance, because the transaction, event, or item referred to in the question does not apply to the entity.

Compliance with International Financial Reporting Standards						
5	IAS 1.15 IAS 1.17 IAS 1.112	Does the entity provide additional disclosures if the requirements in IFRSs are insufficient to enable users to understand the impact of particular transactions, other events, and conditions on the entity's financial position and financial performance				
	IFRS 5.5B	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>		
		For instance, additional disclosures about non-current assets (or disposal groups) classified as held for sale or discontinued operations (beyond those required specifically by IFRS 5 <i>Non-current Assets Held for Sale and Discontinued Operations</i> or other IFRSs) may be necessary to comply with this requirement.				
6	IAS 1.16	Does the entity disclose an explicit and unreserved statement of compliance with IFRSs				
	IAS 1.16	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>		
		The entity does not describe financial statements as complying with IFRSs unless they comply with all the requirements of IFRSs. In some jurisdictions, additional disclosure requirements apply, which, as long as they do not conflict with IFRSs, would not disqualify a statement of compliance with IFRSs. Similarly, in certain jurisdictions, the applicable standards may be the same as under IFRSs, but may be the subject of a regulatory approval or endorsement mechanism before they become effective. Entities in these jurisdictions may only refer to compliance with IFRSs as issued by the IASB if the applicable version of IFRSs endorsed and complied with is consistent with IFRS. This is for instance the case in the EU, where entities comply with "IFRSs as endorsed by the EU" and not "IFRSs (as issued by the IASB)".				
7	IAS 1.19 IAS 1.20	In the extremely rare circumstances in which management concludes that compliance with a requirement in an IFRS would be so misleading that it would conflict with the objective of financial statements set out in the <i>Conceptual Framework</i> , and departs from that requirement (if the relevant regulatory framework requires or otherwise does not prohibit such a departure), does the entity disclose:				
		a. That management concluded that the financial statements present fairly the entity's financial position, financial performance and cash flows	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		b. That it complies with applicable IFRS accounting standards, except that it departs from a requirement of an IFRS accounting standard to achieve a fair presentation	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		c. The title of the IFRS accounting standard from which the entity departs	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		d. The nature of the departure	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		e. The treatment that the IFRS accounting standard would require	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		f. The reason why that treatment would be so misleading in the circumstances that it would conflict with the objective of financial statements set out in the <i>Conceptual Framework</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		g. The treatment adopted	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		h. For each period presented, the financial impact of the departure on each item in the financial statements that would have been reported in complying with the requirement	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
8	IAS 1.21 IAS 1.20	If the entity departed from a requirement of an IFRS in a prior period, and the departure affects the amounts recognised in the financial statements for the current reporting period, does the entity disclose:				
		a. The title of the IFRS accounting standard from which the entity has departed	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

		Disclosure made			Comments	
		Yes	No	N/A		
		b. The nature of the departure	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		c. The treatment that the IFRS accounting standard would require	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		d. The reason why that treatment would be so misleading in the circumstances that it would conflict with the objective of financial statements set out in the <i>Conceptual Framework</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		e. The treatment adopted	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		f. For each period presented, the financial impact of the departure on each item in the financial statements that would have been reported in complying with the requirement	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
9	IAS 1.23	In the extremely rare circumstances in which management concludes that compliance with a requirement in an IFRS accounting standard would be so misleading that it would conflict with the objective of financial statements set out in the <i>Conceptual Framework</i> , but the relevant regulatory framework prohibits departure from the requirement, does the entity, to the maximum extent possible, reduce the perceived misleading aspects of compliance by disclosing all of the following:				
		a. The title of the IFRS accounting standard in question	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		b. The nature of the requirement	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		c. The reason why management concluded that complying with that requirement is so misleading in the circumstances that it conflicts with the objective of financial statements set out in the <i>Conceptual Framework</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		d. For each period presented, the adjustments to each item in the financial statements that management concluded would be necessary to achieve a fair presentation	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		Going concern				
	IAS 1.25 IAS 10.14	The entity does not prepare its financial statements on a going concern basis if management determines after the reporting period (or earlier) either that it intends to liquidate the entity or to cease trading, or that it has no realistic alternative but to do so.				
10	IAS 1.25	Does the entity disclose material uncertainties related to events or conditions that may cast significant doubt upon the entity's ability to continue as a going concern	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
11	IAS 1.25	If the financial statements are not prepared on a going concern basis, does the entity disclose:				
		a. The fact that the financial statements are not prepared on a going concern basis	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		b. The basis on which the financial statements are prepared	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		c. The reason why the entity is not regarded as a going concern	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		Frequency of reporting				
12	IAS 1.36	If the end of the entity's reporting period changes and the annual financial statements are presented for a period longer or shorter than one year, does the entity disclose:				
		a. The reporting period covered by the financial statements	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		b. The reason for using longer or shorter periods	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		c. The fact that amounts presented in the financial statements are not entirely comparable	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		Comparative information				
13	IAS 1.38	Does the entity present comparative information for the previous period for all amounts reported in the current period's financial statements, unless an IFRS accounting standard permits or requires otherwise	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

			Disclosure made			Comments
			Yes	No	N/A	
14	IAS 1.38	Does the entity include comparative information for narrative and descriptive information, if it is relevant to an understanding of the current reporting period's financial statements	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
15	IAS 1.41	If the presentation or classification of items in the financial statements is amended and comparative amounts are reclassified (unless the reclassification cannot be applied after making every reasonable effort to do so), does the entity disclose:				
		a. The nature of the reclassification	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		b. The amount of each item or class of items that is reclassified	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		c. The reason for the reclassification	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
16	IAS 1.42	If the entity cannot reclassify comparative amounts after making every reasonable effort to do so, does the entity disclose:				
		a. The reason for not reclassifying the amounts	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		b. The nature of the adjustments that would have been made if the amounts were reclassified	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
17	IAS 1.38A	Does the entity present, as a minimum, two statements of financial position, two statements of profit or loss and other comprehensive income, two separate statements of profit or loss (if presented), two statements of cash flows and two statements of changes in equity, and related notes	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	IAS 1.38B	In some cases, narrative information provided in the financial statements for the preceding period(s) continues to be relevant in the current period.				
18	IAS 1.38C	When an entity voluntarily presents comparative information in addition to the minimum comparative financial statements required by IFRSs, does the entity present related note information for those additional statements	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	IAS 1.38C	An entity may present comparative information in addition to the minimum comparative financial statements required by IFRS accounting standards, as long as that information is prepared in accordance with IFRS accounting standards. This comparative information may consist of one or more statements referred to in IAS 1.10, but need not comprise a complete set of financial statements.				
	IAS 1.38D	For example, an entity may present a third statement of profit or loss and other comprehensive income (thereby presenting the current period, the preceding period and one additional comparative period). However, the entity is not required to present a third statement of financial position, a third statement of cash flows or a third statement of changes in equity (i.e., an additional financial statement comparative). The entity is required to present, in the notes to the financial statements, the comparative information related to that additional statement of profit or loss and other comprehensive income.				
19	IAS 1.40B	In the circumstances described in IAS 1.40A, does the entity present three statements of financial position as at:				
		a. The end of the current period	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		b. The end of the preceding period	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		c. The beginning of the preceding period	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	IAS 1.40A	An entity must present a third statement of financial position as at the beginning of the preceding period in addition to the minimum comparative financial statements required in IAS 1.38A if:				
		a. It applies an accounting policy retrospectively, makes a retrospective restatement of items in its financial statements or reclassifies items in its financial statements				

		Disclosure made			Comments
		Yes	No	N/A	
		b. The retrospective application, retrospective restatement or the reclassification has a material effect on the information in the statement of financial position at the beginning of the preceding period			
20	IAS 1.40C	When an entity is required to present an additional statement of financial position in accordance with IAS 1.40A, does the entity disclose the information required by IAS 1.41-44 and IAS 8			
	IAS 1.40C	However, it need not present the related notes to the opening statement of financial position as at the beginning of the preceding period.			
21	IAS 1.40D	When an entity presents an opening statement of financial position in accordance with IAS 1.40A, is the date of this statement the beginning of the preceding period even if additional comparative information is presented in terms of IAS 1.38C			
Consistency of presentation					
22	IAS 1.45	Does the entity retain in the financial statements from one period to the next:			
		a. The presentation of items			
		b. The classification of items			
	IAS 1.45	The entity presents and classifies items on the same basis in the financial statements from one reporting period to the next unless it is apparent, following a significant change in the nature of the entity's operations or a review of its financial statement, that another presentation or classification is more appropriate, or unless a change in presentation is required by an IFRS accounting standard.			
Date of authorisation for issue					
23	IAS 10.17	Does the entity disclose:			
		a. The date when the financial statements were authorised for issue			
		b. Who authorised the financial statements

Reconciliations					
IFRS 1.27	<p>IAS 8 <i>Accounting Policies, Changes in Accounting Estimates and Errors</i> (IAS 8 <i>Basis of Preparation of Financial Statements, if the entity adopts IFRS 18 early</i>) does not deal with changes in accounting policies that occur when an entity first adopts IFRS or to changes in those policies until after it presents its first IFRS financial statements. Therefore, IAS 8's requirements for changes in accounting policies do not apply in the entity's first IFRS financial statements.</p> <p>If, during the period covered by its first IFRS financial statements, an entity changes its accounting policies or its use of the exemptions contained in this IFRS accounting standard, it must explain the changes between its first IFRS interim financial report and its first IFRS financial statements, in accordance with IFRS 1.23, and it shall update the reconciliations required by paragraph 24(a) and (b).</p> <p>The requirements for entities that present interim financial reports under IAS 34 <i>Interim Financial Reporting</i> for part of the period covered by its first IFRS financial statements are included in the section on Interim Reporting, which contains all disclosure requirements related to interim reporting. That section does not need to be completed for annual financial statements.</p>

