# 1. Introduction, background and circumstances giving rise to the appointments

#### Introduction

On 20 September 2024, the Companies entered administration and Timothy Vance, Alan Hudson and Dan Edkins were appointed to act as Joint Administrators. The Companies ceased to trade on the same date.

This document, including its appendices, constitutes the Joint Administrators' statement of proposals to creditors for achieving the purpose of the Administrations pursuant to paragraph 49 of Schedule B1 to the Insolvency Act 1986 and Rule 3.35 of the Insolvency (England and Wales) Rules 2016.

Certain statutory information relating to the Companies and the appointments of the Joint Administrators is provided at Appendix A.

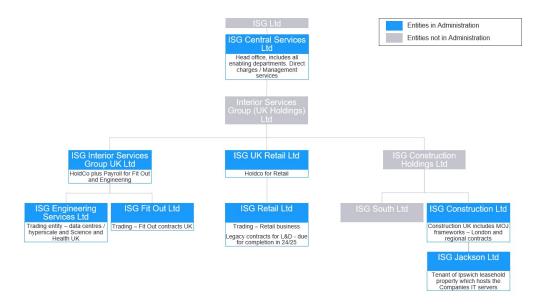

#### **Background**

All of the Companies are part of the ISG Group which includes ISG Limited and its subsidiaries ("the Group"). The Group is an international construction services company operating in the United Kingdom, Europe, Asia and the Middle East. Across these jurisdictions, the majority of the Group's operations are focused in the United Kingdom.

The UK entities within the Group ("the UK Group") operated out of multiple office locations (alongside temporary project accommodation and storage units) with the head office being at Aldgate House, 33 Aldgate High Street, London, EC3N 1AG, which was also the former registered office of the Companies. Other significant offices were located in Ipswich, Bradford, Bristol, Reading, Whitstable, Manchester, Glasgow, Cardiff and Birmingham. The Group also had 14 offices across Europe and the Middle East through its overseas subsidiaries.

The Group was one of the largest construction contractors in Europe with annual global revenues in excess of £2 billion. The Group was also a significant provider of construction related services to the UK Government and a large provider to the Ministry of Justice, primarily in respect of the construction of prisons.

#### Simplified group structure

#### **Business model**

The Group's operational model was split into four distinct divisions, being:

- Fit Out;
- Construction;
- Retail; and
- Engineering: Datacentres and Hyperscale.

The Group provided a broad range of services across a large portfolio of high-profile clients in both the public and private sectors. The Group's Construction and Fit Out divisions provided services primarily across the following sectors:

- Central and Local Government: through the Group's frameworks, they delivered a range of schemes including educational spaces, offices, leisure centres, defence, justice and emergency services facilities, and health and community projects.
- ▶ <u>Education</u>: the Group worked with its clients across schools, colleges and universities to create facilities and spaces for leading institutions.
- Real estate and development: the Group delivered new builds, complex refurbishments and high-quality spaces across a range of projects such as office space, retail outlets and high-tech manufacturing facilities.
- ▶ Private sector office fit out: the Group delivered workplace interior solutions in new or refurbished office buildings at the start of long-term tenancies to meet the unique requirements of the occupier.

The Retail division was the contractor on seven key private frameworks, and also provided comprehensive construction solutions across a range of sectors in the UK, with a significant public sector focus catering to Local and Central Government departments through six

national and five regional frameworks. The division also incorporated Logistics & Distribution, focused on logistics and warehouse facilities for developers and occupiers.

Both the Datacentre and Hyperscale offerings formed the Engineering division. The division engaged solely with private customers, with ISG being one of the top five contractors in the UK carrying out Engineering projects at a large scale.

#### Summary of each of the Companies

The Companies employed 2,380 people across the UK (a breakdown per entity is detailed below). Each of the Companies undertook specific roles within the Group as follows:

**ISG Central Services Limited**: this company employed 375 staff at the date of appointment and maintained the head office function for the Group. It provided the other Companies with enabling services, management services and operated Group payroll. It was the main tenant in respect of leasehold properties at Aldgate (London), Manchester, Cardiff, Reading and Whitstable.

**ISG Construction Limited**: this company employed 879 staff at the date of appointment and was one of the most prominent construction services providers in the United Kingdom. It was operationally split across three regions being London, Southern England and Northern England. The construction business provided construction services from planning to completion of projects to private customers but also had a significant public sector focus catering to both central and local government.

**ISG Engineering Services Limited**: this company engaged with its clients to provide engineering services, primarily in respect of projects concerning data centres and health and science facilities. This company did not directly employ any staff. The staff working for the company were employed by ISG Interior Services Group UK Limited, the company's immediate parent.

**ISG Fit Out Limited**: this company was the market leader in offering fit-out services across the United Kingdom. The business was split across two principal services, being Major Projects (such as large corporate fit out projects) and Agile projects (being smaller scale projects and retrofits). This company did not directly employ any staff. The staff working for the company were employed by ISG Interior Services Group UK Limited, the company's immediate parent.

**ISG Interior Services Group UK Limited**: this company employed 729 staff at the date of appointment and was the parent company of both ISG Engineering Services Limited and ISG Fit Out Limited. It was the employer of the staff for these companies; operating their payroll. This company also provided support functions such as procurement, project management and commercial design.

**ISG Jackson Limited**: this company occupied premises in Ipswich (as tenant under a lease) where the Group's IT systems and servers are located. This company did not directly employ any staff.

**ISG Retail Limited**: this company employed 397 staff at the date of appointment and led the retail and hospitality customer business of the Group in the United Kingdom, providing services across both the public and private sector. The division also incorporated logistics and distribution, which was previously a standalone division, and was focused on delivering high quality logistics and warehouse facilities for developers and occupiers. ISG Retail Limited was also the main tenant in respect of the Bristol leasehold property.

**ISG UK Retail Limited**: this company was the immediate parent of ISG Retail Limited. This company was the main tenant in respect of leasehold properties in Huntingdon, Whitstable and Chorley; and did not directly employ any staff.

A summary of the draft statutory accounts for FY23 for each entity in administration has not been presented in the tables below because group recharges had not been confirmed at the time of our appointment. However, at a consolidated ISG Group level, the draft FY23 statutory accounts showed turnover of £2.2 billion and a net loss after tax of £133m. This loss included significant asset write downs of £148m in relation to contract losses. Losses have been driven by legacy losses on a number of material construction contract in prior years coupled with the Groups decision to exit the Logistics & Distribution business and crystallise contract losses on several large contracts in that division.

