

Shape the future with confidence

EY Cyber Performance Management (EY CPM)

Driving the nation's sovereign cyber agenda

The better the question. The better the answer. The better the world works.

AI for cyber | Cyber for AI | One platform for cyber decision intelligence

EY Cyber Performance Management is a modular SecDataOps platform that brings cyber, data and AI signals into one decision intelligence layer. Designed and engineered by EY Cyber AI COE, it helps organizations discover and inventorize assets and bill of materials of all form factors, enumerate and prioritize cyber risk, quantify business impact, remediate accurately and scale AI securely.

AI for cyber

From visibility to action

Connects asset discovery, bill of materials (BOM) intelligence, risk enumeration, prioritization, quantification and remediation into one closed cyber performance loop.

Cyber for AI

From AI adoption to AI trust

Secures end-to-end AI pipeline through governance, semantic classification, LLM firewall and runtime policy enforcement on agents.

The leadership challenge

Tool sprawl, but not enough decision-grade cyber intelligence

Key questions

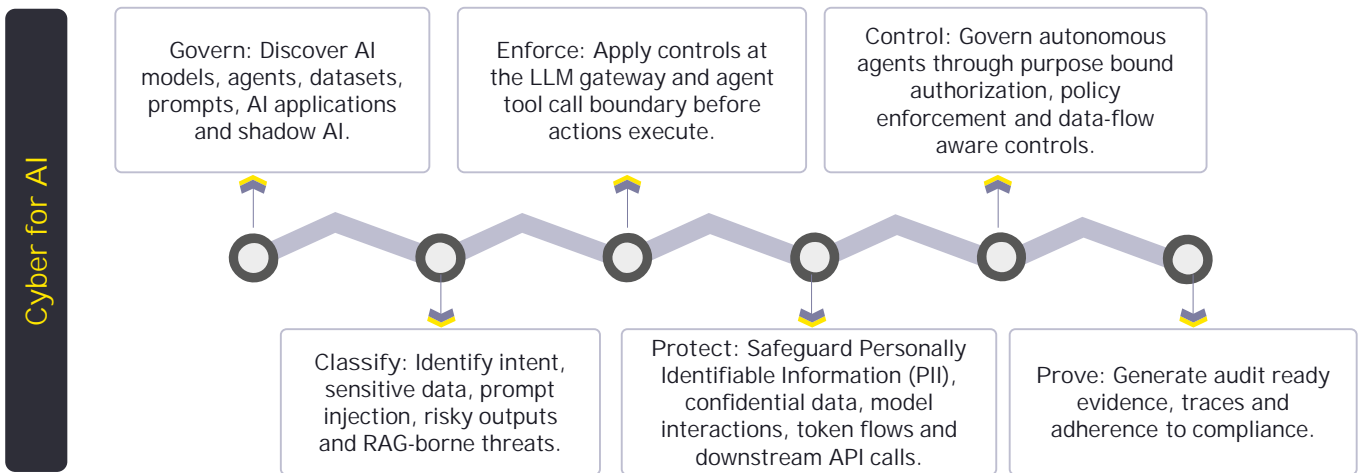

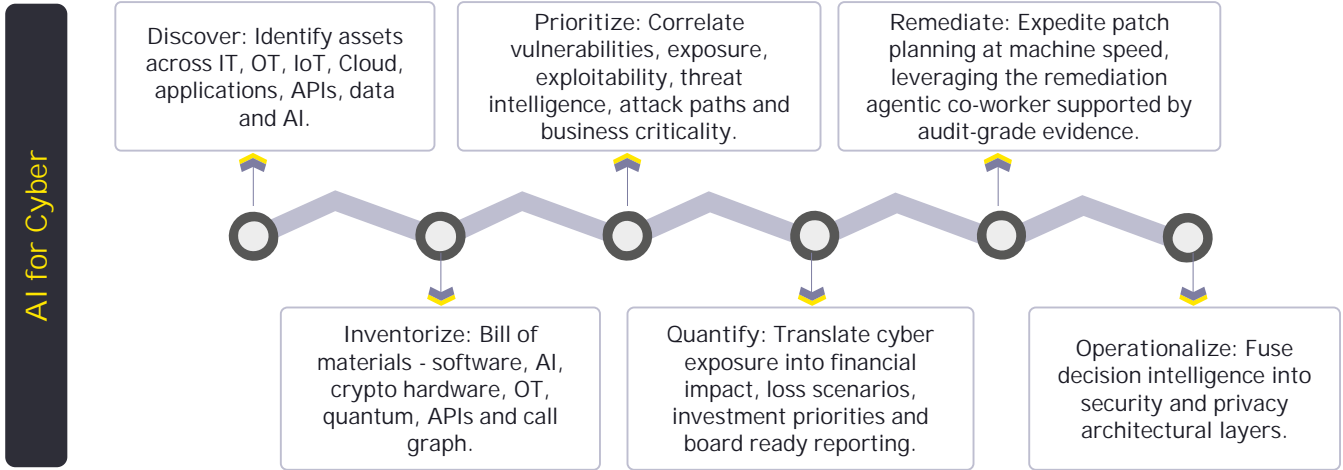

- 01 } Do we have a clear view of what we need to protect across IT, cloud, OT, data and AI environments?
- 02 } What should we fix first?
- 03 } How do we secure, govern and monitor AI assets, models, agents and LLM applications at scale?
- 04 } How quickly can we prioritize, remediate and prove closure before exposure turns into impact?