47	IAS 1.32	Unless required or permitted by another IFRS accounting standard, does the entity present separately, and not offset, assets and liabilities		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		Guidance on offsetting current and deferred tax assets and liabilities is in IAS 12.71 and IAS 12.74, respectively. Guidance on offsetting a financial asset and a financial liability is in IAS 32.42 and IFRS 9.3.2.22. Guidance on offsetting an asset against a liability of different defined benefit plans is in IAS 19.131.					
		Current/non-current distinction					
		Amendments to IAS 1 - Classification of Liabilities as Current or Non-current, issued in January 2020, and Amendments to IAS 1 - Non-current Liabilities with Covenants, issued in October 2022, are mandatory in annual IFRS financial statements for a period on or after 1 January 2024.					
	IAS 1.75A	Classification of a liability is unaffected by the likelihood that the entity will exercise its right to defer settlement of the liability for at least twelve months after the reporting period. If a liability meets the criteria in paragraph 69 for classification as non-current, it is classified as non-current even if management intends or expects the entity to settle the liability within twelve months after the reporting period, or even if the entity settles the liability between the end of the reporting period and the date the financial statements are authorised for issue. However, in either of those circumstances, the entity may need to disclose information about the timing of settlement to enable users of its financial statements to understand the impact of the liability on the entity's financial position.					
	IAS 1.72B	An entity's right to defer settlement of a liability arising from a loan arrangement for at least twelve months after the reporting period may be subject to the entity complying with conditions specified in that loan arrangement ('covenants'). For the purposes of applying IAS 1.69(d), such covenants: a. Affect whether that right exists at the end of the reporting period if an entity is required to comply with the covenant on or before the end of the reporting period. Such a covenant affects whether the right exists at the end of the reporting period, even if compliance with the covenant is assessed only after the reporting period b. Do not affect whether that right exists at the end of the reporting period if an entity is required to comply with the covenant only after the reporting period					
48	IAS 1.76ZA	If the entity classifies liabilities arising from loan arrangements as non-current when the entity's right to defer settlement of those liabilities is subject to the entity complying with covenants within twelve months after the reporting period, does the entity disclose information in the notes that enables users of financial statements to understand the risk that the liabilities could become repayable within twelve months after the reporting period, including:

Fair value measurement						
		<div>IFRS 13 specifies how to measure fair value, when fair value (and measures based on fair value, such as fair value less costs to sell) is required or permitted by another IFRS accounting standard. Such fair value measurements may be recognised in the statement of financial position or disclosed in the notes to the financial statements (for example, the comparison of carrying value and fair value required by IFRS 7).</div>				
	IFRS 13.5 IFRS 13.6	<div>IFRS 13 applies when another IFRS accounting standard requires or permits measurement(s) or disclosure(s) of fair value, except for:</div> <div>a. Share-based payment transactions within the scope of IFRS 2 <i>Share-based Payment</i></div> <div>b. Leasing transactions accounted for in accordance with IFRS 16 <i>Leases</i></div> <div>c. Measurements that have some similarities to fair value, but are not fair value, such as net realisable value in IAS 2 or value in use in IAS 36</div>				
	IFRS 13.7	<div>IFRS 13 also requires disclosures about fair value measurements. If fair value is measured in accordance with IFRS 13 after initial recognition (whether recognised or only disclosed), the disclosure requirements in IFRS 13 will apply, unless IFRS 13 provides a specific exemption. The disclosures required by IFRS 13 are not required for the following:</div> <div>a. Plan assets measured at fair value in accordance with IAS 19</div> <div>b. Retirement benefit plan investments measured at fair value in accordance with IAS 26 <i>Accounting and Reporting by Retirement Benefit Plans</i></div> <div>c. For assets and liabilities that are measured at fair value on a recurring or non-recurring basis in the statement of financial position after initial recognition, the valuation techniques and inputs used to develop those measurements	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	b. For recurring fair value measurements using significant unobservable inputs (Level 3), the effect of the measurements on profit or loss or other comprehensive income for the period	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
IFRS 13.92	<p>To meet the objectives of IFRS 13.91, an entity is required to consider all of the following:</p> <ul style="list-style-type: none"> ▪ The level of detail necessary to satisfy the disclosure requirements ▪ How much emphasis to place on each of the various requirements ▪ How much aggregation or disaggregation to undertake ▪ Whether users of financial statements need additional information to evaluate the quantitative information disclosed

Accounting policies						
280	IFRS 13.95 IFRS 13.93(c)	Does the entity disclose its policy for determining when transfers between levels of the fair value hierarchy are deemed to have occurred		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	IFRS 13.93(e) (iv)	IFRS 13.95 requires that an entity determine (and consistently follow) its policy for determining when transfers between levels in the fair value hierarchy are deemed to have occurred. The policy for the timing of recognising transfers is required to be the same for transfers into and out of levels. Examples of such policies include: (a) The date of the event, or change in circumstances, that caused the transfer (b) The beginning of the reporting period (c) The end of the reporting period				
281	IFRS 13.96 IFRS 13.48 IFRS 13.51	If an entity makes an accounting policy decision to use the exception in IFRS 13.48, does the entity disclose that policy, including its policy for allocating bid-ask spread adjustments and credit adjustments		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	IFRS 13.48-52	If an entity that holds a group of financial assets and financial liabilities is exposed to market risks (as defined in IFRS 7) and to the credit risk (as defined in IFRS 7) of each of the counterparties and manages that group of assets and liabilities on the basis of its net exposure, IFRS 13.48 permits the use of a measurement exception for measuring fair value, provided the criteria set out in IFRS 13.49 are met. Under this exception, an entity measures the fair value of the group of financial assets and liabilities consistently with how market participants would price the net risk exposure at the measurement date. Please note that the exception does not affect financial statement presentation requirements. In addition, the reference to financial assets and financial liabilities in IFRS13.48 to 51 should be read as applying to all contracts within the scope of, and accounted for, under IFRS 9, regardless of whether they meet the definitions of financial assets or financial liabilities in IAS 32.				
Class of assets and liabilities						
282	IFRS 13.94	Does the entity classify assets and liabilities under the scope of IFRS 13 based on both:				
		a. The nature, characteristics and risks of the asset or liability		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
		b. The level of the fair value hierarchy within which the fair value measurement is categorised		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	IFRS 13.94	The number of classes of assets and liabilities may need to be greater for fair value measurements categorised within Level 3 because those measurements have a greater degree of uncertainty and subjectivity. Determining the appropriate classes of assets and liabilities requires judgement and often may require more disaggregation than the line items presented in the statement of financial position. Note: If another IFRS specifies the class for an asset or liability, an entity may use that class when providing the disclosures required by IFRS 13, provided that class meets IFRS 13's requirements for determining classes.				
283	IFRS 13.94	Does the entity provide sufficient information to permit reconciliation between the classes of assets and liabilities and the line items presented in the statement of financial position		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

disclose the existence of that credit enhancement and whether it is reflected in the fair value measurement of the liability					
Assets and liabilities not measured at fair value, but for which fair value is disclosed					
286	IFRS 13.97	For each class of assets and liabilities not measured at fair value in the statement of financial position, but for which fair value is disclosed, does the entity disclose:			
	IFRS 13.93(b)	a. The level of fair value hierarchy within which the fair value measurement(s) are categorised in their entirety	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	IFRS 13.93(d)	b. For fair value measurement(s) categorised within Levels 2 and 3 of the fair value hierarchy:			
		▪ A description of the valuation technique(s) and the inputs used in the measurement	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
		▪ If there has been a change in valuation technique, that change and the reason(s) for making it	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	IFRS 13.93(i)	c. If the highest and best use of a non-financial asset differs from its current use, that fact and why the non-financial asset is being used in a manner that differs from its highest and best use	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Recurring fair value measurements of assets and liabilities					
	IFRS 13.93(a)	Recurring fair value measurements of assets or liabilities are those that other IFRS accounting standards require or permit in the statement of financial position at the end of each reporting period. Non-recurring fair value measurements of assets or liabilities are those that other IFRS accounting standards require or permit in the statement of financial position in particular circumstances (e.g., when an entity measures an asset held for sale at fair value less costs to sell in accordance with IFRS 5 because the asset's fair value less costs to sell is lower than its carrying amount).			
287	IFRS 13.93	For each class of assets and liabilities that are measured at fair value on a recurring basis in the statement of financial position after initial recognition, does the entity disclose:			
		a. The fair value measurement at the end of the reporting period	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
		b. The level of the fair value hierarchy within which the fair value measurements are categorised in their entirety (Level 1, 2 or 3)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
		c. For assets and liabilities held at the end of the reporting period, the amount of any transfers between Level 1 and Level 2, separately disclosing transfers into each level from transfers out of each level, and the reasons for those transfers	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
		d. For fair value measurements categorised within Level 2 and Level 3 of the hierarchy:			
		▪ A description of the valuation technique(s) and the inputs used in the measurement	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
		▪ If there has been a change in valuation technique, that change and the reason(s) for making it	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
		▪ For fair value measurements categorised within Level 3 of the fair value hierarchy, quantitative information about the significant unobservable inputs used in the fair value measurement	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	IFRS 13.93(d)	An entity is not required to create quantitative information to comply with this disclosure requirement if significant unobservable inputs are not developed by the entity when measuring fair value (e.g., when an entity uses prices from prior transactions or third-party pricing information without adjustment). However, an entity cannot ignore quantitative unobservable inputs that are significant to the fair value measurement and are reasonably available to the entity.