The recent financial results of the Companies can be summarised as follows:

#### ISG Central Services Limited

Period year or period ended	Type audited / draft	Turnover £000	Gross profit / (loss) £000	Gross profit %	Directors' remuneration £000	Net profit/ (loss) after tax £000

## Circumstances Giving Rise to the Appointment of the Administrators

The ultimate beneficial owner of the Group is William Harrison, an American businessman, through his holding in Cathexis Holdings LP. Cathexis Holdings LP's subsidiary, Cathexis UK Holding Ltd ("Cathexis") is the immediate parent company of ISG Limited. Cathexis purchased the shares in ISG Limited in 2016, taking the Group private following its listing on the AIM. At the time of the purchase, the Group had suffered a prolonged period of financial difficulties and inconsistent results. However, reported financial results began to improve following the acquisition with increased revenue and profitability.

Following a period of steady growth, the Group's revenue fell sharply in the year to 31 December 2020 (to £2 billion from £2.6 billion in the prior year), primarily as a result of the Covid-19 pandemic. Construction sites were forced to close, and many projects were put on hold or had start times delayed due to the uncertainty brought about by the pandemic.

More recent increases in rates of inflation, caused in part by the pandemic as well as geopolitical developments such as the war in Ukraine, adversely affected the economy and in particular the construction sector, in the form of increased costs, availability of materials and trading uncertainty.

Since 2020, the Group's trading and cash performance was also impacted by legacy issues relating to large loss-making contracts in high-rise residential projects where significant additional time and higher costs were required to deliver projects.

Whilst the Group sought to recover these additional costs through claims to customers on projects where difficulties had been experienced, the quantum was significant, with over £100m in dispute and being pursued by late 2023.

As a result of the failure of some significant main contractors during the course of 2023, the bonding market in the construction industry became constrained, limiting the availability of surety bonds. This meant that it was either more expensive or not possible for the Group to procure performance bonds for certain projects, adversely affecting the Group's profitability whilst also delaying the start of certain projects. In addition, the Group was also required to provide cash-backed bonds for certain projects which further exacerbated existing liquidity issues.

Difficulties were also encountered in relation to the commencement of two specific large projects valued at an aggregate total of £900m. The Group was engaged to commence the construction of Powered by Britishvolt's ("PbBV") £3 billion gigafactory in Northumberland. The project was worth approximately £300 million to the Group and was due to be delivered in 2027. However, PbBV entered into administration in January 2023 and this project did not proceed. The Group was also engaged to construct new large-scale film production facilities in Hertfordshire, Sunset Studios, valued at £600m. This project was paused, and the combined impact of these projects not proceeding as expected negatively impacted cashflow and profitability.

In October 2023, a winding up petition was filed against ISG Construction Limited in relation to an unpaid supplier balance of c.£70,000. Whilst the Group made an immediate payment to discharge the debt, a material credit insurer removed its cover for multiple suppliers as a result of the petition. These events led to negative market speculation regarding the Group's financial stability, which in turn led to many suppliers and creditors narrowing their credit terms.

In response to this increased liquidity pressure, the Group requested and was granted a Time to Pay Arrangement ("TTP") by HMRC in the sum of £60 million in relation to VAT liabilities owing at the end of October 2023.

Subsequently, with the Group's forecast liquidity position deteriorating compared to previous forecasts, the Group requested a revised TTP from HMRC in January 2024, recognising that the Group was in need of a material recapitalisation, a strategy was commenced to deliver

this through i.) a sale of the Fit Out division in order to recapitalise the remainder of the Group or ii.) a refinancing of the Cathexis Group which was intended to result in the required funds being injected into the ISG Group.

Following further discussions with HMRC, a revised TTP was agreed in February 2024, with the outstanding VAT liabilities of £60 million to be reprofiled at £5 million per month over the 2024 calendar year with the final instalment due on 31 December 2024. In the event that a recapitalisation of the Group was achieved before this, the TTP would be repaid in full via a 'bullet' repayment of the outstanding balance due at the date of recapitalisation.

#### Marketing of the Fit Out Division

In March 2024, the Group embarked on a process to sell the UK Fit Out division, supported by the EY M&A team, with an initial list of 173 potential buyers identified, comprising a mix of UK private equity, UK and overseas trade purchasers.

An initial outreach was made to a shortlist of 33 private equity parties.11 parties expressed an interest, signed an NDA and received a copy of the information memorandum.

Whilst one non-binding offer was received in late March 2024 that had the potential to achieve the recapitalisation, it was highly conditional and was subject to due diligence being conducted as well as complex separation issues being required to be resolved.

## Proposed solvent sale to an overseas buyer

The Fit Out marketing process was paused in April 2024 when an offer was received by Cathexis for a solvent sale of the entire share capital of the ISG Group to overseas investors. The investors included Andre Redinger (a South African national) and James Overton (an Australian national).

These overseas investors proposed to acquire the shares via a subsidiary of Antipodean Holdings Limited ("Antipodean"), a UK registered company incorporated for the purposes of the proposed acquisition.

An exclusivity agreement was executed and detailed due diligence was commenced by Antipodean, supported by its professional advisors.

Cathexis and the management team of the Group were informed by Antipodean and its advisors that it had access to the required funds both to pay the purchase price and meet the Group's significant working capital requirements going forward and representations were made to this effect.

The buyer sought National Security and Investment Act clearance from the UK Government on the basis of the proposed transaction and its terms and received the required clearance.

During June and July 2024, legal documentation was advanced and preparations were at an advanced stage with regard to the required release of security by Cathexis' secured lenders to enable the transaction to take place.

Subsequently, Antipodean informed Cathexis it was encountering difficulties in transferring funds from South Africa into the UK, citing regulatory approvals in South Africa and banking process related delays, but maintaining its commitment to concluding the transaction.

During the week commencing 2 September 2024, Antipodean reduced its offer for the purchase price to £1 but maintained the commitment to advance funds into the Group to meet its working capital requirements.

This offer was confirmed as acceptable by Cathexis (as shareholder) given there were no better alternative options immediately available and it would provide a solvent outcome for the Group's creditors.

At Antipodean's request, further diligence was carried out by its advisors to assess the working capital requirements of the Group and discussions continued between Cathexis and Antipodean during the week commencing 9 September 2024 to seek a conclusion to the transaction.

Whilst this diligence was conducted, Cathexis made multiple requests of Antipodean to provide satisfactory evidence that it had the funds available in the UK to conclude the transaction and to meet the immediate funding requirements of the Group, however Antipodean was unable to do so.

On 17 September 2024, Cathexis alerted the Group that the proposed transaction would not be able to continue to be pursued.

#### **Accelerated Marketing Process**

Due to the lack of satisfactory progress, during the week commencing 9 September 2024, urgent consideration was given as to whether there would be any other viable third parties that may be willing to acquire the Group (or part of the Group) solvently on a going concern basis or acquire the business and assets of certain entities within the Group.