Underlying challenge

- 01 } Shadow IT and AI assets create blind spots, while fragmented tools prevent a reliable enterprise exposure view.
- 02 } Shrinking time-to-exploit and fragmented risk signals make prioritization difficult and inconsistent.
- 03 } Decentralized AI adoption outpaces governance, creating visibility, control and regulatory compliance gaps.
- 04 } Attackers can rapidly discover and exploit vulnerabilities, making it critical to prioritize, remediate and prove closure before exposure becomes business impact.

EY CPM key outcomes and use cases

Know what you own | Prioritize what matters | Remediate with evidence | Secure AI at scale

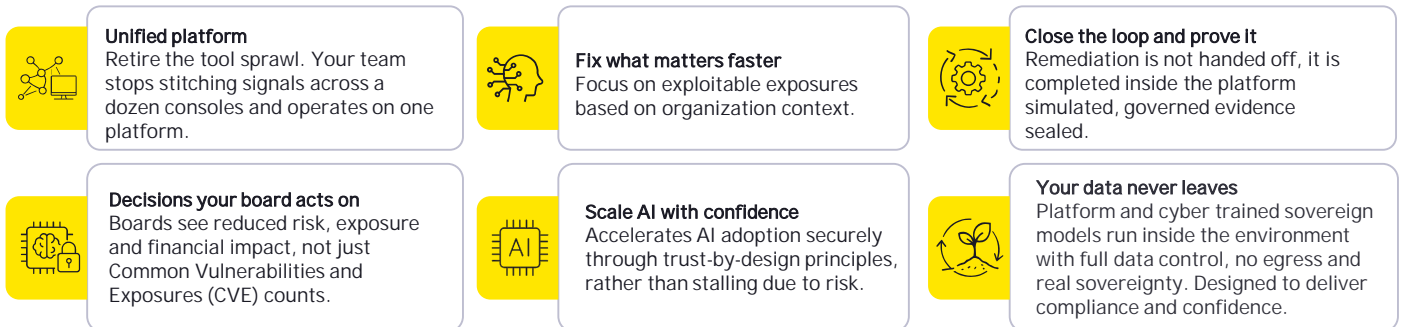

EY CPM portfolio

Asset Discovery | Inventory Insights | RBVM | CRQ | Remediation OS | Device Secure
 AISPM | Thoth | Sphinx | Agent PEP | Agent IAM | Agent PDP | POPM | Trust DLP | Agentic CCM
 Agentic SOC | Data Fabric | Agent Factory
 Sovereign Cyber LLM

Why EY CPM?

From fragmented signals to defensible decisions

| | | | |
|---|---|--|---|
| 45%–60% Total Cost of Ownership (TCO) gains | 50%–65% Improvement in cyber analyst efficiency | ~ 50% Reduction in Mean Time to Respond (MTTR) | 90%+ Regulatory audit readiness |
|---|---|--|---|

Proven impact across industries

| Industry | What is delivered? | Impact |
|--------------------|--|---|
| Financial services | Application Security Posture Management and Continuous Threat Exposure Management (CTEM) | Unified application risk visibility; ~ 50% alert noise reduction; 30% to 50% faster response. |
| Manufacturing | Vulnerability Management and Risk Prioritization program | Risk-based vulnerability prioritization; ~ 50% alert noise reduction; 30% to 50% faster response. |
| IT/ITES | Cyber Risk Quantification (CRO) | Near real time financial risk visibility; improved security investment prioritization. |
| Pharmaceuticals | Unified Inventory (IT, OT), Risk Prioritization and Quantification | Near real time exposure visibility; improved remediation and financial risk prioritization. |

Flexible deployment and commercial model

Accelerate adoption of EY Cyber Performance Management with modular deployment, subscription-based pricing and EY-managed operations

| Minimal deployment dependencies | Visibility in minutes | Critical actions in hours | Production readiness in days |
|--|---|---|------------------------------|
|  Deployment flexibility <ul style="list-style-type: none"> On-premises or hybrid Phased module adoption Low-disruption implementation |  Commercial model <ul style="list-style-type: none"> Subscription-based model Tiered service options EY-managed delivery and support |  Enterprise architecture <ul style="list-style-type: none"> Modular Containerized Ecosystem-integrated | |

Built-in compliance and framework alignment

Built for India. Defensible globally.

| Category | Frameworks and standards |
|-----------------------|---|
| ▶ Indian regulators | CERT-In, RBI, SEBI, DPDPA, IRDAI |
| ▶ Global standards | EU AI Act, AIUC-1, GDPR, ISO 27001, ISO 42001 and enterprise control frameworks |
| ▶ Threat intelligence | MITRE ATT&CK, MITRE D3FEND, OWASP LLM Top 10 |
| ▶ Risk management | NIST CSF, Open FAIR, NIST AI RMF, cyber risk quantification |
| ▶ Security operations | Continuous Threat Exposure Management (CTEM), OCSF, AI Security |

Contact us

Cybersecurity directly shapes business resilience, regulatory confidence and trust. EY CPM helps organizations convert cyber, data and AI signals into measurable cyber performance.