	▪ Total gains and losses recognised during the period in other comprehensive income, and the line item(s) in other comprehensive income in which those gains or losses are recognised	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

	h. For fair value measurements categorised within Level 3 of the fair value hierarchy:				
IFRS 13.93(h)	▪ A narrative description of the sensitivity if a change in an unobservable input (including at a minimum those unobservable inputs disclosed in accordance with IFRS 13.93(d), see d. above) to a different amount might result in a significantly higher or lower fair value measurement	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	▪ If there are interrelationships between significant unobservable inputs and other unobservable inputs used in the fair value measurement, a narrative description of those interrelationships and of how they might magnify or mitigate the effect of changes in the unobservable inputs on the fair value measurement	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	▪ For financial assets and financial liabilities, if changing one or more of the unobservable inputs to reflect reasonably possible alternative assumptions would change fair value significantly, that fact, the effect of those changes and how the effect of a change was calculated	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	For the sensitivity analysis for financial assets and financial liabilities, significance is judged with respect to profit or loss, and total assets or total liabilities, or, when changes in fair value are recognised in other comprehensive income, total equity.

	The highest and best use of a non-financial asset is the use by market participants that would maximise the value of the asset or the group of assets and liabilities (e.g., a business) within which the asset would be used.

Financial Instruments

IFRS 9.7.2.16

Items in this section set out the disclosure requirements if the entity adopts IFRS 9 *Financial Instruments* (2014).

If an entity prepares interim financial reports in accordance with IAS 34, it need not apply the requirements in IFRS 9 to interim periods prior to the date of initial application if it is impracticable (as defined in IAS 8).

Financial instruments

292	IFRS 7.6	If disclosures are required by class of financial instrument, does the entity:				
		a. Group financial instruments into classes that are appropriate to the nature of the information disclosed and that take into account the characteristics of those financial instruments	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		b. Provide sufficient information to permit reconciliation to the relevant items in the statement of financial position	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

IFRS 7.B1 - B3

IFRS 7.6 requires the entity to group financial instruments into classes that are appropriate to the nature of the information disclosed and that take into account the characteristics of those financial instruments. These classes are determined by the entity and, as such, are distinct from the categories of financial instruments specified in IFRS 9.

In determining classes of financial instruments, an entity, at minimum:

- a. Distinguishes between instruments measured at amortised cost from those measured at fair value
- b. Treats as a separate class or classes those financial instruments outside the scope of this IFRS

The entity decides how much detail it provides to satisfy the requirements, how much emphasis it places on different aspects of the requirements, and how it aggregates information to display the overall picture without combining information with different characteristics, in the light of its circumstances. It is necessary to balance between excessive detail and obscuring important information as a result of too much aggregation. For example, an entity must not obscure important information by including it among a large amount of insignificant detail. Similarly, an entity must not aggregate information so that it obscures important differences between individual transactions or associated risks.

IFRS 7.42C	For the purpose of applying the disclosure requirements of IFRS 7.42E-42H, an entity has continuing involvement in a transferred financial asset if, as part of the transfer, the entity retains any of the contractual rights or obligations inherent in the transferred financial asset or obtains any new contractual rights or obligations relating to the transferred financial asset. The following do not constitute continuing involvement:				
	a.	Normal representations and warranties relating to fraudulent transfer and concepts of reasonableness, good faith and fair dealings that could invalidate a transfer as a result of legal action

	IFRS 7.B33	IFRS 7.42E-42H requires qualitative and quantitative disclosures for each type of continuing involvement in derecognised financial assets. An entity aggregates its continuing involvement into types that are representative of its exposure to risks. For example, by type of financial instrument (e.g., guarantees or call options) or by type of transfer (e.g., factoring of receivables, securitisations and secured lending).			
313	IFRS 7.44NN	If an entity applies the Amendments to IFRS 7 in <i>Annual Improvements to IFRS Accounting Standards - Volume 11</i> , issued July 2024, in its financial statements for a period beginning before 1 January 2026, does it disclose that fact			<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
314	IFRS 7.42E IFRS 9.3.2.6 (a) IFRS 9.3.2.6(c) (i)	To meet the objectives in IFRS 7.42B(b), when the entity derecognises transferred financial assets in their entirety, but has continuing involvement in them, does the entity disclose for each type of continuing involvement at the reporting date: a. The carrying amount of the assets and liabilities that are recognised in the entity's statement of financial position and represent the entity's continuing involvement in the derecognised financial assets, and the line items in which those assets and liabilities are recognised b. The fair value of the assets and liabilities that represent the entity's continuing involvement in the derecognised financial assets c. The amount that best represents the entity's maximum exposure to loss from its continuing involvement in the derecognised financial assets, and how the maximum exposure to loss is determined d. The undiscounted cash outflows that would or may be required to repurchase the derecognised financial assets or other amounts payable to the transferee for the transferred assets			<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
		Examples of cash outflows to repurchase the derecognised financial assets include the strike price in an option agreement or the repurchase price in a repurchase agreement. If the cash outflow is variable, then the amounts disclosed are based on the conditions that exist at each reporting date.			
	IFRS 7.B34	e. A maturity analysis of the undiscounted cash outflows that would or may be required to repurchase the derecognised financial assets or other amounts payable to the transferee in respect of the transferred assets, showing the remaining contractual maturities of the entity's continuing involvement			<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
	IFRS 7.B34	The maturity analysis should distinguish cash flows that are required to be paid (e.g., forward contracts), cash flows that the entity may be required to pay (e.g., written put options) and cash flows that the entity might choose to pay (e.g., purchased call options).			
	IFRS 7.B35	The entity uses its judgement to determine an appropriate number of time bands in preparing the maturity analysis.			
	IFRS 7.B36	If there is a range of possible maturities, the cash flows are included on the basis of the earliest date on which the entity can be required or is permitted to pay.			
	IFRS 7.B37	f. Qualitative information that explains and supports the quantitative disclosures in (a)-(e), that includes a description of: ▪ The derecognised financial assets and the nature and purpose of the continuing involvement retained after transferring those assets ▪ The risks to which an entity is exposed, including: ▪ A description of how the entity manages the risk inherent in its continuing involvement in the derecognised financial assets			<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>

IFRS 9.3.2.23 (a)	<p>If a transferor provides non-cash collateral (such as debt or equity instruments) to the transferee, the accounting for the collateral by the transferor and the transferee depends on whether the transferee has the right to sell or repledge the collateral and whether the transferor has defaulted. If the transferee has the right by contract or custom to sell or repledge the collateral, then the transferor reclassifies that asset in its statement of financial position (for example, as a loaned asset, pledged equity instrument or repurchase receivable) separately from other assets.</p> <p>Some transactions involving the provision of non-cash financial collateral may be considered transfers that fall within the scope of IFRS 7.42D (e.g., non-cash collateral transferred in a repo). This would normally be the case when: (a) the transferee's rights to control the asset are not conditional on the transferor's default. This is often evidenced by the transfer of legal ownership and/or the transferee's ability to re-sell or re-pledge the financial asset; or (b) when the arrangement is considered a pass-through arrangement.</p> <p>Collateral pledged or received subject to a netting arrangement would also fall within the scope of the offsetting disclosures irrespective of whether or not the collateral meets the offsetting criteria.</p>

	IFRS 9.4.2.2		c. How the entity has satisfied the conditions in IFRS 9.4.2.2 for such designation	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
330	IFRS 7.B5(aa)		For financial assets designated at fair value through profit or loss, does the entity disclose:

332	IFRS 7.B5 IAS 1.122 IAS 8.27G	Does the entity disclose management's judgements for financial instruments that have the most significant effect on the financial statements	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Hedge accounting						
333	IFRS 7.21A	Does the entity apply the disclosure requirements in IFRS 7.21B-24F for those risk exposures that an entity hedges and for which it elects to apply hedge accounting. Hedge accounting disclosures must provide information about:				
		a. An entity's risk management strategy and how it is applied to manage risk (see IFRS 7.22A-C)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		b. How the entity's hedging activities may affect the amount, timing and uncertainty of its future cash flows (see IFRS 7.23A-F)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		c. The effect that hedge accounting has had on the entity's statement of financial position, statement of comprehensive income and statement of changes in equity (see IFRS 7.24A-F)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	IFRS 7.21B	An entity must present the required disclosures in a single note or separate section in its financial statements. However, an entity need not duplicate information that is already presented elsewhere, provided that it is incorporated by cross-reference from the financial statements to some other statement, such as a management commentary or risk report that is available to users of the financial statements on the same terms as the financial statements and at the same time. Without the information incorporated by cross-reference, the financial statements are incomplete.				
	IFRS 7.21D	To meet the objectives of paragraph 21A, an entity must (except as otherwise specified below) determine how much detail to disclose, how much emphasis to place on different aspects of the disclosure requirements, the appropriate level of aggregation or disaggregation, and whether users of financial statements need additional explanations to evaluate the quantitative information disclosed. However, an entity must use the same level of aggregation or disaggregation that it uses for the disclosure requirements of related information in IFRS 9 and IFRS 13.				
	IFRS 7.21C	When paragraphs 22A-24F require the entity to separate by risk category the information disclosed, the entity must determine each risk category on the basis of the risk exposures it decides to hedge and for which hedge accounting is applied. The entity must determine risk categories consistently for all hedge accounting disclosures.				
334	IFRS 7.22A	Does the entity explain its risk management strategy for each risk category of risk exposures that it decides to hedge and for which hedge accounting is applied. This explanation should enable users of financial statements to evaluate (for example):				
		a. How each risk arises	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		b. How the entity manages each risk; this includes whether the entity hedges an item in its entirety for all risks or hedges a risk component (or components) of an item and why	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		c. The extent of risk exposures that the entity manages	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
335	IFRS 7.22B	To meet the requirements in IFRS 7.22A, does the entity provide information that includes (but is not limited to) a description of:				
		a. The hedging instruments that are used (and how they are used) to hedge risk exposures	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		b. How the entity determines the economic relationship between the hedged item and the hedging instrument for the purpose of assessing hedge effectiveness	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