As part of this process, the Group approached the interested party who had made a non-binding offer in the previous marketing process, who again expressed interest in progressing an acquisition of ISG Fit Out Limited. The interested party initially considered the possibility of acquiring ISG UK Fit Out Limited's shareholding in ISG Fit Out Limited, but subsequently determined that this was not a viable option as ISG Fit Out Limited had given guarantees in respect of certain construction contracts on behalf of other Group entities. As a result, the interested party considered purchasing the business and certain assets of ISG Fit Out Limited instead.

After an accelerated due diligence process, the interested party elected not to proceed with the acquisition (confirmation of this was received on 18 September 2024). This was in a large part due to the uncertainty as to whether certain contracts would be successfully novated to the buying entity, as well as the material working capital required to fund the Fit Out business.

Other potentially interested parties were approached on an urgent basis thereafter but this process did not result in a buyer being identified who was willing and able to proceed with an acquisition on a going concern basis within the timeframes required.

Cathexis confirmed to the Group that there was no prospect of its own refinancing process providing further funding to the Group in the near term and no further funds available as an alternative source of liquidity.

The Group's liquidity position was significantly stretched and pressure from creditors was increasing.

Accordingly, the Directors of the Companies, aware that the Companies could not pay their debts as and when they fell due, applied to Court for an Order to place the Companies into Administration. This order was granted on 20 September 2024.

#### EY introduction to the Companies and work undertaken pre-appointment

The issuance of a winding up petition and the subsequent removal of credit insurance in October 2023 (as noted above) prompted the Group to seek advice from EY regarding the Group's liquidity position.

On 10 October 2023, an engagement agreement was signed by Cathexis Holdings GP LLC with EY Americas for a cash flow forecast review, business review and refinancing support at parent company level. This scope was extended on 19 October 2023 to include liquidity

advice, stakeholder management advice, cash flow monitoring and assistance with negotiating a TTP arrangement for the ISG Group.

EY was subsequently engaged to assist with the sale of ISG Fit Out Limited in March 2024. As referenced above, the EY M&A team were involved in negotiations with a potential purchaser of the company before this sale process was paused in favour of pursuing a sale of the Group as a whole.

EY continued to support Cathexis in respect of a sale of the Group. At the same time, preliminary contingency planning, including discussions with UK Government in respect of contracts in which they had an interest, was commenced.

In early September 2024, when it became apparent that a successful sale of the Group was going to be challenging, comprehensive contingency planning for an insolvency of the Group was undertaken. This included making plans to ensure that ongoing project sites could be made safe and transferred to new contractors (for value where possible) or back to customers, exploring sales of certain entities within the Group and in particular a sale of both the shares and subsequently the business and assets of ISG Fit Out Limited, and finally, preparing for certain entities to enter an insolvency (Administration) process.

Ultimately, a sale of ISG Fit Out Limited, its business and assets, or any other going concern sale of any Group division could not be achieved due to the level of indebtedness across the Group, including significant and material cross guarantees and the significant sums due to HMRC under the group VAT registration for which all entities registered for VAT were jointly and severally liable for.

Pre-Administration costs have been incurred by the Joint Administrators prior to the Companies entering Administration. Please refer to Section 6 of these Proposals for further details.

# 2. Purpose, conduct and end of the Administrations

#### **Purpose of the Administrations**

The purpose of an Administration is to achieve one of three objectives:

- a. To rescue the company as a going concern
- b. To achieve a better result for the company's creditors as a whole than would be likely if the company were wound up (without first being in Administration)
- c. To realise property in order to make a distribution to one or more secured or preferential creditors

Insolvency legislation provides that objective (a) should be pursued unless it is not reasonably practicable to do so or if objective (b) would achieve a better result for the company's creditors as a whole. Objective (c) may only be pursued if it is not reasonably practicable to achieve either objective (a) or (b) and can be pursued without unnecessarily harming the interests of the creditors of the Companies as a whole.

It was not possible to pursue objective a) to rescue the Companies as a going concern given the significant cash flow issues and loss-making position of the Companies' main contracts. Therefore, the Joint Administrators are pursuing objective b) in respect of all the Companies, to achieve a better result for the Companies' creditors as a whole than would be likely if the Companies were wound up (without first being in administration).

If objective (b) proves to be unachievable in respect of one or more of the Companies, the Joint Administrators would seek to pursue objective (c) for the Company concerned, realising assets in order to make a distribution to one or more secured or preferential creditors.

#### **Conduct of the Administrations**

The Joint Administrators concluded that it would not be possible to trade the Companies in Administration because:

- ▶ there was insufficient funding available to enable the Companies to meet immediate ongoing operating costs and unwind the material working capital stretch; and
- given the extensive sale process already undertaken prior to the Administrations, it was unlikely that continuing to trade would result in the sale of any of the Companies' business and assets as a going concern.

Therefore, the Companies ceased to trade on 20 September 2024 and unfortunately, this resulted in the immediate redundancy of 2,164 employees. The redundant employees have been assisted with making claims to the Redundancy Payments Service.

Due to the size of the Companies' operations, 216 employees were initially retained to assist the Joint Administrators with asset realisations, an orderly wind down of the Companies' activities and the preservation of financial and trading records in order to achieve the objectives of the Administrations. As the various Administration workstreams naturally come to an end, employees are being made redundant by the Joint Administrators at the appropriate time.

We set out below the key activities that have been pursued by the Joint Administrators following their appointment.

## Cash on appointment

Six of the eight companies held cash at appointment and a total of £23.4m was secured immediately on appointment for the benefit of the Administration estates, as follows:

Company	Cash balance
ISG Central Services Limited	£1,454,516
ISG Construction Limited	£8,304,356
ISG Engineering Services Ltd	£2,318,463
ISG Fit Out Limited	£8,807,783
ISG Interior Services Group UK Limited	£91,098
ISG Jackson Limited	£ -
ISG Retail Limited	£2,426,929
ISG UK Retail Limited	£ -
Total	£23,403,145

#### Live construction sites at the date of appointment

Across ISG Engineering Services Limited, ISG Fit Out Limited, ISG Retail Limited and ISG Construction Limited, there were approximately 100 live construction sites and approximately 500 live fit out and retail sites being worked on. The main focus of the Joint Administrators with regards to these sites was to ensure that all relevant sites were closed down in a safe and secure manner, in line with standard construction and health and safety protocols. We can confirm that this has been achieved and that all sites have been handed back to the relevant customers.

