

Supporting your cloud journey

As organizations refocus their digital agenda, cloud is the perfect catalyst to realize digital transformation aspirations

What we are seeing in the market

Organizations with a cloud-enabled IT operating model have been less prone to disruption of their business operations during the COVID-19 pandemic.

The breadth of cloud technologies and related services is ever growing.

94%

of organizations now use some form of cloud technology.

14%

of IT spending is forecasted to be allocated to cloud technologies by 2023, as enterprises focus on customer experience and operational-led digital transformation initiatives.

57%

of organizations have seen a slight (31%) or significant (26%) rise in their use of cloud services as a direct result of COVID-19.

\$91b

US dollars were spent on cloud IT services globally in 2019, the highest invested area of any IT third-party service.

87%

of organizations that employ cloud technology use a hybrid cloud approach.

Sources: EY Global Information Security Survey 2020, IDC Spending Guide (July 2020), Flexera 2020 State of the Cloud Report.

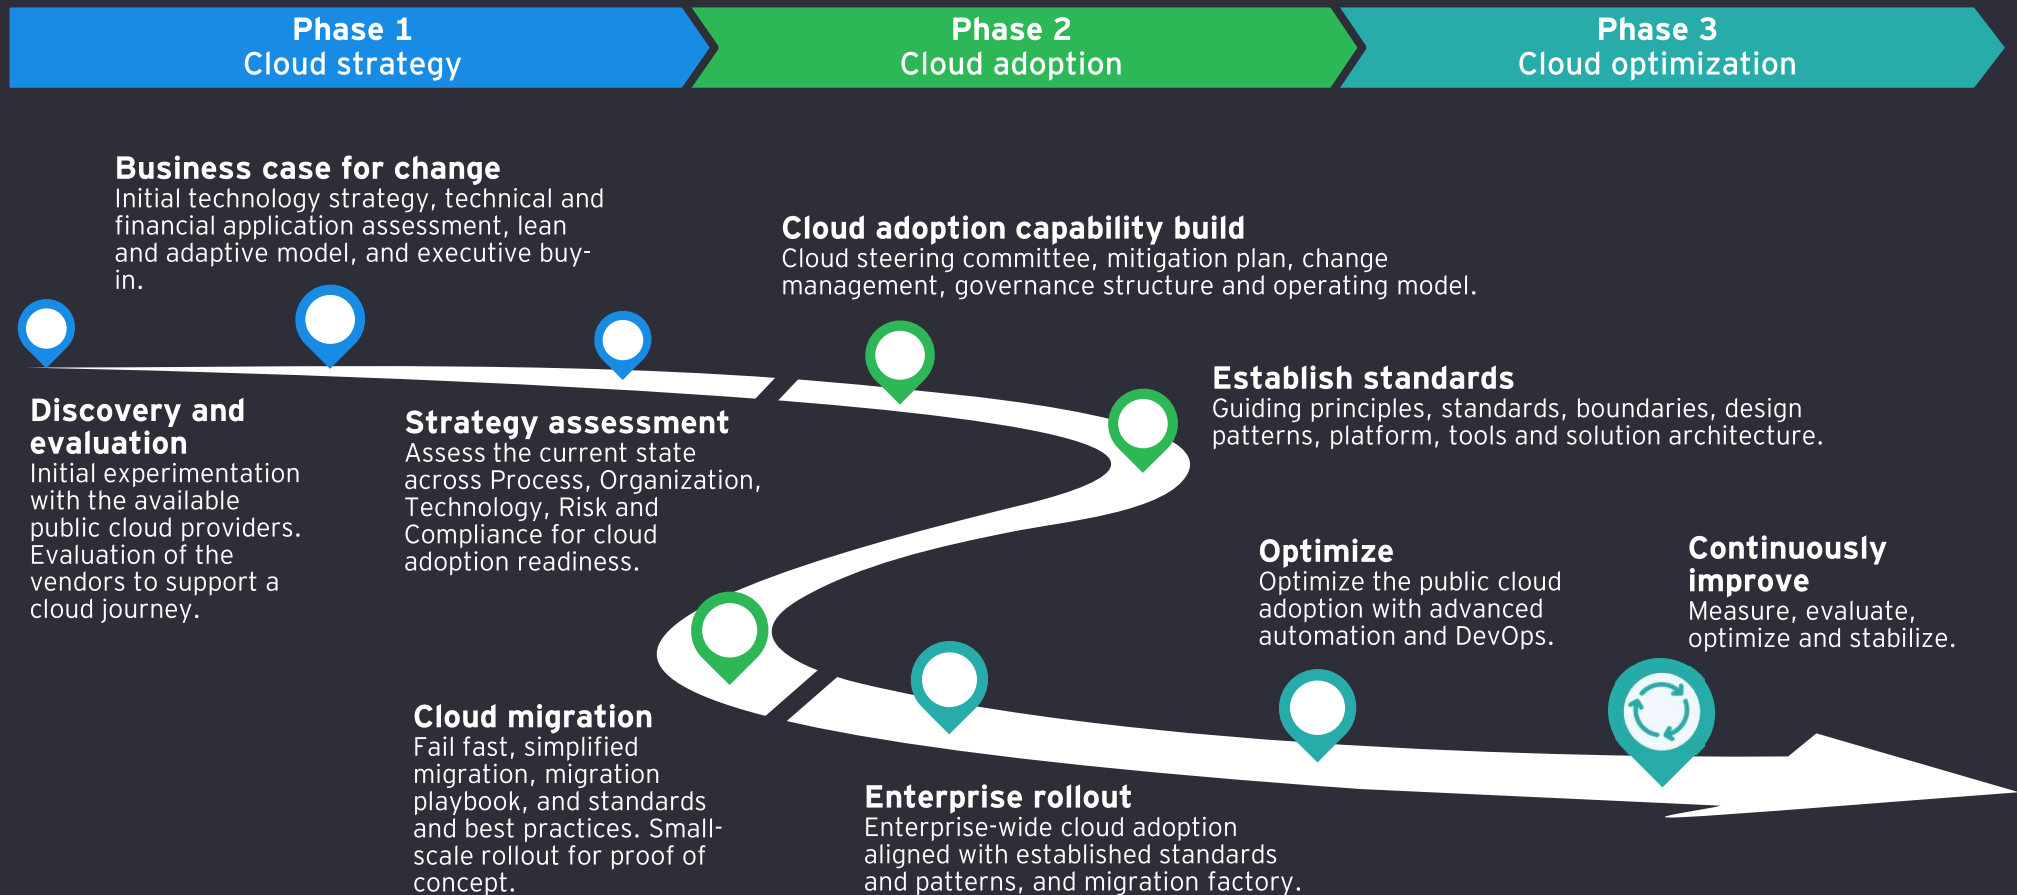

Your ongoing cloud journey

The journey to the cloud is not one that should be rushed, nor is the right solution for your business always a fully “cloud-native” approach.

We typically recommend financial services institutions (FSIs) follow a “cloud-first” path to support business agility, optimized migration and cost reduction, all driven by risk appetite-informed decision-making.

To capitalize on the benefits of a cloud transformation, FSIs should revisit other IT initiatives and align them to an overall cloud-first enterprise IT strategy.

Going to the cloud: EY three-phased approach

How we can help

Our portfolio of high-demand services is designed to support your cloud strategy and address your security and regulatory compliance requirements in a holistic and impactful way.