					c. How the entity establishes the hedge ratio and what the sources of hedge ineffectiveness are
336	IFRS 7.22C IFRS 9.6.3.7				When an entity designates a specific risk component as a hedged item (see IFRS 9.6.3.7) does the entity provide, in addition to the disclosures required by IFRS 7. 22A and 22B, qualitative or quantitative information about:
					a. How it determined the risk component that is designated as the hedged item (including a description of the nature of the relationship between the risk component and the item as a whole)
					b. How the risk component relates to the item in its entirety (e.g., the designated risk component historically covered on average 80% of the changes in fair value of the item as a whole)
337	IFRS 7.23A				Unless exempted by IFRS 7.23C, does the entity disclose, by risk category, quantitative information to allow users of its financial statements to evaluate the terms and conditions of hedging instruments and how they affect the amount, timing and uncertainty of future cash flows of the entity
338	IFRS 7.23B				To meet the requirement in IFRS 7.23A, does the entity provide a breakdown that discloses:
					a. A profile of the timing of the nominal amount of the hedging instrument
					b. If applicable, the average price or rate (e.g., strike or forward prices, etc.) of the hedging instrument
339	IFRS 7.23C				In situations in which an entity frequently resets (i.e., discontinues and restarts) hedging relationships because both the hedging instrument and the hedged item frequently change (i.e., the entity uses a dynamic process in which both the exposure and the hedging instruments used to manage that exposure do not remain the same for long – such as in the example in IFRS 9.B6.5.24(b)) the entity is exempt from providing the disclosures required by IFRS 7.23A and 23B. In such a situation, does the entity disclose:
					a. Information about the ultimate risk management strategy in relation to those hedging relationships
					b. A description of how it reflects its risk management strategy by using hedge accounting and designating those particular hedging relationships
					c. An indication of how frequently the hedging relationships are discontinued and restarted as part of the entity's process in relation to those hedging relationships
340	IFRS 7.23D				Does the entity disclose by risk category a description of the sources of hedge ineffectiveness that are expected to affect the hedging relationship during its term
341	IFRS 7.23E				If other sources of hedge ineffectiveness emerge in a hedging relationship, does the entity disclose those sources by risk category and explain the resulting hedge ineffectiveness
342	IFRS 7.23F				For cash flow hedges, does the entity disclose a description of any forecast transaction for which hedge accounting had been used in the previous period, but which is no longer expected to occur
343	IFRS 7.24A				Does the entity disclose, in a tabular format, the following amounts related to items designated as hedging instruments separately, by risk category, for each type of hedge (fair value hedge, cash flow hedge or hedge of a net investment in a foreign operation):

	e.	The nominal amount of the hedging instruments in those hedging relationships			
353	IFRS 7.24I	To enable users of financial statements to understand the effect of interest rate benchmark reform on an entity's financial instruments and risk management strategy, does the entity disclose information about:			
	a.	The nature and extent of risks to which the entity is exposed arising from financial instruments subject to interest rate benchmark reform, and how the entity manages these risks			
	b.	The entity's progress in completing the transition to alternative benchmark rates, and how the entity is managing the transition

	IFRS 13.5-7	Please note that for fair value measurements (whether recognised or only disclosed), the entity should also provide the disclosures required by IFRS 13 (refer to 'Fair value measurement' section).			
357	IFRS 7.28 IFRS 9. B5.1.2A	In some cases, an entity does not recognise a gain or loss on initial recognition of a financial asset or financial liability because the fair value is neither evidenced by a quoted price in an active market for an identical asset or liability (i.e., a Level 1 input) nor based on a valuation technique that uses only data from observable markets (see IFRS 9.B5.1.2A). In such cases, does the entity disclose by class of financial asset or financial liability:			
	IFRS 9. B5.1.2A (b)	a. Its accounting policy for recognising in profit or loss the difference between the fair value at initial recognition and the transaction price to reflect a change in factors (including time) that market participants would take into account when pricing the asset or liability (see IFRS 9.B5.1.2A(b))	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Nature and extent of risk arising from financial instruments					
	IFRS 7.32	The disclosures required by IFRS 7.33-42 focus on the risks that arise from financial instruments and how they have been managed. These risks typically include, but are not limited to, credit risk, liquidity risk and market risk.			
	IFRS 7.B6	The disclosures are either given in the financial statements or incorporated by cross-reference from the financial statements to some other statement, such as a management commentary or risk report that is available to users of the financial statements on the same terms as the financial statements and at the same time. Without the information incorporated by cross-reference, the financial statements are incomplete.			
	IFRS 7.32A	Qualitative disclosures in combination with quantitative disclosures enable users to gain an understanding of the nature and extent of risks arising from financial instruments and evaluate the entity's exposure to risk.			
358	IFRS 7.31	Does the entity disclose information that enables users of its financial statements to evaluate the nature and extent of risks arising from financial instruments to which the entity is exposed at the end of the reporting period	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Qualitative disclosures					
359	IFRS 7.33	For each type of risk arising from financial instruments, does the entity disclose:			
		a. The exposures to risk and how they arise	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

		c. Any changes in (a) or (b) from the previous period	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Quantitative disclosures					
360	IFRS 7.34 IAS 24.9	For each type of risk arising from financial instruments, does the entity disclose:			
		a. Summary quantitative data about its exposure to that risk at the end of the reporting period based on the information provided internally to key management personnel of the entity (as defined in IAS 24), for example, the entity's board of directors and chief executive officer	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

IFRS 7.B7 IAS 8.10	If the entity uses several methods to manage a risk or an exposure, the entity must disclose information using the method or methods that provide most relevant and reliable information. IAS 8.10 also discusses relevance and reliability.				
	b. The disclosures required by IFRS 7.35A-42 below to the extent they are not provided in accordance with (a)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	c. Concentrations of risk if not apparent from the disclosures made in accordance with (a) and (b)				
IFRS 7.B8	For concentrations of risk, does the entity disclose:				
	▪ How management determines concentrations	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	▪ The shared characteristic that identifies each concentration (e.g., counterparty, geographical area, currency and/or market)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	▪ The amount of the risk exposure associated with all financial instruments sharing that characteristic	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
IFRS 7.B8 IFRS 7.IG18 IFRS 7.IG18A IFRS 7.IG19	Concentrations of risk arise from financial instruments that have similar characteristics and are affected similarly by changes in economic or other conditions. The identification of concentrations of risk requires judgement taking into account the circumstances of the entity (see IFRS 7.IG18, IG18A). In accordance with IFRS 7.B8, disclosure of concentrations of risk includes the shared characteristic that identifies each concentration. For example, the shared characteristic may refer to geographical distribution of counterparties by groups of countries, individual countries or regions within countries.				
361 IFRS 7.35	If the quantitative data disclosed as at the end of the reporting period are unrepresentative of the entity's exposure to risk during the period, does the entity provide further information that is representative	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
IFRS 7.IG20	To meet this requirement, the entity might disclose the highest, lowest and average amount of risk to which it was exposed during the reporting period. For example, if an entity typically has a large exposure to a particular currency, but at the end of the reporting period unwinds the position, the entity might disclose a graph that shows the exposure at various times during the reporting period, or disclose the highest, lowest and average exposures.				
Credit risk					
IFRS 7.35A	An entity shall apply the disclosure requirements in IFRS 7.35F-35N to financial instruments to which the impairment requirements in IFRS 9 are applied. However:				
	a. For trade receivables, contract assets and lease receivables, IFRS 7.35J (a) applies to those trade receivables, contract assets or lease receivables on which lifetime expected credit losses are recognised in accordance with IFRS 9.5.5.15, if those financial assets are modified while more than 30 days past due				
	b. IFRS 7.35K(b) does not apply to lease receivables				
IFRS 7.35B	The credit risk disclosures made in accordance with paragraphs 35F-35N shall enable users of financial statements to understand the effect of credit risk on the amount, timing and uncertainty of future cash flows. To achieve this objective, credit risk disclosures shall provide:				
	a. Information about an entity's credit risk management practices and how they relate to the recognition and measurement of expected credit losses, including the methods, assumptions and information used to measure expected credit losses				
	b. Quantitative and qualitative information that allows users of financial statements to evaluate the amounts in the