#### **Contracts**

Following the Joint Administrators' appointment on 20 September 2024, we have worked with the Companies' staff and quantity surveyor agents to establish a detailed analysis of Contract book debts across the four main trading entities which is summarised below:

£m	Fit Out	Construction	Retail	Engineering
Balance Type:				
Contract Debtors	56.1	43.4	28.6	17.7
Contract Retentions	22.0	33.5	10.9	18.0
Accrued Revenue/WIP	41.4	36.3	18.9	20.5
Total Revised Book Debts	119.5	113.2	58.4	56.2
Live Projects No.	20	73	86	5
Completed Projects No.	73	115	341	10
Value Realised to Date	1.9	3.2	4.5	1.1

Given the contractual nature of the Companies' principal activities, we appointed Naismiths Limited ("Naismiths"), a national firm of specialist quantity surveyor agents, to assist us in assessing the contract balances and realising value from live and completed contracts predominantly held in four main trading entities of; ISG Fit Out Ltd ("Fit Out"), ISG Construction Ltd ("Construction"), ISG Retail Ltd ("Retail") and ISG Engineering Services Ltd ("Engineering"). With the assistance of Naismiths, we have utilised retained personnel of the Companies for their historic knowledge of the projects and existing relationships with the clients.

The Companies had a total of c.723 projects at the date of Administration comprising c.539 completed projects (i.e. where practical completion had been achieved and a retention balance is outstanding) and c.184 live projects (either in progress or pre-construction phase).

There were a number of live projects where the Companies had undertaken work since the last application date and we have worked with our agents and retained staff in the weeks immediately following our appointment to ensure that this value is identified and pursued.

Initial contact has been made with all clients to set out our understanding of the contractual position and inviting them to enter into a commercial dialogue around early settlement. This has seen a mainly positive uptake to date, particularly where clients have need to prioritise the continuity of works on their relevant projects and avoid the adverse consequences to themselves and the supply chain of works being paused for a prolonged period.

We are also open to negotiating early settlements with clients on contracts that have reached practical completion and have retention balances still to be realised.

As expected, our initial correspondence has also led to a number of Termination Notices ("TN") and Pay Less Notices ("PLN") being issued by clients. This is standard practice within the sector but has not precluded us from subsequently achieving mutually beneficial settlements as set out above.

#### Fit Out

Fit Out contracts primarily relate to large scale interior development of empty spaces or refurbishment of sites into useable commercial, retail, banking and public sector spaces.

At the date of appointment, there was approximately £119.5m of contract value across 20 live contracts and 73 completed contracts as set out in the table above. To date, we have achieved settlements of c.£1.9m with 10 clients.

As set out above, it is common in a construction insolvency for clients to withhold payment of sums due until the end of the defects period and after a notional final account has been prepared. In respect of Fit Out, defect periods have expiry dates ranging from October 2024 to November 2026 and consequently the collection exercise is expected to run over an extended period.

With the assistance of former ISG staff, who will continue to be consulted over the contract realisation period, and Naismiths, we will continue to pursue outstanding balances and seek to negotiate early settlements where possible.

#### Construction

Construction was responsible for the design and build of large and complex projects across the UK across the public and private sectors.

On appointment, there was approximately £113.2m of contract value across c.73 live projects and c.115 completed projects as set out in the table above. Of these projects, c.60 relate to public sector frameworks, primarily for the construction of schools and prisons, whilst the majority of the remaining contracts relate to private sector clients. To date we have achieved settlements of c.£3.2m with 7 clients.

The nature of the Construction contract portfolio has meant that there have not been the same level of opportunities to leverage early settlements, nonetheless we have achieved some settlements on completed contracts with others close to being finalised.

In one particular situation, we have been able to assist the client through novating the supply chain to an alternative contractor and facilitating the payment of arrears to the supply chain with funding being provided by the client. This has also enabled an outstanding application to

be paid to Construction that would otherwise have been withheld until practical completion had been achieved and ultimately may not have been recovered at all.

#### Retail

The Retail business delivered a higher volume of smaller value projects in comparison to the other business units, focused around seven key framework agreements with five UK high street banks and two large UK retailers. The projects carried out primarily consisted of fit-out of high street bank branches, supermarket and other retail stores and a small number of public sector projects.

At the time of appointment there were 86 Retail projects in progress and a further 326 completed projects where amounts remained potentially recoverable from the customer in respect of invoices, retentions or work in progress. Of these 412 projects, 356 were contracted under the seven key framework agreements and the remaining 56 were individual contracts with smaller customers in both the commercial sector and the public sector.

Invoices of £24.8m were outstanding at the date of appointment and all have been chased for payment by the Administrators and the retained accounts receivable team. This has resulted in recoveries of £4.4m to date from five different customers. However, most Retail customers have issued TNs and/or PLNs against outstanding invoices or have placed an interim hold on all payments to ISG which has restricted further recoveries to date. Together with our legal advisors and Naismiths, we are reviewing the TNs and PLNs received for their validity and will challenge them where appropriate.

Naismiths are assisting in the recovery process and given the large volume of projects within Retail have carried out an extensive exercise to understand the position across the various projects. They have made initial contact with all Retail customers to pursue amounts due in respect of invoices, retentions or work in progress however the majority of projects are subject to a three month accounting period to finalise the position on the project, and it is expected that most customers will utilise this period fully before settlements can be agreed.

#### Logistics & Distribution ("L&D")

L&D operated via the Retail entity, however the L&D business was involved with a smaller number of high value projects in the construction of logistics and distribution centres for large retailers, logistic companies and property developers.

At the date of appointment there were no live projects under construction, however amounts were considered due or recoverable from 15 L&D completed projects via outstanding invoices (£2.8m), retentions (£8.2m) or unbilled work in progress (£1.7m).

The outstanding book debts of £2.8m related to four different contracts. There are ongoing disputes to be resolved on all four of these contracts and therefore no realisations have been made in the Administration to date in respect of the book debts. The only realisation within L&D has been a recovery of £60k which relates to an amount awarded under a Court Order (in relation to an award of legal expenses).

Final accounts and making good defects certificates are also yet to be agreed on 10 of the 11 other projects. Retained employees of the L&D business have been assisting the Joint Administrators in this regard since the date of appointment by carrying out site visits and meetings with customers. One customer has agreed a final account and issued the making good defects certificate and the invoice of £35k will be issued on receipt of the purchase order from the customer.

Discussions with customers in respect of all of the contracts are ongoing and Naismiths are also assisting in the process. Three of the 15 contracts are subject to legal dispute and are likely to be included in the portfolio of claims referred to below.

#### **Engineering**

Engineering undertook some of the largest contracts in the Group, comprising primarily Datacentres and Hyperscale projects for private sector customers.

At the date of appointment, there was approximately £56m of contract value across five live contracts and 10 completed contracts as set out in the table above. To date, we have achieved a settlement of £1.1m with one of the clients.

There are a number of both live and completed contracts that are subject to disputes and these also form part of the portfolio of claims that we are assessing for inclusion in the portfolio of claims to be pursued through litigation funding.