Benefits of working with EY

We bring to bear a wealth of experience with our world-class cloud capabilities, technology professionals and robust qualifications.

Extensive capabilities & experience

\$1 billion investment in client technology

Risk-based approach to transitions into cloud ecosystems

EY | Building a better working world

EY exists to build a better working world, helping create long-term value for clients, people and society and build trust in the capital markets.

Enabled by data and technology, diverse EY teams in over 150 countries provide trust through assurance and help clients grow, transform and operate.

Working across assurance, consulting, law, strategy, tax and transactions, EY teams ask better questions to find new answers for the complex issues facing our world today.

EY refers to the global organization, and may refer to one or more, of the member firms of Ernst & Young Global Limited, each of which is a separate legal entity. Ernst & Young Global Limited, a UK company limited by guarantee, does not provide services to clients. Information about how EY collects and uses personal data and a description of the rights individuals have under data protection legislation are available via ey.com/privacy. EY member firms do not practice law where prohibited by local laws. For more information about our organization, please visit ey.com.

About the EY Region of the Bahamas, Bermuda, British Virgin Islands and Cayman Islands

The EY region of member firms in the Bahamas, Bermuda, British Virgin Islands and Cayman Islands is aligned with EY's Americas Financial Services Organization, headquartered in New York. We serve the banking and capital markets, insurance, and wealth and asset management sectors providing a full suite of assurance, consulting, strategy, tax and transaction services with a focus on providing seamless, exceptional client service.