	financial statements arising from expected credit losses, including changes in the amount of expected credit losses and the reasons for those changes				
	c. Information about an entity's credit risk exposure (i.e., the credit risk inherent in an entity's financial assets and commitments to extend credit) including significant credit risk concentrations				
IFRS 7.35C	An entity need not duplicate information that is already presented elsewhere, provided that the information is incorporated by cross-reference from the financial statements to other statements, such as a management commentary or risk report that is available to users of the financial statements on the same terms as the financial statements and at the same time. Without the information incorporated by cross-reference, the financial statements are incomplete				
IFRS 7.35D	To meet the objectives in paragraph 35B, an entity shall (except as otherwise specified) consider how much detail to disclose, how much emphasis to place on different aspects of the disclosure requirements, the appropriate level of aggregation or disaggregation, and whether users of financial statements need additional explanations to evaluate the quantitative information disclosed.				
362	IFRS 7.35E	If the disclosures provided in accordance with IFRS 7.35F-35N are insufficient to meet the objectives in IFRS 7.35B, does the entity disclose additional information that is necessary to meet those objectives			
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	The credit risk management practices				
363	IFRS 7.35F	An entity must explain its credit risk management practices and how they relate to the recognition and measurement of expected credit losses. To meet this objective, does the entity disclose information that enables users of financial statements to understand and evaluate:			
	a. How an entity determined whether the credit risk of financial instruments has increased significantly since initial recognition, including, if and how:				
	▪ Financial instruments are considered to have low credit risk in accordance with IFRS 9.5.5.10, including the classes of financial instruments to which it applies	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	▪ The presumption in IFRS 9.5.5.11, that there have been significant increases in credit risk since initial recognition when financial assets are more than 30 days past due, has been rebutted	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	b. An entity's definitions of default, including the reasons for selecting those definitions	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
IFRS 7.B8A	IFRS 7.35F(b) requires the disclosure of information about how an entity has defined default for different financial instruments and the reasons for selecting those definitions. In accordance with IFRS 9.5.5.9, the determination of whether lifetime expected credit losses should be recognised is based on the increase in the risk of a default occurring since initial recognition. Information about an entity's definitions of default that will assist users of financial statements in understanding how an entity has applied the expected credit loss requirements in IFRS 9 may include:				
	a. The qualitative and quantitative factors considered in defining default				
	b. Whether different definitions have been applied to different types of financial instruments				
	c. Assumptions about the cure rate (i.e., the number of financial assets that return to a performing status) after a default occurred on the financial asset				
	c. How the instruments were grouped if expected credit losses were measured on a collective basis	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Quantitative and qualitative information about amounts arising from expected credit losses						
365	IFRS 7.35H	To explain the changes in the loss allowance and the reasons for those changes, does the entity provide, by class of financial instrument, a reconciliation from the opening balance to the closing balance of the loss allowance, in a table, showing separately the changes during the period for:				
		a. The loss allowance measured at an amount equal to 12-month expected credit losses	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

In addition to the reconciliation, an entity must disclose the total amount of undiscounted expected credit losses at initial recognition on financial assets initially recognised during the reporting period	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	IFRS 7.B8D	In accordance with IFRS 7.35H, an entity is required to explain the reasons for the changes in the loss allowance during the period. In addition to the reconciliation from the opening balance to the closing balance of the loss allowance, it may be necessary to provide a narrative explanation of the changes. This narrative explanation may include an analysis of the reasons for changes in the loss allowance during the period, including:				
		a. The portfolio composition				
		b. The volume of financial instruments purchased or originated				
		c. The severity of the expected credit losses

To the extent that the combined expected credit losses exceed the gross carrying amount of the financial asset, the expected credit losses should be recognised as a provision.				
367	IFRS 7.35I	To enable users of financial statements to understand the changes in the loss allowance disclosed in accordance with IFRS 7.35H, does the entity provide an explanation of how significant changes in the gross carrying amount of financial instruments during the period contributed to changes in the loss allowance

To comply with IFRS 7.40, the entity might disclose the effect of a decrease in a specified stock market index, commodity price, or other risk variable. For example, if an entity gives residual value guarantees that are financial instruments, the entity discloses an increase or decrease in the value of the assets to which the guarantee applies.</p> <p>Two examples of financial instruments that give rise to equity price risk are a holding of equities in another entity and an investment in a trust, which, in turn, holds investments in equity instruments. The fair values of such financial instruments are affected by changes in the market price of the underlying equity instruments.</p> <p>Under IFRS 7.40(a), an entity discloses the sensitivity of profit or loss separately from the sensitivity of equity. For example, the sensitivity from instruments classified as at fair value through profit or loss is disclosed separately from the sensitivity of instruments whose changes in fair value are presented in other comprehensive income.</p> <p>Financial instruments that the entity classifies as equity instruments are not remeasured. Neither profit or loss or equity will be affected by the equity price risk of those instruments. Accordingly, no sensitivity analysis is required.</p>

	<p>IFRS 7.B18</p> <p>For the purpose of this sensitivity analysis:</p> <p>a. Entities disclose the effect on profit or loss and equity at the end of the reporting period, assuming that a reasonably possible change in the relevant risk variable had occurred at the end of the reporting period and had been applied to the risk exposures in existence at that date. It would disclose the effect on profit or loss and equity if interest rates were to change to 4.5% or 5.5%. In the next period, interest rates have increased to 5.5%. The entity continues to believe that interest rates may fluctuate by ±50 basis points (i.e., the rate of change in interest rates is stable). The entity discloses the effect on profit or loss and equity if interest rates were to change to 5% or 6%. The entity is not required to revise its assessment that interest rates might reasonably fluctuate, unless there is evidence that interest rates have become significantly more volatile</div> <div>b. The sensitivity analysis shows the effects of changes that are considered reasonably possible over the period until the entity will next present these disclosures, which is usually its next annual reporting period</div>						
376	IFRS 7.41	If the entity prepares a sensitivity analysis, such as a value-at-risk, that reflects interdependencies between risk variables (e.g., interest rates and exchange rates) and uses it to manage financial risks, the entity may use that sensitivity analysis in place of the analysis in IFRS 7.40 above. If the entity uses such a sensitivity analysis, does the entity also explain:						
		a. The method used in preparing such a sensitivity analysis, and the main parameters and assumptions underlying the data	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>			
		b. The objective of the method used and limitations that may result in the information not fully reflecting the fair value of the assets and liabilities involved	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>			
	IFRS 7.B20	IFRS 7.41 applies even if such methodology measures only the potential for loss and does not measure the potential for gain. Such an entity might comply with IFRS 7.41(a) by disclosing the type of value-at-risk model used (e.g., whether the model relies on Monte Carlo simulations), an explanation about how the model works and the main assumptions (e.g., the holding period and confidence level). Entities might also disclose the historical observation period and weightings applied to observations within that period, an explanation of how options are dealt with in the calculations, and which volatilities and correlations (or, alternatively, Monte Carlo probability distribution simulations) are used.						
Other market risk disclosures								
377	IFRS 7.42	If the sensitivity analyses in IFRS 7.40 or 41 above are unrepresentative of a risk inherent in a financial instrument (e.g., because the exposure at the end of the reporting period does not reflect the exposure during the reporting period), does the entity disclose that fact and the reason it believes the sensitivity analyses are unrepresentative			<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	IFRS 7.IG37-IG40	The entity discloses additional information if the sensitivity analysis is unrepresentative of a risk inherent in a financial instrument. This can occur if:						
		a. A financial instrument contains terms and conditions whose effects are not apparent from the sensitivity analysis, e.g., options that remain out of (or in) the money for the chosen change in the risk variable						
		b. Financial assets are illiquid, e.g., if there is a low volume of transactions in similar assets and the entity finds it difficult to find a counterparty

413	IAS 12.81	Does the entity disclose:				
	IAS 12.67	a. If a business combination in which the entity is the acquirer causes a change in the amount recognised for its pre-acquisition deferred tax asset, the amount of that change	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	IAS 12.68	b. If the deferred tax benefits acquired in a business combination are not recognised at the acquisition date, but are recognised after the acquisition date, the event or change in circumstances that caused the deferred tax benefits to be recognised	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	IAS 12.68 (a)(b)	If the entity recognises acquired deferred tax benefits in the measurement period based on new information about facts and circumstances that existed at the acquisition date, it recognises the adjustment as a reduction in goodwill related to that acquisition. If the carrying amount of goodwill is zero, it recognises all other acquired deferred tax benefits in profit or loss. All other acquired deferred tax benefits realised are recognised in profit or loss (or, if IAS 12 so requires, outside profit or loss).				
414	IAS 12.82	If (1) the utilisation of the deferred tax asset is dependent on future taxable profits in excess of the profits arising from the reversal of existing taxable temporary differences, and (2) the entity has suffered a loss in either the current or preceding period in the tax jurisdiction to which the deferred tax asset relates, does the entity disclose the following:				
		a. The amount of a deferred tax asset	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		b. The nature of the evidence supporting its recognition	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
415	IAS 12.82A	In the circumstances in IAS 12.52A, does the entity disclose:				
	IAS 12.87A	▪ The nature of the potential income tax consequences that would result from the payment of dividends to its shareholders, including the important features of the income tax systems and the factors that will affect the amount of the potential income tax consequences of dividends	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		▪ The amounts of the potential income tax consequences practicably determinable	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		▪ Whether there are any potential income tax consequences not practicably determinable	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	IAS 12.52A	In some jurisdictions, income taxes are payable at a higher or lower rate if part or all of the net profit or retained earnings is paid out as a dividend to shareholders of the entity. In other jurisdictions, income taxes may be refundable or payable if part or all of the net profit or retained earnings is paid out as a dividend to shareholders of the entity.				
416	IAS 12.87B	It may sometimes require undue cost or effort to compute the total amount of the potential income tax consequences that would result from the payment of dividends to shareholders. However, in such circumstances, it may be possible to compute some portions of the total, for example:				
		a. If in a consolidated group, a parent and some of its subsidiaries (1) have paid income taxes at a higher rate on undistributed profits, and (2) are aware of the amount that would be refunded on the payment of future dividends to shareholders from consolidated retained earnings, does the entity disclose the refundable amount	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		b. If applicable, does the entity disclose that there are additional potential income tax consequences that cannot be determined without undue cost or effort	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Such tax law, and the income taxes arising from it, are hereafter referred to as 'Pillar Two legislation' and 'Pillar Two income taxes'. As an exception to the requirements in this Standard, an entity must neither recognise nor disclose information about deferred tax assets and liabilities related to Pillar Two income taxes.