#### Claims and litigation funding

The Group was involved in a number of claims prior to our appointment, primarily in relation to completed contracts. Following our appointment, together with our legal advisors, we have reviewed the claims and identified a portfolio of claims that we intend to pursue in the Administrations. This comprises not only claims that were being pursued prior to our appointment but also contractual amounts due to the Group which are being withheld due to the Group's insolvency but where we believe there is a strong case to adjudicate and subsequently enforce the adjudication or litigate.

Whilst there are significant cash balances held within the various Group companies to fund the pursuit of these claims, we are in discussions with a number of specialist litigation funders to provide funding which will avoid the need to utilise the existing cash resources held by the Group. The portfolio is of a quantum and quality that is proving to be an attractive proposition for funders. A proportion of these costs would be capable of being claimed from the counterparty in the event that we are successful and should provide a further incentive for them to engage in meaningful settlement discussions.

We have also spent the weeks following our appointment with the Group's legal and commercial teams preparing the relevant information and documentation packs for these claims and will have access to key staff through formal and informal consultancy arrangements going forward to pursue these claims rigorously.

In addition to litigation funding, we will also be entering into discussions with After the Event ("ATE") policy providers in order that we can also respond to any adverse costs security concerns of the counterparties.

#### **Properties**

Across the United Kingdom, the Group operated from 12 office locations under lease arrangements. The Joint Administrators, in conjunction with their legal advisors, Pinsent Masons LLP, have worked to vacate all properties, except for the site in Ipswich housing the Group's IT servers, in order to reduce costs in the Administrations.

Certain sites were maintained for a limited period post appointment in order to assist in achieving the purpose of the Administrations by way of, for example, maximising debtor realisations. Where sites have been retained in the post appointment period, the Joint Administrators have taken steps to renegotiate rental terms in order to reduce the overall administration expense.

The Group had six subtenants across five leasehold properties at the commencement of the Administrations. The Joint Administrators have taken steps to collect sums due from subtenants and to terminate subleases where appropriate. One subtenant remains at the Ipswich site. Rent from the subtenant in Ipswich is mitigating an element of the overall cost of retaining this site.

There are a number of leased properties whereby the liability for Non-Domestic Rates has been paid in advance for a full year, and the Joint Administrators are in communication with the relevant Local Authorities to recover these sums, which are expected to total c.£300k.

#### Office furniture and equipment

The Companies owned a quantity of office furniture and IT equipment. The Joint Administrators engaged Hilco Appraisal Limited ("Hilco") to market and sell these assets. A number of these assets were sold in October 2024, realising a total of £125k and Hilco, who are acting as sales agents, have passed the net proceeds over to the relevant Administration account(s). There are no further realisations expected from this asset class.

#### International entities

There are significant co-dependencies across the Group between the UK entities in Administration and other entities in international jurisdictions; in particular with reference to IT and data systems, employees and insurance facilities. The Joint Administrators have taken steps to:

- recover costs incurred by the Companies for services that are used by non-filed international entities;
- ▶ reduce or stop the reliance certain entities had on the Companies; and
- maintain certain critical infrastructure for non-filed entities where it is anticipated that doing so is likely to be beneficial to the Companies' estates by virtue of either preserving value in material intercompany debts due from non-filed entities, or through recharges for services provided.

There are also total net receivables due from Group companies of £252m. The Joint Administrators are assessing the recoverability of these balances and are taking steps to preserve value where necessary such as supporting solvent sales of entities that are able to continue to trade as a going concerns.

#### **Employees**

As noted above, the Joint Administrators were required to make the majority of staff redundant on the date of appointment; retaining 216 key staff to assist in facilitating an orderly wind-down of the Companies, and to maximise asset realisations.

The 216 retained employees have been primarily focused on the recovery of debtor receipts and maintaining critical central services including finance, IT, HR and payroll to assist with the orderly wind down of the Companies. The requirements of the Administrations have been, and continue to be, regularly reviewed alongside workforce levels to ensure that they are aligned.

Since 20 September 2024, there have been a further six rounds of redundancies, resulting in there being 22 employees retained across ISG Interior Services Group UK Limited, ISG Construction Limited and ISG Central Services Limited, as at the date of these Proposals.

The Joint Administrators' specialist Employee Relations Team have undertaken substantial work dealing with both the redundant and retained staff, including:

- Organising and delivering six rounds of redundancies for c.2,300 employees and providing the requisite paperwork to employees via email and post. They also liaised with the RPS and Department for Work & Pensions to ensure relevant information is provided to employees;
- Calculating and providing the requisite claim information to the RPS via the RP14 and RP14A forms (forms used by the RPS to process claims for redundancy

payments, unpaid wages, holiday pay, and other entitlements) and updating the employees as to what may be claimed per their employer's records;

- Writing and issuing a number of Frequently Asked Question updates to redundant and retained employees;
- ▶ Dealing with a significant number of employee's enquiries in relation to their preferential or unsecured claim, including bonus queries, number of days of holiday accrued and untaken, and monies owed to their employer. This has included liaison with the RPS as to validity of claims and updating the RPS with revised RP14As;
- ► Preparation and submission of RP15 and RP15A forms to the RPS for the pension provider, and discussions with the RPS on what can be claimed;
- Daily calls with the Companies' retained HR and payroll teams;
- Organising the issuance of P45 forms to c.2,300 employees (forms issued by the employer providing details about the employee's earnings and the taxes that have been deducted during the tax year up to the date of redundancy);
- ▶ Dealing with a significant number of Protective Award claims, and providing consent and updating the Tribunal; and
- Reviewing and organising payment of payroll and ongoing benefits for retained employees.

#### Suppliers and data retention

Shortly after the appointment, the Joint Administrators took steps to secure the Companies' IT infrastructure, network and cloud platforms, in order to preserve the integrity and security of electronic data held. The Joint Administrators have an obligation to retain certain categories of data (including HR, legal and finance) where it is proportionate and reasonable to do so. They also have an interest in retaining other categories of data (e.g., project specific) which can assist with the wider Administration strategy and asset realisation.

The Companies' IT infrastructure is highly complex, with over 150 unique suppliers and software providers which are either bespoke to the Group or irretrievably integrated into various applications. From an initial review, the Companies hold close to 800 terabytes of data, which is extensively co-mingled between the various entities within the Group, including the international subsidiaries.

The Joint Administrators have taken steps to preserve relevant categories of data and terminate services which are no longer required, in order to reduce costs to the Administration estates. Payment undertakings have been provided to seven key suppliers to ensure continuity of services whilst the data extraction process is ongoing.

Given the dependence by the international offices on the Companies' IT infrastructure, the Joint Administrators have negotiated a contribution to costs with three entities whilst they build their own IT infrastructure and transfer their data to new environments.

Once the data preservation work is complete, steps will be taken to decommission the Companies' IT infrastructure, delete the remaining data and securely dispose of the physical IT equipment.

