Emerging Manager Platform

To better address the needs of emerging hedge funds, we have an established global platform that is focused on providing integrated one-stop approaches to funds during the startup phase.

Focus on startups

Launching a new fund is a complex and extremely competitive business enterprise. You may encounter many unfamiliar challenges – raising capital, recruiting and retaining highly skilled people, managing risk, complying with changing regulations and accessing global markets. This is where we can make a difference. Our Global Emerging Manager Platform team will work with you to quickly navigate the complexities of legislation and regulation, align your tax strategy to your business goals, provide assurance regarding the numbers and deliver a range of advisory services tailored to address your startup needs.

As a global leader in the asset management industry, we have extensive experience in assisting new fund launches. We appreciate the needs, nuances and challenges startups face.

We can help by providing:

- ▶ Early industry, regulatory and technical insights focused on startup needs
- ▶ A range of advisory services beyond audit and tax, such as fund formation and structuring, including evaluations of and recommendations for attorneys, prime brokers, fund administrators and other industry service providers; and fund document review and regulatory registration, including offshore jurisdiction
- ▶ Direct access to one of the world's largest global asset management networks and introduction to brokers
- ▶ Experienced tax professionals who can assist with the preparation of tax returns and K-1s for funds, management companies, general partners and principals; provide innovative tax planning and structuring of entities; and assist with partner tax allocations and uncertain tax (ASC 740) analysis
- ▶ A commitment to invest in long-term relationships through personalized service, customized business approaches, and fair and flexible fees
- ▶ Integrated private client services designed to specifically address your financial needs and concerns

For over three decades, we have been an industry leader in providing audit, tax transaction and restructuring, and advisory services for startups.