IFRS 16.52-60 specifies requirements on how to meet this objective.				
IFRS 16.52	A lessee need not duplicate information that is already presented elsewhere in the financial statements, provided that the information is incorporated by cross-reference in the single note or separate section about leases.

IFRS 15 *Revenue from Contracts with Customers* applies with limited exceptions to all contracts with customers.

513	IFRS 15.105	Does the entity present any unconditional rights to consideration separately from contract assets as a receivable	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	IFRS 15.108	A receivable is an entity's right to consideration that is unconditional. A right to consideration is unconditional if only the passage of time is required before payment of that consideration is due. For example, an entity would recognise a receivable if it has a present right to payment even though that amount may be subject to refund in the future. An entity must account for a receivable in accordance with IFRS 9.				
514	IFRS 15.108	Upon initial recognition of a receivable from a contract with a customer, does the entity present any difference between the measurement of the receivable in accordance with IFRS 9 and the corresponding amount of revenue as an expense (for example, as an impairment loss)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
515	IFRS 15.107	If the entity performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, does the entity present the contract as a contract asset, excluding any amounts presented as a receivable	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	IFRS 15.107	A contract asset is an entity's right to consideration in exchange for goods or services that the entity has transferred to a customer. An entity must assess a contract asset for impairment in accordance with IFRS 9. An impairment of a contract asset shall be measured, presented and disclosed on the same basis as a financial asset that is within the scope of IFRS 9 - see also IFRS 15.113(b).

Disclosures						
	IFRS 15.110	The objective of the disclosure requirements in IFRS 15 is for an entity to disclose sufficient information to enable users of financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers.				
	IFRS 15.111	An entity must consider the level of detail necessary to satisfy the disclosure objective and how much emphasis to place on each of the various requirements. An entity must aggregate or disaggregate disclosures so that useful information is not obscured by either the inclusion of a large amount of insignificant detail or the aggregation of items that have substantially different characteristics.				
	IFRS 15.112	An entity need not disclose information in accordance with IFRS 15 if it has provided the information in accordance with another standard.				
520	IFRS 15.110	To achieve the disclosure objective stated in IFRS 15.110, does the entity disclose qualitative and quantitative information about all of the following:

		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

		Disaggregation of revenue			
522	IFRS 15.114	Does the entity disaggregate revenue recognised from contracts with customers into categories that depict how the nature, amount, timing and uncertainty of revenue and cash flows are affected by economic factors			
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	IFRS 15.B87	<p>IFRS 15.114 requires an entity to disaggregate revenue from contracts with customers into categories that depict how the nature, amount, timing and uncertainty of revenue and cash flows are affected by economic factors. Consequently, the extent to which an entity's revenue is disaggregated for the purposes of this disclosure depends on the facts and circumstances that pertain to the entity's contracts with customers. Some entities may need to use more than one type of category to meet the objective in IFRS 15.114 for disaggregating revenue. Other entities may meet the objective by using only one type of category to disaggregate revenue.</p> <p>When selecting the type of category (or categories) to use to disaggregate revenue, an entity must consider how information about the entity's revenue has been presented for other purposes, including all of the following:</p> <ul style="list-style-type: none"> a. Disclosures presented outside the financial statements (for example, in earnings releases, annual reports or investor presentations) b. Information regularly reviewed by the chief operating decision maker for evaluating the financial performance of operating segments c. Other information that is similar to the types of information identified in IFRS 15.B88(a) and (b) and that is used by the entity or users of the entity's financial statements to evaluate the entity's financial performance or make resource allocation decisions <p>Examples of categories that might be appropriate include, but are not limited to, all of the following:</p> <ul style="list-style-type: none"> ▪ Type of good or service (for example, major product lines) ▪ Geographical region (for example, country or region) ▪ Market or type of customer (for example, government and non-government customers) ▪ Type of contract (for example, fixed-price and time-and-materials contracts) ▪ Contract duration (for example, short-term and long-term contracts) ▪ Timing of transfer of goods or services (for example, revenue from goods or services transferred to customers)

		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
526	IFRS 15.118	Does the entity provide an explanation (with both qualitative and quantitative information) of the significant changes in the contract asset and the contract liability balances during the reporting period

	IAS 41.52	Biological transformation results in a number of types of physical change – growth, degeneration, production, and procreation, each of which is observable and measurable. Each of those physical changes has a direct relationship to future economic benefits. A change in fair value of a biological asset due to harvesting is also a physical change.				
Disclosure when fair value cannot be measured reliably						
	IAS 41.30	There is a presumption that fair value can be measured reliably for a biological asset. However, that presumption can be rebutted only on initial recognition for a biological asset for which quoted market prices are not available and for which alternative fair value measurements are determined to be clearly unreliable. In such a case, that biological asset shall be measured at its cost less any accumulated depreciation and any accumulated impairment losses. Once the fair value of such a biological asset becomes reliably measurable, an entity shall measure it at its fair value less costs to sell. Once a non-current biological asset meets the criteria to be classified as held for sale (or is included in a disposal group that is classified as held for sale) in accordance with IFRS 5, it is presumed that fair value can be measured reliably.				
555	IAS 41.54 IAS 41.30	If the entity measures biological assets at their cost less any accumulated depreciation and any accumulated impairment losses at the end of the period (because fair value cannot be measured reliably), does the entity disclose the following information for such biological assets:

Insurance contracts

IFRS 17 *Insurance Contracts* was issued in May 2017. It applies to all types of insurance contracts, with limited exceptions. IFRS 17 is effective for annual periods beginning on or after 1 January 2023.

Transition to IFRS 17

IFRS 17.C2	For the purposes of the transition requirements in IFRS 17:
	a. The date of initial application is the beginning of the annual reporting period in which an entity first applies IFRS 17
	b. The transition date is the beginning of the annual reporting period immediately preceding the date of initial application
IFRS 17.C25	▪ If an entity also presents adjusted comparative information when applying IFRS 17 for any earlier periods presented, the reference to 'the beginning of the annual reporting period immediately preceding the date of initial application' shall be read as 'the beginning of the earliest adjusted comparative period presented'
IFRS 17.C3	Unless it is impracticable to do so, or IFRS 17.C5A applies, an entity must apply IFRS 17 retrospectively, except that:
	a. An entity is not required to present the quantitative information required by IAS 8.28(f)
	b. An entity must not apply the option in IFRS 17.B115 for periods before the transition date. An entity may apply the option in IFRS 17.B115 prospectively on or after the transition date if, and only if, the entity designates risk mitigation relationships at or before the date it applies the option

		Disclosure made			
		Yes	No	N/A	Comments
IFRS 17.C5	If, and only if, full retrospective application in IFRS 17.C3 is impracticable for a group of insurance contracts, an entity must apply one of the following two approaches:				
	a. The modified retrospective approach in IFRS 17.C6-C19A, subject to C6(a)				
	b. The fair value approach in IFRS 17.C20-C24B				
IFRS 17.C5A	Notwithstanding IFRS 17.C5, an entity may choose to apply the fair value approach in IFRS 17.C20-C24B for a group of insurance contracts with direct participation features to which it could apply IFRS 17 retrospectively if, and only if:				
	a. The entity chooses to apply the risk mitigation option in IFRS 17.B115 to the group of insurance contracts prospectively from the transition date				
	b. The entity has used derivatives, non-derivative financial instruments measured at fair value through profit or loss, or reinsurance contracts held to mitigate financial risk arising from the group of insurance contracts, as specified in IFRS 17.B115, before the transition date				
IFRS 17.C5B	If, and only if, it is impracticable for an entity to apply IFRS 17.C4(aa) for an asset for insurance acquisition cash flows, the entity must apply the following approaches to measure the asset for insurance acquisition cash flows:				
	a. The modified retrospective approach in paragraphs C14B-C14D and C17A, subject to IFRS 17.C6(a)				
	b. The fair value approach in IFRS 17.C24A-C24B				
IFRS 17.C29	An entity that has applied IFRS 9 to annual periods before the initial application of IFRS 17:				
IFRS 9.4.1.2(a) IFRS 9.4.1.2A (a)	a. May reassess whether an eligible financial asset meets the condition in IFRS 9.4.1.2(a) or IFRS 9.4.1.2A(a) A financial asset is eligible only if it is not held in respect of an activity that is unconnected with contracts within the scope of IFRS 17. Examples of financial assets that would not be eligible for reassessment are financial assets held in respect of banking activities or financial assets held in funds relating to investment contracts that are outside the scope of IFRS 17				
IFRS 9.4.1.5	b. Must revoke its previous designation of a financial asset as measured at fair value through profit or loss if the condition in IFRS 9.4.1.5 is no longer met because of the application of IFRS 17				
	c. May designate a financial asset as measured at fair value through profit or loss if the condition in IFRS 9.4.1.5 is met				
IFRS 9.5.7.5	d. May designate an investment in an equity instrument as at fair value through other comprehensive income applying IFRS 9.5.7.5				
	e. May revoke its previous designation of an investment in an equity instrument as at fair value through other comprehensive income applying IFRS 9.5.7.5				
564	If an insurer first applies IFRS 9 in the current period:				
	a. Have Questions 372 to 381 of the February 2019 Disclosure Checklist been completed for IFRS 9 transition disclosures	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	b. If an insurer first applies IFRS 9 without restating comparative periods relating classification and measurement (including impairment):

