

Certificate in Finance analytics

[eLearning]

The better the question.
The better the answer.
The better the world works.

Shape the future
with confidence

About the program

In today's dynamic business environment, financial analytics has become a cornerstone for driving organizational success. By combining data, technology, and strategic insights, financial analytics empowers businesses to make informed decisions, optimize operations, and gain a competitive edge.

Our Financial Analytics eLearning Program is meticulously designed to equip participants with advanced financial analytical skills, leveraging the power of cutting-edge tools like Power BI. This program bridges the gap between traditional financial processes and modern analytics, empowering learners to extract actionable insights, create impactful reports and make data-driven decisions that drive business success.

Recognizing the increasing importance of analytics in driving business performance, EY Learning Solutions has developed a comprehensive eLearning program on financial analytics, covering essential aspects of financial data analysis such as budgeting, forecasting, financial reporting, and data-driven decision-making.

By the end of the program, learners will be able to build interactive, real-time dashboards and reports such as:

- Income statement report
- Balance sheet
- Aged trial balance report
- Cash flow statement
- Revenue insight report
- Accounts payable/accounts receivable

Program outcome

Upon completing this Financial Analytics eLearning Program, participants will be able to:

Gain a strong foundation in financial data analysis, reporting and interpretation to support strategic decision-making

Analyze cash flow statements, receivables and payables to optimize liquidity and enable smooth financial operations

Develop and analyze budgets, control costs and optimize financial resources to enhance profitability and operational efficiency

Apply risk assessment frameworks and scenario analysis to identify potential financial risks and develop mitigation strategies

Use financial KPIs, dashboards and visualization tools to interpret key trends, assess financial health and support business growth.

Work with industry-standard financial analytics tools to perform real-world financial data analysis and reporting

Utilize statistical tools, trend analysis and machine learning techniques to anticipate risks and opportunities in financial management

Align financial analytics with business objectives to drive long-term financial sustainability and competitive advantage

Program coverage

Agenda

- Financial reporting and program understanding
- Financial data preparation and transformation
- Financial data modeling and normalization
- Financial metrics using DAX
- Financial report design and dashboarding
- Case study income statement
- Balance sheet analytics
- Cash flow analytics
- Account payables/account receivables

About EY learning solutions

Challenging business environment, with organizational transformation and regulatory change constant features, a flexible and cost-effective workforce is critical. High-quality training is a crucial element of innovative talent management to improve performance so that your teams can respond to today's challenges and are equipped for career success.

We, at EY FAAS, realized this need and accordingly, have set up a dedicated "learning solution" practice to help corporate and practicing professionals deal with new requirements. FAAS Learning Solutions supplements our primary range of services and provides business-specific training solutions for business communities throughout India, Europe, the Middle East and Africa. This is done with the help of a multidisciplinary team of trainers from around the world. As a globally integrated firm, we bring global insight to our training programs.

All training programs are regularly updated to reflect changing trends and guidance. Our practical, relevant and stimulating courses are facilitated by highly competent trainers who have first-hand knowledge of the subject matter. We recognize that each client will have a different history, size, location and sector; therefore, programs can be tailored to specific needs of your business.