#### Administrators' receipts and payments

A summary of the Joint Administrators' receipts and payments for each of the Companies for the period from 20 September 2024 to 1 November 2024 is attached at Appendix D.

## Approval of the Administrators' Proposals

The Joint Administrators are of the opinion that the Companies have insufficient property to enable a distribution to be made to unsecured creditors. This is due to the Companies forming a VAT group and therefore being jointly and severally liable for a preferential VAT liability totalling c.£ 87m against expected asset realisations across the Companies of c.£35m per the directors' Statements of Affairs.

Consequently, in accordance with the provisions of paragraph 52(1)(b) of Schedule B1 to the Act, the Joint Administrators do not intend to seek a decision of the creditors on the approval of the Proposals.

The Joint Administrators will be obliged to seek a decision of the creditors of a particular company if requested to do so by creditors of that company (legal entity) whose debts amount to at least 10% of the total debts of the company. The request must be delivered within eight business days of the date on which these Proposals are delivered to creditors (or such longer period as the court may allow) and must include the information required by Rule 15.18 of the Insolvency (England and Wales) Rules 2016.

In accordance with Rule 15.19 of the Rules, the Joint Administrators may require a deposit as security for payment of the expenses associated with convening a decision procedure or deemed consent procedure and will not be obliged to initiate the procedure until they have received the required sum.

#### **Future conduct of the Administration**

The Joint Administrators will continue to deal with the Administrations in line with the stated objective, namely, to achieve a better result for the Companies' creditors as a whole than would be likely if the Companies were wound up (without first being in Administration).

Future tasks will include, but may not be limited to, continuing to realise the Companies' assets (as set out on the previous pages) and taking all such steps that the Joint Administrators deem appropriate as set out below.

#### Realising value from the contracts

- ► Continue to collate and preserve any required information that will assist in future settlements of contract debts and the pursuit of claims through legal action;
- ► Finalise commission arrangements for Naismiths for providing advice and assistance with the collection of the contract debts
- ► Negotiate contracts settlements with advice and support from our advisers, Naismiths and Pinsent Masons;
- ► Conclude the selection of a litigation funder and ATE policy provider to provide a funding facility and insurance respectively to enable claims to be pursued through litigation; and
- ► Finalise consultancy arrangements with key former ISG employees to support the pursuit of a portfolio of claims through litigation if required.

#### **Employees**

- ► Continue to deal with gueries from redundant and retained employees:
- ▶ Respond to future Protective Award claims of which we expect to receive a significant number; liaise with the Tribunals to assist the progression of these claims; and update the Redundancy Payment Service once judgments are received;
- Continue to pay retained employees; deal with ongoing benefits; and close down each employers payroll;

- ▶ Undertake final redundancies of retained employees;
- ▶ Progress the pension claim with the Redundancy Payment Service;
- Calculate the preferential claims of employees and undertake the work involved in notifying and distribute the preferential dividends for each of the 2,380 employees; and
- ▶ Distributing funds in respect of HMRC's secondary preferential claims as applicable.

#### Intercompany receivables

- ► Continue to review and monitor the financial position of connected companies that have sums due to the Companies;
- Continue to support Group entities through shared services (including the provision of data and/or information to support claims) where value is anticipated to flow to the Companies via settlement of intercompany receivable balances; and
- ► Take steps to agree settlements in respect of sums due from Group companies where appropriate.

## Other steps

The Joint Administrators intend to also take the following steps:

- Liaising with RBS to secure the release of any future receipts received into preappointment bank accounts;
- Dealing with unsecured creditor queries;
- Dealing with corporation tax and VAT matters including filing of statutory returns;
- ► Carrying out investigations required by Statement of Insolvency Practice No.2 and making a submission to the Directors' Conduct Reporting Service, as required by law;
- Ensuring all statutory reporting and compliance obligations are met;
- ► Finalising the Administrations including payment of all Administration liabilities;
- ▶ If the Joint Administrators deem it appropriate, to seek an extension and/or further extensions to the Administrations from the Companies' creditors and/or the Court; and
- ▶ Any other actions required to be undertaken by the Joint Administrators in order to fulfil the purpose of the Administrations.

The Administrations will be funded by asset realisations, supplemented by a litigation funding facility if required.

#### The end of the Administrations

It is proposed that if at the end of the Administrations the Companies have no property which might permit a distribution to their unsecured creditors, the Joint Administrators will send a notice to that effect to the Registrar of Companies.

On registration of the notice, the Joint Administrators' appointment will come to an end. In accordance with the provisions of paragraph 84(6) of Schedule B1 to the Insolvency Act 1986 the Companies will be deemed to be dissolved three months thereafter.

# 3. Statement of Affairs

Consolidated view of the Companies' Statement of Affairs

The directors of each of the Companies have submitted their Statement of Affairs as at 20 September 2024. The Joint Administrators have consolidated the Companies' Statement of Affairs and present a consolidated view below on the next page. The full Statement of Affairs for each of the Companies is reproduced at Appendix C.

## Assets subject to fixed charge

Goldman Sachs have fixed charge security over the shares of the majority of the entities in the Group as well as charges over receivables in ISG Construction Limited, ISG Engineering Services Limited, ISG Fit Out Limited and ISG Retail Limited in respect of loans made to Cathexis in excess of £1 billion.

The dates of the charges in respect of the Companies are summarised below:

Company	Date of charge	Type of charge
ISG Central Services Limited	5 September 2019	Fixed
ISG Construction Limited	5 September 2019	Fixed and Floating
ISG Engineering Services Ltd	5 September 2019	Fixed and Floating
ISG Fit Out Limited	5 September 2019	Fixed and Floating
ISG Interior Services Group UK Limited	5 September 2019	Fixed
ISG Jackson Limited	N/A	N/A
ISG Retail Ltd	5 September 2019	Fixed and Floating
ISG UK Retail Ltd	5 September 2019	Fixed

The shares held in subsidiaries by the Companies are not considered to hold any value by virtue of the majority of the Group entities now being in insolvency processes.

Per legal advice received by the Joint Administrators, the charges over receivables do not meet the criteria to be considered as fixed charges and therefore the security ranks behind the primary and secondary preferential claims, meaning that no return is anticipated in respect of Goldman Sachs' security.

The directors have not included contingent liabilities due to Goldman Sachs in the unsecured liabilities sections of the Statements of Affairs in respect of guarantees made by the Companies regarding the loans due from Cathexis.

#### **Trade debtors**

The relatively low recoverable asset base shown in the statements of affairs is not unusual for a contracting business in this sector, as the majority of the assets relate to receivables that may be subject to contractual counterclaim or dispute.