565	IFRS 17.C27 IFRS 17.C25	If an entity presents unadjusted comparative information and disclosures for any earlier periods, does it:

	IFRS 17.C26	An entity is not required to provide the disclosures specified in IFRS 17.93-132 for any period presented before the beginning of the annual reporting period immediately preceding the date of initial application.			
566	IFRS 17.C28	An entity need not disclose previously unpublished information about claims development that occurred earlier than five years before the end of the annual reporting period in which it first applies IFRS 17. 567	IFRS 17.C28E	If an entity applies paragraphs C28B-C28D, does it disclose qualitative information that enables users of financial statements to understand:

		b. Whether and to what extent the impairment requirements in Section 5.5 of IFRS 9 have been applied (see paragraph C28C)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	IFRS 17.C28A	An entity that first applies IFRS 17 and IFRS 9 at the same time is permitted to apply paragraphs C28B-C28E (classification overlay) for the purpose of presenting comparative information about a financial asset if the comparative information for that financial asset has not been restated for IFRS 9. Comparative information for a financial asset will not be restated for IFRS 9 if either the entity chooses not to restate prior periods (see paragraph 7.2.15 of IFRS 9), or the entity restates prior periods, but the financial asset has been derecognised during those prior periods (see paragraph 7.2.1 of IFRS 9).			
568	IFRS 17.C32 IFRS 9.4.1.5	When an entity applies IFRS 17.C29 (see above), does it disclose in that annual reporting period for those financial assets by class:

570	IFRS 9.7.2.42	In the reporting period that includes the date of initial application of these amendments, does the entity disclose the following information as at the transition date for each class of financial assets and financial liabilities that was affected by the transition to IFRS 17:

		b. The new measurement category and carrying amount determined after applying these amendments			
		c. The carrying amount of any financial liabilities in the statement of financial position that were previously designated as measured at fair value through profit or loss, but are no longer so designated

571	IFRS 17.114	To enable users of financial statements to identify the effect of groups of insurance contracts measured at the transition date applying either the modified retrospective approach (see IFRS 17.C6-C19A) or the fair value approach (see IFRS 17.C20-C24B) on the contractual service margin and insurance revenue in subsequent periods, does the entity disclose the reconciliation of the contractual service margin applying IFRS 17.101(c), and the amount of insurance revenue applying IFRS 17.103(a), separately for:			
		a. Insurance contracts that existed at the transition date to which the entity has applied the modified retrospective approach			
		b. Insurance contracts that existed at the transition date to which the entity has applied the fair value approach			
		c. All other insurance contracts			
572	IFRS 17.115	For all periods in which disclosures are made applying IFRS 17.114(a) or 114(b), to enable users of financial statements to understand the nature and significance of the methods used and judgements applied in determining the transition amounts, does the entity- explain how it determined the measurement of insurance contracts at the transition date			
573	IFRS 17.116	An entity that chooses to disaggregate insurance finance income or expenses between profit or loss and other comprehensive income applies IFRS 17.C18(b), C19(b), C24(b) and C24(c) to determine the cumulative difference between the insurance finance income or expenses that would have been recognised in profit or loss and the total insurance finance income or expenses at the transition date for the groups of insurance contracts to which the disaggregation applies. For all periods in which the amounts determined, when applying these paragraphs, exist, does the entity disclose a reconciliation from the opening to the closing balance of the cumulative amounts included in other comprehensive income for financial assets measured at fair value through other comprehensive income related to the groups of insurance contracts

Presentation: Statement(s) of financial performance						
575	IFRS 17.80	Applying IFRS 17.41-42, does the entity disaggregate the amounts recognised in the statement(s) of profit or loss and other comprehensive income (hereafter referred to as the statement(s) of financial performance in this section) into:				
	a. An insurance service result (see IFRS 17.83-86), comprising insurance revenue and insurance service expenses	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>		
	And					
	b. Insurance finance income or expenses (see IFRS 17.87-92)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>		
IFRS 17.81	An entity is not required to disaggregate the change in the risk adjustment for non-financial risk between the insurance service result and insurance finance income or expenses. If an entity does not make such a disaggregation, it shall include the entire change in the risk adjustment for non-financial risk as part of the insurance service result.

IFRS 17.83	Insurance revenue must depict the provision of services arising from the group of insurance contracts at an amount that reflects the consideration to which the entity expects to be entitled in exchange for those services. IFRS 17.B120-B127 specify how an entity measures insurance revenue.					
578	IFRS 17.84	Does the entity present in profit or loss insurance service expenses arising from a group of insurance contracts issued, comprising incurred claims (excluding repayments of investment components), other incurred insurance service expenses and other amounts as described in IFRS 17.103(b)

IFRS 17.86	An entity may present the income or expenses from a group of reinsurance contracts held (see IFRS 17.60–70A), other than insurance finance income or expenses, as a single amount; or it may present separately the amounts recovered from the reinsurer and an allocation of the premiums paid that together give a net amount equal to that single amount.				
	Disclosure				
IFRS 17.93	The objective of the disclosure requirements is for an entity to disclose information in the notes that, together with the information provided in the statement of financial position, statement(s) of financial performance and statement of cash flows, gives a basis for users of financial statements to assess the effect that contracts within the scope of IFRS 17 have on its financial position, financial performance and cash flows.				
581	IFRS 17.93	To achieve the disclosure objective described in IFRS 17.93, does the entity disclose qualitative and quantitative information about:			
		a. The amounts recognised in its financial statements for contracts within the scope of IFRS 17 (see IFRS 17.97–116)			
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		b. The significant judgements, and changes in those judgements, made when applying IFRS 17 (see IFRS 17.117–120)			
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		c. The nature and extent of the risks from contracts within the scope of IFRS 17 (see IFRS 17.121–132)			
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
582	IFRS 17.94	An entity must consider the level of detail necessary to satisfy the disclosure objective and how much emphasis to place on each of the various requirements. If the disclosures provided, applying IFRS 17.97–132, are not enough to meet the objective in IFRS 17.93, does an entity disclose additional information necessary to meet that objective			
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
IFRS 17.95, 96	An entity must aggregate or disaggregate information so that useful information is not obscured either by the inclusion of a large amount of insignificant detail or by the aggregation of items that have different characteristics. IAS 1.29–31 set out requirements relating to materiality and aggregation (IFRS 18.41–43 set out requirements relating to aggregation and disaggregation, if the entity adopts IFRS 18 early) of information. Examples of aggregation bases that might be appropriate for information disclosed about insurance contracts include:				
		a. Type of contract (for example, major product lines)			
		b. Geographical area (for example, country or region)			
		c. Reportable segment, as defined in IFRS 8 <i>Operating Segments</i>

Explanation of recognised amounts						
	IFRS 17.97	Of the disclosures required by IFRS 17.98-109A, only those in IFRS 17.98-100, 102-103, 105-105B and 109A apply to contracts to which the premium allocation approach has been applied.				
583	IFRS 17.97	If an entity uses the premium allocation approach, does it also disclose:				
		a. Which of the criteria in IFRS 17.53 and IFRS 17.69 it has satisfied	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		b. Whether it makes an adjustment for the time value of money and the effect of financial risk applying IFRS 17.56, 57(b) and 59(b)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		c. The method it has chosen to recognise insurance acquisition cash flows applying IFRS 17.59(a)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
584	IFRS 17.98	Does the entity disclose reconciliations that show how the net carrying amounts of contracts within the scope of IFRS 17 changed during the period because of cash flows and income and expenses recognised in the statement(s) of financial performance, separately for insurance contracts issued and reinsurance contracts held				
			<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	IFRS 17.98	An entity must adapt the requirements of IFRS 17.100-109 to reflect the features of reinsurance contracts held that differ from insurance contracts issued; for example, the generation of expenses or reduction in expenses rather than revenue.				
585	IFRS 17.99	An entity shall provide enough information in the reconciliations to enable users of financial statements to identify changes from cash flows and amounts that are recognised in the statement(s) of financial performance. To comply with this requirement, does it:				
		a. Disclose, in a table, the reconciliations set out in IFRS 17.100-105B	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		b. For each reconciliation, present the net carrying amounts at the beginning and at the end of the period, disaggregated into a total for portfolios of contracts that are assets and a total for portfolios of contracts that are liabilities, that equal the amounts presented in the statement of financial position applying IFRS 17.78	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
586	IFRS 17.100	Does the entity disclose reconciliations from the opening to the closing balances separately for each of:				
		a. The net liabilities (or assets) for the remaining coverage component, excluding any loss component	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		b. Any loss component (see IFRS 17.47-52 and 57-58)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		c. The liabilities for incurred claims	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		d. For insurance contracts to which the premium allocation approach described in IFRS 17.53-59 or 69-70A has been applied, does the entity disclose reconciliations from the opening to the closing balances separately for each of:				
		▪ The estimates of the present value of the future cash flows	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Rate-regulated activities

The scope of IFRS 14 is limited to first-time adopters that conduct rate-regulated activities and recognise regulatory deferral account balances in their financial statements in accordance with their previous GAAP, as defined in *IFRS 1 First-time Adoption of International Financial Reporting Standards* (i.e., the accounting basis used by a first-time adopter immediately before adopting IFRS).
An entity which recognised regulatory deferral account balances by electing to apply IFRS 14 must apply IFRS 14 in its financial statements for subsequent periods.

