

AI Lab: Transforming ideas into AI solutions

EY

Shape the future
with confidence

How can we help you unlock the potential of AI for your business?

AI Innovation
Center website

The better the question. The better the answer. The better the world works.

About us

At AI Lab, we leverage EY's global use cases across industries to provide innovative AI solutions. By utilizing AI tools and accelerators, we enable fast prototyping for quick results. Our collaboration with local AI expertise combined with EY's global AI experience aims to deliver tailored and impactful solutions to our clients.

AI Lab workflow

Definition

Define the problem, assess AI feasibility and gather data

1

Validation

Finalize and deliver the prototype

3

Check-in

Co-create with our AI resident engineers to bring your vision to life

2

Accelerate your AI prototype

Get your prototype completed in a minimum of two weeks

Leverage EY's AI accelerators on ey.ai sandbox

Bring your own data for customization