The directors have applied a flat recovery rate of recovery of c.6% across trade debtors and c.4% across contract debtors, acknowledging that in some instances, recoveries in respect of incomplete work may be challenging and that certain contracts are subject to contractual counter claim, disputes and payless notices.

The directors have not included any realisable value in respect of contract retentions, again acknowledging that retentions may be subject to dispute.

In practice, the asset realisation values have yet to be fully determined and may overall be higher or lower than indicated.

#### Intercompany receivables

The Companies have net intercompany receivables of c.£252m. The majority of these balances relate to other Group entities (i.e., not between the Companies in Administration).

The directors have not included any realisable value in respect of intercompany receivables, however, limited recoveries are possible.

#### Preferential creditors

Current estimates show total amounts due to preferential creditors of £95.7m. We provide below, for information, an indication of the current position with regard to creditors' claims generally. The figures have been compiled by the Companies' management and have not been subject to independent review or statutory audit.

#### Primary preferential creditors

Claims from employees in respect of accrued but unpaid arrears of pay up to £800, accrued but unpaid holiday pay and certain pension benefits, rank preferentially and in priority to other preferential creditors (see below). These claims are therefore referred to as 'primary preferential creditors'.

The total amount due to the primary preferential creditors in the statement of affairs is £6.3m. The Joint Administrators' current estimate for primary preferential claims stands at £5.3m and it is expected that there will be sufficient funds for a dividend to be paid to discharge primary preferential creditors in full.

# Secondary preferential creditors

Claims from HMRC, in relation to VAT, PAYE and employees' National Insurance contributions rank preferentially, but secondary to the employee primary preferential creditors above. These claims are therefore referred to as 'secondary preferential creditors'.

Total estimated amount due to the secondary preferential creditor is £89.4m and we expect there to be sufficient funds for a partial dividend to be paid to the secondary preferential creditor.

#### **Unsecured claims**

Amounts showing as due to unsecured creditors represent the ledger balances based on the Companies' systems following an abrupt end to trading (rather than a 'business as usual' financial close). Total eventual creditors' claims may be different to the amounts listed in the statement of affairs as creditors will often have additional claims for consequential loss and other damages by virtue of the insolvency that the directors cannot estimate or reflect. The Joint Administrators are aware that there are a number of creditors who have balances due to them, but whose balances are not reflected in the Statement of Affairs.

A number of creditor claims are unquantified and may be higher than indicated in the statements of affairs.

The amounts in the Statements of Affairs also do not include any estimates for administration expenses and therefore are not reflective of an actual estimate of the outcome for creditors.

The Joint Administrators continue to receive claims from the non-preferential creditors. The Statement of Affairs show total non-preferential (i.e., unsecured) amounts due of £885m. This sum includes amounts due to trade creditors, employees, contingent claims and accruals and intercompany creditors.

Creditors will note that the directors' estimate of realisations across the Companies is c.£35m which is significantly less than the amount due to the primary and secondary preferential creditors. Accordingly, it is highly unlikely that there will be sufficient funds available to enable any dividend to be paid to unsecured creditors.

# 4. Prescribed part

The prescribed part is a proportion of floating charge assets set aside for unsecured creditors pursuant to section 176A of the Insolvency Act 1986. The prescribed part applies to floating charges created on or after 15 September 2003.

The Joint Administrators estimate, to the best of their knowledge and belief, that:

- ► The value of the Companies' net property is £nil.
- ► The value of the prescribed part is £nil, before the costs of dealing with the prescribed part.

The Joint Administrators do not intend to make an application to the court under section 176A(5) of the Insolvency Act 1986 for an order not to distribute the prescribed part in respect of any of the Companies as the value of the prescribed part is £nil.

# 5. Administrators' remuneration and disbursements and payments to other professionals

#### Remuneration

The statutory provisions relating to remuneration are set out in Chapter 4, Part 18 of the Insolvency (England and Wales) Rules 2016. Further information is given in the Association of Business Recovery Professionals' publication 'A Creditors' Guide to Administrators' Fees', a copy of which may be accessed from the web site of the Institute of Chartered Accountants in England and Wales at https://www.icaew.com/en/technical/insolvency/creditors-guides or is available in hard copy upon written request to the Joint Administrators.

In the event that a creditors' decision is not requested and a creditors' committee is not formed, the Joint Administrators will seek to have their remuneration fixed by the secured and preferential creditors in accordance with Rule 18.18(4) of the Rules. The Joint Administrators will ask for their remuneration to be fixed on the basis of time properly given by them and their staff in dealing with matters arising in the Administration. As we are not yet able to prepare an accurate estimate of our likely costs, we therefore do not propose to seek fee approval at this stage. We will issue our fee estimate and seek approval for these costs at a later date.

#### **Disbursements**

Disbursements are expenses met by and reimbursed to the Joint Administrators. They fall into two categories: Category 1 and Category 2. The fee estimate and statement of expenses dated will includes detail of the Category 1 and 2 disbursements which are expected to be incurred.

Category 1 disbursements are payments to independent third parties where there is expenditure directly referable to the Administrations. Category 1 disbursements can be drawn without prior approval.

Category 2 disbursements are expenses that are directly referable to the Administrations but not to a payment to an independent third party. They may include an element of shared or allocated costs that can be allocated to the appointments on a proper and reasonable basis. Category 2 disbursements require approval in the same manner as remuneration. In the event that a creditors' decision is not requested and a creditors' committee is not formed, the Joint Administrators will seek the approval of the secured creditor(s) and preferential creditors to charge Category 2 disbursements in accordance with the statement of expenses included in the fee estimate which will be issued in due course.

#### Payments to other professionals

The Joint Administrators to date have engaged the following other professionals to assist them. They were chosen on the basis of their experience in similar assignments and/or their specialist knowledge of the market.

Name of firm	Nature of service
Pinsent Masons LLP	Legal advisors
Aon UK Limited	Insurance brokers
Naismiths Limited	Quantity Surveying services

No fees have been paid to date.

# 6. Pre administration costs

The Administrators are seeking approval for payment of unpaid pre administration costs totalling £464,940.60 plus VAT. in respect of all Companies. The payment of unpaid preadministration costs as expenses of the Administrations is subject to approval under Rule 3.52, and not part of the Proposals subject to approval under paragraph 53. This means that they must be approved separately from the Proposals.

A breakdown of the total pre-Administration costs incurred and amounts paid pre-Administration (if any) is attached at Appendix D. Further information is provided below.

#### Administrators' pre-appointment fees

EY was engaged by ISG Limited and its subsidiaries, under an engagement agreement dated 3 September 2024, to undertake contingency planning ahead of potential administration appointments over Group entities. An extension of scope to include sell side advisory services to the Group dated 11 September 2024 was further agreed.