	IFRS 14.23	This separate line item above shall be distinguished from the income and expenses that are presented in accordance with other standards by the use of a sub-total, which is drawn before the net movement in regulatory deferral account balances.			
626	IFRS 14.24	When an entity recognises a deferred tax asset or a deferred tax liability as a result of recognising regulatory deferral account balances, does the entity present the resulting deferred tax asset (liability) and the related movement in that deferred tax asset (liability) with the related regulatory deferral account balances and movements in those balances, instead of within the total presented in accordance with IAS 12 for deferred tax assets (liabilities) and the tax expense (income) (see IFRS 14.B9-B12)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

	IAS 8.6B	The entity does not describe financial statements as complying with IFRS accounting standards unless they comply with all the requirements of IFRS accounting standards. Similarly, in certain jurisdictions, the applicable standards may be the same as under IFRS accounting standards, but may be the subject of a regulatory approval or endorsement mechanism before they become effective. Entities in these jurisdictions may only refer to compliance with IFRS accounting standards as issued by the IASB if the applicable version of IFRS accounting standards endorsed and complied with is consistent with IFRS. This is, for instance, the case in the EU, where entities comply with "IFRS Accounting Standards as endorsed by the EU" and not "IFRS Accounting Standards (as issued by the IASB)".

Key estimation assumptions						
770	IAS 8.31A	Does the entity disclose information about the assumptions it makes about the future, and other major sources of estimation uncertainty at the end of the reporting period, that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year

Does the entity disclose information about the assumptions it makes about the future, and other major sources of estimation uncertainty at the end of the reporting period, that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year

		Disclosure made			Comments
		Yes	No	N/A	
	IFRS 5.5B	Additional disclosures beyond what is required by other standards may be necessary to comply with this requirement. For instance, additional disclosures about non-current assets (or disposal groups) classified as held for sale or discontinued operations (beyond those required specifically by IFRS 5 or other IFRS) may be necessary to comply with this requirement			
771	IAS 8.31A	For the assets and liabilities in IAS 8.31A above, does the entity disclose:			
	a. Their nature	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	b. Their carrying amount as at the end of the reporting period	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	IAS 8.31E	An entity provides the disclosures in IAS 8.31A in a manner that helps users of financial statements to understand the judgements that management makes about the future and about other sources of estimation uncertainty. The nature and extent of the information provided vary according to the nature of the assumption and other circumstances. Examples of the types of disclosures an entity makes are:			
	a. The nature of the assumption or other estimation uncertainty				
	b. The sensitivity of carrying amounts to the methods, assumptions and estimates underlying their calculation, including the reasons for the sensitivity				
	c. The expected resolution of an uncertainty and the range of reasonably possible outcomes within the next financial year in respect of the carrying amounts of the assets and liabilities affected				
	d. An explanation of changes made to past assumptions concerning those assets and liabilities, if the uncertainty remains unresolved				
	IAS 8.31B	Examples of key assumptions are:			
	a. Future changes in salaries				
	b. Future changes in prices affecting other costs				
	c. Risk adjustments to cash flows				
	d. Risk adjustments to discount rates				
	IAS 8.31I	Other IFRS accounting standards require the disclosure of some of the assumptions that would otherwise be required in accordance with IAS 8.31A. For example, IAS 37 <i>Provisions, Contingent Liabilities and Contingent Assets</i> requires disclosure, in specified circumstances, of major assumptions concerning future events affecting classes of provisions. IFRS 13 <i>Fair Value Measurement</i> requires disclosure of significant assumptions (including the valuation technique(s) and inputs) the entity uses when measuring the fair values of assets and liabilities that are carried at fair value.			
Capital					
772	IFRS 18.126	Does the entity disclose information that enables users of its financial statements to evaluate the entity's objectives, policies and processes for managing capital			
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
773	IFRS 18.127	Does the entity disclose the following, based on the information provided internally to the entity's key management personnel:			
	a. Qualitative information about its objectives, policies and processes for managing capital, including (but not limited to):				
	▪ A description of what it manages as capital	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	▪ If the entity is subject to externally imposed capital requirements, the nature of those requirements and how they are incorporated into the management of capital	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

		Disclosure made			Comments
		Yes	No	N/A	
	▪ How it is meeting its objectives for managing capital	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	b. Summary quantitative data about what it manages as capital	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
IFRS 18.127	Some entities regard some financial liabilities (for example, some forms of subordinated debt) as part of capital. Other entities regard capital as excluding some components of equity (for example, components arising from cash flow hedges).				
	c. Any changes in (a) and (b) from the preceding reporting period	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	d. Whether, during the reporting period, it complied with any externally imposed capital requirements to which it is subject	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	e. If the entity did not comply with the externally imposed capital requirements to which it is subject, the consequences of such non-compliance	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
IFRS 18.129	The entity may manage capital in a number of ways and be subject to a number of different capital requirements. For example, a conglomerate may include entities that undertake insurance activities and banking activities, and those entities may operate in several jurisdictions. When an aggregate disclosure of capital requirements and how capital is managed would not provide useful information or would distort a financial statement user's understanding of an entity's capital resources, the entity must disclose separate information for each capital requirement to which it is subject.				
IFRS 18.127 (a)(ii)	Externally imposed capital requirements referred to in IFRS 18.127(a)(ii) only reflect capital requirements imposed by a regulator or a prudential supervisor. Capital requirements, as imposed by a bank or creditor are considered a contractual obligation and are, therefore, not in the scope of IFRS 18.127(a)(ii).				

Management-defined performance measures (IFRS 18)

IFRS 18.117	IFRS 18 was published in April 2024; it replaces IAS 1 and applies for annual periods beginning on or after 1 January 2027. Entities that early adopt IFRS 18 must comply with the requirements in this section.				
	A management-defined performance measure is a subtotal of income and expenses that:				
	a. An entity uses in public communications outside financial statements;				
	b. An entity uses to communicate to users of financial statements management's view of an aspect of the financial performance of the entity as a whole; and				
	c. Is not listed in IFRS 18.118, or specifically required to be presented or disclosed by IFRS accounting standards				
IFRS 18.118	Subtotals of income and expenses that are not management-defined performance measures are:				
	a. Gross profit or loss (revenue minus cost of sales) and similar subtotals (see IFRS 18.B123);				
	b. Operating profit or loss before depreciation, amortisation and impairments within the scope of IAS 36;				
	c. Operating profit or loss and income and expenses from all investments accounted for using the equity method;				
	d. For an entity that applies IFRS 18.73, a subtotal comprising operating profit or loss and all income and expenses classified in the investing category;

		e. Profit or loss before income taxes; and f. Profit or loss from continuing operations			
	IFRS 18.119	An entity must presume that a subtotal of income and expenses that it uses in public communications outside its financial statements, communicates to users of financial statements management's view of an aspect of the financial performance of the entity as a whole, unless, applying IFRS 18.120, the entity rebuts the presumption.			
	IFRS 18.120	An entity is permitted to rebut the presumption described in IFRS 18.119 and assert that a subtotal does not communicate management's view of an aspect of the financial performance of the entity as a whole, but only if it has reasonable and supportable information available that demonstrates the basis for the assertion (see IFRS 18.B124-B131).			
774	IFRS 18.121	Does the entity disclose information about management-defined measures that helps users of its financial statements understand both of the following: <ul style="list-style-type: none"> a. The aspect of financial performance that, in management's view, is communicated by a management-defined performance measure b. How the management-defined performance measure compares with the measures defined by IFRS accounting standards 			
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
775	IFRS 18.122	Does the entity disclose information about all measures that meet the definition of management-defined performance measures in a single note including a statement that the management-defined performance measures provide management's view of an aspect of the financial performance of the entity as a whole and are not necessarily comparable with measures sharing similar labels or descriptions provided by other entities:			
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	IFRS 18.B120	Management-defined performance measures relate to the same reporting period as the financial statements. Specifically, a subtotal: <ul style="list-style-type: none"> a. Relating to interim financial statements but not to the annual financial statements can only be a management-defined performance measure in the interim financial statements b. Relating to annual financial statements but not to interim financial statements can only be a management-defined performance measure in the annual financial statements. 			
776	IFRS 18.123 IFRS 18.B134	An entity is required to label and describe its management-defined performance measures in a clear and understandable manner that does not mislead users of financial statements. To provide such a description, an entity must disclose information that enables a user of financial statements to understand the items of income or expense included and excluded from the subtotal. Therefore, does the entity: <ul style="list-style-type: none"> a. Label and describe the measure in a way that faithfully represents its characteristics in accordance with IFRS 18.43 b. Provide information specific to management-defined performance measures – that is: <ul style="list-style-type: none"> ▪ If the entity has calculated the measure other than by using the accounting policies it used for items in the statement(s) of financial performance, does the entity state that fact and the calculations it has used for the measure ▪ If, in addition, the calculation of the measure differs from accounting policies required or permitted by IFRS accounting standards, does the entity state that

777	IFRS 18.B135	To label and describe the measure in a way that faithfully represents its characteristics, does the entity:

		b. Explain the meaning of terms it uses in its descriptions that are necessary to understand the aspect of financial performance being communicated (for example, explaining how the entity defines 'non-recurring expenses')		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
778	IFRS 18.123	For each management-defined performance measures, does the entity disclose:

	IFRS 18.B138 IFRS 18.B139 IFRS 18.B140	▪ A description of how the item is calculated and contributes to the management-defined performance measure providing useful information, if necessary to provide the information required by a. and b. above		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