The work undertaken for the Companies pre-appointment related to the following:

- Sell side advisory services including preparation of sales materials, identifying potential purchasers and coordinating due diligence and Q&A with potential purchasers;
- ► Commenting on the key factors affecting which Group companies are be placed into an insolvency process;
- ► Commenting on factors affecting the ability of the Group companies to trade within a formal insolvency process and the nature and timing of key cash requirements. Preparing an illustration of the potential funding that might be required to trade within a formal insolvency process:
- ▶ Setting out the relative merits and disadvantages of potential strategies that could be pursued by an insolvency officeholder in a formal insolvency, in particular potential strategies for the realisation of the key assets of the Group. Setting out key issues and risks in relation to those potential strategies;
- ► Preparing illustrative outcome statements in a theoretical insolvency scenario, to include potential returns to different classes of creditors:
- Making recommendations as to further information that could be sought, or further work that could be carried out, either by us or any third party in order to improve understanding of the potential implications of a formal insolvency;
- ► Evaluating issues, which appeared to us to be material, in order that insolvency officeholders of Ernst & Young LLP were in a state of reasonable preparation to accept formal insolvency appointments to one or more Group companies;
- ► Formulating the administration strategy, including meetings with key stakeholders to review and agree on approach and timeline;
- ▶ Briefing engagement staff on the administration strategy and corresponding workstreams;
- ▶ Discussions with Management immediately prior to appointment regarding the core team of staff to be retained to assist the Joint Administrators with their strategy for the business;
- Reviewing and preparing documents for appointment, including consents to act and associated documents;

- Preparing documents to be issued and delivered to employees, media and suppliers immediately following the appointment, including scripts for employee meetings, press releases and communications to suppliers; and
- Liaising with the Companies' legal advisers regarding the potential appointment of the Administrators.

#### Administrator's pre-appointment disbursements

Category 1 disbursements incurred by the Joint Administrator's prior to appointment are made up of transportation and accommodation costs.

The following third-party, pre-appointment legal expenses (Category 2) were incurred by the Joint Administrators:

Pinsent Masons LLP provided legal advice to the Joint Administrators in connection with:

- ▶ The work carried out by the Joint Administrators, as set out above; and
- Preparing for the Administration appointments and associated documentation.

The majority of Pinsent Masons LLP's legal disbursements are made up of Counsel and Court fees necessary to make the application to Court.

The breakdown attached at Appendix D sets out:

- ► The fees charged by the Joint Administrators;
- ► The expenses incurred by the Joint Administrators;
- ► The fees charged (to the Joint Administrators' knowledge) by any other person qualified to act as an insolvency practitioner (and if more than one, by each separately);
- ► The expenses incurred (to the Joint Administrators' knowledge) by any other person qualified to act as an insolvency practitioner (and if more than one, by each separately); and
- ▶ In the event that a creditors' meeting is not requisitioned and a creditors' committee is not formed, the Joint Administrators will seek to have the unpaid pre-Administration costs approved by the secured creditor(s) and if the Joint Administrators made or intend to make a distribution to preferential creditors, the preferential creditors.

#### **Notes**

- 1. Receipts and payments are stated net of VAT.
- 2. Given the numerous and entrenched interdependences between group entities, the group operated a recharge system in business-as-usual times to apportion operational costs to the entities enjoying the benefit of such costs being paid by another entity. For example, ISG Central Services Limited, incurred the costs related to the groups IT and data function and recharged those costs to group entities. The Joint Administrators intend to do the same in respect of post appointment administration expenses related to IT and data costs, employee costs, property expenses and finance function costs for both the entities in administration and those entities outside of an administration process. A further update on this will be provided in the first progress report to creditors.

Date

04 October 2024

Following the required process, the figures listed in this Statement of Affairs represent the payments that would have been due to creditors (including sub-contractors) with respect to all ISG projects and the issued and called up capital attributable to shareholders. It does not detail the receipts ISG would have received had it continued to trade during this period.

Signature Date 04 October 2024

Following the required process, the figures listed in this Statement of Affairs represent the payments

that would have been due to creditors (including sub-contractors) with respect to all ISG projects and the issued and called up capital attributable to shareholders. It does not detail the receipts ISG would have received had it continued to trade during this period.

### **COMPANY CREDITORS**

**Note:** You must include all creditors and identify all creditors under hire-purchase, chattel leasing or conditional sale agreements *and* customers claiming amounts paid in advance of the supply of goods or services *and* creditors claiming retention of title over property in the company's possession. Claims by employees, former employees and consumers should be given as a single figure, with details provided on the respective schedules

Name of creditor	Address	Amount of debt £	Details of any security	Date security	Value of security
or claimant	(with postcode)		held by creditor	given	£
See separate Appendix

Following the required process, the figures listed in this Statement of Affairs represent the payments that would have been due to creditors (including sub-contractors) with respect to all ISG projects and the issued and called up capital attributable to shareholders. It does not detail the receipts ISG would have received had it continued to trade during this period.

### **COMPANY CREDITORS**

**Note:** You must include all creditors and identify all creditors under hire-purchase, chattel leasing or conditional sale agreements *and* customers claiming amounts paid in advance of the supply of goods or services *and* creditors claiming retention of title over property in the company's possession. Claims by employees, former employees and consumers should be given as a single figure, with details provided on the respective schedules

o Wice		

Following the required process, the figures listed in this Statement of Affairs represent the payments that would have been due to creditors (including sub-contractors) with respect to all ISG projects and the issued and called up capital attributable to shareholders. It does not detail the receipts ISG would have received had it continued to trade during this period.

Following the required process, the figures listed in this Statement of Affairs represent the payments that would have been due to creditors (including sub-contractors) with respect to all ISG projects and the issued and called up capital attributable to shareholders. It does not detail the receipts ISG would have received had it continued to trade during this period.

## **COMPANY CREDITORS**

**Note:** You must include all creditors and identify all creditors under hire-purchase, chattel leasing or conditional sale agreements *and* customers claiming amounts paid in advance of the supply of goods or services *and* creditors claiming retention of title over property in the company's possession. Claims by employees, former employees and consumers should be given as a single figure, with details provided on the respective schedules

Unpaid pre-Administration costs are costs which had not been paid at the date of Administration are still outstanding and are subject to approval under Rule 3.52 of the Insolvency (England and Wales) Rules 2016.

Unpaid pre-Administration costs are not part of the Proposals subject to approval under paragraph 53 of Schedule B1 of the Insolvency Act 1986. This means that they must be approved separately from the Proposals. Further information on the way in which approval will be sought for unpaid pre-Administration costs is set out in section 6 of this document.

The Category 2 disbursements of £41,603 relate to unbilled costs incurred by Pinsent Masons LLP prior to the Joint Administrators' appointment but pertaining to their appointment. This sum will be split evenly between all eight companies.
